

WAR OF THE RACES.

Rioting Continues at the Spring Valley Mines.

LAWLESS HOLD SWAY.

Italians Have Ordered All Negroes to Leave the Vicinity.

LIST OF THE DEAD INCREASING.

It is Thought the Bodies of Many Blacks Will Be Found in the Ravines.

PRINCETON, ILL., Aug. 5.—The rioters and the lawless hold sway in Spring Valley to-night. No arrests have been made. The mobs commenced operations to-day by stopping work at the various coal shafts, and during the entire day the streets were swarmed with men, and fresh depredations are expected at any time. All day both sides engaged in the bloody riots of yesterday have been organizing their men and preparing for further display of force. If the belligerent parties attempt to carry out the resolutions adopted by them to-day more bloodshed cannot be avoided.

The whistles at the various coal shafts were blown last night and this morning, giving the signal that work would be done in the mines to-day, and a large number of miners turned out with their dinner-pails, but were confronted on the highways leading to the shafts by Italians armed with rifles and the various small arms used in the riots yesterday.

At a secret meeting of the Italians held at midnight last night the plan of stopping the men from working was arranged. A call for a mass-meeting of the miners was also issued, to be held at the lumber-yard adjoining the Rock Island depot at 10 o'clock this morning. Over 2000 men assembled at the lumber-yard at the appointed hour and the situation was freely discussed, nearly all of the speeches being in a foreign tongue. The coal company was roundly denounced and much inflammatory language used. After an hour of general discussion a resolution was adopted giving the remainder of the negroes until 5 o'clock to-morrow evening in which to leave the city and to carry off their effects. Any effects left after that time will be declared confiscated and destroyed. A committee was appointed to organize the Italians and see that the instructions were carried out. Another committee of five was appointed to wait upon Manager Dalzell of the coal company, to demand the discharge of all negroes and to agree to employ no new ones for the present.

TWO STEAMERS BURNED.

Disastrous Conflagration on the Cincinnati River-Front.

One Fireman Driven Insane by the Heat While Battling With the Blaze.

Disastrous Conflagration on the Cincinnati River-Front.

CINCINNATI, Ohio, Aug. 5.—The levee was visited by a 200,000 fire this afternoon, and one-half of the Laidley river steam-boat line was destroyed within two hours. At 1:30 o'clock a pile of 1000 bales of hay stored in the west end of the Cincinnati and Memphis wharf suddenly burst into flames, and in ten minutes the fire had communicated to the Louisville main line wharf, just above. To this wharf were tied the steamers Big Sandy, Carrollton and H. K. Bedford, the first two of which were entirely consumed, their black hulls sinking into the murky waters at 4 o'clock. An up-river wind was blowing so stiffly that, although the Carrollton and Big Sandy were out loose, they refused to float down the stream company 4 was against the wharf. The Congo, Levi J. Workum, Clara Cavit and other boats were appealed for aid, but only the tow-boat Bellevue volunteered and towed the Bedford to a place of safety.

NO ALARM IN HAWAII.

Stories of Filibustering Expeditions Are Denied.

CHICAGO, ILL., Aug. 5.—Arthur Wilder, the young native Hawaiian, who enjoyed the confidence of President Dole during the life of the Provisional government of the island, does not think there is any-

thing in the story published by a San Francisco paper that a scheme had been hatched there for the restoration of Queen Liliuokalani to the throne. "Our Government is strong enough to wipe out any party of exiles or others," said Mr. Wilder. "I heard a great deal of talk in San Francisco about filibustering expeditions, but nothing of the kind is planned from San Francisco. I saw Volney Ashford, who is the reported leader of the exiles. According to these men in San Francisco they are relying upon England for help, as most of them have been alarmed by the British Government. A revenue boat is cruising around Honolulu all the time for the purpose of keeping out these exiles."

SHIPPED A BOX TO HOLMES.

Quinlan Will Be Asked to Tell What It Contained.

CHICAGO, ILL., Aug. 5.—Detective Geyer of Philadelphia has rendered the Chicago police material assistance in the Holmes case. He has written to Chief Badenoch requesting him to get from Quinlan some information about a heavy wooden box, 4 1/2 feet long, 2 1/2 feet wide and 1 1/2 feet deep, shipped by Quinlan to Chicago from Tilton, N. H., in November, 1893. Geyer wants to know the contents of the box, and suspects it contained the remains of some of Holmes' victims. The police are at work on information given them by Quinlan and his wife last Friday, but announced to-day that they had nothing to give for publication.

The work of digging at the Holmes Castle had practically been abandoned. Men spent the morning leveling the dirt in the basement. The officers made further examinations of the letters and papers found in Mrs. Quinlan's rooms, but none with evidence was brought out.

ANDERSON, ILL., Aug. 5.—Peter Cigrand, father of Emeline Cigrand, supposed to be one of Holmes' victims, received the following to-day, which is supposed to add another chapter to the Holmes mystery:

To Mr. Peter Cigrand, Anderson, Ill.:—I enclose photograph your daughter's? Did your daughter Phyllis have her picture taken with Emeline on left hand side of the picture? If so, what date was picture taken and where? Please return picture and answer to yours truly. 184 Walnut street Philadelphia.

The picture was taken in Lafayette on the 4th of July, 1892, and was genuine. The Cigrands are not able to tell where he got hold of the picture, as there were but two of them printed, and one of them is held by the other by the missing girl. The letter was written on a letter-head of the Fidelity Mutual Insurance Company, but Perry's name does not appear on it.

It is thought that he has got some trace of her, and it is also feared that she is in an asylum of some kind.

VIGILANT BADLY BEATEN.

Decisive Victory for the Syndicate Sloop in the Final Run.

The Defender Easily Leaves Its Competitors in a Thirty-Seven Mile Race.

NEWPORT, R. I., Aug. 5.—In the final run of the cruise of the New York Yacht Club, a 37-mile boat to windward from Vineyard Haven to Newport, the Defender started last and finished first. The new aluminum and bronze boat beat the Vigilant 9 min. and 9 sec., and was about twenty minutes ahead of the Jubilee. This was quite an improvement upon the 5 min. and 23 sec. had to her credit over the Vigilant on the run to Vineyard Haven on Saturday. When the boats are measured and the time allowance calculated it will undoubtedly be found that the Defender won to-day by beating to windward, even if she loses the Saturday race by a small margin.

The wind to-day was what must be called a Defender breeze. It was never less than ten knots nor more than twelve, and there was a smooth sea—just the weather the new boat is at her best in. General Perry's Jubilee raced with a working topsail aloft, while the other big sloops used club topsails. The weak topsail may have been responsible for this, but the Boston boat was plainly no match for her competitors.

One of the best opportunities that has been yet afforded for testing the windward qualities of the Defender was provided at the beginning of to-day's race. The Vigilant obtained the best position at the start, and was to windward of the syndicate boat. Captain Hoff did not like taking the wind after it had left the Vigilant's sails, and made a couple of short tacks to get away from the Vigilant. Captain Barr tried to keep between the Defender and the wind, and went about whenever the Defender did. The Defender was quicker in stays, and got a little the better of the short tacks; but Captain Hall, finding his antagonist could not be shaken off, held his course for seven miles, and likewise outfooting the Vigilant by a good half-mile in that distance, and easily crossed her bow to windward.

From that time on the race was a procession, with the Defender, as usual, passing all the big sloops, and little sloops, which were started ahead of her, and leading the fleet into the harbor. The Emerald made the best run of any of the schooners when it was in the lead. The other winners were Constellation, Ariel, Amorita and Loyal.

The run to-day concludes the cruise of the club. The special prize for the sloop making the largest number of starts during the cruise was won by the Defender. The prize for schooners was a tie between Amorita and Constellation.

FORCE TO BE USED.

Omaha's New Police Board Determined to Triumph.

FEELING RUNNING HIGH.

Possible Appointees Ready to Bring on an Immediate Crisis.

ANSWER TO THE INJUNCTION.

The Old Commissioners Charged With Utilizing the Bluecoats to Hold Office.

OMAHA, NEBR., Aug. 5.—Will Judge Hopewell define the status of the new Police Commission to-morrow, or will he dissolve his restraining order? is the all-important question in Omaha to-night. Should the court take the latter course and decline to pass upon the validity of the new law, there is little question that the supporters of the new board would use force in taking possession of the department. Feeling runs high. No less than 100 men expect places under the new board, and they are indignant that the matter should have been allowed to get into the courts before the new commission assumed power.

Attorneys for the latter filed their answer in the injunction case to-day. It recites:

That in the year 1895, and before the new Police Board went into effect, D. C. Leonard and Charles A. Brown, et al., clerks of Edward Rosewater, editor of the Omaha Bee, appointed by Silas A. Holcomb, Governor of Nebraska, as members of the Fire and Police Board of the city of Omaha; that at the time it was agreed and understood that the said Leonard and Brown were to resign their offices and under the pretext that the law as passed in 1895 was unconstitutional, should hold said offices, and defendants show that, in pursuance to such design, the said plaintiffs, Leonard and Brown, et al., procured the discharge of the police force and substituted others therefor, and are now in force and arms holding the same.

A Member of the Grand Jury Denounces Miss Flagler's Crime.

WASHINGTON, D. C., Aug. 5.—General and Mrs. Flagler, parents of Miss Elizabeth Flagler, who shot and killed Ernest Green last week, returned home this afternoon. General Flagler did not report at the War Department and he is still on leave of absence and his movements are not certainly known. It is supposed that he will take his daughter away with him for a time.

M. J. Dorsey, a member of the Grand Jury, said to-day: "I was, when on the jury, and still am, firmly of the belief that Miss Flagler should be brought before the Grand Jury, and that the evidence and the facts of the case should be made public and decide whether Miss Flagler should be prosecuted."

Message of the Banquets to the White Father at Washington.

WASHINGTON, D. C., Aug. 5.—Commissioner of Indian Affairs Browning to-day received the following telegram from Agent Teters of Pocatello, Idaho:

"All the Indians absent from the reservation have returned. They have had a big council and requested me to telegraph you that their hearts feel good. They had not harmed a white man since they were first taken away, leaving their grievances to the justice of the white man."

DIE A PAINLESS DEATH.

Mr. Edison on the New York Method of Executing Murderers.

Characterizes as Nonsense the Statements Many Are Killed by the Scalpel.

NEW YORK, N. Y., Aug. 5.—Several causes have recently combined to create doubts in the minds of a few intelligent people about the swiftness and certainty with which the death sentence has been executed in New York State since electricity has been adopted by law as the agent.

Occasionally among the hasty and inadequate reports of accidents to the line men there is an account of a seemingly wonderful escape from death. Then, too, statements which cannot be verified, but which, on the contrary, have been squarely denied, sometimes creep into print, suggesting that at one or two executions death was caused, not by the means which the law prescribes, but by drugs or the surgeon's knife.

Electrician Edison was seen yesterday at his charming home in Llewellyn Park, West Orange, N. J. To half a dozen questions about electrical executions he gave characteristically laconic but explicit answers. He spoke with the earnestness and conviction and with the earnestness of conviction.

"What do you think, Mr. Edison," asked the reporter, "about these stories of the resuscitation of criminals after electricity has been employed to inflict the death penalty?"

"Nonsense," was the emphatic reply. "Do you consider this method of execution as 'sure death'?"

"Is it painful?"

"No; the action of the electricity is too rapid for a man to be conscious of it. In this respect its work is instantaneous, although it is customary to prolong the administration of the current for several seconds. The contacts between the terminals of the wire or electrodes and the human body should be good to insure the passage of the current through the latter. About thirty men are killed every year, and these poor fellows usually took the fatal wire only for a second, are partially protected perhaps by their clothing, and often receive a current at a lower voltage than is employed for executions. Yet, even with such poor contacts, see the result. In carrying out the death sentence pains are taken not only to have a suitable current and to prolong its administration, but also to see the contacts are thoroughly and great attention is paid to this vital point."

BUDD AT MERCED.

He Suffered Several Severe Attacks of Illness Recently.

MERCED, CAL., Aug. 5.—Governor Budd and his private secretary, E. D. McCabe, have been here since Saturday last. They have been here on legal business pertaining to an unsettled estate that has been pending in the Superior Court since the death of the late Governor. Several attacks of illness since his arrival, and Sunday had to call in a physician. He complained of intense pains in the back of his head at the base of the brain. The governor will leave here to-morrow morning, via Oakland, and go to the Polson Prison.
