

SULLIVAN ON THE STAND.

He Told All He Knew of the Foss-Ciprico Gang of Counterfeiters.

TURNED STATE'S EVIDENCE.

Ciprico and His Attorney Very Much Surprised Over the New Complication.

The trial of Ferdinand D. Ciprico, charged with forging Chinese certificates of residence, produced a surprise for the defense yesterday.

D. J. Sullivan, the man who forged the signatures of O. M. Welburn and Thomas J. Cusick to the documents, went on the stand as a Government witness, and not only told all he knew about the certificate frauds, but also related the scheme which he and Ciprico had concocted in the County Jail in order to escape San Quentin.

According to Sullivan all the blame was

the route of procession will be from Montgomery avenue and Vallejo street to Stockton, to Pacific, to Van Ness avenue, to Market, to Twelfth street, to the Mission district, to be marshaled by Peter J. McCormick of St. Paul's and will consist of branches from St. Paul's, St. Peter's, St. James, Mission Dolores and St. Charles parishes and the Youth's Directory. The line of march will be from Twenty-ninth and Church streets to Guerrero, to Twenty-third, to Howard, to Twelfth. The division south of Market street will be marshaled by Peter A. Ryan of St. Rose's parish and will include the branches of St. Patrick's, St. Rose's and St. Brendan's parishes. The route will be from Harrison and Fremont streets to Fifth, to Howard, to Twelfth. The organizations of the league identified with all Hallows' (South San Francisco), St. Teresa's (Potrero) and St. Joseph parishes will proceed direct to the rally.

FOR THE ISLANDS.

Brigadier-General Keppel of the Salvation Army Will Sail on the Australia Next Tuesday.

A grand farewell meeting was held in the Salvation Army Hall on Market street last night in honor of the departure next Tuesday of Brigadier-General Keppel for Honolulu. The general will be accompanied by Mrs. Keppel and also by Captain Langridge, lately stationed at Crockett, who will remain in the Hawaiian Islands to engage in the army work.

A SCENE IN THE CIPRICO CASE.

(Sketches by a "Call" artist.)

platform decorations. A grass house, before which several girls, clothed in the traditional costume of the Kanaka maidens, sat weaving flowers in wreaths. On the platform were a number of lassies similarly gowned and wearing the flowery leis on their heads.

THE ALVISO RAILROAD.

Incorporation of a Company to Build and Conduct the New Line.

It Will Connect San Jose With the Bay and Have Steamers to This City.

Articles of incorporation were filed yesterday by the Santa Clara Valley Railway Company, which is to construct a road from Alviso to San Jose, a distance of eight miles. The authorized capital stock is \$100,000, of which \$60,000 is subscribed, as follows:

Table listing subscribers and amounts: Andrew Rocca, \$10,000; H. W. Goodall, \$10,000; Frank Piper, \$10,000; Alfred E. Fryer, \$10,000; R. J. Riden, \$10,000; R. J. Riden, \$10,000; Charles A. Suttell, \$50.

As well as filing the articles, promoters of the railway deposited \$10,000 in the First National Bank of San Jose as a guarantee of their intentions to build, equip and maintain a railroad from the Garden City to Alviso harbor, and a line of steamers and freight schooners on the bay, plying between Alviso and this City.

Messrs. Piper, Aeden, Goodall & Co. of this City have been the chief promoters of this enterprise. A member of the firm said yesterday:

"We are building a competing railroad of our own. Two-thirds of the capital required has been subscribed, and now we are ready to begin the work. Condemning a right of way will commence as soon as we possibly can get ready for the legal proceedings."

It has not yet been determined whether the new railway will be broad or narrow gauge, though it will be used for transporting passengers and freight. There will be several stations on the road where freight will be handled and people may take or leave the trains. The best feature of the enterprise will be its inducement for fruit-grocers and other manufacturers to locate along the route. Cheap rates will be assured shippers by this new line, which will bring products of Santa Clara within reach of deep-water ships in the harbor of San Francisco without much trouble and at a trifling cost.

GUARDS NEEDED.

The Railroad on Harrison Street Is a Menace to Life and Limb.

The attention of the Supervisors is again to be called to the dangerous, unguarded condition of the Southern Pacific track on Harrison street from Sixteenth to Twenty-second.

James McMenomy, an advocate of guard crossings, is of the opinion that the citizens in that vicinity were in favor of demanding a system similar to the one adopted by the New York Central—that is, for the tracks to be laid in uncovered tunnels, to be bridged over at all street crossings, thereby making accidents an impossibility.

The property-owners are at present preparing a list of the deaths and accidents resulting from the condition of the track, and this, with other petitions, will be presented to the Supervisors, asking immediate action in the matter before any more deaths result from the negligence of the Southern Pacific Company.

FOR UKIAH TO-MORROW.

The Cross-Country Club will hold one of its enjoyable trips to-morrow. This time its destination will be Ukiah, and all the advantages previously accorded participants in these pleasant excursions, will be extended on this occasion. The excursion will be under the efficient management of President J. E. Locke.

THE SWORN TORTURERS.

Of the Spanish Inquisition never inflicted tortures more dreadful than those endured by the victim of inflammatory rheumatism. The chronic form of this obstinate malady is sufficiently painful. Arched joints, swollen and inflamed, are the result, and avoid becoming a lifelong martyr. The Bitters will remove malaria and kidney complaints, dyspepsia, constipation, nervousness and neuralgia, remedy debility and hasten convalescence.

JURORS ARE VERY SCARCE.

Citizens Are Not Anxious to Sit in Judgment on Durrant.

ANOTHER VENIRE ORDERED.

It is Confidently Asserted That a Full Box Will Be Secured Next Week.

THE DURRANT CASE IN A MINUTE—BRIEF REVIEW OF THE PROCEEDINGS.

Twenty-three veniremen were examined in Judge Murphy's court yesterday morning as to their qualifications to sit as jurors in the Durrant case. The venire was exhausted before noon, the united efforts of attorneys on both sides failing to land an additional juror in the box. His Honor ordered another venire of 200, half returnable Monday, the remainder Tuesday, and it is supposed that the three jurors necessary to complete the panel may be found among them. If not, a special venire must be ordered, as only thirty names now remain in the trial jury box, and the Sheriff will go out into the body of the county for takersmen.

There was an absence of incident in the court proceedings in the Durrant case yesterday to interest the small audience in attendance. Only twenty-three veniremen

PERJURY THE CHARGE.

Judge Low Orders a Defendant Into Custody for False Swearing.

Andrew Berg, a cigar-dealer at the corner of Mission and Fourth streets, was before Judge Low yesterday morning, with half a dozen others accused of selling cigarettes to minors. They all had agreed to plead guilty and pay a fine of \$5, but at the last moment Berg decided to stand trial.

James Collins, a boy, testified to buying the cigarettes of Berg, and Secretary Kane of the Society for the Prevention of Vice and Detective Coleman testified to seeing Berg sell them. Notwithstanding this Berg took the stand in his own behalf and swore he had not sold them. Judge Low decided that perjury had been committed, and ordered Berg into custody.

Low is the Judge who, on Thursday, ordered Witness Isaacs into custody for giving perjured testimony. Berg is the second to suffer.

Immediately after Berg's arrest a battery case was called, in which the defendant asked for a continuance because, as he said, his witnesses were in Sacramento. The complainant protested that the defendant had no witnesses. His Honor remarking, "I guess this is another perjury case," ordered the defendant sworn. He then asked about the alleged witnesses. The defendant did not respond, and the name of the friend who stood by and replied: "Well, Judge, I guess I better think a little about this."

THE ANTI-JAP AGITATION.

People in Los Angeles Starting a Crusade Against Coolies.

Trouble Feared When the Asiatics Enter the Field at Vina.

Labor Commissioner E. L. Fitzgerald is greatly pleased with the encouragement he is constantly receiving in his anti-Japanese coolie agitation. People in all parts of the State are writing to him urging him to keep the ball rolling in the interests of this labor.

While in Los Angeles recently he heard of a party of Japanese restaurants are being conducted at Vina, and the publication of this fact in the San Francisco papers has caused the people of Los Angeles to start an anti-Japanese crusade. The papers of that city are taking hold of the question. J. Leo Parke, acting editor of the Record, called upon Mr. Fitzgerald yesterday and stated that the people in his city will heartily support the Labor Commissioner in pushing through Congress a Japanese exclusion act. Mr. Parke said that the proprietors of the Japanese restaurants in order to counteract the feeling against them are discharging all of their Japanese cooks and other help and are employing white men and waiters.

Fitzgerald is not pleased that Mrs. Stanford should ignore the letter written to her relative to hiring Japanese coolies to do the work at the vineyards and ranches of the Stanford estate near Vina. He said he was angry to receive a letter from John Dunn, stating that Mrs. Stanford had caused her superintendent, O. D. Morse, to discharge the white men and contract for 200 Japanese to harvest the crop at Vina, and that other ranch owners had done the same.

Deputy Dam wrote to Mrs. Stanford, for Mr. Fitzgerald was in the south at the time, stating what Dunn had said and offering to furnish all the white help Mrs. Stanford might desire. He also asked if it was true that she had hired 200 Japanese, which facts are of interest in compiling the State labor statistics.

Yesterday William Fitzgerald said: "I can hardly believe that the lady has failed to receive the letter sent to her from this office, and that we are entitled to demand that this commission do not disperse Mrs. Stanford's right to employ any class of laborers she chooses, but we are entitled to demand that she employ coolies the public will, no doubt, think was not the policy of the late Stanford. When he was in the office he was recognized throughout the United States as the friend of the white working men."

Mr. Fitzgerald said that he was satisfied that Japanese had been engaged to work on the Vina ranch, for Superintendent Morse is reported in a Red Bluff paper as having said: "We have contracted for Japanese, and there is no going back on it. The superintendent in the interview stated that he had employed white men at \$1.50 a day, but this year the white men want 70 cents a ton for picking grapes besides their board. The Japs will work for 85 cents a ton and board themselves."

At the time Dunn's letter was received its contents were published in the CALL. Mr. Fitzgerald stated that the article was republished in the Red Bluff News, and the editor of the latter paper in commenting upon the hiring of Japanese by Mrs. Stanford said:

"This has grown out of the fact that the contract for grape-picking was offered to the lowest bidder, and a Japanese put in the lowest bid by 5 cents a ton. It is supposed that the contract was given to the lowest bidder, but we have not heard that such is a fact. As Mrs. Stanford doubtless reserved the right to reject any bid she will yet see her way clear to give the contract to Judge Wiley, who will employ white men."

The Labor Commissioner states that it is not the policy of the State to encourage the discharge of white men and the hiring of Japs to take their places, especially where only a matter of a few cents is involved.

Bicycles are said to have seriously affected the sale of pianos in England. The reason given is that when a girl is asked to choose between the two for a present she invariably selects the wheel.

ART AT MECHANICS' FAIR.

More Than Two Hundred and Fifty Paintings of a High Order.

A GOOD UNIVERSITY DISPLAY.

Two-Thirds of the Work in the Art Department by California Talent.

The art gallery is one of the most attractive places at the Mechanics' Fair to many of the visitors. Solly Walters, the superintendent of the art department, has introduced a decided innovation in doing away with the usual stiff grouping of oil paintings in one place, water colors in another, black and white in a third and etchings at some prescribed place. Mr. Walters followed a model of a studio. Water colors are hung beside oils and black and white sketches are in contrast with vivid bits of coloring. The long lines of pictures are broken by an occasional picturesque drapery or a nook filled with Pyrographic sketches. The collection of statuary is placed at irregular intervals in the center of the hall.

The paintings number 265, the last being received yesterday, and all seem of a high order. There are nine pieces of statuary, and some handsome tapestry will be exhibited on screens to-day. Two-thirds of the work exhibited is that of local artists, and the remainder has been loaned by local owners and dealers.

There are paintings by William Keith, John A. Stanton, L. P. Latimer, A. F. Matthews, A. J. Jullien, C. V. Periano, V. Tojetti, F. Kano, A. C. Rodriguez, T. Takahashi, J. A. Robinson, P. Garvini, Maria Martinetti, A. Sani, George Frere, G. Pennalesillo, G. Wertheimer, J. B. Wanders, R. Rumble, J. D. Strong, Gustave Frauentholz, H. A. Yorbeck, Homer Davenport, Blanche Loubens, Mabel J. Williamson, G. Cadenasso, E. C. Peixotto, Martha Patterson, H. R. Hopps, Alice B. Chittenden, Lucia W. Rogers, Mrs. T. Gilson, Gertrude Purgan, Kate Chandler, Thomasson, Mary T. Menton, Emmy la Vallie, Mrs. Clara Curtis, Lou E. Wall, Elenor Warren, Chris Jorgensen, Susan Loosley, Lillian M. Chandliff, F. M. Vermercken, E. P. Van Winkle, Henry Raschen, William Huback, Alex. Nicholson, Mrs. William Hahn, H. Roullier, A. Hoelsel, G. Hudson, O. Kaltschmidt, H. R. Deitz, Mrs. A. de Walt Payne, C. R. Snelgrove, Annie H. Griffith, Nellie E. Barry, Annie Hein, A. L. Best, Marion M. Frolich, G. Burnett, Lillian L. Kendall, Mrs. S. H. Mason, Mrs. M. J. Numan, N. F. Binckley, Sidney Armor, A. W. Best, H. C. Best, Bertha Stranger, Leola G. Cadenasso, Mrs. W. E. Shepley, L. M. Carpenter, J. Milo Griffiths, Sarah E. Carper, Selma Newman, Josephine Bayle, Martha Patterson, Mrs. Burton, R. Blum, A. Lynch and Howard Pyle. Original sketches by Charles Dana Gibson and W. T. Staudley.

Among the loaned pictures is a Murillo, the property of Dr. J. M. Sharkey. The art of sculpture is represented by the works of Rupert Schmid, M. Selig, J. Milo Griffith and Gary D. Perry. Existing two bas-reliefs the statuary is composed of busts in plaster and bronze figures. Busts of Governor Downey and Dr. Richter are shown by Rupert Schmid, and of General Sheridan and Dr. D. McLean by J. Milo Griffith.

The department of decorative and industrial art of the University of California makes a creditable display, especially considering the fact that the department is only year old.

The work displayed comprises the following: Geometrical designs, based on vertical, horizontal and oblique lines; designs in which straight, inclined and curved lines are adapted to the circle and the square, elementary designs, plants adapted to the square, plants adapted to the pentagon, plants adapted to the circle, plants adapted to the triangle, plant units adapted to borders, plant units adapted to all-over surface decoration, plant analysis for use in design, blanket borders, pen and ink sketches from the object, original designs for stone and wood carving, wall-paper borders (reproduced), original renaissance units for surface decoration, elementary wall-paper designs, design for Nachman's dining-room decoration, plant forms adapted to geometric spaces, designs for book covers, designs for tile flooring, designs for stained-glass windows, design for wrought-iron girder and design for a wrought-iron gate.

Perhaps the most meritorious feature of the display is the wood carving.

Another Blythe Claimant.

Another claimant has appeared for the millions left by Thomas H. Blythe. The new claimant is Thomas H. Blythe, the new claimant has written to the County Clerk from Maiden, Mass., signing himself H. Blythe. He states that his only kindred were cousins, James and George Blythe, who he frequently heard speaking of Thomas H. Blythe. He claims that Blythe left Lincolnshire, England, in 1838, and lived in London till 1843, when he came to California. "Here I am," writes H. Blythe, "and the only person who can prove who or what family he belonged to, and the only relations."

The First's New Staff.

Colonel H. P. Bush of the First Regiment, M. G., has appointed the following non-commissioned officers to serve on his staff: Regimental sergeant-major, O. F. Peterson; battalion sergeant-major, P. L. Bush; ordnance sergeant, P. K. Cox; color sergeants, L. A. Gotschalk and J. N. Elbert.
