

PACIFIC COAST NEWS.

Friends of Hans Hansen Working for His Pardon.

TO ADDRESS CLEVELAND.

Funds Now Being Raised to Press the Petition at Washington.

EVIDENCE AGAINST ST. CLAIR.

Hope for One of the Convicted Murderers of the Mate of the Hesper.

SAN JOSE, CAL., Aug. 29.—The Danish and Scandinavian societies of California are raising funds for the purpose of sending an attorney to Washington to endeavor to have President Cleveland pardon Hans Hansen, who is now confined in the County Jail here awaiting sentence of death for the murder of Mate Fitzgerald of the bark Hesper. St. Clair and Hansen are both to be executed at San Quentin on October 25. Herman Sparf, who was convicted at the same time as Hansen and St. Clair, obtained a new trial and was acquitted.

The countrymen of Hansen allege that in the testimony of Sparf, one of Hansen's companions in the difficulty, during the recent trial in the United States Court, in which Sparf was acquitted and liberated, the fact was brought out that Hansen was no more concerned in the killing than Sparf, and he, it is urged, is as much deserving of pardon and liberty as the latter.

Since acquittal Sparf says that the murder of Fitzgerald is not the first one that St. Clair has committed. He says St. Clair killed a mate of a vessel at Hongkong about twelve years ago, for which he served seven years in the penitentiary. Sparf says that not only did St. Clair tell him about his former crime, but that the superintendent of the Sailors' Home at Hongkong also told him. Hansen tells the same story, and says that St. Clair often, while in a bragging mood before the trouble occurred on the Hesper, told how he had fixed one mate and he still had another grade to settle.

After Sparf's acquittal Hansen was removed from the cell occupied by St. Clair, as the latter threatened to kill him.

THE LATE MARY HEALEY'S WAKE. It Was Not Part of a Religious Ceremony.

SAN JOSE, CAL., Aug. 29.—The final account of George F. Scott as administrator of the estate of Mary Healey, deceased, was up before Judge Reynolds for settlement this morning.

The estate has been in court for several months and the sale of a lot on Hawthorne street, San Francisco, was confirmed. There were numerous small items charged against the estate, which suggested that the Judge's attention: "Roast beef, 39c; steam beer, 18c; cheese, 22c; refreshments, 83c." He asked the administrator to explain these items, and Mr. Scott said they were the items which he had ordered for the remains of the deceased. The court asked if a wake was a part of the religious ceremony of the church to which deceased belonged. Mr. Scott said he thought it was, but when the court held over to Father Mahoney he called to testify on the subject Scott said he would not insist on the payment of the expenditures and asked that he be allowed to withdraw them.

TEMPERANCE UNION AFFAIRS.

The San Jose Society Chooses a New Governing Board.

SAN JOSE, CAL., Aug. 29.—At the annual meeting of the Woman's Christian Temperance Union yesterday afternoon the following officers were elected: Mrs. C. M. Ayer, president; Mrs. Gilchrist, vice-president; Miss S. E. Wagner, recording secretary; Mrs. E. L. Bailey, corresponding secretary; Mrs. E. S. Kimball, treasurer; Mrs. S. Summer, financial secretary; vice-presidents—First Presbyterian Church, Mrs. C. P. Bailey; Second Presbyterian Church, Mrs. C. Z. Sanders; Baptist Church, Mrs. O. F. Mann; Trinity Episcopal Church, Miss S. E. Wagner; Friends' Church, Mrs. A. Taylor; Swedenborgian, Mrs. S. L. Hammond; Bowman M. E. Church, Mrs. E. J. Watkins; Unitarian Church, Mrs. L. J. Watkins.

Reports were read from the various officers showing the union to be in a prosperous condition.

TAKES BUSINESS FROM HER.

Caroline Keene Complains Against the Palo Alto Hotel.

SAN JOSE, CAL., Aug. 29.—Caroline Keene, who formerly conducted the Palo Alto Hotel at Palo Alto, to-day commenced a suit for \$5500 damages for breach of contract against L. B. Sheafe and Jane Roe Sheafe, his wife. It is set forth in the complaint that March 28, 1895, the defendants entered into a contract with the plaintiff whereby defendants were to buy the hotel business and the furniture and personal property therein for the sum of \$2800, whereon the defendants paid \$50 down and agreed to pay the balance, \$2750, on May 1, 1895. The defendants took possession of the hotel on March 28, 1895, and conducted the business until July 1, 1895, but the defendants refused to pay the balance due.

On July 1 the defendants repudiated said contract and abandoned the hotel and set up a rival business in Palo Alto, and have drawn and still continue to draw business away from her hotel to the amount of \$200 per month. The plaintiff prays for damages of \$5500 and costs of suit.

A CACHE OF TWELVE THOUSAND. Patrick Monahan's Find While Digging an Old Road.

SAN JOSE, CAL., Aug. 29.—Patrick Monahan reported at the Sheriff's office to-day that if assistance was furnished him he could locate a cache of from \$12,000 to \$18,000 in money. He said that years ago, while building a road through the Naglee property, he found the buried treasure under a tree near San Carlos street. He did not dare take the money there for fear of being arrested for stealing it. About that time the county treasury at Santa Cruz had been robbed, and he supposed it was part of the money taken then. Monahan resides at Park avenue. Sheriff Lyndon will furnish what assistance is necessary.

GOZNALES' MISSING BUGGY.

Two San Jose Men Accused of Taking It to Milpitas.

SAN JOSE, CAL., Aug. 29.—Steve Tajade and Antonio Munoz were examined before Justice Dwyer this morning on a charge of stealing a horse and cart belonging to Miguel Gonzales. The men had taken Gonzales' cart to go after some wine

and failed to return it. When asked where the rig was they said they had tied it in front of the winery, and when they came out the rig was gone. The rig was recovered in Milpitas, where 25 cents had been borrowed on it. There was no evidence connecting the defendants with stealing the rig, and they were discharged.

DESKS FOR SAN JOSE SCHOOLS. A Local Firm Gives Preference in a Big Contract.

SAN JOSE, CAL., Aug. 29.—The city Board of Education held a called meeting this evening, the principal business being the awarding of the contract for furnishing desks for the public schools. The contest among the competitors has been a bitter one. When the bids were opened a few days since it was found that C. F. Weber & Co. of Chicago were the lowest bidders, their average price being \$2 80 per desk. The bid of L. Lion & Son, a local firm, was \$3 25 a desk. The furniture being manufactured in Portland, Or. Members of the board who favored the Portland desk also urged that if they allowed that competition to be crushed out the Eastern manufacturers would soon again be demanding \$6 and \$7 per desk as formerly.

Trustees Moore and O'Neill opposed awarding the contract for the higher priced desk. They urged that the board, after they had advertised for bids and received certified checks from men who acted in good faith, had no right to accept the very highest bid that was offered.

It was intimated that the members who favored the highest priced desk had received orders at the hands of a combine and that the talk about supporting Pacific Coast manufacturers was not the real motive. After an animated discussion the contract for furnishing 150 desks was awarded to L. Lion & Son for the Portland desk. The vote stood 5 to 2. Trustees Hamilton, O'Keefe, Gage, Koenig and Wemple voting in favor of the Portland desk and Trustees Moore and O'Neill against it.

WANTED TO KILL HIS WIFE.

James Depoister's Sensational Answer to Divorce Suit.

SAN JOSE, CAL., Aug. 29.—The domestic life of Mr. and Mrs. A. C. Depoister of Santa Clara has not been one of roses, and yesterday when Depoister learned that his wife had commenced an action for divorce his fury broke into a storm, and he went home and threatened to kill his wife unless she withdrew her suit. This desk Depoister refused to do, and she had her husband arrested for threatening her life. In lieu of \$5000 bail Depoister was locked up in jail. Mrs. Depoister conducts the Home restaurant in Milpitas. She has supported her husband in idleness for years. In her suit for divorce she charges Depoister with being unfaithful to his marriage vows. The couple were married in San Francisco in 1882, and have two children.

ALBERTA AT YEAR'S END.

Depoister was bound over in the sum of \$2000 to keep the peace by Justice Herrington this afternoon.

THE LOSGATOS CELEBRATION.

Preparing to Rejoice Over the New Railroad.

SAN JOSE, CAL., Aug. 29.—The executive committee in charge of the celebration at Los Gatos on August 31, in honor of the completion of the broad-gauge railroad connection with that place, are making extensive preparations for the entertainment of visitors on that day. An excursion will be run from San Francisco, and delegations from the Half-million Club and Boards of Trade from San Francisco, Oakland and San Jose have been invited to attend. A picnic and barbecue will be held in Shore's Grove. The orchardists have donated plenty of fruit, and the committee has contracted for 600 loaves of bread, 2000 sandwiches, 500 pounds of beef and 200 watermelons.

AN EARLY MORNING FIRE.

James L. Lowe's House Destroyed—A Loss of \$1500.

SAN JOSE, CAL., Aug. 29.—The residence of James L. Lowe, at the corner of Santa Teresa and Julian streets, was destroyed by fire at an early hour this morning. Mr. Lowe's grandmother, Mrs. Pacheco, was the only occupant of the house at the time. She was awakened by the fire, and had only time to escape in her nightclothes. Furniture to the value of \$500 was destroyed. The loss to the house is \$1500. There was no insurance.

CHARGED WITH LARCENY.

Arthur Stacy Accused of Stealing a Gold Watch.

SAN JOSE, CAL., Aug. 29.—Arthur Stacy was examined before Justice Dwyer this morning on a charge of grand larceny. The complainant was Manuel Silva, a Portuguese residing near Milpitas, who accused Stacy of stealing a gold watch and chain worth \$100, which he had hidden against Stacy and Justice Dwyer discharged him.

BERNAL'S MISSING CLOTHES.

He Charges His Cousin With Stealing Them.

SAN JOSE, CAL., Aug. 29.—Mike Bernal was arrested to-day on a charge of petty larceny preferred by Ben Bernal, who charges his cousin with stealing a hat, coat and vest from him. Bernal pleaded not guilty when brought before Justice Dwyer and was bound over to the grand jury. He was allowed to go on his own recognizance.

A VALLEJO BREWERY BURNED.

J. F. Deininger Loses Nearly \$10,000 by Fire.

VALLEJO, CAL., Aug. 29.—This afternoon the Philadelphia Brewery at South Vallejo caught fire in the second story, and an hour later was a heap of ruins.

Mrs. J. F. Deininger, wife of the proprietor, was the first one who saw the fire, which seems to have originated in one of the drying-rooms or from the kiln. She gave the alarm. The rapidity with which the flames spread indicated that the fire had been smoldering for some time.

The Phoenix Engine Company of South Vallejo responded promptly to the call for assistance and it was soon re-enforced by two companies uptown and the hook-and-ladder boys. Two powerful streams of water were obtained from a double hydrant in front of the brewery, but the flames had such a start that the firemen could do but little beyond confining them to the brewery building.

The burned building belonged to F. Deininger and the tools, fixtures and machinery to his son, J. F. Deininger. The loss will fall heavily upon the young man. He had recently become sole proprietor of the business, having bought out the partnership for \$10,000. New machinery had lately been introduced, and 2500 sacks of barley were stored in the building. The loss will approximate \$10,000. The property was insured for about a third of that amount.

A NEW REVENUE CUTTER.

It Will Be Built Somewhere on This Coast.

PORT TOWNSEND, WASH., Aug. 29.—Notification has been received that on October 1 bids will be called for constructing a new steel revenue cutter for service on the Pacific Coast. There are but four contracts on the coast equipped for such a service as this will be—one at Everett, where the whaleback steamer City of Everett was recently constructed, and the three iron-worked companies of San Francisco.

The Everett company claims a cinch on the contract, asserting they can build the vessel in sections at the monster works at West Superior and ship the same to Everett to be put together catamaran than the San Francisco concern can ship material for the contract at the bay city.

The new cutter is to be larger than those now in service and must have a guaranteed speed of fourteen knots.

PACIFIC COAST NEWS.

Stanford University Is Ready for the New Term.

FEWER EASTERN PUPILS.

There Will Be at Least Eleven Hundred Scholars at the College.

LITTLE ROOM FOR ANY MORE.

Most Elaborate Preparations Being Made for the Grand Reopening.

STANFORD UNIVERSITY, CAL., Aug. 29.—The doors of the university will not be formally opened to students for more than a week hence, nevertheless there is bustle and confusion in every direction in anticipation of the expected influx of the eleven or twelve hundred young men and women who will constitute the Stanford student body the coming year. The spacious dormitories, Encina and Roble halls, on the campus, the hotels, the public houses and scores of private residences in the neighborhood are being renovated and refurnished for their accommodation. Not more than fifty students are on the campus at present, but within a few days they will pour in by the trainload.

Entrance examinations will be held in the quadrangle next Monday. On Tuesday and Wednesday the old students will be registered, and on the following day the new students will be formally admitted. Instruction in all departments begins on the 6th.

It is impossible, so early in the year, to estimate the number of new students or the total enrollment. Dr. O. L. Elliott, the university registrar, approximates the total number at 1100; 700 old students and 400 new. Of the latter 300 are expected during the opening week. The percentage of Eastern students is smaller this year than heretofore. The Oregon and Washington representation remains stationary, while the delegation from Southern California is increased. The falling off among Eastern students is attributable chiefly to the misleading general newspaper reports of the uncertainty of the university's stability, and at a distance from this coast the true status cannot be so easily learned.

Of the student prospect in general Dr. Elliott says: "The outlook is bright and thoroughly satisfactory. We maintain last year's proportion and fall below none of our previous records. We are not anxious for more than 1100 students. It is gratifying to note that our entering classes are uniformly strong in numbers. These come of their own accord. Stanford is their voluntary choice. We do not advertise for students and never send the catalogue to any except applicants."

President Jordan is pleased with the outlook. "We are not seeking immediate expansion in any large degree," he said; "we are quite big enough for our age. We will not seek to increase the enrollment; it already tests our capacity. The university will bend all its energies in the direction of raising the standard of work done here, and in developing scholarship equal to the best colleges in the land."

Three new additions to the faculty have just been announced. The department of economics has enlisted Professor H. H. Powers, of Smith College. President Jordan has been negotiating with him for some weeks past, feeling that he was one of the most desirable instructors in that line of study that could be secured. The acquisition is a strong re-enforcement of the department. It is now definitely understood that Dr. A. G. Warner, of the same department, will be absent again this year on account of his health. He will sojourn at Manitou, Colo. Should he regain his health in season he will immediately resume his work here. The faculty of Romance languages has engaged Professor F. A. J. Davidson, formerly of the University of Toronto, to fill the assistant professorship of French, vacated by the resignation of Professor Symington, who has been called to a full professorship at Amherst.

Professor E. M. Pease, head of the Latin department, announced to-day that Miss Louise Dodge would be an assistant in that department for the coming year. Miss Dodge comes here with her kinswoman, Miss Harriet Waters Preston, one of the best known writers of America. The latter will take up her residence on the campus, and although not formally identified with the university, she will nevertheless be more or less in touch with the work in such a manner as to benefit both students and the community at large. Both women are scholars of the broadest culture. They are constant contributors to the leading magazines, although, until recent years they wrote under noms de plume. They have written voluminously on miscellaneous matters, although their chief work has been in the classics. A number of their productions have been compiled jointly.

The Latin department feels justly elated over the acquisition of two such women, one as instructor, the other as resident. Indications are that Roble and Encina dormitories will be taxed to their utmost. The latter accommodates 335 students. The girls' hall has room for 110. The applications have been much in excess of the accommodations. Encina Hall, from an architectural standpoint, is the pride of Senator Stanford; it is a magnificent structure, with every facility for promoting student comfort. Yet in spite of this fact the dormitory has been year after year a partial failure. The fault lies with the mismanagement of the dining-hall; it has never given satisfaction. Last year the board was so poor that the students almost deserted the place. This year a new plan will be tried. The dining-hall has been entrusted entirely to Chef Tate, formerly in charge of the University Club's cuisine. He will have sole control and be held solely responsible for that part of the establishment. He will conduct the dining-hall independently of the lodging quarters, which, as heretofore, will be under student management. The room rent will be \$5, incidentals \$2 and board \$15, total \$22 per month. Mr. Tate is a man of wide experience, has always given satisfactory service, and it is expected that he will revolutionize student life at Encina Hall.

RACES AT WOODLAND.

Some Poor Work at the Starting Post.

WOODLAND, CAL., Aug. 29.—There was a fair crowd present to-day to witness the third day's events of the Fortieth Agricultural district. The day was not the best for racing, yet good time was made in all the races.

The sensation of the day was the 2:40 class trot, and the few who remained to work in the starting heats saw some of the rawest work in closing that ever occurred over a racecourse. Maria P had taken the first heat, Thornhill the second and Lady O the third and fourth.

It was 15 minutes to 11 o'clock when the horses were called out for the final heat, and 10 minutes after when they were sent away in the dusk. Thornhill was on a run thirty-five feet before he reached the wire and two lengths behind Lady O. The crowd in the grand-stand groaned, hooted and hissed.

He was the last man at the eighth, and passing them one by one was lapped with Lady O down the stretch. A hundred yards from the finish they were coming on even terms and Thornhill went into the air and Lady O passed under the wire a length ahead.

PACIFIC COAST NEWS.

Chico Goes Wild Over the Cyclist Circuit Races.

BROKEN COAST RECORDS.

Three of Them Lowered and One Close to the World's Time.

GUNBY WINS THE NOVICE.

Great Work Done by Foster, Chapman and Byrne in the Class Races.

CHICO, CAL., Aug. 29.—The city has gone wild over the circuit races here to-day, and the remarkable time made is the principal topic discussed upon the streets to-night. Never before have such races been run, and as a result Chico promises to get the cycling fever in its worst form.

The occasion was the opening of the three days' meet on the Pacific Cyclist circuit held under the auspices of Rose City Cyclers. Everything went off in fine order, and not a hitch occurred during the entire afternoon, which speaks volumes for the very efficient management. The track is lightning fast, and the quarter is the speediest of any on the coast; a great deal of labor has been spent in putting it in shape, with the result that three coast records were lowered to-day, and one trial coming within a second of a world's record.

Foster is riding in beautiful form, and in the last quarter of the class B handicap made the fastest sprint that has ever been seen in the West, going the distance in :27 1-5. Ulbricht, Slater and Burke were right at his heels fighting every inch of the way up the homestretch. It is doubtful if a better finish has ever been ridden than this one, and Foster's jump in the last eighth was a revelation even to the riders following the circuit.

Frank Byrne was the hero in the class A events and won the mile open in fine style. After that he rode a standing start unplaced quarter in :31 1-5, lowering the coast record of :31 2-5. When near the finish he struck a soft spot in the track, which slowed him up very perceptibly. Metcalf, Byrne's little riding companion, also made a most creditable showing, riding a close second in the mile open, and going a half-mile, paced by Byrne and Chapman on singles, in 1:01 1-5. Byrne made a neat pickup at the eighth. He rode his hardest, but the little fellow cried for a hotter pace, and actually shot by his flying clubmate when near the finish.

But probably the star performance among the record-breaking class A men was the third of a mile unplaced trail by Ed Chapman, the Napa flyer, who not only lowered the coast record for the distance from 42 seconds to 39 2-5, but came within a second of the world's record. Chapman rode like a demon and made a remarkable sprint at the finish. The local riders are riding finely, especially Thiel and Kirkpatrick, who were the winners of the local races to-day. They met the outside talent for the first time to-morrow.

The programme opened with a local novice race, after which came the mile open, class A, with the following starters: Byrne, Mott, Metcalf, Chapman, C. M. Smith, Ravlin and Conger, the latter two only for pace-making purposes. Mott led off to the quarter, Conger took the pace to the half, where Ravlin went to the front at the last quarter. Here Byrne jumped the bunch closely, followed by the rest. All were bunched at the tape, Byrne winning by a narrow margin.

In the class B handicap Foster was on scratch, Burke 20 yards, Slater 35 yards, Ulbricht 45 yards, Cushing 85 yards and Smith 100 yards. Foster made a wonderful jump at the start and bunched up with the back markers at the first eighth. Nobody seemed desirous of setting a pace, so somewhat of a loaf resulted. The limit men were out for blood this time and rode a strong race, Cushing winning first and Smith second—the balance about half way up the homestretch. But that finishing quarter more than made up for the loaf. Swinging into the stretch, Ulbricht jumped to the front like a streak, and for awhile looked like a sure winner, but at the eighth Foster went up with a tremendous spurt and crossed the tape half a wheel ahead of Ulbricht, Burke next by inches, as was also Slater. Foster made that last eighth in 12 1-5 sec. Summary:

Mile, novice, Gunby first, Kirkpatrick second, Benson third. Time, 2:41 2-5.

Mile, open, class A, Byrne first, Metcalf second, Chapman third. Time, 2:27.

Mile, county championship, Thiel first, Lockerman second, Cook third. Time, 3:01 2-5.

Mile, handicap, class B, Cushing (85 yards) first, Smith (100 yards) second, Foster (quarter) third. Time, 2:20 4-5.

Scratch mile, standing start, F. M. Byrne won. Time, 31 1-5, coast record.

Third mile, flying start, Ed Chapman won. Time, 39 2-5, coast record.

Mile, open, 2:40 class A, Ravlin first, Jarman second, Conger third. Time, 2:31 1-4.

Half mile, flying start, Peter Metcalf won. Time, 1:01 1-5, coast record.

STOCKTON'S JUTE MILL.

It May Have One of Its Own If Present Negotiations Fall.

The Oakland Concern Demands a Bonus of \$100,000 Before Moving Over.

STOCKTON, CAL., Aug. 29.—At a meeting of the Commercial Association next Monday night G. W. Tatterson, W. J. Goldsworthy and Monroe Eaton will report the result of their visit to the Oakland jute mill as representatives of the association.

The owners of the mill want to move it to some other city, but they demand a bonus in the shape of a stock subscription. It was represented to the Commercial Association that if Stockton wanted the mill it would have to take \$100,000 worth of stock, which would be issued for the purpose, the plan being to reorganize the company. If this amount of money was forthcoming the mill would be removed to Sacramento, which it was said was bidding for it.

The representatives sent by the associa-

tion will report next Monday night that their visit was premature; that the owners of the mill informed them that they could not entertain any overtures from Stockton at present, because negotiations with another town were in progress.

The representatives of the association decline to say what they think of the request that \$100,000 be subscribed as an inducement to get the mill, but other business men who have discussed the matter declare it would be better to raise a little more money and get an entirely new plant, the ownership of which would belong exclusively to the subscribers and not, as in the case of the Oakland mill, only partly to them. The mill when it closed down had 350 employes, but the corporation owning it has given out that it will, when removed and enlarged, employ nearly a thousand hands.

THORNTON'S CASE GONE OVER. He Must Await the Appearance of a Missing Witness.

STOCKTON, CAL., Aug. 29.—Owing to the absence of Witness Kittridge, the examination of Contractor Thornton, charged with assault to commit murder, which was set for 10 o'clock this forenoon in Justice Parker's Court, was continued until next Thursday forenoon at 10 o'clock. Frank Nicol, for the defendant, asked for a continuance of the case, as he regarded the missing man as an important witness for the defense, though he is also wanted by the prosecution.

Mr. Nicol said the defense had been charged with desiring the absence of Kittridge, but that Thornton was anxious for his appearance in court, holding that he had done all in his power to learn his whereabouts. He is supposed to be in Alameda. Kittridge was a clerk in Thornton's office, but on the night of Thornton's arrest settled up everything with his employer and left town the next morning. If Kittridge cannot be found by the time set the case will proceed without him.

Thornton is the Valley Railroad contractor who recently took a shot at Michael Gibbons, a laborer employed as a grader on the Valley road. The man had some wages due him, which he desired to secure, but Thornton said he would have to wait until the paymaster had eaten up demands Thornton's temper got the better of his judgment and, snatching a pistol, he fired it close to Gibbons' face, plowing a furrow in his cheek and along the side of his nose and singeing his hair.

NIGHT IN THE REDWOODS. A Big Entertainment in Mill Valley in the Interest of Charity.

Society From the City Will Attend in Full Force Next Saturday Afternoon.

MILL VALLEY, CAL., Aug. 29.—The preparations for the entertainment to be given next Saturday afternoon and evening in aid of the kindergarten of the First Congregational Church of San Francisco have about been completed, and a large number of tickets disposed of. The entertainment will consist of a garden party and tea, and has been arranged by many prominent ladies of Mill Valley and San Francisco, who will occupy booths where different articles will be sold in the interest of charity.

Mrs. Charles S. Eaton and Mrs. H. S. Scott will occupy the fancy-work booth; Miss Robinson will have charge of the dolls; at the candy booth will be Miss Coleman, Miss Maude Clay and Miss Zeile; lemonade booth, Miss Martha Gallo-way; icecream, C. S. Eaton and assistants; refreshments, Mrs. W. J. Gunn. About twenty young ladies will assist in the booths and help entertain the guests.

An orchestra of twenty-five pieces will furnish the music during the afternoon and evening. Rev. John Rea of Sausalito will assist the orchestra.

The ladies are at work to-day decorating the grounds about the Clay residence, where the entertainment will take place. The decorations are upon an elaborate scale, and Japanese lanterns are strung in every nook and hung from tree to tree. As the entire entertainment will take place in the open air, it has appropriately been called "A Night in the Redwoods."

Among the various assistants are: Samuel D. Mayer, Mrs. Paxton, Mrs. A. E. Story, Miss Featherstone, Miss Swan, Mr. Snowgrass, Mrs. James Thompson, Miss M. Maroney, Miss Jennie Baldwin, Miss Hattie Martin and others.

PACIFIC COAST NEWS.

Chico Goes Wild Over the Cyclist Circuit Races.

BROKEN COAST RECORDS.

Three of Them Lowered and One Close to the World's Time.

GUNBY WINS THE NOVICE.

Great Work Done by Foster, Chapman and Byrne in the Class Races.

CHICO, CAL., Aug. 29.—The city has gone wild over the circuit races here to-day, and the remarkable time made is the principal topic discussed upon the streets to-night. Never before have such races been run, and as a result Chico promises to get the cycling fever in its worst form.

The occasion was the opening of the three days' meet on the Pacific Cyclist circuit held under the auspices of Rose City Cyclers. Everything went off in fine order, and not a hitch occurred during the entire afternoon, which speaks volumes for the very efficient management. The track is lightning fast, and the quarter is the speediest of any on the coast; a great deal of labor has been spent in putting it in shape, with the result that three coast records were lowered to-day, and one trial coming within a second of a world's record.

Foster is riding in beautiful form, and in the last quarter of the class B handicap made the fastest sprint that has ever been seen in the West, going the distance in :27 1-5. Ulbricht, Slater and Burke were right at his heels fighting every inch of the way up the homestretch. It is doubtful if a better finish has ever been ridden than this one, and Foster's jump in the last eighth was a revelation even to the riders following the circuit.

Frank Byrne was the hero in the class A events and won the mile open in fine style. After that he rode a standing start unplaced quarter in :31 1-5, lowering the coast record of :31 2-5. When near the finish he struck a soft spot in the track, which slowed him up very perceptibly. Metcalf, Byrne's little riding companion, also made a most creditable showing, riding a close second in the mile open, and going a half-mile, paced by Byrne and Chapman on singles, in 1:01 1-5. Byrne made a neat pickup at the eighth. He rode his hardest, but the little fellow cried for a hotter pace, and actually shot by his flying clubmate when near the finish.

But probably the star performance among the record-breaking class A men was the third of a mile unplaced trail by Ed Chapman, the Napa flyer, who not only lowered the coast record for the distance from 42 seconds to 39 2-5, but came within a second of the world's record.
