

REFUSED TO LISTEN.

Roughs at a Kentucky Fair Hooted Down Bradley.

DEBATE NOT TOLERATED.

Watt Hardin Declined to Speak and Scored His Unruly Constituents.

DRUNKEN MEN AND POLITICS.

The Disorderly Crowd Broke Up in a Row After One Man Was Killed by Lightning.

LEXINGTON, Ky., Aug. 30.—The sixth joint debate between the Republican and Democratic candidates for Governor of Kentucky, Colonel William O. Bradley and P. Watt Hardin, which was to have taken place at the Henry County fair grounds, near Eminence, this afternoon, broke up in a row after a citizen had been struck and instantly killed by lightning.

At 2 o'clock County Attorney Curston introduced Colonel Bradley, who was to make the first speech. When Mr. Bradley advanced to the front of the platform a large number of drunken men, who had gathered close around the speakers' stand, began to jeer. W. P. Thorne, Democratic candidate for the Legislature, stepped forward and tried to quell the disturbance.

His pleadings had no effect, for when Colonel Bradley essayed to speak he was hooted down again.

Mr. Thorne asked the disturbers to be quiet and for the third time Colonel Bradley tried to speak, but his first sentence was never heard.

State Auditor Norman then tried to quiet the unruly gathering, but he met with no better success than Mr. Thorne. Finally, giving up all hope of being heard, the Republican candidate and the crowd called for General Hardin.

Hardin told the crowd that under no consideration would he make a speech after the treatment his opponent had received, and he hoped he would never be called upon to witness such disgraceful scenes again. The crowd then dispersed.

TO DEFEAT HARRISON.

Story That McKinley and Reed Have Formed Compact.

WASHINGTON, D. C., Aug. 30.—The Evening Times says that McKinley and Reed have formed a compact to defeat Harrison for the Presidential nomination, and that Quay's success in Pennsylvania is expected to largely contribute to this result.

The terms of the compact are said to be in substance that the two Presidential aspirants will each make his own canvass according to his own judgment and inclinations, and will include solemn assurances to the effect that the one who shall by reason of expediency surrender his chances of nomination to the other will be benefited by all the comfort, consolation and prowess of the successful aspirant when four years have elapsed and the period be at hand for selecting another Presidential nominee.

In short, the one who develops the least strength in the convention of 1896 must wait until 1900. The only barrier to carrying into effect this compact is the same insidious distemper that has nipped many a Presidential bid in incipency of development—the difficulty of delivering a stipulated consignment of goods.

WATER BOND CONTROVERSY.

Kansas City Enjoyed by a Big Eastern Syndicate.

KANSAS CITY, Mo., Aug. 30.—Frank B. Bemis of Boston, Mass., representing the syndicate headed by Kiddier, Peabody & Co., who contracted to buy Kansas City's \$3,100,000 water works bonds and lost its chance by dilly-dallying, has obtained an order from Justice Brewer of the United States Supreme Court chiding Kansas City and the National Water Works Company to appear before him at Burlington, Vt., on September 4, and show cause why the settlement arrived at between the city and the company, whereby the former got the water works and the latter the city's bonds, should not be set aside.

The city issued bonds to purchase the waterworks in the sum of \$3,000,000, and contracted for the sale at a premium of \$16 on the \$100 to the syndicate headed by Kiddier, Peabody & Co. Meanwhile the water company questioned the legality of the bonds and this reopened the case. The city repeatedly called on the syndicate to pay the money as agreed and take the bonds, but it was apparently afraid of the litigation and procrastinated.

Finally the city made a last formal tender of the bonds, which being refused, it gave notice that the contract was abrogated, and concluded a compromise on August 24, by which the water company's bondholders took the city's bonds at a premium of \$18 on \$100, and the city took the plant. This is what the syndicate seeks to overthrow.

MURDERED HIS SWEETHEART.

Terrible Crime Committed by a Slavonian in New York.

ALBANY, N. Y., Aug. 30.—A special to the Journal from Johnstown, N. Y., says: A horrible murder was committed this morning in this city. Miss Teresa Kearny, a beautiful girl, 22 years of age, was killed by her lover, John Flamet, 39 years old. Both are Slavonians and were to have been married within a month. After murdering his victim, Flamet cut his own throat, from which he bled freely, though he will recover. A letter written by the murderer to the victim, in which he stated that if she did not marry him, he would kill her, was found near the scene of the crime. The murderer was locked up. There is great excitement in the city and

the Slavonians and Hungarians would, no doubt, lynch the murderer if they could get hold of him.

CONDENSING THE FOOD.

Enough Carried in a Small Can to Last a Soldier a Day.

KANSAS CITY, Mo., Aug. 30.—The Armour Packing Company of this city is making a series of experiments in the preparation of condensed food to be used by the soldiers of the United States army on forced marches. The experiments are in conformity with the specifications made public by the subsistence department of the army last June.

Special cans were made consisting of two parts, absolutely distinct from each other but fastened together by small solder buttons and provided with a key opener. The smaller can contains seven ounces of bacon and the larger about twenty-eight ounces of hard bread, soap and coffee, specially prepared. The coffee and soup are in the form of square tablets. The entire package weighs 35 ounces and contains about 85 cubic inches of food. The larger can is so shaped that soup and coffee can be cooked in it by the individual soldier. The can will hold rations sufficient to last for a day and can be easily carried on the soldier's back. If the experiment works the size of the can will be doubled.

The first practical test of the idea will be made by troops leaving for Fort Logan, Colo., on a twenty days' practice march, leaving Denver September 5.

LOSS OF THE SHIP CRAPO.

An Official Report Made by a Consul to the State Department.

Seamen Who Displayed Bravery While the Cargo of Nitrate of Soda Burned.

WASHINGTON, D. C., Aug. 30.—On the 20th inst. the United Press published a dispatch from Minister Strobel in Chile giving an account of the disappearance and supposed drowning of Captain Ernest Stegler of the American vessel Edward Kidder and three of the crew of the American vessel W. W. Crapo of New Bedford, Mass., in the bay of Junin, Chile, on the 14th of June. It was stated that Captain W. W. Hardy of the Crapo escaped by leaving the party, which was engaged in fishing in the bay.

The State Department has since received a dispatch from Consul Merriam of Iquique, Chile, announcing that Captain Hardy's vessel was burned on the 2d of July, and in fifteen minutes after the fire was discovered went to the bottom in sixteen fathoms of water. There were twenty-four persons on board, including the wife and son of Captain Hardy, but fortunately there was no loss of life. The ship's papers were lost, as were also all the personal effects of Captain Hardy and family. The ship had received on board 44,998 Spanish quintals of nitrate of soda and was expected to complete her cargo of 49,000 quintals and to sail for the United States on the 5th inst.

So far as known, the Consul says, the ship was not insured. Captain Hardy, who owned one-eighth of the ship, and who had hitherto kept his interest fully protected by insurance, had on this voyage allowed his insurance to lapse and so lost all the cargo, however, was, as usual, insured against nitrate. The usual precautions against fire had been taken, and Captain Hardy suspects that one or more of the crew intentionally set fire to the ship, although he has no proof of the fact.

At the request of Captain Hardy the Consul authorized him to discharge and pay off his mate, carpenter and one seaman, all of whom found employment in Junin; and also to pay off and discharge three other seamen, who immediately shipped on the German vessel Helde at that port. The remaining fourteen were in Iquique under the protection of the Consul on July 16, the date of the report, but expected to get away soon, as there was a demand for seamen in the neighboring port of Caleta Buena.

The Consul adds: "Nothing could be done to save the ship; but Captain Hardy leaped from his bed, ordered a boat lowered, and, without waiting to put on his trousers, went personally, together with his second mate and a sailor, to the rescue of the imperiled crew, eleven of whom he took off the burning ship. He immediately shipped on the German vessel Helde at that port. The remaining fourteen were in Iquique under the protection of the Consul on July 16, the date of the report, but expected to get away soon, as there was a demand for seamen in the neighboring port of Caleta Buena.

ON EASTERN TRACKS.

Close of the Big Meeting at Fleetwood Park Course.

AZOTE AGAINST TIME. But He Could Not Touch the Record of the Speedy Companion Alix.

BRIGHT REGENT WON A PACE. Geers Drove the Gelling to Win in Three Heats Straight Without a Break.

FLEETWOOD PARK, N. Y., Aug. 30.—The most brilliant and successful trotting that has ever been held in New York virtually came to an end to-day, although one race was unfinished at nightfall. The feature of the programme was Azote's attempt to beat the world's trotting record of 2:03 1/2 held by his stable companion Alix. The best he could do, however, was 2:05 1/2, McDowell driving the first quarter in 30 1/2 and taking him back to a 2:10 gait in the second quarter.

AT SLEEPY HOLLOW MINE.

It Will Be a Long Time Before the Bodies Can Be Reached.

CENTRAL CITY, Colo., Aug. 30.—As the Sleepy Hollow mine was always dry no pumping-plant is established there. Efforts have been made to lower the water with a 500-gallon bucket, but this apparently has no effect. Cornish pumps will be put in, but it will even then take sixty days to drain the mines and get to the bodies of the drowned miners. The water is now 300 feet deep in the Sleepy Hollow shaft and is still rising, while it has lowered in the Fisk over 100 feet.

The various mines of Bob Tail Hill have been in dispute for several years over the question of drainage. The late Gregory lodes hanging-plant, and which they worked to lower levels they completely drained the Sleepy Hollow and American. Some time ago they drew the pumps out of the lower workings, and the water stood in the Fisk 200 feet higher than the levels worked by the flooded mines. It was this tremendous weight of water which burst through the hanging wall of rock. Now, at the flooded mine will be had to establish pumping-plants in order to work at all.

DICKINSON'S AMBITION.

In the Presidential Race on a Broadly American Platform.

His Name to Be Presented to the Convention by the Michigan Delegation.

NEW YORK, N. Y., Aug. 30.—Hon. Don M. Dickinson is a sure enough candidate for the Presidency on a broadly American platform. Hon. Dan J. Campau, Democratic National Committeeman from Michigan and Dickinson's friend and adviser, was at the Hoffman House yesterday and talked to a reporter about the political and business situation. The reporter said that it was supposed that Michigan would present the name of Don M. Dickinson to the National Convention as the choice of its delegation.

DEPARTING THE HUB.

Knights Templar Leaving for Their Western Homes.

VISITING IN THE EAST. Well-Known Californians Who Will Meet Relatives Not Seen for Years.

ALL HAVING A SPLENDID TIME. Interesting Proceedings of the Concluding Sessions of the Great Conclave.

BOSTON, Mass., Aug. 30.—As a last act previous to breaking up and separating for a further holiday and for returning home the Sir Knights of Golden Gate Commandery No. 16 and ladies accompanying held a family gathering, wished each other safe journeys, mutually declared they had had the best possible time, and then Mrs. Anna Stadtmuller began a series of very pleasant speeches, presenting Commander Townsend and aids with little tokens of appreciation on behalf of the ladies for attentions during the run across the continent. Sir Knight Eugene Dekay Townsend, commissary of the commandery, was presented with a watch, charm, bearing several emblems of Masonry. William H. Smith, Robert H. Mowbray, William C. Ralston and W. K. Fight, his assistants, were each given a silver matchbox with initials engraved.

Knights and ladies then formed into line, shook hands and bade each other farewell and bon voyage. And so the party, which has been associated since leaving San Francisco nearly two weeks ago, broke up. To-night, so far as they are concerned, the headquarters are deserted.

Eminent Sir Charles L. Field leads a party into the White Mountains for a few days, visiting North Conway, N. H., where his brother keeps the Kearsarge Hotel. Following are names of this party: Mr. and Mrs. Benedict and Bert Benedict, Eminent Commander George D. Clark and wife, Mr. and Mrs. Christian Helwig, Mr. and Mrs. Courland, S. Benedict, Mr. and Mrs. Frank W. Street, Mr. and Mrs. James H. Bruce, Mrs. A. A. Judson and daughter Lottie, Mrs. A. W. Jackson and daughter, Mrs. Anna Stadtmuller and daughter Helen. The party will remain until Monday and its members will go their several ways.

Commander Clark will attend the Shrine at Nantasket and then with his wife start for home, stopping at New York, Columbus, Indianapolis and Chicago, reaching San Francisco about October 1. Quartermaster Charles D. Bunker, who by the way has distinguished himself on this trip by the promptness and the completeness with which every detail of his laborious duties have been dispatched, together with a notable absence of fuss in the same, will, with his wife and Miss Bunker and Henry M. Bunker, visit friends and points of interest in Massachusetts. Mr. and Mrs. Bunker and Miss Bunker will visit New York, Washington and Chicago on their return home. Harry Bunker will remain in Boston to attend a school of art. Mr. and Mrs. Benedict and Bert will remain East about three months, will visit the Atlanta exposition and go home by the Canadian. Mr. and Mrs. F. W. Street will visit friends in Washington City and travel homeward leisurely.

ROOFS BROS.

27-37 Kearny St. Try us with mail orders.

—We're closing out washable Sailor Suits, short and long pants, improved materials, at \$2.75; formerly sold at \$5, \$7, \$8 and \$9. See Kearny-street window.

Men's all-wool Fall Suits, \$7.50 and \$8.50. Better ones a little higher, and yet low.

FEDORA HATS at \$1.50, and only \$2.25 at the hatters!

New Fall Neckwear, choice styles, 50 cents. Nightrobes, 50 cents.

New line of Knee Pants Suits at \$2.50 and \$4; extra value. Long Pants Suits, all wool, \$7.50 and \$10.

BEAR IN MIND

Many Matters of Interest to Masons Were Considered.

BOSTON, Mass., Aug. 30.—It was late this afternoon when the twenty-sixth triennial convocation of the Grand Encampment of Knights Templar of the United States was brought to a close. Adjournment was announced at 5:30 o'clock by Grand Master Sir La Rue Thomas.

The session opened with the continuation of Sir Knight Carron's speech in favor of the proposition to make the city of Washington the permanent headquarters of the Templar body. He also advocated the establishment there of a great Templar temple. Strong opposition was soon manifested, and by a vote of 58 to 16 the matter was referred to the next Knights Templar convocation at Pittsburg in October, 1898. Should no other cities bid for future convocations, however, they will be held at Washington.

A number of Masonic law points were discussed, especially those alloting to proposed changes in the matter of representation in the Grand Encampment, which would operate, if adopted, to the advantage of the largest state body.

The following officers were then installed by Grand Master McCurdy: Grand master, W. La Rue Thomas of Kentucky; grand deputy master, Reuben H. Lloyd of California; grand generalissimo, Henry B. Stoddard of Texas; grand captain general, George M. Moulden of Illinois; grand senior warden, Henry W. Rugg of Rhode Island; grand junior warden, William B. Melish of Ohio; grand treasurer, H. Wales Lines of Connecticut; grand recorder, William H. Mayo of Missouri.

Grand Master Thomas appointed the following officers: Grand prelate, Cornelius T. Wing of New York; grand standard-bearer, Thomas F. Morris of Tennessee; grand sword-bearer, Edgar S. Dudley of Nebraska; grand warden, Joseph A. Locke of Maine; grand captain of the guard, Frank H. Thomas of Washington.

The following committees were appointed: Jurisprudence—J. H. Hopkins of Pennsylvania, John O. Smith of Illinois, E. T. Carson of Ohio, Joseph W. Fellows of New Hampshire, B. G. Hewitt of Kentucky. Finance—W. H. H. Soule of Massachusetts, George Davis of West Virginia, George Kendrick of Pennsylvania, Eli O. Birdsey of Connecticut, Fred Greenwood of Virginia. Testimonial to Hugh McCurdy—John O. Smith of Illinois, Henry L. Palmer of Wisconsin, John A. Mora of Mississippi. A resolution of thanks to the Grand Commander of Massachusetts and Rhode Island was adopted. Similar resolutions were adopted in compliment to the retiring grand master, McCurdy, and the convocation was over.

THREE WISE MEN INDEED.

Their Arrival With a Ponderous Box.

It Contained a Flying Machine, With Which the Inventors Will Startle the Capital.

WASHINGTON, D. C., Aug. 30.—The three wise men of Gotham who went to see in a bowl provoked a mild sensation compared with the commotion stirred up in Willard's Hotel by the arrival of three citizens of Indianapolis. They registered as George C. Webster, William N. Gales and A. Gimber.

Following them came six burly baggage-men tugging at a formidable pine box and about six feet long by three feet deep and two in width. The men set the box down in the rotunda with a groan and a crowd gathered and began speculating on what it contained.

"It's bones," said a newsboy who had been reading the Holmes case closely. The hotel proprietor suggested that the box be removed from the rotunda to rooms upstairs, but it was so large and heavy that the porters could not get it up the stairway. Suddenly Mr. Gimber came boldly to the front and agreed to stand personally responsible for what the box contained.

"It's a flying machine," he said. "The theory of aerial navigation is at last solved." The crowd who watched six strong porters vainly trying to get up stairs looked as if they questioned the ability of Mr. Gimber to float such a burden on wings, but he reassured them by a statement that he once flew fifty miles in mid-air near Indianapolis at a formal test.

"To-morrow," he continued, "with my two friends here, I mean to fly from the Treasury Department to the Capitol building." The crowd gradually melted away, and the Indianapolis men retired to their rooms. When they left the hotel it was with the avowed intention of going to the Patent Office and applying for a patent on the device.

GO BACK

To your early life and see if you have not done yourself an injury by some indolent acts. See if you cannot recall many excesses which have tended to rob you of the vigorous health which should be yours now. If you will do that you will find a reason for your present failure of manly vigor.

You can replace the youthful energy which has been wasted. Electricity is the foundation of the nervous and vital forces. That is what you have lost. Get it back and vigorous manhood will come to you through it.

Dr. Sanden's Electric Belt will soak your system full of electricity. It will build up your vital strength and perfect manhood. It is as good for women as for men.

The little book, "Three Classes of Men," is instructive. Free by mail or on application at office.
