

The State Sportsmen's Association will hold its annual trap-shooting tournament at Sacramento next month and a large attendance is expected. The wheelmen are interested in the races which will be held at Sacramento and San Jose. Amateur athletes are interested in the Olympic Club election, which will take place Monday evening. The largest coursing meeting of the year will be held at Ocean View Park on September 9. The wind up of the Del Monte festivities will occur to-day. Rifle-shooters, tennis-players, anglers and others are having ample sport during the present fine weather for outdoor sports.

THE WHEELMEN.

R. L. Long, the Crack Class B Man, Joins the Bay City Wheelmen.

CLUB EVENTS TO-MORROW.

California Cycling Club—Try-outs at Oakland Trotting Park.

"The Daily Call" Bicycle Club—To Centerville.

Crescent Road Club—Road race, San Mateo to San Carlos.

Diamond Cycling Club—To San Jose.

Garden City Cyclers—To Lodi.

Golden Gate Wheelmen—To Woodside.

Golden Gate Cycling Club—To San Jose.

Olympic Club Wheelmen—To Lodi.

Outing Road Club—With San Francisco Road Club.

Reliance Club Wheelmen—To Lodi.

San Francisco Road Club—Blind run.

The racing circuit on this coast seems to have met with favor, but there are not enough good men following it to warrant the attention it has received. Still the races are well contested and exciting, and it needs only a few more entries of speedy men and somewhat better management to make it successful. Another trick like that played on Wilbur Edwards at Petaluma last Sunday, as told in THE CALL, would give it a setback it could not recover from. Properly handled it should help the sport and the racing man.

The Reliance Club Wheelmen meet at Oakland on September 7, and the meet of the Garden City Cyclers at San Jose on September 9, both offer attractions which will bring out the best racing talent for miles around. Both are large and influential clubs, and have offered valuable prize lists and a varied lot of races. The club relay race at the Reliance meet should be well worth seeing. The associated clubs will all go to San Jose on September 8, and will be tendered a picnic run by the Garden City Club. There will be a competitive parade on the morning of the 9th. A ball at the Vendome on the evening of the 7th will attract many of the wheelmen socially inclined.

Robert L. Long, the great class B racer, has decided to withdraw from the Olympic Club Wheelmen, and his name is now up for membership in the Bay City Wheelmen. That he has contemplated this move for a long time has been known to his intimate friends, but it will come as a great surprise to most of his clubmates and others.

Captain P. Morrin has called a run of the Sunset Cycling Club to San Leandro to-morrow. The run last Sunday to the Cliff was well attended. The ladies annex turned out in full uniform. Some expert relay riders have recently joined the club. The road riders of the Association Cyclers are in active training for their five-mile race on September 21. The Y. M. C. A. will send a team of three men to Los Angeles to compete at the State field day in October. J. E. Edwards will go on possibly. J. A. Keller, W. Ede or Percy Burr.

The California Cycling Club will hold a try-out at Oakland Trotting Park to-morrow to select a team of five men to represent the club in the relay race at the Reliance Club's meet next Saturday.

The Liberty Cycling Club will soon be ready to move into its new quarters on Folsom street. C. H. Hoag, H. P. Wynne, G. Whitaker and C. Marshall are the latest additions to the membership list.

The annual members' meeting of the Bay City Wheelmen will be held Monday evening next at the clubhouse, 441 Golden Gate avenue. A nominating committee will be elected at the meeting for the purpose of selecting candidates for directors and road officers for the ensuing year. Action will also be taken on several proposed amendments to the by-laws. It is important that all members be in attendance.

Captain L. L. Korn announces a blind run of the San Francisco Road Club for tomorrow, on September 15, the club will hold a five-mile handicap road race over the San Leandro course.

The Bay City Wheelmen are enjoying a boom in the way of receiving new members, nineteen having been elected the

past week. They are: Thomas McLeer, W. W. Hatton, J. E. Manning, Fred Haswell, George H. Tooby, Hon. Charles T. Conlon, A. A. Manning, W. J. Y. Ryf, Kogel, J. M. Pike, W. T. Johnson, A. L. Houlter, Fred P. Simpson, E. P. Sellers, Charles A. Vanderbos, William J. Howatt, J. C. Weber, Edgar J. Mayers, Henry P. Poulin, Edwin F. Sagar, Horace L. Poulin and S. D. Sutton. The club only needs ten more names and its limit of membership will be reached.

A private road race, the result of which will be watched with a good deal of interest by the wheelmen around the bay, will be run next Saturday afternoon. The distance is from Oakland to San Jose, and the competing teams are members of the B. L. O. Club and "Our Set," two offshoots of the Olympic Club Wheelmen. Each club has four members, and there has been considerable friendly rivalry between them of late as to who were the fastest riders. A dispute on this point led to a challenge from the club with the mysterious initials, which "Our Set" forthwith accepted. The members of the latter club are: Wilbur P. Knapp, W. H. Stinson, J. E. Fagotney and L. B. Thomas. The B. L. O. Club is composed of Fred R. Butz, James W. Crofford, Thomas S. Mulvey and Joseph P. Coffey. Each man will pay an entrance fee, with

H. Sternberg, the Crack Rider of the Royal Cycling Club.

which a suitable prize for the winning team will be purchased. As the entire eight have reputations as speedy road runners it is safe to say the race will be a hot one. The annual election of the Acme Club of Oakland takes place to-day. It was the universal desire of the wheelmen to have Captain Kitchen succeed himself, but on account of press of business duties he was obliged to decline the honor. Mr. Kitchen retires after the most successful term of office any captain has had in the club. G. H. Humphrey has been nominated to succeed and as he is very popular with the club members, it is expected that he will be elected.

The CALL Bicycle Club will hold its first club run to-morrow to Centerville, leaving on the S. A. M. broad-gauge boat. It is expected that about thirty members will attend. The annual election of a new club officer already has a membership of over fifty and applications are coming in daily.

A. Warnekos and his son, William, arrived here Wednesday by train from Fresno, having made the trip in two days and a half days. The distance is 205 miles. They had four punctures in their tires, but no other mishap. The heat was very severe though.

The racing board has issued its bulletin No. 19, dated August 23, as follows:

SANCTIONS GRANTED.

August 29, 30, 31—Rose City Wheelmen, Chico.

September 7—Reliance Wheelmen, Oakland.

September 9—Pleasanton Cycling Club, Pleasanton.

September 9—Order of Scottish Clans, Oakland.

Transferred to professional class—William Lowery, W. R. Haigh, Harvey Fuller, Headlandsburg, R. S. Lomax, Pass Robies; under clause A.

Transferred to class B—S. A. Beadle, San Jose; under clause B.

Representative National Racing Board.

Members from the Olympic Club Wheelmen, Garden City Cyclers of San Jose and Reliance Club Wheelmen of Oakland will leave to-night by boat for Stockton. To-morrow morning they will ride to Lodi, where a hearty lunch and a feast of watermelons will await them. Then they will ride back to Stockton in time for the returning boat to the City. Captain Thornton of the Olympics has charge of the run and has had a large number of applications for berths.

The Golden Gate Cycling Club of this city and Diamond Cycling Club of Alameda will have a joint run to-morrow to San Jose, returning as far as Alviso, where they will take the steamer for the City. Both clubs will turn out in full force.

The California Associated Cycling Clubs meet to-night at the rooms of the Bay City Wheelmen, 441 Golden Gate avenue. The annual ten-mile road race in October will be discussed and other matters of importance. The next meeting of the Associated Clubs

may be held in San Jose, though this is uncertain.

The San Francisco Road Club will hold a five-mile road race on September 29 and are wondering whether the San Leandro-Haywards or San Mateo-San Carlos course will be used. The latter has been made over for the former course of late.

Under a head reading "Baggy at the Knees" Cycling, that newsy weekly devoted to the sport published at San Jose, says:

W. J. Edwards had enough of the circuit and was not to be seen at Petaluma, either. Edwards can accept defeat with the most marvelous grace in the world, but it was the treatment he received that convinced him that he was no firecracker. Edwards was to go on an exhibition race against time at the opening of the "hoop" and was promised a full corps of pacemakers and pacing machines. When the time came the trial there wasn't a sign of quiet, and Edwards inquired when the next train left for home. The CALL is responsible for the statement, quite as a number of riders returned after the first day, dissatisfied with the management, which seemed to be baggy at the knees. Edwards will ride at San Jose, however, and his little experience at Petaluma will no doubt teach him not to depend too much on flowery promises.

The story of how Edwards was treated was exclusively told in THE CALL last Sunday. Five days before the meet he received a letter from C. N. Ravlin saying all paces had been arranged, and they would be run next Saturday afternoon. The distance is from Oakland to San Jose, and the competing teams are members of the B. L. O. Club and "Our Set," two offshoots of the Olympic Club Wheelmen. Each club has four members, and there has been considerable friendly rivalry between them of late as to who were the fastest riders. A dispute on this point led to a challenge from the club with the mysterious initials, which "Our Set" forthwith accepted. The members of the latter club are: Wilbur P. Knapp, W. H. Stinson, J. E. Fagotney and L. B. Thomas. The B. L. O. Club is composed of Fred R. Butz, James W. Crofford, Thomas S. Mulvey and Joseph P. Coffey. Each man will pay an entrance fee, with

TELLING TRUTH.

Mrs. S. McKinney of Los Angeles Talks From Her Heart, and Tensely So.

A GREAT WEIGHT LIFTED.

Persons Suffering From Rheumatism, Catarrh and Impurities of the Blood Would Do Well to Follow the Advice of This Lady.

A few days ago I touched the button on the outer door of a pretty little house on Maple avenue, Los Angeles, Cal. I had scarcely heard the toning of the bell when a charming lady opened the door and inquired my mission. It was easily told. I had heard that Mrs. S. McKinney used a valuable home remedy, and I wished to know what she thought of it.

Mrs. McKinney is a refined, sweet-faced woman, not very voluble, yet charmingly frank. She said: "Yes, I have used the remedy of which you speak, and found it to be just what was needed. For some time I had been feeling out of sorts and was unable to do the little details of our home with any degree of ease or comfort. It may have been just a 'tired feeling,' or it may have been worse. At any rate I did not feel well and chance placed in my hands the means of relief. An acquaintance, having used Joy's Vegetable Sarsaparilla for rheumatism, told me that her rheumatism was almost entirely cured, and that Joy's Vegetable Sarsaparilla was the remedy used. By her advice I took the remedy, and the result is I am perfectly well and happy."

"So good do I feel that I am willing to give a testimonial for this remedy, and will be glad to give you my photograph as well."

MRS. S. MCKINNEY, 830 Maple avenue, Los Angeles, Cal.

"There are many ladies and gentlemen to-day who are suffering and who are just sufficiently sick to feel bad, and not sick enough to take to the bed. To all of these ladies and gentlemen I would say use Joy's Vegetable Sarsaparilla in moderation. Go according to directions on the bottle and you will certainly get better. So many remarkable cures have been effected by Joy's Vegetable Sarsaparilla, so many ladies and gentlemen have used it to advantage, that it is now the recognized family remedy, and may be seen in hundreds and hundreds of the best houses of the Pacific Coast. When you are in bad sorts use Joy's Vegetable Sarsaparilla. Don't allow the druggist to talk you into using anything else."

recent visit to Ireland have done much to revive handball there. The Herald says: "It is intended to hold a great conference in Cork next June of all lovers of handball throughout the world for the purpose of promoting the game and drawing up a code of rules to govern players. Ex-Alderman Dunne of Brooklyn, the well-known practical admirer of the game, has consented to assist in the conference."

All interest in local affairs is centered in the Kilgallon-Bonnet match. The first rub, played at the Occidental court on Wednesday night, has placed a substantial majority of credit of Bonnet. The clever amateur proved himself to be all that his friends claimed, as he played a cool and scientific game throughout. The second rub will be played next Wednesday night. Kilgallon proposes training during the week and does not consider the match anything like lost yet.

Jim Harlow, the coast champion, was an interesting spectator of the first rub. After the game he expressed himself as willing to play for a money contest, either for a trophy or a trophy. Either Kilgallon or Bonnet will accept the challenge, and if the latter is the man the match will be played for the gold medal offered by General W. H. Linnahan. At this conference following will be the principal games to-morrow: San Francisco court—George Hutchinson and Austin Hendry against P. Kelly and J. Slattery; J. Harlow (the coast champion) and J. Lawrence against C. Condon and M. Dillon. Occidental court—P. F. McCormick and Willie Jacobs against C. J. McGlynn and W. J. Henev; W. W. Ackerson and P. W. McGlade against John Farrell and T. J. Curley; T. E. Bonnet and A. C. Hampton against M. Currier and John Condon. Union court—James Dillon and W. Kelly against John Kiordan and T. McManus; J. Feeney and George Hutchinson against A. Fenner and B. Linnahan. At this conference there will also be a walking match between E. Power of Port Costa and John Kiordan.

THE BOXERS.

Gallagher is Training Hard for His Engagement With Turner.

Much interest is manifested in the welter-weight contest which will take place next Thursday evening at Colma between Charley Turner, the colored whirlwind pugilist of Stockton, and Billy Gallagher, the clever boxer, who was at one time the pride of the Oakland athletes.

As previously stated the match was postponed one week purposely to give Gallagher an opportunity to get himself into good shape, and, according to the quick manner in which he is developing condition, his friends can rely upon seeing him in good fettle when he is called upon to face the colored gladiator.

Turner has a reputation for laziness and it is only seldom that he can be induced to train properly for a contest. On this occasion, however, the clever boxer has surprised his old supporters by the system of training he has closely followed since he commenced to put on muscle, and to-day he is an "out as a lion" to enter a ring against any man. If he should lose he certainly cannot place his defeat to lack of condition because he has never been in finer form than now. The sports of Stockton have been shy of him in many of his fights of the past owing to his slovenly way of training, but on this occasion they will play him strongly against Gallagher because of his cleverness and fine condition.

Gallagher is, however, a dangerous man, even though he may be in only passable condition. His fight with Tracy, the clever Australian, a few years ago, convinced the sports that Gallagher required only experience to place him among the top notches of his class. He is as game as a game chicken and will remain before the enemy until thoroughly routed by a knockout blow. If Turner cannot polish him off inside of eight rounds the man from Oakland will most assuredly carry off the pot. However, the fight should prove to be the most interesting contest held under the auspices of the Colma Athletic Club.

BAY FISHING.

The Best Catches Have Been Made Near Lime Point.

Bay fishing near Sausalito is steadily improving. On Tuesday last George Coleman, the well-known angler, and companion, caught about 90 pounds of red and blue rockcod at Point Cavallo, the largest weighing 4 1/2 pounds, and several weighing over 3 pounds each.

On the same day James Wilson and two companions caught 12 pounds of red rockcod at Lime Point, the largest weighing 6 1/2 pounds, and eight of them over 3 pounds each.

On Wednesday Dr. Sandelin and two friends from Oakland caught over 100 pounds of red rockcod at the Lime Point fishing ground.

If people continue to respect the laws as they have done during the last six months game will be very plentiful in Alameda County, and will afford excellent shooting to those who are fond of the sport. Yours respectfully, J. L. DONOVAN, Fish and Game Warden.

HANDBALL.

Much Interest is Taken in the Kilgallon and Bonnet Match.

The poor showing made by Lawlor in the first rub of his match with Fitzgerald for the world's championship was a surprise to many.

It is said that the Spring Valley Water Company contemplates closing San Andreas Lake to anglers just as soon as the fishing will show signs of improvement.

A telegram which was received yesterday by John Butler, from a friend in Scotland, advised that a large party of anglers from San Francisco had just arrived, and great fishing is being enjoyed.

THE GUN.

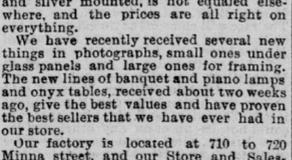

State Sportsmen's Shoot-Bagged Items From All Parts.

The State Sportsmen's Association will have a great inning at Sacramento this year. The fourteenth annual tournament will be held at the State fair grounds, commencing on September 7 and ending on Saturday, September 14. The Sacramento sportsmen have added \$250 to the \$250 donated by the board of directors of the fair, making \$500 in added money which will be competed for by sportsmen representing several of the counties of the State. The first day will be devoted to bluecock shooting, and among the slated events will be an interclub match consisting of three teams from the different clubs attending. On the days following, live-bird shooting will be the order.

Three Indians who are camped near Boca have been several days on the ground prior to the opening of the season. One of the natives killed, between August 1 and 15, 125 quail, which were sold to the residents of Boca, and the tourists who were visiting the Boca area. The Indians are notwithstanding that a Deputy Fish Commissioner was in the immediate vicinity of Boca at that time. It must be said, however, with credit to Deputy Davis that he did not allow the Indians to take any of the time the Indians were enjoying the slaughter of the innocents. Davis was in that country only a few days when he placed under arrest an alleged sportsman who had been seen several days on the town of Boca. The transgressor of the law was fined \$30. He now reads the game laws.
