BRANCH OFFICES: 850 Montgomery street, corner Clay; open until 9 o'clock.

ADVERTISING OFFICE: Pacific States Advertising Bureau, 314 Broadway.

MONDAY, SEPTEMBER 2, 1895.

THE CALL SPEAKS FOR ALL.

With the opening of the fall trade remember home products.

Will you labor to-day or keep labor day, that is the question?

Make yourself familiar with the Mechanics' Fair and then get ready for the State Fair.

The year has reached its fall and prices soon will rise while business hastes to find the man who knows how to advertise.

With the beginning of fall the Eastern man indulges the hope that the hum of industry will soon drown the hum of the mosquito.

If the War Department succeeds in the experiment of rubber heels for army shoes, perhaps the next step in advance will be pneumatic soles.

According to the New York Herald, Sunday in that city "is dry but not arid," from which we infer the people are thirsty, but water is plentiful.

It is evident there are some people in the East who will never believe that Cleveland cannot get a third term until they hear it affirmed in England.

"The Durrant Case in a Minute" is a feature of The Call that will save lots of time for busy people who wish to keep posted during the trial.

Hop prices are way down, but as the Chicago brewers have just added a dollar a keg to the price of the beer there must be money in the crop for somebody.

Tom Reed is not saying anything about politics in these days, but he recently told an interviewer that the ocean beach is the best place to learn to ride a bicycle, for if you take a tumble there it does not hurt you.

The Atlanta City Council is said to have passed an ordinance requiring all saloons to close at night during the Exposition, and the visitor therefore will have either to spend his evenings at the show or go to bed.

The Philadelphia Record is right in saying: "In Maryland, Missouri, Kentucky and Nebraska there is great danger of a succession of Democratic disasters"; but little things of that kind always help the country.

Coxey, who is running for Governor in Ohio, has been making his campaign speeches in Texas and Oklahoma, so it seems the old man really has tact enough to talk without irritating the people whose votes he wants to get.

Some experiments made by Professor Bailey at Cornell are said to have disclosed the strange fact that under the influence of electric light certain plants grow so rapidly they cannot absorb water fast enough to keep up with the growth.

The latest novelty in the way of camping entertainments is reported from Long Island, and consisted of six young ladies amusing the crowd by representing Presidential candidates. They did it by the simple process of sawing wood for a prize.

It is noted as one of the best proofs of the weakness of Tammany at present, that the State Democracy has just refused to have any affiliations with it, and it must be admitted that when the donkey feels brave enough to kick the tiger the tiger must be dying.

We may understand something of the glow and glory of politics in the East during the hot weather by the fact the Washington City Post has published an editorial on "Kentucky's Poolest," and expects everybody to understand it means Henry Watterson.

If the friends of Cleveland think the opposition to his re-election is due to the example of Washington in regard to a third term, they are very much mistaken. The Washington to teach them how to deal with men like Cleveland.

There is perhaps a good deal of significance in the fact that the three men who have been named as Democratic candidates for the Presidency without declining it—Olney, Campbell and Dickinson—have all been talking a great deal of late about the Monroe doctrine and a vigorous foreign policy.

A Brooklyn Justice named Tighe has distinguished himself by holding for the Grand Jury a policeman who made a bet on a horse race for the purpose of obtaining evidence against the men who sold him the ticket. Of course the gambling fraternity, praising Tighe, but otherwise he is having a hot time of it.

It is reported that the manufacturers of woolen and cotton goods in the East are about to start an agitation against sending abroad \$80,000,000 every year for such fabrics; and the report is a strange commentary on the wisdom of a people that need an agitation to instruct them or rouse them in a matter of that kind.

The Daily News is a journalistic venture which has come into existence at Santa Barbara for the purpose of riding the wave of prosperity which is sweeping down upon that charming little city by the sea. Its editor and proprietor, Frank Sands, is an able and accomplished man, and will contribute materially to the improved condition and bright prospects of Santa Barbara.

THE STATE FAIR.

The preparations for the opening of the State Fair at Sacramento to-day seem to have been conducted on an uncommonly generous scale. The list of entries for exhibits is large, and will include a wide range of new features illustrating the progress of the State during the past year.

Of course the races, being the most exciting and spectacular feature of the exhibition, are receiving at present the major part of popular attention, and the list of horses which have been entered for a long programme of races indicate that the events will be exceptionally interesting.

They will be in reality but a minor feature of the fair. This is an institution which brings annually under review an exposition of California's greatness. It is true that what can be brought under a roof is only a small part of all that makes the State what it is, but as a State institution it brings together, in a compact and easily comprehended form, the best of the individual achievements of Californians.

IS FRESNO APATHETIC?

It seems an unfortunate coincidence for Fresno that on the heels of its petition to the Railroad Commission for a reduction of freight rates on grain the local subscription committee working for the Valley road is meeting with some difficulty in collecting pledged subscriptions and securing new ones.

The Fresno Herald, Sunday in that city "is dry but not arid," from which we infer the people are thirsty, but water is plentiful. It is evident there are some people in the East who will never believe that Cleveland cannot get a third term until they hear it affirmed in England.

"The Durrant Case in a Minute" is a feature of The Call that will save lots of time for busy people who wish to keep posted during the trial.

consideration there appears to be such a variation from the normal as to convince the officers that the insane asylums, which are State institutions, should bear some of the burdens of the counties in the expensive, though comfortable, housing of vagrants.

There are a great many honest, sober and energetic men out of employment, and some of them may be driven now and then to beg. Such a case stirs pity in every generous heart. But the type of vagrants who employ the county jails as a convenient means of compelling the community to give them a living hell, they have no desire and make no attempt to earn, are serving to make the road of the deserving man out of employment all the harder to travel.

A CORRUPTION FUND.

It is hardly cheering to learn from the New York Sun that a heavy corruption fund is being raised by the Police Department of that city from members of the force for the purpose of securing legislation which shall prevent the proposed re-organization of the force.

It seems an unfortunate coincidence for Fresno that on the heels of its petition to the Railroad Commission for a reduction of freight rates on grain the local subscription committee working for the Valley road is meeting with some difficulty in collecting pledged subscriptions and securing new ones.

all the staple fruits familiar to other parts of the country. On the hills slopes one encounters orange orchards, and back of them, in the higher mountains, the great vineyards which send table grapes to the East, including the bold and gorgeous Flame Tokay, over which the Eastern heart rejoices.

PERSONAL.

Dr. W. S. Norman of Plymouth is at the Liek. E. C. Fendleton of the navy is at the Occidental.

Charles G. Lamberson of Victoria is at the Grand.

Ricardo S. Gutmann of Guatemala is registered at the Palace.

J. F. Colby, a mining man of Trinity County, is at the California.

T. H. Sinec, superintendent of Pacific Grove, is at the Grand Hotel.

J. R. Trayner, a fruit-tripper of Marysville, is a guest at the Palace.

John Roggs of Colma registered at the Palace yesterday.

Commodore D. W. Mullan of the Mohican is a guest at the California.

E. Dinkelspiel, a merchant of Bakersfield, is staying at the Occidental.

William P. Edwards, a street-railway man of Petaluma, is in the City.

O. B. Stanton of the Southern Hotel, Bakersfield, registered yesterday at the Palace.

N. V. Fredson, a fruit-tripper of Chicago, was a doorman yesterday at the Palace.

L. P. Lowe of the Echo Mountain House came in from Pasadena yesterday and put up at the California.

W. A. Frost and wife of Mexico are registered at the Palace. Mr. Frost is connected with the Mexican Central Railroad.

Theodore Paschoke of Guatemala, consulting engineer of the Guatemala Railway, is stopping at the Occidental Hotel.

Since his visit to this coast, Sir Charles Rivier Wilson has become engaged to the Hon. Violet Moxley, sister of the present Lord Vaux of Harrowden. The prospective groom is now in New York, but is expected to arrive in November, when the wedding will take place.
