

PLOT AGAINST DOLE.

Filibusters Are Said to Be Recruiting in Chicago.

CONSUL JOB'S DISCOVERY.

Private Detectives Watching the Movements of the Leaders.

ON THE EVE OF A REVOLT.

An Early Uprising in Hawaii Predicted in the Late Advises.

CHICAGO, Ill., Sept. 4.—Consul Job of Hawaii has discovered a plot to overturn the republic of Hawaii and either restore Liliuokalani to the throne or set up a new government. Filibusters are being recruited in Chicago for this purpose. A private detective agency is said to be tracing the leaders of the movement, and at the first attempt on their part to make a hostile demonstration they will be arrested.

Since his appointment as Consul for Hawaii Mr. Job has been sounding public opinion as to its attitude toward the struggling republic. In connection with some colonization schemes which the republic proposes to set afloat in Chicago and other American cities at an early date he discovered that men of some prominence here and elsewhere had already inaugurated a plan to organize here a body of men to go to Hawaii and overthrow the present Government.

They were to be recruited in Chicago, shipped to various points on the Pacific Coast, gradually gathered into one or two large vessels, armed and set sail for Hawaii.

The recruiting has gone so far that an ex-Confederate officer had been offered a commission in the army to be formed.

Dispatches from San Francisco indicate that the formation of an army in Chicago has already been learned there, and Charles F. Wilder, Hawaiian Consul, will keep a close lookout for filibusters who may attempt to embark from that point. The prompt action of Consul Job may squelch the thing without the attention of this Government being called to it.

Other advisers than those of Consul Job are to the effect that Hawaii is on the eve of a revolution. It is predicted that if annexation does not occur there may be an uprising.

The leader of the party which is being formed is supposed to be a man of some means. His name and that of the principal conspirators are withheld by Mr. Job, who fears their use might defeat justice. Chicago seems to have been chosen as the base of operations, because of all cities it contains the most promising material for an expedition of that kind.

The men going as recruits were to receive free passage, arms and allotment of lands after they had accomplished their purpose.

Consul Job looks at his discovery in a serious light. When asked about his information this afternoon he said:

"I did not intend to make this public at present, for I have not found out all that I wish to, but the report is correct. I have unearthed a deliberate plot to organize a well-armed body of men in this city, officer them with men of intelligence and means, and embarking from some point on the Pacific Coast, sail for Hawaii and overthrow the Government and am taking prompt action here to head off the schemes and expose the leaders. In a day or two I hope to know everything. Who is the inspiring factor of the plot I do not know.

"A strong effort is being made to place the whole administration on a sound, business basis. The republic is out of debt and there is several hundred thousand dollars in the treasury. The army is now three or four times as large as it was under the Queen, better disciplined and better armed. Any filibustering party would meet with a hot reception.

"It has been known for some time that in other American cities efforts have been made to form filibustering parties against Hawaii, but I did not suspect such action was being taken here until I discovered what I have within the last few days. No more favorable spot for securing adventurous men could be found and I have no doubt if I had not learned of the scheme it would have been successful so far as securing recruits is concerned."

CAUGHT IN A HURRICANE.

Vessels on the Gulf Coast Thought to Have Gone Down.

Havoc of Wind and Lightning in Portions of Indiana and Illinois.

SAN ANTONIO, TEX., Sept. 4.—Reports continue to come from Northern Mexico and along the Gulf coast of Southwest Texas showing that the recent storm was the most devastating for many years.

Traffic on the Mexican railroad north of Monterey is still entirely suspended, as ten miles of track and a number of bridges have been washed away. The Monterey and Mexican Gulf railroad also suffered heavy loss.

Many small houses were demolished at different points. Several coast vessels were caught in the hurricane, and are believed to have been wrecked and their crews lost.

BETRAYED HIS FATHER.

How the Brandon Gang of Counterfeiters Was Run Down.

A Son of the Leader Aspired to Be a Detective and Revealed the Mint.

ST. LOUIS, Mo., Sept. 4.—Alfred Henderson, the last member of the Brandon gang of counterfeiters, was placed in the St. Louis jail to-day by Deputy United States Marshal Charles Quail. Henderson, like the Brandons and Rish, lived in the swamps of Dunklin County, Mo., on the St. Francis River, four miles from Holcombe.

The other members of the gang under arrest are John Bando and his son Alonzo, and John and Russell Rich, brothers. They manufactured spurious coin at the cabin of John Brandon, which was in the center of a cornfield, and well guarded by vicious dogs. Under the flooring of this cabin molds to manufacture dollars, dimes and nickels were unearthed, as were also \$175 in counterfeit silver dollars and about \$3 in counterfeit nickels and dimes, discovered by Marshals Hall and Quail.

Alonzo Brandon, who aspired to be a detective, is the cause of the gang being behind the bars. He wanted to be a great detective, joined an alleged detective agency and informed the United States authorities of what his father and the Richs and Hendersons were doing. Their coinage was almost perfect and has circulated freely for two years in Southern Missouri and Northern Arkansas.

CRITTENDEN'S CAR PLUNDERED.

Furnishings of the Philanthropist's "Good News" Stolen by Thieves.

CHICAGO, Ill., Sept. 4.—The traveling car "Good News," owned by Charles N. Crittenden, the founder of the Florence Crittenden missions, was plundered while standing in the yards of the Wisconsin Central Railway in this city Tuesday night, over \$1600 worth of furnishings being stolen. The car was formerly owned by E. B. Goff, the evangelist, who has received financial support from Mr. Crittenden in his work. Crittenden paid Goff \$10,000 for the car and sent it to the shops for refurbishing.

The thief filled a wagon with the contents, taking even the table, bed linen, mattresses and an organ. Goff suspects Howard Reilly, formerly an engineer on the Northern Pacific, who claimed to have been converted, and the police are looking for him.

IRENE COIT MARRIED.

She Was the First Woman to Enter Yale College.

NEW LONDON, CONN., Sept. 4.—Miss Irene Coit, daughter of the late Brigadier-General James Coit, was wedded at Norwich yesterday to Henry Bronson Graves, Postmaster at Geneva, N. Y. Miss Coit has the distinction of having been the first girl to pass the examination for admission to Yale College.

An old Puritan precedent prevents females from becoming students in the university, but she received her certificate. Miss Coit knew of this prospective edict of the early collector when she tried for the examination, and did not expect to become a student. Nevertheless she wished to prove that girls are equally capable with boys in a struggle for classical honors.

WILL NOT BE PARDONED.

The Bogus Lord Beresford Must Serve Out His Sentence.

ATLANTA, GA., Sept. 4.—Governor Atkinson has refused to pardon Sydney Lascelles, commonly known as Lord Beresford.

Lascelles struck Georgia about five years ago and pretending to be the representative of an English syndicate, duped parties at Rome, Ga., out of several hundred dollars. Lascelles has a wife in New York who is now suing for a divorce. Her family opposed the application for a pardon.

A year ago Lascelles escaped from the penitentiary camp, and when found was in a resort of questionable repute in Americus. His conduct in that house is made the ground for divorce. Mrs. Lascelles is said to have inherited \$2,000,000. "Beresford" has three more years to serve.

To Foreclose on a Railroad.

TOPEKA, KANS., Sept. 4.—In the United States Circuit Court to-day suit was begun to foreclose two mortgages against the Omaha and Republican Valley Railroad, which extends from Valley, Neb., to Manhattan, Kans. The suits are brought by the American Loan and Trust Company. One is to foreclose on a mortgage of \$3,316,000 and the other one of \$1,246,000.

agreedly surprised at the many new features which have been introduced by the exhibitors of 1895. The exhibits on the main floor are fully completed, and the interior of the building under the glitter of the electric lights and decorations is a perfect dream of beauty.

In a prominent place at the entrance of the north wing of the Pavilion is the display of fruits and products raised within the limits of Sacramento County. The main feature of this exhibit is a model of the State Capitol, which has been reproduced with its accompanying display of luscious fruit preserved in jars of unique design. So perfect is the fruit that one is led to believe that it has just been plucked from its leafy home in the orchards and vineyards of this favored portion of Golden California.

Against the snow white dome of the structure are rows of vari-colored jams and jellies, which sparkle and gleam like amber against their white background. Within the interior of the building there is a long range of shelving containing plates loaded with plump, ripe fruit garnered from the vast vineyards and orchards of the Sacramento Valley. Here side by side are ranged golden oranges, so freshly plucked that the leaves have not even wilted, great green apples showing in vivid contrast with their yellow-hued neighbors, purple clusters of luscious grapes are side by side with great flaming bunches of their Tokay brethren, while French prunes and late pears add tone to the vivid colors of the rest.

Just above the front entrance of the building is a perfect fac-simile of the great seal of the State, which has been worked in full detail out of dried fruit by a

It is fully expected that at least 10,000 participants will be in line, and local members are exerting every effort to do full justice to the city's well-earned reputation for bounteous hospitality.

One of the features of the elaborate decorations that are being assumed in honor of its expected visitors is an immense representation of a grizzly bear, which will be placed on the front of the State Capitol building. In the evening a blaze of electric light from 250 incandescents will be thrown on the figure. It will be fifteen feet in height and twenty-five feet in length.

The address of welcome will be delivered by Mayor Steinman and be responded to by F. H. Dunne, grand president of the order. Over thirty bands will participate

Partial Home Rule to Be Granted Whenever the Strife Is at an End.

PHILADELPHIA, Pa., Sept. 4.—Dr. Jose Congesto, the Spanish Consul for several States, who is stationed at this port, issued a formal statement of Spain's attitude toward Cuba this afternoon. phasizes the fact that the mother country awaits only the return of peace to put into operation the law recently passed, granting the island partial, if not complete, autonomy. In the interest of peace, he says, the winter campaign will be short, sharp and decisive—a course of action which it is hoped will summarily end the drain upon Spain's resources and prevent the continuance of bloodshed. The statement is as follows:

"There is no question that the condition of affairs in Cuba has long presented features which required correction. Spain has recognized the imperative need of reform quite as keenly as the Cubans themselves; and, recognizing this need, she has long ago set herself about satisfying it. The law granting Cuba partial autonomy was passed months ago, not only by the Conservative party, which opposed it, but also by the Carlists and the Republicans. It would be remarked as a curious coincidence that no sooner did it appear as

CLAIM AGAINST SPAIN.

Indemnity Will Be Demanded for the Confiscation of an Estate.

Property of Senor Agramonte Seized by Spaniards in Cuba Must Be Restored.

NEW YORK, N. Y., Sept. 4.—Another claim of as much importance as the Mora indemnity is going to be presented by the United States Government before the Government of Spain in a demand for the restoration of the property confiscated by the Spanish during the last war from Martin Castillo Agramonte, an American citizen.

Like the Mora claim, the case has been the subject of no small correspondence between the two Governments, and it was rumored late in Havana that owing to the demands made by the State Department at Washington the Agramonte claim would be paid immediately after the settlement of Mora's claim.

One year ago the prospects of a settlement were so bright that a Spanish capitalist came all the way from Madrid to New York and tried to buy Senor Agramonte's claim. Agramonte refused, stating he had his case in the hands of the State Department at Washington.

Seven months ago Mr. Agramonte died, leaving five daughters, one of whom is married to Senor Miguel de Morales of that city. The claim is for the amount of \$1,500,000, with interest.

SICKNESS LED TO SUICIDE.

Sad End of William S. Goodwin, Formerly a Successful Miner.

KANSAS CITY, Mo., Sept. 4.—Because he had been sick for a long time and unable to work, William S. Goodwin, son of William C. Goodwin, a well-known contractor of this city, committed suicide in his room last night by shooting himself in the temple. He was not discovered until this morning. He was married, his wife managing a plantation in Louisiana.

Prior to moving to Arcola, La., Goodwin was a clerk in a St. Louis bank, next in the Odd Fellows' Bank of San Francisco, and last in the First National Bank of Omaha, Neb. His father believes that his business was due to hard work in those banks.

CRIME OF A PASTOR.

Preacher Hinshaw on Trial for Wife Murder.

MUTTERINGS IN COURT.

Hatred for the Prisoner Was Freely Expressed by the Spectators.

HISTORY OF THE HOMICIDE.

An Attachment for an Heiress the Cause of the Alleged Crime.

DANVILLE, IND., Sept. 4.—Rev. William F. Hinshaw was arraigned in the Circuit Court at this place this morning, charged with the murder of his wife Theresa at Belleville on the night of January 12. As the defendant, accompanied by his family, was brought into court great excitement prevailed, and mutterings of "There goes a coward" and kindred expressions of hatred were heard.

The defendant's counsel filed a motion to quash the indictment, which was overruled by Judge Hadley. The defendant then entered a plea of not guilty. The entire day was consumed in the attempt to secure a jury.

The Hinshaw homicide was the most sensational in the criminal history of the State. He was pastor of the leading Methodist church at Belleville and connected with the wealthiest family in the city and is accused of murdering his wife because of an attachment for Allie Ferrer, the wealthiest and prettiest girl in the vicinity. His accuser is Detective H. C. Webster of Indianapolis, who worked for the \$4000 reward offered for the detection of the murderer.

The case was shrouded in mystery at first, as every one believed the preacher's statements that robbers killed his wife and wounded him on the early morning of January 12. Webster narrowly escaped being lynched when he caused Hinshaw's arrest, but subsequent developments aroused interest in the detective's claims until now two-thirds of the people believe Hinshaw is guilty.

COLLAPSE OF A TOWER.

Workmen at the Illinois Fair Grounds Buried Under Tons of Brick.

Two Men Killed and Seven Badly Injured the Result of the Catastrophe.

SPRINGFIELD, ILL., Sept. 4.—The brick tower at the southwest corner of the new machinery hall at the State Fair grounds collapsed this afternoon, carrying down part of the roof and balcony and burying several men. All but one were taken out alive.

The accident was due to the softening of the mortar in the walls by the heavy rain-storm last night. The bricklayers had been taken off the building a few minutes previous to the collapse, having just finished it to the rafters, and but for this fact the mortality would have been greater. The men at work were carpenters and plumbers.

The dead are: Henry Hobson, plumber; James Parks, carpenter, died after being taken out.

The injured are: Charles E. Bromwell, water-boy, both legs and arms and several ribs broken, will die; Nelson Williamson, carpenter, both legs broken; Samuel Davenport, boss carpenter, badly bruised falling bricks; Fred Beard, carpenter, badly bruised and arm broken; Jimmy Clancy, slate-carrier, leg broken.

HOOTING THE TROOPS.

Bitter Feeling Against the Militia at Ishpeming.

ISHPEMING, WIS., Sept. 4.—The feeling against the militia and the mine managers is very bitter to-night. Imported workmen are met at the depot by troops and but for the protection thus given the men would fare badly. The Houghton company escorted ten imported workmen from the station to the mines to-day and an immense crowd gathered and howled itself hoarse about the troops. Superintendent Thomas F. Cole of Negaunee paid a \$50 fine to-day for slapping the face of a delivery-boy yesterday. But for Mayor Foley and cooler-headed miners Cole might have been lynched last night. The strikers are hungry and desperate, and while they will not attack the soldiers a very trivial cause might bring about dangerous riots at Ishpeming and Negaunee.
