CHICAGO MARKETS.

CHICAGO, ILL.. Sept. 26.-The "shorts" in wheat scant. This led to firmness at the opening and to a slight advance during the first few moments, after which the market fell into a condition of in activity, with prices holding at about one quotation throughout the morning. There was no trading worthy of note and the news was confined to the routine announcements. The Cincinnati Price Current reported restricted offerings of winter wheat at interior points. Receipts at Duluth this morning were 31 cars, and at Minneapolis 721. Chicago had 69 cars and inspected out 40,729 bushels. Liverpool opening cables were lower, but firmness rules at the decline.

The latter part of the session was remarkable for the distinct strength, local bulls exerting themselves and forcing an advance of over 1c from the point stained during the morning. December wheat opened from 1914; to 594/cc. advanced to

secure. With that assured the trade relies now on the consumptive demand. Prices rule so low at the present time that few feel like assuming an agressive attitude against them. Liverpool cables were lower. Receipts were 499 cars, 111 less than expected. Withdrawals from store, 157,201 bash els, and 88,226 bushels cleared at the seaboard. May corn opened at 29½c, sold between 29@29½c and 29½c, closing at 295½c—½c higher than yesterday. Estimated receipts for to-morrow, 720 cars.

Provisions—Of product there was nothing particular to say. All articles were firm, the October
delivery particularly so. This would indicate that
"shorts" were liquidating. That, in fact, was the
character of the greater portion of to-day's business. The hog market was strong, which, assisted
by wheat, gave some aid to provisions. October
pork closed 17½c higher; October lard 2½c higher

CALIFORNIA FRUIT SALES.

CHICAGO, ILL., Sept. 26 .- California fruit sold fessional. At the opening the industrials were strong, especially for sugar and *tobacco. Sugar rose about a point to 108%. The refusal of the governing committee to take definite action in the matter of damage and regular statements from the company has been favorably construed by operators. Tobacco jumped to 102½, a gain of 13% per cent on covering of shorts.

Distilling and Cattle Feeding, on the other hand, was weak and fell 1½ to 225%, the reports current yesterday that the Greenhut-Morris crowd and the present management had reached an amicable arrangement having failed to materialize. The Grangers were prominent for a while and scored slight gains, the August statement of the St. Paul having been the favorable influence at work. Reports of a further advance in the price of

Summer or Winter the Santa Fe Route is the most Comfortable railway, California to the East.

A popular misbelief exists regarding the heat in Summer. The heat is not greater than is encountered on even the most northerly line. This is well known to experienced travelers.

The meals at Harvey's Dining Rooms are an excellent feature of the line. The Grand Canyon of the Colorado can
