

THE M. E. CONFERENCE

Second Day of the Exercises Held at Pasadena.

MANY LAY DELEGATES.

Addresses by Clergymen From Different Parts of the Country.

BISHOP WARREN PRESIDED.

The Question of Admitting Women to Be Decided in the Conference.

PASADENA, CAL., Sept. 26.—The second day of the M. E. Conference opened with devotional exercises at 8:30 a. m.

Bishop Warren called the meeting to order and the rollcall showed an increase in the attendance of members over yesterday, 145 ministerial members and 99 lay delegates being present.

A resolution was adopted commending Rev. I. R. Lovejoy, who has been transferred to the Puget Sound Conference.

The credentials of Rev. S. H. Brown as a clergyman of the M. E. church were restored to him and he was reinstated.

Reports showed an enormous increase of the missionary collections.

Pasadena's report showed \$700 raised for missions and Riverside \$1000. The expenses of the College of Liberal Arts at West Los Angeles exceeded the receipts \$780.

An enlarged endowment was announced as necessary. Rev. Dr. Homer Eaton, D. D., of New York addressed the conference on the work of the Methodist Book Concern.

Rev. Dr. W. S. Matthew, editor of the California Christian Advocate, made an able address upon the importance of supporting church periodicals.

The result of an informal ballot for directors was as follows: E. S. Chase, J. B. Green, W. A. Knighton, G. I. Cochran, T. C. Hoag, D. M. Welch, A. E. Pomeroy, B. C. Covey, E. A. Healy, Clark Crawford, S. A. Thompson, G. W. White, A. M. Houch, A. C. Williams, W. A. Wright.

At 10 a. m. the wives of the ministers held a symposium and discussed "The Duties of Ministers' Wives."

Dr. C. C. McLean of Los Angeles addressed the women on the value of the wife to the minister and to the church.

The afternoon session was devoted to Sunday-school work. Addresses were made by Dr. F. A. Seymour on the relation of the church to the Sunday-school and the relation of the Sunday-school to the church, and by Rev. C. A. Westenberg on "The Future Sunday-school."

The evening session opened in the tabernacle with an increased attendance over yesterday evening, notwithstanding the fact that a campfire entertainment was in progress at G. A. R. Hall, given in honor of the members of the Union Veterans' Association of Southern California.

Twenty-five members being Methodist Episcopal ministers present at the conference. The evening was devoted to Woman's Home and Foreign Missionary societies and addresses were made by Rev. George W. White, Mrs. J. W. Van Cleave and Bishop Warren.

The two issues which make this conference of more than ordinary interest will be the election of lay delegates to attend the General Conference in Cleveland, May, 1896, and the question of admitting women in the General Conference.

On the latter matter a vote will be taken and a consensus of opinion gathered from all the district conferences will be sent to the General Conference to decide the matter. These questions have not yet been touched upon. The campfire entertainment was of a social nature and was a sort of reunion. A musical programme was rendered, refreshments were served, speeches were made and a general informal reception held by members of the John Godfrey Post, G. A. R., the W. R. C., Ladies' Aid Society of the Sons of Veterans, and Sons of Veterans.

THEIR COUNTER ATTRACTION. Pasadena Residents Encountering a Wave of Moral Reform.

PASADENA, CAL., Sept. 26.—As a counter attraction to the M. E. Conference Pasadena is being treated at this time with a great wave of moral reform, originating with the members of W. C. T. U. and I. O. G. T. and under the auspices, for the most part, of the U. E. church, which has raised at its church services very considerable sums of money to carry on the work, being seemingly desirous of washing Pasadena's dirty linen in public upon this inauspicious occasion.

The arrest of a large number of druggists for violating the liquor ordinance, and whose trials have been in progress during the past week, has been followed by the arrest to-day of two men for keeping gambling-places (all that could be found here), and fifty half-grown hoodlums for participating in a percentage game. All this is an unsavory expose at this time, and suggests to visitors the idea that Pasadena is a hotbed of vice and iniquity while in truth Pasadena is one of the most moral, quiet and peaceable abiding-places upon the face of the earth.

Local papers are severely condemning the methods pursued, and the better class of citizens prophesy that the tyrannical despotism of fanatical cranks will bring about a reaction in Pasadena which will end in high license. The public pulse is at fever heat; the present situation is the general topic of conversation, and the only outcome of the attempt at reform thus far is to arouse antagonism and sow discord.

ATHLETIC CLUB QUARRELS. Proposition to Throw a Match Makes Trouble at Los Angeles.

LOS ANGELES, CAL., Sept. 26.—There was no exhibition at the Angel City Athletic Club rooms this evening. In fact, there is some doubt as to whether there will ever be any more contests before that club. The whole difficulty has been brought about by a proposition Fred Bogan made to George Arbuckle, the backer of Jack Frazier, to throw his match with Frazier and allow the latter to win.

charges against Bogan are not disproved it may result in the disruption of the club. Already some members have resigned. It seems strange to them that a square fight cannot be put up in this city.

BRUTAL ASSAULT. H. A. Lowell Attacked by a Barkeeper at Los Angeles.

LOS ANGELES, CAL., Sept. 26.—C. M. Peters, a bartender, was arrested this morning at the instance of H. A. Lowell, who charges him with assault with a deadly weapon. According to the statement of Lowell, the assault was a most brutal and cowardly affair.

He states that in company with a friend he went into a saloon on South Main street, near Winston, formerly the Senate, and called for a glass of beer.

He was standing at the bar when a drunken man challenged him to fight. The trouble was easily adjusted and Lowell stepped to the telephone, he says, to order a guard, when, without the least provocation, the bartender came from behind the bar and struck him with a piece of leadpipe about eighteen inches long, felling him to the floor.

Peters was taken before Justice Morrison and ordered to furnish bail to the amount of \$1000.

AFFRAY AT SANTA MARIA. Thomas Hanley Seriously Shot by J. Brugge.

SANTA MARIA, CAL., Sept. 26.—An attempted murder occurred to-day about a mile and a half from here wherein Thomas Hanley, an old resident, was the victim. The assault was committed by J. Brugge, a hired man. He fired at the old man with a double-barreled shotgun while Hanley was doing some repairs around the house. Three shots, two of which struck the shoulder and the second missed him. Hanley then ran across to a neighboring ranch and was brought to town. Officer Klink was sent after the murderer, who was captured and brought to jail. Threats of lynching were indulged in, as the old man was very quiet and inoffensive, while Brugge has a very bad reputation. The latter is the brother of the murderer who recently escaped from the Santa Rosa jail. It is thought that Brugge was after the old man Hanley's money. Hanley is expected to live. The two men have had several quarrels before.

SEATTLE COUNTERFEITERS

Jake Terry, a Cowboy, and His Accomplice, David Dixon, in Custody.

One an Ex-Convict and Member of the Seattle Police Department.

SEATTLE, WASH., Sept. 26.—A notorious cowboy, Jake Terry, and an accomplice named David Dixon are under arrest, the former in this city, charged with counterfeiting. A complete and costly outfit was found by Deputy United States Marshals, who apprehended the law-breakers, in the possession of the accused.

For several months the small towns in Snohomish and other counties bordering on the British Columbia line have been flooded with spurious coins and the Federal officers are confident that they have apprehended the men responsible for the work.

The dedicatory services were held two weeks ago, when the members of the Grand Lodge were present. To-morrow the Workmen and their ladies will formally open the new hall with a grand ball. The board of directors of the new building are James Stanley (president), S. Ehrman, Thomas Bedard, H. Dusterberry and John Coffey.

SANTA ROSA SENSATION. Starkey, the Stabber, Fails to Show Up in the Court.

His Bond Is Forfeited and a Bench Warrant Issued by Judge Crawford.

SANTA ROSA, CAL., Sept. 26.—A sensational phase was put in the case of the People vs. G. W. Starkey of Petaluma, which came up in court here Thursday. It was caused by a peremptory order issued by Judge Crawford for a bench warrant for Starkey.

Starkey was accused of stabbing a man named Mahew, also of Petaluma. He was charged with an assault with a deadly weapon and when arrested was taken before Justice Scudder, who fixed his bail at \$500 and released him on his own recognizance. He failed to appear on September 18, when his preliminary examination was to have been held, and it was continued to September 23, when he again failed to appear.

The matter came up in Judge Crawford's court Thursday and he again failed to appear.

LOS ANGELES COUNTERFEITERS. Ormandy Pleads Guilty and His Wife Goes Clear.

LOS ANGELES, CAL., Sept. 26.—Mrs. M. V. Ormandy was acquitted this morning of a charge of passing counterfeit coin. It was shown that though her husband was engaged in the manufacture of spurious coin in the same house, yet they occupied different rooms, and the husband kept his room locked and the wife never went into it.

Another indictment charging her with having in her possession molds of coin was dismissed. The husband of the woman, J. H. Ormandy, pleaded guilty and will be sentenced Monday. There are three indictments against him, all connecting him with the manufacture and possession of counterfeit coin.

RUN DOWN AT VACAVILLE. Josh Rust and a Boy Named De Haven Injured by a Train.

Their Horses Took Fright and Ran In Front of an Engine.

VACAVILLE, CAL., Sept. 26.—Quite a serious accident occurred at Elmira about 4 o'clock this afternoon. As the engine of the Vacaville train was backing down to the train a wagon occupied by Josh Rust and two boys was near the crossing.

The horses became frightened and ran on to the crossing. Thinking they could save themselves, the occupants of the wagon jumped out. Mr. Rust and one of the boys, about 16 years old, named De Haven, falling on the track.

The engine came upon them, injuring the De Haven boy so that one arm had to be amputated at the shoulder, the other above the elbow. His wounds may prove fatal. Rust had one finger taken off, his head cut, and it is thought he is internally injured. He will probably recover.

OREGON M. E. CONFERENCE. Women Will Be Admitted as Ministerial Delegates.

PORTLAND, OR., Sept. 26.—At to-day's session of the Oregon Methodist Episcopal conference delegates voted unanimously to change the reading of a restrictive rule regarding the ministerial delegates to the General Conference by striking out "male members only" and making it read, "Delegates may be men or women." The delegates will be elected to-morrow. Roseburg was selected as the place of holding the conference next year.

AT MISSION SAN JOSE

New Hall of the Ancient Order of United Workmen.

BUILT BY NATIVE SONS.

Some Striking Features of the Old Pioneer Architecture Displayed.

GRAND OPENING NIGHT BALL.

The Seventeenth Anniversary of the Lodges to Be Very Properly Celebrated.

MISSION SAN JOSE, CAL., Sept. 26.—The Ancient Order of United Workmen's new hall, the first of the order in this county, will be formally opened to-morrow night, the seventeenth anniversary of the order in this town.

For seventeen years the Mission San Jose Lodge has gradually grown and all that time it has held its lodge meetings and entertainments in a rented hall lacking many of the conveniences so acceptable to fraternal societies. About a year ago the members concluded that it would be a wise move to build a hall that would be their own. The idea became popular, and the necessary encouragement and coin were soon on hand.

There is still a little outside ornamental work to be done, but the new hall is now available for all the purposes for which it was built. Very few of the lodges of the Ancient Order of United Workmen have lodgerooms of their own and the Mission lodge acknowledges that it is rather proud of its own enterprise.

The outline is simple, with a tinge of the old mission style about the cornice and roof. The projections at the sides of the main entrance, with tiled roof, are stronger features of the same style. The interior is very pleasing, all the large rooms being elegantly decorated, conveniently arranged and well lighted.

The plans were drawn by A. L. Sunder, architect, and the contract as a whole was let to James W. Turner. Both architect and contractor are local workmen and natives of the Mission, and much satisfaction has been expressed with their work.

The dedicatory services were held two weeks ago, when the members of the Grand Lodge were present. To-morrow the Workmen and their ladies will formally open the new hall with a grand ball. The board of directors of the new building are James Stanley (president), S. Ehrman, Thomas Bedard, H. Dusterberry and John Coffey.

It is thought that Brugge was after the old man Hanley's money. Hanley is expected to live. The two men have had several quarrels before.

OREGON M. E. CONFERENCE. Women Will Be Admitted as Ministerial Delegates.

peared that day, and afterward a search was made, but no trace of him could be found. As he had been paid off it was thought he had gone to some other locality. It seems, however, that he had followed a hunter's trail to the top of the mountain between the Sonoma and Napa valleys directly from the home. He stuck his eyes near the trail with a handkerchief upon it in which were the strange letters he wrote.

He then went to a bald peak near where there were only three or four pine trees, made a bed of brush, upon which he lay down and took the quick-acting dose of poison which ended his life. The body when found the other day rested on the back, the bat pulled over the eyes, which had not been disturbed.

Although he died considerably, but no animal or bird of any kind had disturbed it in its long exposure. The body was buried, as he requested, where found and a large stone placed over it.

It is quite a remarkable suicide. Those who knew the man believe he had a secret and at some time in his life had been more than he seemed.

RIVERSIDE RAISINS. Picking Has Commenced Though Not on an Extensive Scale.

RIVERSIDE, CAL., Sept. 25.—Raisin grape picking has commenced, thought not on a very extensive scale as yet. The crop this season is only medium in quantity, but good in quality.

The present warm weather is very welcome to grape-growers, for it is just this kind of weather that is needed to ripen and sweeten the fruit. Several weeks of good warm weather will be welcomed now by grape men as it is required to insure a proper curing of the raisins.

The raisin crop of this city is not near as large now as a few years ago, owing to the fact that many vineyards have been uprooted, yet this valley will have many carloads to ship.

OCEAN WAVE COLLISION. Examination Into the Cause in Progress at Portland.

PORTLAND, OR., Sept. 26.—United States Inspectors of Steamboats Edwards and McDermott are conducting an investigation into the collision between the Ocean Wave and the yawl Ranier, which was run down on the Columbia River on the night of August 18 and by which two lives were lost.

There is a large attendance at the examination, and on the second day of the inquiry a mass of evidence was taken. It is evident that civil proceedings for damages against the Ocean Wave Company will follow a conclusion adverse to the steamer. The testimony adduced showed that at the time of the accident the yawl was not showing lights.

IT THUNDERED LONG AGO.

An Ancient Spanish 12-Pounder Abandoned to Sands and Tides.

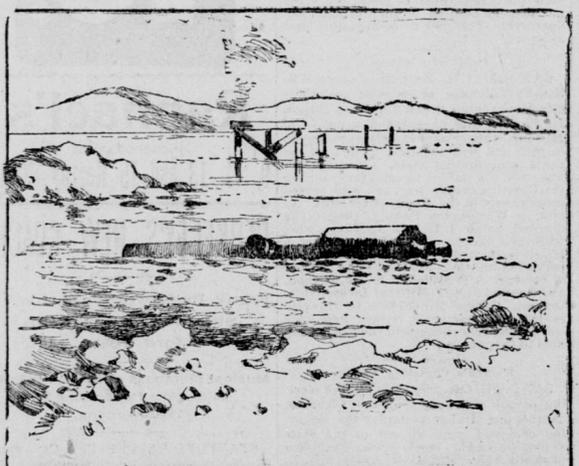

Over a Hundred Years Ago It Fired the First Salute Heard on the Bay.

An old bronze cannon of Spanish make lies on the beach at Alameda Point half sunken in the sand. Its cumbersome carriage has been stolen or has rotted away. The tide buries it continually deeper, and soon if left there to the effacement of the sea it will be lost to sight and to memory.

And yet this particular cannon, without doubt, was one of the two that rang out across the bay the first artillery salute that the bay ever heard. This salvo was fired in September, 1776, precisely 119 years ago. It was to celebrate the completion of the Presidio, on which the soldiers of Moraga had been working nearly a year. Just beyond the point was anchored the ship San Carlos—first to enter between the pillars gates of San Francisco Bay—and her guns answered the uproar from the land.

The San Carlos brought along with the supplies from the Presidio at Monterey two cannons. These were placed on the ramparts of the fort that lay next to our present Presidio on the western side. After the San Carlos brought six more guns of larger caliber. These were for the Castillo de San Joaquin, and they now occupy prominent places at Fort Mason where the old relics stand pointing across the water like veterans in their dotage. They would be useless for defense, but they are martial and picturesque monuments of the old Spanish days. They are the marks of the foundation-stone of San Francisco's history.

In the Presidio, there is now only one piece of Spanish ordnance. Its companion is across the bay behind a woodpile where the high tide covers it. When and how the gun was taken from

THE OLD SPANISH GUN ABANDONED ON THE BEACH AT POINT ALAMEDA.

its old stand is a matter of speculation. It is thought, however, that several years ago Captain Zalinski, who was then evolving the gun for his dynamite gun had it taken from one of the forts to Alameda Point, and used it for experimental purposes. Guns that it stood beside a hundred years ago now occupy places of honor. It was forgotten. The North Pacific Coast Railroad runs within twenty feet of the place where it lies, and the labor of transferring it to the place from which it was taken would be very slight.

THE GLEN ELLEN SUICIDE. Body of Renee, the Missing Man, Found on a Bald Peak.

SANTA ROSA, CAL., Sept. 26.—Judge Overton has returned from the Glen Ellen Home, of which he is a director, and gives some further particulars of the suicide of Renee. Renee had been employed at the home about a year. He was a Frenchman, who had evidently received a superior education and was an all-around useful man. He was specially well up in chemistry. Last month he left the home and told some persons there they would never see him again as he contemplated suicide. They did not pay much attention to him as they supposed he was joking. He disappeared that day, and afterward a search was made, but no trace of him could be found. As he had been paid off it was thought he had gone to some other locality. It seems, however, that he had followed a hunter's trail to the top of the mountain between the Sonoma and Napa valleys directly from the home. He stuck his eyes near the trail with a handkerchief upon it in which were the strange letters he wrote.

He then went to a bald peak near where there were only three or four pine trees, made a bed of brush, upon which he lay down and took the quick-acting dose of poison which ended his life. The body when found the other day rested on the back, the bat pulled over the eyes, which had not been disturbed.

Although he died considerably, but no animal or bird of any kind had disturbed it in its long exposure. The body was buried, as he requested, where found and a large stone placed over it. It is quite a remarkable suicide. Those who knew the man believe he had a secret and at some time in his life had been more than he seemed.

THE DAY DISTRICT RACES.

A Mixed Day's Racing, in Which the Talent Were Slightly Worsted.

TWO FAVORITES IN FRONT.

If There Was a Doubt, Rosebud Convinced Skeptics She Could Run a Mile.

Frank Taylor is daily expecting the arrival of Happy Day, Cicero, My Luck, a pony named Duke, recently purchased by Sam Hildreth. The horses left New York on the 12th of the present month.

By the steamship Alameda that arrived yesterday from Australia, the well-known turfman, E. B. Lopez, in receipt of several conditions to his Merriwell stock farm situated near Pleasanton. Four finely bred broodmares and four young fillies, the latter the gift of First Water, a son of Fireworks, were brought up in charge of his son, H. S. de S. Lopez.

The horses of J. G. Brown & Co. that arrived in Sacramento from the East prior to the State Fair came down from the Capital City yesterday and are now quartered at the track. Their owners, the popular horsemen, Glenn Brown and John Arkenburg, were busy all day renewing old acquaintances. There are nine horses in the string, including the crack sprinter, Libertine, with a mile record of 1:38.45. The others in the lot are Tracery, Uncertainty, Claude Hill, Princess Rose II, Moran, Wyoming, Buccaneer and a chestnut colt by Strathmore, Bud Zoosoo. Macklin, the clever colored light horse, who was seen the saddle at Sacramento, comes with the stable.

It is only of late that the majority of horsemen have been in the habit of taking their horses out to the ocean beach and galloping them in the salt water. So many horses have undergone the "beach work" that a general return among trainers to secure steady quarters on the edge of the Pacific. The well-known trainer, Frank Taylor, was one of the first to grasp the situation, and the gray horse, Sir Richard, a pronounced cripple, has clearly demonstrated the beneficial results of training there. Walt Viveli, perhaps the first to be so encouraged, is now training in quarters a short distance from the water's edge with Articia, Charles A. and the other horses of his string. The well-known veterinary surgeon, Dr. Masorero, has plans drawn up for 200 stalls to be constructed well up on the beach, and to be ready to receive six or eight which are now well on toward completion. He is also having made a covered track one-eighth of a mile in length to walk the horses during the rainy weather, the foundation being clay with a covering of tanbark. These should be ample shelter for all the "suspicious" horses in the country.

With fields of but six to pick from in the first two races yesterday, and four each in the remaining three races on the card, the talent tended their way out to the track, fully prepared to enjoy another day of sport at the wily bookies' expense. They said guessing the winners was "just like getting money from home," but at eventide there was a different tale to tell. A number of the favorites were scratched on the opening race, but thereafter matters were decidedly mixed, until summing up at the end of the day, the situation stood, two favorites, one second choice, a third choice, and one long shot, and the pencilers had the long end of it.

The first race, five and a half furlongs, for horses that had labored long and never had the pleasure of hearing their names called, was won by another day, 1865, was taken by Frank Phillips' selling-plater Portugal, backed from 4 to 5 to 1, 2, who had hard ridden the greater portion of the race, but finally won cleverly from the second choice, the six-year-old horse, O. Appley's Filtrilla, Burns & Waterhouse's Lovell, E. Corrigan's Despot, Senator Irbv and The Ironmaster, F. Dunne's Pepper and G. B. Morris' Elmwood stock farm's Claudius and Sir Walter, Louis H. Ezell's Dunsgraven, S. C. Hildreth's My Jack and Happy Day, Thomas Burns' Jim, T. Lund's Thorhill, No Badge stable's Santa Rosa, Oakland stable's Oakland, Rey Alfonso stable's Rey Alfonso and Zaragoza, John Robbin's Mollie F. Santa Anita stable's Carreras and Arapahoe, B. Schreiber's James Hawthorne and Brad Scott, A. J. Smith's Schreiber's Hawthorne, Highland, Gray Scott, Captain Skedance and imp. Creighton, K. Van Brunt's Caballo, Westchester stable's Fred Gardner, White & Clarke's Whittstone.

Burglars Working in Traver. TRAVER, CAL., Sept. 26.—Burglars entered Lewis Sweet & Co.'s store, one of Traver's leading business houses, last night, and secured considerable plunder. The property stolen consisted mostly of cutlery and firearms. The nature of the goods leads to the belief that the thieves are again implicated. The only clue left the officers to work on were a couple of old files with which the back door was pried open.

Arizona Land Company. PHOENIX, ARIZ., Sept. 26.—A \$2,000,000 company organized to-day at Holbrook, in Northern Arizona, for the reclamation of 100,000 acres of fertile land along the line of the Atlantic and Pacific. The waters of the Little Colorado and Rio Puerco are to be utilized. The land and climate are especially favorable for the growth of deciduous fruits and early vegetables.

SEVENTY BISHOPS THERE.

Minneapolis Chosen as the Scene of the Episcopal Convention.

MANY IMPORTANT TOPICS.

The Question of Dividing California into Two Dioceses to Be Decided.

The general convention of the Protestant Episcopal church meets at Minneapolis in triennial session on the second day of October. The bishops from the seventy dioceses of the United States will be in attendance and constitute the House of Bishops, corresponding to the National Senate. The lower house, "the Clerical and Lay Deputies," is formed of not more than four clerical delegates and four lay delegates from each of the several dioceses. The government of the Episcopal church is closely analogous in formation and function to our National Government. This is accounted for by the fact that the men prominent in making the constitution of this country, as Washington, Jefferson and Hamilton, were also the founders of the government of the Protestant Episcopal church.

Right Rev. John Williams, Bishop of Connecticut, as senior Bishop in consecration will preside over the House of Bishops, and the Rev. Dr. Dix, four lay delegates from the diocese are: Rev. R. C. Nichols of the California diocese, rector of Grace Church of this city; Dr. H. B. Spaulding, rector of St. John's Church and principal of Trinity School of this city; Rev. Dr. Trew of Los Angeles, and Dean Restarick of San Diego. The lay delegates are: Major William B. Hooper of this city, J. F. Towell of Los Angeles and Judge Winter of Southern California.

There will be brought before the convention three important matters, two of which are of general interest and one bearing directly on the California diocese. The most prominent matter to be decided upon is "the proposed revision of the constitution of the Protestant Episcopal church." Next is the division of the diocese of this State into a northern and southern diocese.

The question of dividing California into two dioceses has long been discussed by the leading members of the church here and at the last annual convention at Los Angeles, during the month of May, it was unanimously decided to divide the State, thus lightening the labor of the Bishops. Before this can take effect, however, both houses of the general convention must pass upon it.

A similar case will be considered regarding the diocese of Maryland. It is desired to set the city of Washington, which is now under the Bishop of Maryland, apart as a see city, thus creating a new diocese which will include the District of Columbia and a few counties in the southern part of Maryland. Bishop Paret, now residing in Baltimore, will probably be transferred to Washington. Bishop Paret, who is a man of great energy, has secured a large fund to be used in the building of a mammoth Episcopal cathedral at Washington, and Mrs. Phoebe Hearst of California has given money to erect a girls' seminary which is to adjoin the cathedral.

THE CAPTAIN BECK. The Popular Skipper of the Schooner Newark Says He Would Not Take \$100 for His Dr. Sanden Belt. It Did for Him What Medicine Could Not.

SOMETHING TO STUDY. The easiest way to cure any trouble is the natural way—your trouble is of the vital organs—you must cure it by replacing the vital force—that is Electricity.

FACTS TO CONSIDER. It takes but a few months for a doctor's bill to run up to \$50, and you are not a bit better. You are often worse. A Dr. Sanden Belt for less than half that amount may cure you. At any rate it NEVER makes you worse.

USED IT SIX WEEKS. 240 Montgomery Street, San Francisco, September 26, 1895.

DR. A. T. SANDEN, Dear Sir:—I would not take \$100 for the Belt I got of you six weeks ago, as it has already produced a remarkable improvement in my health. My trouble was a lame back and stomach in bad condition. I had been doctoring for six months, and spent a good deal of money, but medicine proved of no avail for me. But the Belt gave me relief right away, and is doing grand work considering that I am 52 years of age and have to be exposed to the weather a good deal. I am getting all my friends to use the Belt, as it is a good thing. Yours respectfully,

CAPTAIN HENRY BECK, Schooner Newark.

Every day we publish evidence of the success of Dr. Sanden's Electric Belt in curing where medicine has failed. The day of drugs has passed. In this progressive age you must advance or be left behind with the cripples and stragglers. The most "ou sickening" element of our social system to-day is the habit of swallowing drugs for every sickness. This habit, however, giving way to the growing intelligence of the people, partly because they are smarter, and understand better, but mostly because they have found by experience that medicine does not cure. Electricity does, and Dr. Sanden's Electric Belt shows proof, fresh proof, of this every day.

To weak men, weak women, people who want to be permanently cured. Dr. Sanden's Belt will prove worth its weight in gold. Get the little book, "Three Classes of Men," and see the proof of what it is doing. Free by mail or at the office. Call or address

"SANDEN ELECTRIC CO., 632 MARKET ST., OPPOSITE PALACE HOTEL, SAN FRANCISCO. Office Hours—8 to 6; evenings, 7 to 8:30; Sundays, 10 to 12. Portland, Oregon, Office, 255 Washington Street.

Fifth day, Wednesday, September 26. Weather fine; track fast.

FIRST RACE—Five and a half furlongs, selling; three-year-olds and upward; purse \$25
