

PASADENA CONCLAVE.

Growing Attendance at the Conference of Methodists.

CRUSADE AGAINST RUM.

Roosevelt's Work in New York City Commended in Resolutions.

EPWORTH LEAGUES CONVENE.

H. H. Baker of San Bernardino Elected President—A Trip to Mount Lowe.

PASADENA, CAL., Sept. 28.—The fourth day's session of the M. E. Conference called on the largest attendance of the week. An Epworth League meeting was in progress in the church, while a ministerial session was held in the tabernacle.

At 9:30 o'clock the Bishop called the conference to order for the transaction of business. Rev. Martin Judy was continued in the superannuated relation. The report of the committee on temperance was read.

After deploring the evils of the liquor traffic the report contained resolutions approving the work of Theodore Roosevelt in

Judge M. C. Hester, who welcomed the Methodists to Pasadena on Tuesday.

New York City; denouncing all compromise with the liquor traffic and the use of alcoholic beverages; commending the principles embodied in the Philadelphia Conference Prohibition League; commending the alliance planned by Dr. Nett Kynett; promising to support and vote for men who are in favor of licensing the sale of liquor, and to oppose all who are in favor of or connected with the liquor traffic; approving the proposition of the London Sunday-school Union that the fourth Sunday in November be observed each year everywhere as Temperance Sunday, and requesting the ministers to preach on that day a temperance sermon, and commending the legislation in regard to the liquor traffic which is now in force in the city of Pasadena. The report was adopted.

Rev. N. H. G. Fife of the Presbyterian church was introduced to the conference and to its presiding officer. The committee on the state of the church presented its report on matters connected with present church conditions and methods desirable in future work. The report was adopted, and a committee ap-

Rev. Homer Eaton, D.D., of New York.

pointed to condense it for publication in the minutes. Rev. J. W. Phelps was restored to the effective relation. The report of the committee on pastoral address was presented, and the committee was discharged and the appointment of a new committee authorized.

A committee was chosen to nominate conference trustees, it consisting of H. Cox, C. C. McLean and J. H. Henry. The following preachers have been transferred to this conference: J. M. Richmond, from the Nebraska Conference; H. W. Jennings, from the Puget Sound Conference; S. H. Eneyart, from the South-west Kansas Conference, and S. O. Elliott, from the Des Moines Conference.

The report of the trustees of the preachers' aid fund was presented and adopted. An executive session followed behind closed doors.

At the Epworth League meeting a brief praise service was led by Mrs. J. A. Burch of Los Angeles. At 10 o'clock the Epworth League Conference Association was called to order by its president, J. M. Clark. A committee on nomination of officers was appointed, consisting of W. H. Fisher of the Los Angeles district, W. T. Miller of the Fresno district and K. and B. Pierson of the San Diego district. The following committee on resolutions was appointed: F. E. Kerr of the Los Angeles district, O. P. Burdy of the San Diego district and Mr. Dollman of the Fresno district.

A resolution that the district officers form or have the power of appointing a committee on league visitation was offered. W. T. Miller was appointed a committee

to prepare a proposed plan of Epworth League Assembly. J. M. Clark and Rev. Dr. M. C. Harris of San Francisco addressed the association on the deaconess work and the deaconess training-school. Arthur B. Stevens of Pasadena and Rev. J. D. Hammond of San Francisco spoke on the Epworth League reading course.

The following officers were elected: H. H. Baker of San Bernardino, president; Lincoln H. Caswell of Los Angeles, secretary; Mrs. J. W. Sedwick of Pasadena, treasurer.

Dr. Thompson of the American Bible Society was introduced, and addressed the conference on the work of the society. The conference then went into executive session.

The afternoon session opened at 2 o'clock and was not largely attended, as a large number of delegates availed themselves of an opportunity to visit Mount Lowe. Those who were detained are to be given an opportunity to go on Monday at the same excursion rates. The meeting opened at 2 o'clock with a half-hour song and praise service, led by L. J. Reynolds of Pasadena. The programme included an address by H. H. Baker on "Our High Calling as Epworth Leaguers"; an address by Bishop H. W. Warren, and consecration service led by Rev. W. A. Wright, D.D., of Riverside.

The evening session was devoted to the anniversary of the Freedman's Aid and Southern Educational Society. Foreable addresses were made by Rev. E. O. McIntire and Rev. Alfred Inwood. The pulpits of the various churches here will be filled Sunday by members of the conference.

Rain at Pasadena. PASADENA, CAL., Sept. 28.—The first rain of the season visited Pasadena to-day just before noon. There was a heavy shower accompanied by distant thunder. It lasted less than fifteen minutes, and the heat, which has been intense, is in no way modified. It is still cloudy.

THE WEEK AT OROVILLE.

Death of Mathias Michaelson at the Odd Fellows' Home.

Marriage of Charles W. Short and Miss Louise Hutchins. Mining News.

OROVILLE, CAL., Sept. 28.—Mathias Michaelson, a member of Germania Lodge No. 116 of San Francisco, died at the Odd Fellows' Home here on Saturday night. This is the first death that has occurred at the home. Deceased had suffered a long time from an incurable malady. He was an inmate of the home but a few weeks. The remains were buried at Oroville.

Everything at the home is going along smoothly. The new gas machine furnishes the required number of lights. The number of inmates at present is thirty-two, all of whom feel content with their new home and pleasant surroundings and modern conveniences. A happy wedding took place at the residence of J. S. Hutchins, the Central House, Wednesday evening. Charles M. Short and Miss Louise Hutchins were united in marriage by Rev. D. M. Birmingham. After the ceremony the guests repaired to the banquet-room, where a fine supper was spread. The tables were arranged in shape of a cross and were beautifully decorated with flowers. Mr. Short has been manager of the Williamson orchards for some time. He has accepted the management of a large farm at Blaine, Wis., to which place he and his bride started on Thursday morning.

Several of the leading orange-grove owners of Palermo have disposed of their crop of oranges for this season on the trees to a representative of Porter Brothers of Chicago. They expect to ship about forty carloads. Colonel Frank McLaughlin, one of the leading mining men of this State and a resident of Oroville, has cleared his title to the Rock River mine near Oregon City. He has assumed management of this property and let contracts for the erection of a power-house, hoisting works, blacksmithshop and other necessary buildings. A force of men will commence at once to clean out the old shaft, which was sunk a depth of 250 feet, and open up the mine.

Colonel McLaughlin has the management of several of the largest paying mines in this section, although they are all worked on a large scale. The handling of this once famous property will eclipse anything around here in the way of development.

The famous French banker, Ploche, who was well known in early mining history, took from the Rock River mine more than \$150,000. The ore was handled by him by roasting process. Years after his death many valuable specimens were found. In the settlement of his estate the property became involved in litigation, necessitating the employment of a keeper for many years. Later it was discovered that a patent had never been issued for the property. On making this discovery the present owners had the records and maps examined, and when the proper time was reached covered the locality with mining locations.

David Daniels, the last foreman in charge of the property, says that the ore was exceedingly rich at the time of the suspension of work. Some rich rock was taken from about two feet in the ledge at the Big Betsy mine yesterday, showing considerable free gold. A rich body of free rock was struck at Crystal Hill this week. G. W. Price, the manager, will at once commence the erection of a fine residence on the property.

The Golden Summit mining district, near Lovelock, is presenting a lively appearance at present. The Golden Summit mine, owned by Senator George C. Perkins and others, was recently reopened and the mine put in condition for development, under the superintendency of Charles Kane. The incline is down 220 feet. A fine rich ledge 5 feet wide has been struck, and enough quartz taken out to keep the 10-stamp mill running day and night. Twelve hundred cords of wood have been delivered out of a contract for 2000. A new office and residence are fast nearing completion. About seventy men are employed in the mine and cutting wood.

John Jones Bros. mine is averaging \$10 a day. Each month. Four men are winning a channel 25 feet wide. They also have a tunnel in 1000 feet. Several tunnels, owned by different parties, varying in length up to 300 feet, are producing gold in paying quantities.

Sudden Death at Santa Ana. SANTA ANA, CAL., Sept. 28.—Sarah Catharine Dillen, wife of Francis Dillen of this city, died suddenly last evening while her husband was absent. She was found dead in bed when he returned. Heart failure is supposed to have been the cause.

EVENTS AT STANFORD

Professor Myers Goes to the University of Washington.

SUCCEEDED BY A SENIOR.

Solon Shedd Appointed an Instructor in the Laboratory.

FOOTBALL TEAMS ACTIVE.

Lively Contests for the Interclass Championship Are Promised.

STANFORD UNIVERSITY, CAL., Sept. 28.—The announcement was made by President Jordan yesterday that Henry C. Myers, instructor in chemistry at this university, had received word of his appointment to a full professorship of chemistry in the University of Washington. Dr. Myers is a young man, barely 31 years old, but has already done much scientific work in his special line. For nearly two years he has occupied a position as instructor of chemistry here, and has made himself very popular with students and faculty alike. He will soon leave to take up his new work in the university that has secured him.

Dr. Myers took his Ph.D. degree in Strassburg, Germany, in 1891. Before coming to Stanford he had practical work for two years with the Haskin Wood Vulcanizing Company of New York, where he was the consulting chemist. Solon Shedd, an effort, will take the place left vacant by Dr. Myers.

Arrangements are being made for a match game of baseball between the Olympics and Stanford, the proceeds to go to Stanford's football fund. This far no definite settlement has been reached. Most of Stanford's nine are in poor condition for play, though it would take but a few days to get the men in shape, provided they are willing to play. Captain McLaine of the college team is not averse to the idea.

The Stanford Cycle Club has reorganized for the year, and held a meeting recently at which the following officers were elected: Charles Frazier, '98, president; George Vanderveer, '96, vice-president; M. L. Antevener, '96, secretary and treasurer; W. B. Roper, '96, captain. A moonlight run took place last evening, made by Treasurer Hinsdill of the associated students to secure a room in the Stanford museum for placing trophies of Stanford students' prowess. There are football banners and prizes, baseball prizes, spoils taken by reputable debaters, and many other interesting curios won by Palo Alto athletes. It is expected that the room will be secured.

Yesterday the '98 football men met and elected Stewart Cotton captain for the coming season; the sophomore eleven will make a hard try for the interclass championship this year. The freshmen show commendable enterprise, and their manager has posted a notice requesting all candidates to appear for practice. A schedule of interclass games has been arranged, and the competition for the prizes offered this season is bound to be hot. Efforts are being made to get the Stanford Band under way. Last night Adolph Kaufmann, '96, was elected leader. Today he declined the appointment on the ground of university work. Another leader will soon be elected and the band begin regular practice.

The sophomores held a meeting to-day, and elected the following officers: President, William Sutherland; vice-president, Jerry Lillard; secretary, Miss Marsh; treasurer, Dan E. Williams; football manager, H. N. de Wolfe; historian, Miss Hyde; baseball manager, Thomas Storke; sergeant-at-arms, Clarence Riggin.

SCHOOLS OF SAN MATEO.

Redwood City's New Educational Institution Opened to Scholars.

Radcliffe Hall, Belmont's Young Ladies' Seminary, Now Ready to Receive Pupils.

REDWOOD CITY, CAL., Sept. 21.—The Union High School has just entered upon its field of usefulness, commencing with forty-eight pupils. Hereafter schooling in all the grades, from the kindergarten to the university, will be within the reach of residents of San Mateo county, so that parents can make their homes in the county without any loss of proper educational facilities.

There are several well-known preparatory schools in the county. Reid's school for boys, located at Belmont, is comfortably housed in the splendid building erected by the late Mrs. William T. Ralston after the death of her husband. The surroundings are attractive, picturesque and healthful. The young men who attend the school are noted for their intelligence and gentlemanly demeanor.

Radcliffe Hall, a young ladies' seminary, just prepared to receive pupils, is also located at Belmont. The school is owned and will be conducted by Mrs. Alpheus Bull. The premises include the famous Ralston home and its elegant grounds, all something over forty acres of land. This property was until recently owned by the Sharon estate, but there has been an outright sale to Mrs. Bull. This is the property around which all the memories of the late William T. Ralston are clustered. The place had always been kept up in fine condition and is now practically in the same order as when it was the scene of prominent hospitality as dispensed by Ralston. Within its walls the millionaire boards of trade from across the continent, United States Presidents, Senators, diplomats and financiers without number found a welcome home. Here General U. S. Grant was entertained on arriving in California after his trip around the world, and here Lord and Lady Hesketh received their friends at a marriage feast that was regal in its splendor.

In the vicinity of San Mateo there are two good schools. One of these, Brewer's Academy, has more than a State reputation. The new buildings recently erected for this school lie along the rising ground just back of San Mateo, between that town and Burlingame. It will rank with any academy of its class in the State. Eighty-three acres of land are included in the school premises. Military training is a prominent feature. * * * Living just back of Burlingame, on the old Redington place, is Hott's School, a good institution, situated under the very shadow of the

metropolis, yet resting like a bright gem in the foreground of some 400 acres of lovely wooded slopes. * * * The public school buildings of San Mateo County are the pride of the educational field as has upon the people. At Colma, San Mateo, Redwood City and Menlo Park large modern school structures have been built, ranging in cost from \$15,000 to \$100,000 each. * * * With public schools everywhere, private schools of the highest class in various parts of the county and the Stanford University only a few minutes' ride distant, San Mateo County is gradually taking its place as an educational center of note.

WON BY BLACK.

Four Leaders of the Notorious Gang Have Been Apprehended.

HANFORD, CAL., Sept. 28.—In the past ten days officers have accomplished a great deal for Tulare and Kings counties, for the gang known as the "Forty Thieves" has been brought to time. This band has terrorized the farmers in the northeastern part of this county and around Traver for the past eighteen months. Four of the ringleaders are now in custody. They are John Johnson, Ellis Jeffers, Ben Barlow and Claud Armstrong. Other arrests will follow.

Johnson's preliminary hearing took place yesterday and he was bound over. Barlow confessed, implicating many others. Great credit is due Special Officer Frank Griffith and Constable H. H. Bernstein of Kings County and Deputy Sheriff Frank Hatley of Tulare County, who have spent much time and money in apprehending the worst gang of thieves that ever infested this or Tulare County.

PROGRESSIVE SANTA ANA.

New Buildings, Streets Improved and a Never-Failing Water Supply.

Number of Fast Horses That Will Be Seen at the Coming County Fair.

SANTA ANA, CAL., Sept. 28.—A heavy desert wind prevailed here the fore part of the week. A good deal of corn was leveled and oranges suffered somewhat, but the damage, as a whole, was insignificant.

It is now almost an assured fact that Orange County will have a fine new \$20,000 jail located upon the Courthouse grounds in this city in the near future. The Supervisors are examining various plans which have been submitted to them and expect to make a decision on the 30th inst.

Santa Ana's system of water works is an increasing source of pride to the citizens. The supply is obtained from three artesian wells, each about 310 feet in depth, which flow into a large covered reservoir. The water is pumped from the reservoir, under a minimum 60-pound pressure, throughout the town.

On Tuesday, which was one of the warmest days of the season, 630,000 gallons of water were used in twenty-four hours. The plant was erected at an original cost of \$60,000, and is owned by the city. Water is supplied to families for household and lawn use for \$1 per month.

Work will be begun immediately on the paving of two more blocks on Fourth street, from Main to Spurgeon. The pavement will be asphaltum, with porphyry gutters. The contract was let at 20% cents per foot for the pavement and 25% for the gutters. A bond of \$2500 has been filed under which it is stipulated that operations must be commenced by October 1.

Birdroe, who paced the heat in 2:11 1/2 at San Jose Wednesday, is owned by John Baker of this city. The mare was never entered in a race until this year, and her name has been a great surprise to most Santa Ana people, expecting of course her owner. Santa Ana is also the home of the great Silkwood, 2:07; Klamath (Tom Raymond's Cookey), 2:08 1/2; Nutford, 2:15; Ketchum, 2:16 1/2; and a whole army of other speedy ones, including Tom Morris, the sprinter.

The race-meeting of the Orange County Fair Association, to be held here October 15 to 19, promises to be the most successful one in its history. The list of entries is exceptionally large and includes the cream of Pacific Coast track stock.

SANTA MONICA INNOVATION.

Advent of Trained Women Nurses in the Soldiers' Home.

SANTA MONICA, CAL., Sept. 28.—Miss Anna Boyd is the first of the contingent of trained hospital nurses to be introduced at the Soldiers' Home here. The duty of the superintendent of the home, the company involves upon Miss Boyd, and her capability impresses all who have met her.

Miss Boyd's coming marks a new era in the hospital management. Hereafter the sick wards will be graced by the presence of women as nurses. Nearly all the six Eastern branches have employed them for several years, and it is now intended to make the service universal. The veteran soldiers will be gratified by the presence of women as nurses. Nearly all the six Eastern branches have employed them for several years, and it is now intended to make the service universal. The veteran soldiers will be gratified by the presence of women as nurses.

SANTA MONICA IMPROVEMENTS. Progress of the Work on the New Wharf and the Methodist Tabernacle.

SANTA MONICA, CAL., Sept. 28.—The new pleasure wharf of the Santa Fe is about half completed, extending seaward 250 feet. It is to be made by Silkwood on the Santa Ana track, will undoubtedly be lowered. The track, which is one of the best west of the Mississippi, is very fast this year.

SANTA MONICA IMPROVEMENTS. Progress of the Work on the New Wharf and the Methodist Tabernacle.

SUNK IN THE YUKON.

Loss of the Steamship Arctic in a Collision.

CRASHED IN THE DARK.

The Vessel Run Down by the Wear While Each Was Trying to Land.

CREW ESCAPED TO THE SHORE.

Gross Carelessness Said to Have Been Responsible for the Disaster.

SEATTLE, WASH., Sept. 28.—Seven Alaska miners who came on the steamer Morrill to-day from Bering Sea bring particulars of a collision late in August on the Yukon, 300 miles up, between the Alaska Commercial Company's steamer Arctic and the P. B. Wear of the Northern American Transportation and Trading Company's line. The former was sunk, and but for the fact that the Arctic was close to the shore, the miners say, every human being aboard would have been drowned.

It is alleged that no bells were rung or lights displayed, everything indicating that the collision resulted from carelessness. The Wear was ascending the stream while the Arctic proceeded down the river. The boats crashed together at 10 o'clock at night on the left hand side of the stream. The Arctic attempted to pull in to shore. The Wear bore down, cutting across her course, being also apparently bent upon making a landing. The Wear struck the Arctic forward amidships on the starboard side and cut through her hull, displaced timbers and demolished steam pipes. Fortunately there was no explosion.

Some days later the Arctic was raised and repaired sufficiently to carry her passengers down to St. Michaels.

SEATTLE WATER-FRONT NEWS.

Arrival of Two Schooners With Heavy Catches of Seals.

SEATTLE, WASH., Sept. 28.—The sealing schooner Willard Ainsworth, Captain Crocker, arrived in port to-day, her season's work yielding 17,000 skins. The Ainsworth was out nine months, being more successful than any other sealing vessel thus far reported this year. The Ainsworth left Sand Point, Alaska, in July, and was in Bering Sea but one month.

The sealing schooner M. M. Morrill, Captain Edward Contillon, ten days from Unalaska, Cape Flattery, brought up in port this morning, having taken 1000 skins, nearly half of which it took in Bering Sea. On September 10, while in Bering Sea, one of the Morrill's cannon exploded, so badly injuring Matt Benson, one of the sailors, that his leg had to be amputated.

United States Naval Engineer F. A. Wilson, who arrived in this city last night direct from the Mare Island Navy-yard, to-day began his inspection under the direction of the Secretary of the Navy of the machine-shops and plant of Moran Bros., the Seattle Drydock and Shipbuilding Company, which was recently awarded the contract for constructing a Government torpedo-boat. Mr. Wilson was accompanied on his tour of inspection by United States Senator Squires.

SAN JOSE SHOOTING PARK

The Schuetzen Verein's New Grounds to Be Opened To-day.

Garden City Marksmen to Have One of the Finest Ranges in the State.

SAN JOSE, CAL., Sept. 23.—The San Jose Schuetzen Verein will formally open its new shooting park, near Oak Hill Cemetery, to-morrow. The park is owned by the San Jose Turn Verein and is governed by a board of commissioners. Over \$4000 has been expended on the park and the range is one of the finest in the State. There are six separate targets and the park is fitted out with all the latest improvements.

A large pavilion has been erected for dancing, and good music will be in attendance. Cash prizes have been offered for shooting and all kinds of athletic sports. Much interest is being manifested in the shooting contests, as the cracks of the different clubs throughout the county have entered.

The Schuetzen Verein proposes to hold a State shoot during the carnival of roses in May, at the park. Suitable prizes will be offered, and it is thought that crack riflemen from all over the State will attend.

TO EXEMPT HOMESTEADS.

San Jose Grange Not in Favor of Taxing Small Holdings.

SAN JOSE, CAL., Sept. 28.—The regular meeting of San Jose Grange to-day was well attended and mainly devoted to a discussion of a proposition exempting small homesteads from taxation. It seemed to be the opinion of the meeting that homesteads of the value of less than \$2000 should be exempt. A vote will be taken on the question at the next meeting.

The regular ladies' day will not be held next Saturday as the meeting on that day will be devoted to hearing reports from the delegates to the State Grange, which meets at Merced next Tuesday. The delegates to the State Grange from San Jose are Mr. and Mrs. G. W. Worthen, with Cyrus Jones and Miss Jennie Saunders as alternates.

RUNAWAY BOYS ARRESTED

Four From San Francisco Detained by the San Jose Police.

of land in San Benito County was tried before Judge Loring to-day and judgment given for plaintiff for \$1553 40 principal, with interest and costs. The land in San Benito County stands in the name of T. B. Holt, and a suit in ejectment will be commenced against Holt.

A LABOR-EXCHANGE RAILROAD.

The Proposition Being Seriously Considered by San Jose Workmen.

SAN JOSE, CAL., Sept. 28.—At a meeting of the Labor Exchange, last evening, the question of opening a grocery-store was discussed at some length. It seemed to be the opinion of the meeting that as soon as sufficient funds were in the treasury a grocery-store should be opened, where checks representing so much labor would be exchanged for goods. One member has offered \$3000 worth of property to the exchange on condition that it build a railroad to Alviso.

It is thought that such a road could be built by paying the laborers in scrip, redeemable in goods at the Exchange store. Although the Exchange has been organized but a short time, it has a membership of 108 and over \$800 in the treasury.

LOS ANGELES BOULEVARD.

A Fine Drive to Connect Elysian and West Lake Parks.

LOS ANGELES, CAL., Sept. 28.—A boulevard 100 feet wide, between Elysian and West Lake parks, is one of the possibilities of the near future. G. A. Fudiker, who has large property interests near Elysian Park, is agitating the improvement. This morning he appeared before the Park Commissioners and asked their co-operation in the work. He said that he has a frontage of 2400 feet, and that he stood ready at any time to get right-of-way over his property and bear half of the expense of grading. The board promised to assist him in every way possible. All the members are much impressed with the proposed improvement. All said that there was a growing need for more drive-ways.

A SAN FERNANDO DECREE.

Ticket-Scalper Forman Held to Answer for Alleged Forgery.

Bound Over by a Justice Said to Be in the Southern Pacific's Employ.

LOS ANGELES, CAL., Sept. 28.—Justice of the Peace J. C. Villegas of San Fernando this morning held A. L. Forman, representative of C. J. Lehman, the ticket broker, to answer to the Superior Court on the charge of forgery. His bond was fixed at \$500 and immediately given.

The alleged forgery consisted in signing the name of the original purchaser to a "scalped" railroad ticket. The Justice of the Peace who issued the warrant and who held Forman to answer is the agent of the Southern Pacific Company at San Fernando. An application will at once be made to the Superior Court for Forman's release on the ground that the testimony does not warrant his detention, and that the warrant for Forman's arrest never passed through the District Attorney's office, and the examination was held before a Justice who is in the railroad's employ.

Veteran Bell Gone.

LOS ANGELES, CAL., Sept. 28.—M. M. Bell, well known about the courthouse as having been for two years the operator of the elevator, died last night. He was 50 years old, and served in the war in a regiment of Kentucky cavalry. He was a well-known G. A. R. man.

NEW TO-DAY.

NO SECRET IN THIS WOMAN'S CASE.

Mrs. Campbell Wishes Her Letter Published so that the Truth May Be Known.

(SPECIAL TO OUR LADY READERS.) Of the thousands of letters received from women all over the world by Mrs. Pinkham, not one is given to the public unless by the wish of the writer. Thus absolute confidence is established between Mrs. Pinkham and her army of patients; and she freely solicits a letter from any woman, rich or poor, who is in ill health or ailing.

In the case of Mary E. Campbell, of Albion, Noble Co., Ind., her suffering was so severe, her relief so suddenly realized, and her gratitude so great, that she wishes the circumstances published, in the hope that others may be benefited thereby. She says:—

"My physician told me I had dropsy and falling of the womb. My stomach and bowels were so bloated I could not get a full breath. My face and hands were bloated badly. I had that dreadful bearing-down pain, backache, palpitation of the heart, and nervousness. "One of my physicians told me I had something growing in my stomach; and the medicine that I took gave me relief only for a short time. I thought I must die. I began to take Lydia E. Pinkham's Vegetable Compound, and it worked like a charm. After taking the first bottle I could walk across the street, now I am well, and advise all my friends to take it."

—MARY E. CAMPBELL, Albion, Noble Co.

FITSCURED

(From U. S. Journal of Medicine.) Prof. W. H. Pecke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P.O. and Express address. We advise any person wishing a cure to address, Prof. W. H. PECKE, P. O. 4 Cedar St., New York.
