SAN ANTONIO, TEX., Sept. 30.—It was learned here this morning that negotiations have been quietly in progress for the past few days between the Florida Athletic Club and railroad officials in Mexico looking to the pulling-off of the Corbett-Fitzsimmons fight in that country across the river from Eagle Pass or at some point below there on the line of the Mexican International road in case it was found impossible to have it at Dallas or in the Indian Territory.

It is stated that the Governor of Coahuila, Mexico, guarantees protection to the fighters. President Stuart writes a friend here that he will positively pull the fight off somewhere on or before October 31 if the principals are alive and ready to meet each other.

Valkyrie III's Designer Says That the Race Was a Farce.

VERY BAD TREATMENT.

Yet at His Suggestion the British Boat Remained on This Side.

WILL RACE HERE NEXT SEASON.

Dunraven and His Associates Have Not Given Up the Quest for the Cup.

NEWPORT, R. I., Sept. 30.—Designer George L. Watson left to-day for New York and will sail Wednesday on the White Star steamer Teutonic.

It was at Mr. Watson's desire, so it has leaked out, that the Valkyrie was allowed to remain in this country after Lord Dunraven had settled that she was to go to England immediately after the cup races.

Mr. Watson when seen to-day by THE CALL correspondent and asked whether he would return to America during the coming racing season, said that he would surely.

"I have nothing else to say than what I have stated before that our treatment was simply abominable. When international yachting gets to be such a farce as it was this year it is eminently right and proper that it should be stopped immediately.

"In the first race the Defender beat us fairly, but then you must take into calculation the fact that it was the initial race, and we were not able to do our best, as it was in most respects only a feeler.

"I shall be back early in the spring to superintend the tuning up of the Valkyrie and she will compete in all the large races during the season.

NO WHIPPING-POST NEEDED.

WASHINGTON, D. C., Sept. 30.—The Grand Jury of the District of Columbia concluded its labors to-day and was discharged. A recommendation in its final report that the whipping-post be established in the district for the punishment of wife-beaters and petty thieves created much surprise not to say astonishment.

TWO BANKS INSOLVENT.

JEFFERSON CITY, Mo., Sept. 30.—The Bank of Monett and the Bank of Purdy, both in Oregon, banks have failed, as announced by Secretary of State Leland.

that he agreed that the establishment of a whipping-post here would be productive of good results in some instances. But the courts could not establish it, hence Congress should be applied to in the matter and he advised the members of the Grand Jury to move in that direction.

STROKEN WITH PARALYSIS.

WASHINGTON, D. C., Sept. 29.—Senator William Mahone had a stroke of paralysis this morning. He has been sleeping at Chamberlain's Hotel, and this morning his son, Butler Mahone, calling at his father's room found the general still in bed and apparently very drowsy. Not suspecting anything wrong Butler left the room, and calling again later found his father still in the same condition. He became alarmed and a physician was summoned. After examination the doctor pronounced it a case of paralysis. His condition is critical.

REPRIMAND OF KIRKLAND.

Secretary Herbert's Rebuke to the Admiral Approved by Cleveland.

Censured for Congratulating President Faure on His Election.

WASHINGTON, D. C., Sept. 30.—Secretary Herbert's reprimand of Admiral Kirkland, commanding the European squadron, it is understood, has been approved by President Cleveland, and the incident is thereby probably closed.

Admiral Kirkland is an old personal friend of the chief executive of France, and when M. Faure was elected to the presidency of that Republic the former wrote him a congratulatory letter signed in his own capacity.

It is said that the President in his letter to the admiral, transmitted through the secretary, went further than merely upholding the courtesy of the Secretary and informed Admiral Kirkland that in his official capacity as commander of the European squadron he had no right to write a communication to the President of France through the admiral.

NOT TO CRIPPLE TRAFFIC.

There Was Only Talk of Withdrawing a Local Train.

OMAHA, NEBR., Sept. 30.—Reports to the effect that the Southern Pacific contemplated withdrawing its trains at Ogden are creating a great deal of comment in railroad circles.

"The foundation for the rumor rests in the fact that Mr. Fillmore of the Southern Pacific telegraphed to me, as well as to the general managers of other connecting lines, that there was some talk of withdrawing a train from Ogden to Reno.

Once more I say that the rebellion will be crushed out even if it takes every soldier in Spain and the entire wasting of the country. The prospect of a speedy termination of the revolution are very bright.

SYMPATHY FOR CUBA.

From the European rule which the other nations of the New World have already secured. But further.

Resolved, That the organization which arranged this gathering be requested to take charge of and continue the good work so auspiciously begun this evening.

Dr. Barrows followed the reading of the resolutions with an appeal for their adoption.

"We are told," said he, "that we must keep on good terms with Spain, but there is a limit even to good fellowship. I hope this meeting will arouse a new feeling of independence and patriotism. I do not believe that a cutthroat nation has any right to be honored with our silence here to-night."

Mayor Swift introduced Bishop Fallows, who spoke briefly.

The proceedings closed with the singing of two verses of "America."

The meeting at Association Hall was no less enthusiastic or crowded. Judge William A. Vincent made a few remarks as presiding officer, saying he was a believer in the independence of Cuba, but did not wish to see a violation of international law.

After the Rev. P. S. Henson had spoken ex-Corporation Counsel John Palmer explained the intent and effect of the laws of independence and patriotism.

W. J. Hynes followed Mr. Palmer, after which the resolutions were read by Dr. Thomas. They were adopted with great enthusiasm.

The audience applauded every sentiment expressed by the speakers suggesting the recognition of the Cubans as belligerents.

Two of the speakers defied the law of nations and Mr. Mason wanted an immediate repeal of the law which, he said, was only intended to prevent one nation from interfering while another nation was committing depredations of some kind against another nation.

Three speakers wanted the inhabitants of the island to determine their own course by popular vote after independence was gained.

SAYS THEY ARE BRIGANDS.

Minister De Lome's Opinion of the Cuban Insurgents.

BOSTON, MASS., Sept. 30.—Senator De Lome, the Spanish Minister, stopped a short time in this city to-day, on his way to Montreal, and when seen by a CALL correspondent consented to give his views on the rebellion in Cuba.

"The rebellion, contrary to popular belief," said he, "is by no means receiving the support of the Cuban people, but is made up of the slaves, small planters and others, who, when engaged in fighting the Government, are little better than brigands. The newspaper reports which have been received from the island are entirely misleading, and are from correspondents who in most cases have been nowhere near the scene of action, and write from mere hearsay.

"The rebellion has been confined only to the eastern part of the island in the region of Santo de Cuba and Puerto Principe, and excepting for occasional raids from the mountains, the rebels have made no important advances. In fact, they have been defeated in every pitched battle which has been fought.

"The revolution itself is destined to die a natural death, as no Cubans having the welfare of their country will be identified with it. All the stories about General Campos' giving up the campaign in despair are mere nonsensical stories, pure fabrications. He is at present merely biding his time until the ending of the war season, when he will take the field with a picked army, and the rebellion will be of short duration.

"Once more I say that the rebellion will be crushed out even if it takes every soldier in Spain and the entire wasting of the country. The prospect of a speedy termination of the revolution are very bright.

ington that the insurrection of Cuba must be crushed within three months or otherwise the United States Government will adopt a different policy from the one hitherto observed.

To this communication the Spanish Foreign Office has replied that is pure fiction. The relations between Spain and the United States, the reply adds, are smooth and harmonious, and there are not the slightest signs of friction.

MASSO PREDICTS VICTORY.

Cuba, Says the Leader, Will Throw Off the Spanish Yoke.

A correspondent visited the insurgent headquarters two days ago and had a brief interview with General Bartolomeo Maso, head of the new rebel government.

"I never had more than 10,000 men in arms against the Spanish Government, and no Cuban general ever led as many as 200 men into battle. And yet the struggle lasted long years and cost Spain the lives of 150,000 soldiers.

"In the present movement we have already 40,000 men in the field, and if we had the arms for them we could muster within a fortnight twice that many. In the province of Santiago alone we have 23,000, in Las Villas 10,000 and in Camaguey at least 7000. But only about half of these are well armed; the remainder are simply equipped with single-fire rifles, shotguns, muskets, revolvers and machetes. However, when expeditions from abroad, which we are expecting daily, arrive, our entire force will soon be organized in fighting trim and then active operations will commence.

"For the present we must keep upon the defensive, content ourselves with harassing the enemy's columns with small guerrilla forces, and only make serious attacks upon them when we have the opportunity to seize a convoy or capture an outpost where arms and munitions can be secured. Any other tactics would for the present be suicidal to us. We have, besides, everything to gain by delay; Spain all to lose. It suits our convenience to allow Government columns to tire themselves chasing our forces around the country. While we lose comparatively few men in this way, yellow fever and dysentery daily claim their numerous victims from the Spanish ranks."

General Maso has, he says, strong hopes that, despite the vigilance of the United States, the United States will prevent the shipment of arms for Cuba, President Cleveland may still be one of the first to recognize the belligerent rights of the revolution. To-day, despite President Cleveland's neutrality, or, more properly speaking, the friendly disposition of the United States toward Spain, as defined in the policy of Secretary Olney, President Maso says the Americans get no thanks for it. On the contrary, the press of the peninsula grows more bitter from day to day in editorial attacks on the United States, and even urges Minister Canovas to send a Spanish fleet to New York to ask President Cleveland to explain why he has not impounded Delegate Palma, Treasurer Guerra, Secretary Quesada and other members of the Cuban junta.

"By recognizing the belligerent rights of the Cuban republicans," Maso continued, "the United States would relieve herself of the unthankful task of doing police duty for the Spanish Government, the majority of whose own warships and revenue cutters lie idle at anchorage in Cuban ports, and all of which have so far done absolutely nothing to prevent the landing of filibustering expeditions upon this island, and helplessness once established, a market would be opened up for American arms, factories and American powder mills. The United States, in brief, has nothing to fear from Spain and much to win from Cuba."

FOR A HALF MILLION.

David Fitzgerald Sues the Estate of His Brother John.

LINCOLN, NEBR., Sept. 30.—An action for a round half-million dollars was commenced to-day in the District Court against the estate of the late John Fitzgerald. His brother, David Fitzgerald, is the plaintiff. The claim was entirely unexpected. David is the youngest brother of John Fitzgerald and was educated by him and has until recent years made his home with John and his family. At present David Fitzgerald is not in the city, his attorneys filing the suit.

Mr. Monahan, attorney for the John Fitzgerald estate, said this evening, referring to the suit, that the complaint of John Fitzgerald & Brother was not successful, and every contract taken by them which was under David's management proved a financial loss; necessarily, the loss was always borne by John Fitzgerald. Plainly speaking, I believe this claim is not worthy of serious consideration."

Failing to disperse the rioters, the gendarmes fired a volley in the crowd, killing one person and wounding eleven.
