

CITIZENS WILL MEET.

The Great Convention Matter to Be Discussed To-Day.

LOS ANGELES IS WITH US

The Men of the Southern Metropolis Will Help San Francisco.

PROMISE OF MORE FINANCES.

The City and State Thoroughly Aroused to the Importance of the Issue.

With the gathering of San Francisco's representative men in the Chamber of Commerce meeting to-night the fight for the Republican National Convention will have reached its most interesting and significant stage.

There was a meeting held in the southern metropolis on last Thursday night for the purpose of bringing together the prominent citizens of the place and unite them in an effort to secure the Republican Convention for San Francisco.

Understanding that a mass-meeting of the merchants and citizens of San Francisco will be held on Monday evening, November 4, to devise further ways and means to secure the National Republican Convention's meeting in that City, and being desirous of extending our encouragement in the matter, we respectfully call upon the citizens of Los Angeles to assemble at the hall of the Chamber of Commerce on that evening to draft and transmit to the meeting at San Francisco such resolutions as may be deemed proper and expedient, expressing the good will and best wishes for success of the City of Los Angeles.

The meeting to-day will develop methods by which the success of the convention fight may be assured beyond all doubt or disappointment. Committees are to be appointed to handle the various matters necessary to the complete development of the project. It is not more than a year old but it already numbers over 8000 in this City and in various parts of the country, and after the services yesterday seven or eight hundred names were added. The devotion of the society are simple and include only those forms which are best suited to its aim. While the membership is exclusively Catholic the devotions are for the benefit of all the dead, no matter of what church.

Rev. Father Joseph F. Byrne, spiritual director of the society, led the services yesterday. Eighteen black-robed acolytes bowed with him before the altar while he repeated the opening prayer and asked a blessing on the service, and then forming in line they came slowly through the altar-gate and turned toward the first station of the cross. The procession moved slowly, the crucifix at the head, just behind two boys with lighted tapers, and between them the priest. The men chanted a hymn as they moved along, and the first station was reached. Here the special devotions were gone through with, and then, taking up the chant once more, the procession proceeded to the second station. Up the side aisle it moved with measured step, past the open doors and again turned toward the altar until the fourth station had been visited, and prayer was repeated and the acolytes disappeared.

CONVENTION FUND TO DATE.

Table listing names and amounts for the Convention Fund, including 'THE CALL', 'THE EXAMINER', 'THE CHRONICLE', etc.

Table listing names and amounts for the Convention Fund, including 'ALVINZA HAYWARD', 'WASIELE & CO.', 'GODDARD FLEASANTON', etc.

PRAYED FOR THE DEAD.

Impressive Services Held Yesterday at the Cathedral.

For the First Time the Calvarian Society Met for its Special Devotions.

Saturday was All Souls' day and the usual services for the dead were celebrated in the various churches. Yesterday, however, the Calvarian Society held special services in the cathedral for the benefit of the souls of the dead as a supplemental service to that of Saturday.

The Calvarian Society is an organization the object of which is to secure through prayer the mercy of God for the souls of the departed. It is not more than a year old but it already numbers over 8000 in this City and in various parts of the country, and after the services yesterday seven or eight hundred names were added.

COURSING MEETS.

Flashlight Won the Unfinished Stake at Cassery's-Kerrigan's Events Were Not Finished.

MAGUIRE ON SINGLE TAX.

Lecture On the Effects of Levies On the Distribution of Wealth.

MECHANICS' INSTITUTE SERIES.

The Only Form of Taxation That Does Not Check Production and Impoverish Labor.

Congressman James G. Maguire lectured Saturday evening in the library building of the Mechanics' Institute on the subject, "The Effects of Taxation on the Distribution of Wealth."

No country has ever had either a scientific or a satisfactory system of taxation. We attempt to tax all kinds of property upon the theory that the more we tax the more the support of the Government according to the protection which it receives, wholly regardless of the effects of such taxes on the production and distribution of wealth.

Our two general kinds of taxes are direct and indirect. The direct taxes are poll-taxes and taxes on land and values. Practically all other taxes are indirect.

All taxes upon wealth in process of production or exchange are merely taxes on the owners and passed on, in the form of increased prices, as a burden finally upon the consumer.

BASEBALL IN THE MUD.

A Day of Hard Hitting and Double Plays at Central Park.

THIRTY SAFE HITS WERE MADE.

San Jose Avenged Themselves Upon the San Jose Visitors for Previous Defeats.

The ball-tossers of the San Francisco team must have been studying the villain's part in some melodrama yesterday morning, at least the game at Central Park in the afternoon suggested it, and that the trite declaration, "I will have revenge" had been the one that had most impressed itself upon them.

Next Sunday this stake will be finished, and if time permits another old-dog stake at \$1 entrance run.

PROCEDED BY THE ELEMENTS.

Cyclers in the Park Try to Keep Ahead of a Shower of Hail.

Boatrace on Stow Lake—Quail and Wild Birds Disappearing.

The morning shower yesterday was succeeded by a few hours of struggling sunshine and that was enough to delude the members of the Park band that it would be a fine day for a picnic.

Onward it moved, and as the edge of it was over the speed track, there came down a few gentle drops of rain—"a sprinkle to lay the dust," cried out a merry cyclist in bloomers—but soon the drops increased in size and the merry cyclist and many others who were near her, faced about, heading for the shelter of some building.

One of the wheelers attired in a suit of blue and wearing a calla lily for an emblem on his sweater, who declared that he "knew something about California weather," called out to the others, "If it get down by the bucketful," he said, "I'll warn you before the drops from the great black cloud come larger and faster and then down come hailstones that patter on the backs of the riders."

Those who knew how to scorch kept ahead of the wet, but those who were not so fortunate received a drenching that they will not forget for some time.

The members of the Park band were on hand to play for the showers and they were dismissed.

"Speaking in a reminiscent mood I. C. Coggin, the manager of the band said: "We have played 800 concerts in the park. The first concert was given by a quartet of only twenty-four musicians, but I had a different notion of the tastes of the people. I felt satisfied that the people, in spite of all that has been said, were lovers of good music, and these concerts have proved it. I hope that an extraordinary programme will be prepared for the one thousandth concert."

During the afternoon there was a race on Stow Lake between members of the C.A.T. Cycling Club in light boats. In one boat there were Samuel Foltz, John Davidson and Fred Volz; in the other Thomas F. Boyle, Ernest Helmore and George Helmore.

Patrick Higgins, a member of the Imperial Cycling Club and an employe of the Oceanic Navigation Company, was coming in on the main drive at fifteen-mile an hour and when abreast of the '49 camp attempted to make a short turn on the curve in the road. In doing this his wheel went over the side and he landed on his head and losing consciousness he was carried to the hospital.

Quail and other wild birds that were so plentiful in Golden Gate Park two years ago are disappearing. "I do not know what has become of the birds," said Acting Police Captain Compher yesterday, "but they have not been so plentiful as they used to be before the Midwinter Fair was here. The noise and the great crowds, no doubt, have driven them away, and when they got outside the park they were killed by pot hunters."

SHOOTING IN THE RAIN.

A Small Attendance at the Shell Mound Rifle Range.

The cloudy weather and rain yesterday kept the majority of the rifle shooters away from the Shell Mound shooting range, but those who were there enjoyed their practice, for the light, most of the time, was excellent and there was but little wind to prevent good scores being made.

Flashlight justified the confidence of his backers by winning the stake that was left over from the previous Sunday from the fast and clever Sly Boy.

Following is the result of the remaining ties: Belmont beat Blackthorn, Lightweight beat Shaunrupe, Flashlight beat Lampighter.

Second tie—Sly Boy beat Maggie M. Belmont beat Susie, Flashlight beat Lightweight. Third tie—Sly Boy beat Belmont, Flashlight a bye.

Fourth tie—Flashlight beat Sly Boy. The additional old-dog stake was divided by Mission Boy, Spinaway and Dublin Stout, the running resulting as follows:

M. McCabe's Mission Boy beat D. Tweedie's White Run, K. Kerrigan's Kerry Gow beat J. King's Dublin Dan, J. Barry's Spinaway beat R. Corcoran's May Tea Boy, W. Dalton's Regent beat W. Reamer's Regent, D. Tweedie's Dublin Stout beat D. Dillon's Little Willie.

Only a few attended the monthly medal shoot of the Deutsche Kreiger Verein. The winners were: F. Kaiser, 321 points; first Champion class, F. Kaiser, 321 points; first Jüngling 223; second class, D. Weggemann, 223; third class, D. Weggemann, 223; last best shot, F. Kaiser 23; last best shot, Weggemann 22; most bullseyes, G. English.

WENT INTO CONVULSIONS.

Peter Smith, 12 Bernice street, the boy who was struck on the head with a piece of lead pipe by William S. White, an engineer, during a fight between White and Joseph Kelly, a singer, was taken to the Receiving Hospital yesterday.

First tie—Mission Boy beat Kerry Gow, Spinaway beat Maggie M. Belmont beat Susie, Flashlight beat Lightweight. Second tie—Sly Boy beat Maggie M. Belmont beat Susie, Flashlight beat Lightweight. Third tie—Sly Boy beat Belmont, Flashlight a bye.

Fourth tie—Flashlight beat Sly Boy. The additional old-dog stake was divided by Mission Boy, Spinaway and Dublin Stout, the running resulting as follows:
