

SONGS FOR STANFORD.

Original Airs Calculated to Depress the Berkeley Players.

PRACTICING NEW LAYS.

Students Memorizing Advance Copies of Glad Peans of Victory.

ATHLETICS AT WOODSIDE.

The Varsity Eleven in Hard Training for the Great Match on Thanksgiving Day.

STANFORD UNIVERSITY, CAL., Nov. 23.—Athletic life seems dull in the campus now that the football men are at work in the hills.

Breakfast is not one of ease by any means. He must be up at 7 o'clock for breakfast.

Work on the field begins about 9 o'clock and lasts a good share of the morning.

Signal practice takes place and Camp explains the various plays which the men are to use for Berkeley's surprise on Thanksgiving day.

The work lasts until nearly noon, for several of the players having little else to do spend the time in practice kicking before and after signal work.

Dinner is served at the small hotel about noon, and the food given the men is only such as will develop and strengthen them.

The chef is a man who understands his work, and as the team spent a week at this same retreat last year the management did not have to break in new servants or spend any time teaching the cook what a team in training needed and how it should be prepared.

At 1 o'clock in the afternoon the hard practice game between the first and second eleven begins and lasts till nearly sundown.

A sprint to training quarters and a rubdown put the men in fine condition for the evening meal and a night's rest.

Every one of the players must "turn in" before 10 o'clock.

Between practice the players are at liberty to do anything they please.

Most of them spend it in reading and a few in studying to keep up their university work.

For they are all obliged to make up the work which is missed.

Camp is with the men at all times, and it is at this time he gets in work that shows perceptibly in the men's play.

He spends some time with each man who needs coaching, points out the weak places in his play and shows him how to overcome them.

Having the men so directly under his supervision, unhampered by the watchful eyes of spectators, he can explain the intricacies of the game to the team.

In his coaching Camp is assisted by Harrelson, last year's quarterback; Downing, captain and tackle of the team last season; Walton, the star half-back, and McMillan, captain of Reliance and a former Stanford player, will aid in coaching the men after to-day.

The play of the men has improved noticeably already.

The line is more aggressive and the backs can be coached. Fisher and Reynolds are doing first rate work at half-back.

Frankenheimer's ankle will be strong enough to permit of his entering the game in earnest about Monday.

The students met in a body last evening in the Encina gymnasium and practiced college songs and college yells for two hours.

Enthusiasm is being worked up to a high pitch, and by Thanksgiving will be intense.

ROBBERIES AT MILL VALLEY.

Clothing and Money Stolen from a Private House and Grain from the Railroad Cars.

MILL VALLEY, CAL., Nov. 23.—This town is greatly excited over two robberies that were committed last night.

The thieves took numerous small articles and a trunk containing clothes and \$75 in money.

The other theft was of a sack of grain from one of the flatcars standing near the railroad station.

The men who discovered them abandoned the chase and went to the office of the Justice of the Peace and Scotty reardon, and made off with the sack of grain.

MILL VALLEY SCHOOL.

An Effort Will Be Made to Keep It Going This Winter.

MILL VALLEY, CAL., Nov. 23.—The publication in THE CALL that the Mill Valley school would have to close unless funds are forthcoming has called forth a ready response from Mill Valley's citizens.

A number have come forward and subscribed various sums and the Improvement Club has decided to take the matter in charge.

An investigation will immediately be begun into the amount necessary to keep the institution open during the winter.

Secretary Fottrell said that some means would be devised by which it would be possible to keep the school open.

A suggestion to give a public entertainment has been made, and will probably be carried through, as the people of Mill Valley fully realize the benefits of the school.

A special tax is levied for school purposes, and an investigation will immediately be begun to learn where the trouble lies, as funds sufficient to run the school for a year were supposed to have been on hand.

SAN JOAQUIN RIVER GOLD.

Captain Barrett's Bonanza Pool Drained by Damming the Stream.

The Course of the Waterway to Be Diverted and Development Work Commenced.

SELMA, CAL., Nov. 23.—The people of Selma, especially those who are sufficiently broad-minded to be interested in the development of Fresno County, are greatly exercised as to the contents of the pool in the San Joaquin River at the mouth of Fine Gold Gulch.

It has always been held by miners that this pool held a bonanza; but every one was skeptical as to the feasibility of damming the river, though no one doubts there is a rich deposit of gold in the pool.

Captain Barrett came here two years ago from Ohio with a record, as a promoter, of accomplishing everything he undertook.

After purchasing a ranch and building a beautiful home, as a mere matter of habit, he began looking about him and investigating the undeveloped resources of Fresno County.

He became interested in the pool, and undertook what seemed the herculean task of damming the river.

He has accomplished his object, and in one week more the San Joaquin River will change its course near old Fort Millerton, and run through a new channel chiseled out of the solid granite rock.

No sooner was this task, now so near its accomplishment, well under way, than the captain became interested in the oil region in what is known as the West Side, and he has undertaken to drill three deep wells to test the country for oil.

The surface indications are of the best, and development is already under way.

A train of six-horse wagons carried machinery and casing to the scene of proposed operations, and boring has commenced.

Last week an old Pennsylvania oil man investigated the field and predicted a bigger and better yield than that developed at Los Angeles.

The surface oil has been found to be of a superior quality.

RAILROAD FORECLOSURE.

Judge Hanford Signs a Decree Against Seattle, Lake Shore and Eastern.

SEATTLE, WASH., Nov. 23.—United States District Judge Hanford has signed a decree of foreclosure against the Seattle, Lake Shore and Eastern Railway, naming February 3, 1896, as the final date of redemption for the decree.

By this action the destiny of the road is fixed, as it is cut loose from the Northern Pacific and made a separate line.

MILLER WILL DIVIDE.

His Signature Attached to an Agreement for a Settlement.

TEXT OF THE DOCUMENT.

Distribution of Miller & Lux Property to Be Made by Three Commissioners.

POTTER'S DEFENSE CLOSED.

His Attorneys Announce That They Will Submit Their Case Without Argument.

REDWOOD CITY, CAL., Nov. 23.—"We rest, your Honor. We are willing to submit the case without argument."

That was the point reached by the defense for Jesse Potter in Judge Buck's court to-day.

The on the brilliant play of the whole trial was when Henry Miller, who arrived in Redwood City from San Francisco on the noon train with his attorneys, W. F. Herrin and ex-Judge Eugene Garber, was presented by Potter's attorneys with a form of agreement for the immediate settlement of all the Miller & Lux property.

"Will you sign it?" asked Mr. Pillsbury. "Yes, if my attorneys say so," replied Miller.

"You can sign it, Mr. Miller, if you wish," said Attorney Herrin. And, leaning over on the Judge's rostrum, and without leaving the witness-stand, Henry Miller signed his name, agreeing to distribute a property valued at between \$40,000 and \$50,000.

The preliminary settlement was immediately offered in evidence, Mr. Miller attested his signature to the court clerk and copies were served upon the contesting attorneys.

"We rest, your Honor," said Mr. Pillsbury. But there were other details to be straightened out by the prosecution and the trial went on until about 3:30 o'clock in the afternoon.

The agreement signed by Henry Miller covers eighteen closely type-written pages. It provides for the appointment of three commissioners to divide all the property.

One commissioner to be appointed by the plaintiffs, one by the defendants and a third, if not agreed upon by the other two, to be selected by the Judge of the court in which the action is pending.

The division is to include land, personal property, water rights, good will, etc. If all concerned do not agree to division as made by commissioners, then they may bid for choice.

During the day several witnesses were called to prove Jesse Potter's business ability, their general testimony being that Potter was keen, careful, a good trader, and that he did not drink to an extent that incapacitated him from attending to the extensive affairs of Miller & Lux.

After all the scattering details of the trial had been cleared up, Attorney Pillsbury offered to submit the case without argument, but Mr. Delmas thought it best not to be too hasty and an adjournment was taken until Tuesday, December 3, when the case will be argued.

WOE OF A CIRCUS RIDER.

Lottie Waters Turns On the Gas in Her Cell in San Jose Jail.

The Young Woman Had Been Committed to Prison at Her Own Request.

SAN JOSE, CAL., Nov. 23.—Lottie Waters, a young girl who has figured rather prominently in police circles of late, attempted suicide in the City Prison last night by turning on the gas in her cell and shutting up all avenues of escape.

She was discovered in time and the gas turned off. The girl is being held at her own request until the arrival of her father from Bonny Doonee, Santa Cruz County.

She was previously a circus rider, but disposition has affected her mind. She attempted suicide once before while serving a twenty days' sentence.

MRS. KNAPP'S INCOMPETENCY. Her Nephews Ask to Have the Case Disposed of.

SAN JOSE, CAL., Nov. 23.—Alfred Jones and Lewis Mahke, by their attorneys, today filed a notice of their intention to ask that the judgment of the court against them in their efforts to have their aunt, Hermina Sophia Knapp, declared incompetent and a guardian appointed for her, be set aside and a rehearing of the case granted.

Mrs. Knapp came into the possession of \$150,000 worth of property upon the death of her brother, Christian Eyschlag, about two years ago.

Mrs. Knapp, who is about 80 years old, soon after gave all the property to John H. Old Eyschlag, a nephew, reserving only \$1000, which she paid for admittance to the Pratt Home.

This displaced her two nephews, and they have made strenuous efforts to have her declared incompetent.

SANTA CLARA SUNDAY SCHOOLS.

Preparations for the Second Annual Convention at San Jose.

SAN JOSE, CAL., Nov. 23.—The Santa Clara County Sunday School Association will hold its second annual convention at the South Methodist Church in this city next Friday.

An interesting programme has been arranged, and it is expected that the pastors, superintendents, teachers and pupils throughout the county will be present.

The officers of the association are: President, H. Morton; secretary, W. C. Alexander; assistant secretary, Miss Bailey; treasurer, W. K. Jenkins.

FOUR NEW RECORDS.

Cyclers Make Fast Time on the Los Angeles Track.

MURPHY'S GREAT RIDE.

Four Circuits of a Quarter-Mile Course Covered in 2:01 4-5.

HANDICAP WON BY CROMWELL.

Wells of San Francisco Beats the Eastern Cracks Over a Short Distance.

LOS ANGELES, CAL., Nov. 23.—There was a large crowd at Athletic Park to-day to witness the last day's races of the L. A. W. National Circuit meeting.

A splendid day's sport was the result, and several world's records for a quarter-mile track were broken.

Little "Crimson Rim" Knip established the juvenile quarter-mile record at 1:14 4-5. C. M. Murphy, paced by Ulbricht and Hatton, in a mile race against time, amid loud cheers and applause from the spectators crossed the tape in 2:01 4-5, breaking two world's records, making the half mile in :56 4-5 and lowering Harris' record on the Pittsburg track by 1-2-5 seconds.

In the mile race for winners of class A races, McFarland established a new record of 2:10.

In the five-mile handicap Russ fell and brought down Weaver, Cox and Taylor. Taylor untangled his wheel and continued the race, but the other machines were too badly crippled for their riders to go ahead.

One of the pretty features of to-day's meet was the fancy riding of five-year-old Dorothy French. The day was favorable for fast time, the sky being slightly clouded, and scarcely any wind was noticeable.

Prizes were distributed at the Orpheum Theater to-night.

The next meet will take place at Santa Ana and some of the Eastern riders will remain to attend the opening of the Pasadena track, which will take place on New Year's day.

Quarter mile, open, class B—First heat won by G. M. Murphy, W. A. Ferrar second, F. E. Skeels third. Time, 33 4-5.

Second heat, won by W. M. Randall, H. E. McCreas second, F. G. Lacy third. Time, 33 1-5.

Third heat, won by C. S. Wells, E. Ulbricht second, P. Kitehen third. Time, 34.

Fourth heat, won by J. M. Campbell. Time, 34.

Fifth heat, won by Wells of San Francisco. Murphy of New York second, Randall of Rochester third. Time, 34 3-5.

Six-mile handicap, class A, won by Harry Cromwell, 2:50 yards; Yeoman of Los Angeles, 2:55 yards second; Yeoman of San Diego, 1:25 yards, third. Time, 12:32 1-5. Scratch man's time, 12:49.

Mile, class A winners race, only winner of first place during the meet eligible, won by McFarland of San Jose, Freeman of San Francisco second, Yeoman of San Diego, 1:10 4-5, world's record for quarter-mile track.

Mile, unpaired record, class B, won by E. Ulbricht, 2:18; W. H. Hatton, 2:19, second; H. E. McCreas, 2:19 1-5, third.

Quarter mile, juvenile, won by Little Knip, 1:14 4-5, sponsor of Chicago second, 1:14 4-5.

Mile, class B winners, won by Murphy, Wells second, Ulbricht third. Time, 2:28 3-5.

Mile against time, paced by Ulbricht and Hatton on Rancho Santa Anita, by C. M. Murphy of New York, made in 2:01 4-5, world's record for quarter-mile track.

On the Eastern Tracks. LEXINGTON, KY., Nov. 23.—Six furlongs, Major Tom won, Wm. Keene second, Major Dripps third. Time, 1:18 4-5.

One and a quarter miles, Le Banjo won, Tupto second, Rasper third. Time, 2:18 4-5.

One mile, Probosco won, La Moore second, Sunburst third. Time, 1:40 4-5.

Six furlongs, Gladya Lee won, Maid Marian second, H. H. Hester third. Time, 1:18.

Five furlongs, Garland Bar won, La Wanda second, Ida Wagner third. Time, 1:04 4-5.

BALTIMORE, MD., Nov. 23.—Five furlongs, Bessie about won, Medica second, Arline third. Time, 1:03.

One mile, Mack Briggs won, Defender second, Leona third. Time, 1:44 4-5.

Five furlongs, Helen Nichols won, Tom Harding second, Amerer third. Time, 1:02.

STOCKTON BRIBERY CASE.

Architect Rushforth Tells of Money Having Been Paid to Brown.

Testimony Against the Accused Given by Bulson, the Alleged Go-Between.

STOCKTON, CAL., Nov. 23.—The jury to try James Brown, chairman of the Board of Supervisors of San Joaquin County, on the charge of having accepted a bribe in connection with the adoption of Architect Rushforth's plans for the new County Hospital, was completed this morning and the taking of testimony begun.

The alleged fact of how the \$1000 was divided between C. W. Ward, superintendent of the institution, Dr. H. Bulson, the physician, and Mr. Brown, were brought out pretty thoroughly at the trials, at which Ward was convicted, and Brown's first trial, in which the jury disagreed.

On the stand to-day, Rushforth told of the payment of the money under the impression that it was necessary to secure the adoption of the plans.

From the testimony it appeared that Bulson acted as a go-between for Ward.

Bulson went upon the stand and gave State's evidence, the indictment against him for participation in the affair having been dismissed in consideration of his doing this.

He outlined the story freely, sparing himself. An effort by ex-Judge Swinner, the defendant's counsel, to secure an order from the court compelling District Attorney Bulson to produce the correspondence between himself and Bulson failed, the court holding that Mr. Nutter, as an officer of the county, could not be compelled to divulge the secrets of his office.

C. W. Ward, the third member of the jury, who is under conviction for his part in the affair, and whose appeal from a ten years' sentence is now pending in the Supreme Court, also gave his testimony.

The defense is evidently fighting against great odds, and the friends of Mr. Brown seem to hope only for a hung jury. The trial will be resumed Monday morning.

Fire in Grain Sacks. STOCKTON, CAL., Nov. 23.—Murphy & Frankenheimer's grain-cleaner came very near being destroyed by fire at Staten last night.

All day yesterday wood was burned in the engine that runs the machinery, and it is thought a cinder lodged in a pile of sacks on the cleaner. Shortly after 11 o'clock the machine was discovered to be on fire.

The fire was not put out until 1:00 o'clock had been burned and the wood work about the cleaner badly charred.

HOMICIDE NEAR REDDING.

The Second Violent Death Within Ten Days in Shasta County.

Isaac Rader Found in His Blacksmith Shop, With Bullet Holes in His Head.

REDDING, CAL., Nov. 23.—The second homicide within the past ten days was committed within the confines of Shasta County to-day. Isaac Rader, an old and respected resident of Western Shasta, was the victim.

This morning a man happened in at the blacksmith-shop of Isaac Rader, at his home a mile west of Gas Point and about eighteen miles west of Redding. He found Rader lying face downward in front of his forge, where he had been working. Bullet holes were found in both temples.

The ball had evidently struck the murdered man in the left temple, going clear through the head and coming out the ear. The body had apparently lain about two hours. It is not known how the killing was committed nor who committed it. No one has been arrested.

The report of the killing was brought to Redding about 2 o'clock by Sheriff and Coroner Earnest, District Attorney Rose and a physician have gone to the scene of the shooting. Until they return, which will be to-morrow, no definite account of the affair can be had.

Isaac Rader, a brother of the dead man, was about two years ago tried and acquitted of the charge of killing a man named North, on the Anderson road, just north of Clear Creek, three miles below Redding. But there was not sufficient evidence to convict him.

It is said that he and his brother, Isaac, have had serious trouble and had a quarrel about a year ago, since which time a feeling of enmity existed between them. On this ground suspicion is said to rest on him. Deceased was 50 years of age and leaves quite a large family.

Suicide of a Merced Chinaman. MERCED, CAL., Nov. 23.—Ah Coom, a Chinese laborer, 25 years of age, hanged himself to the rafters of an outbuilding in Chinatown last night. He attempted his life about a month ago, but was discovered by friends who summoned a physician and saved his life. He was out of work and dependent. Coroner Clough held an inquest. The jury returned a verdict of suicide.

Victors Received at Santa Cruz.

SANTA CRUZ, CAL., Nov. 23.—The Santa Cruz High School football team, which played the Santa Clara College team at Santa Clara to-day and was the victor with a score of 18 to 0, was enthusiastically received at home this evening.

The players were greeted at the depot by a large crowd and a band of music.

FATE OF A SEATTLE PUGILIST.

Sentenced to a Year's Imprisonment for Assault and Battery. SEATTLE, WASH., Nov. 23.—Municipal Judge Glasgow disposed of one prize-fighter for twelve months this afternoon, sentencing Billy Savage, the Australian fighter, who fought a draw with Griffo, to a year in the County Jail for assault and battery upon William Busha, an oyster-house proprietor.

Some days ago Dusha accused the pugilist of having robbed him, and a fight ensued, resulting in a terrible beating for the oyster man. Savage, who was arrested, secured an acquittal on the charge of robbery, but was convicted by the jury of assault and battery. The Judge ordered him imprisoned, very much to the surprise of those who heard the case.

GRADING AT AN END.

The Valley Road Force Has Reached Stanislaus River.

MAKING FINE PROGRESS.

Tracklaying Will Be Completed by the End of This Week.

CAUSE FOR THANKSGIVING.

Stockton Given Abundant Reason to Rejoice Upon the Coming Holiday.

TO THE GOLDFIELD MINES.

A Proposed Extension of the Phoenix, Tempe and Mesa City Road.

California Capitalists at the Head of a Terminal Railway Scheme in Arizona.

PHOENIX, ARIZ., Nov. 23.—The Phoenix, Tempe and Mesa City Railroad, a ten-mile branch of the Phoenix and Maricopa Railroad, runs from where the greater road taps Tempe to Mesa City, a wealthy community settled by Mormons, who came here from Utah about twenty years ago.

The country through which the road runs is one of the richest sections of the Salt River Valley, and although this much of it will fill one of the most urgent needs of this section, work will be continued until it reaches the Goldfield mining camp, a distance of about twenty miles from the present terminus.

It was about two years ago that the people of the three cities and of this section of the Salt River Valley came to the conclusion that this road was urgently needed.

The interests of Phoenix, Tempe and Mesa City are identical, as the business men of these three towns derive their trade from this section of the Salt River Valley.

As soon as this conclusion was reached the Chamber of Commerce of Phoenix took up the matter, as did the business men and farmers generally. A year was spent in discussing ways and means and agitating the question, during which time all sorts of absurd plans and impracticable schemes were broached.

Railroad promoters from all over the country were invited to visit and look over the ground. Many companies, but no decision being reached, it began to look as though the citizens would have to build the line by popular subscription.

About the time that this came to be a foregone conclusion and an accepted fact, N. K. Masten, one of California's most prominent railroad promoters, was interested in the project. After looking over the ground he decided that the proposed road was not only feasible, but would be a paying investment.

Returning to California, he in turn interested Francis Cutting and Sydney Smith, who came, saw and were conquered. They, after reaching the same conclusion as had Mr. Masten, decided to build a road, and in June of this year a surveying party was organized and sent over the route. Immediately after their construction gang was sent under the superintendency of G. H. Honshehl, who pushed the road to a rapid completion, the entire cost aggregating over \$150,000.

Mr. Honshehl has quite a reputation as a railroad builder. It was he who built the Maricopa and Phoenix, being afterwards elected to the general superintendency of the Phoenix, Tempe and Mesa City Railroad.

The officers of the new road are: President, N. K. Masten; vice-president, Francis Cutting; secretary and treasurer, F. I. Kendall, all of San Francisco.

In the height of his celebrity, Sir Morrell Mackenzie, the throat specialist, earned \$75,000 a year.

WEARY OF LIFE.

There are hundreds of people who are really tired of existence. And it is not very surprising that they are.

The drain on the system of every hard worker—be the labor physical or mental—is nowadays heavy. Doctors tell them that their liver is out of order, but that is not the root of the evil by any means.

Their systems are practically exhausted; what they need is Celery to strengthen their nerves, Beef Extract as a general sustenent and Iron to purify and enrich their blood.

These three grand tonics, sustenants and system-builders have only once been perfectly combined. Dr. Henley did it, and the Celery, Beef and Iron preparation which bears his name is the only thing which certainly cures the ills of the tired man, the weak woman and the puny child.

A SINGLE BOTTLE.

Will Prove the Truth of This Assertion.

Captain Frank Barrett, a Sterling Citizen of California.
