

OSBORN'S POUND SHOT. Scores Ex-Superintendent Fleming and John Partridge.

POUND BOOKS CORRECT.

The Charge of Criminal Libel Is Made Against Mr. Fleming.

ABUSED HIS OFFICIAL TRUST.

Ex-Director John Partridge Is Put Down as a Regular Know-Nothing.

Poundmaster Osborn has put into execution his threat of swearing to a complaint charging ex-Superintendent Fleming with criminal libel. He appeared in Judge Conlan's court yesterday and caused a warrant to be issued for Fleming's arrest.

In an interview yesterday Mr. Osborn brought at length the several charges brought against him, and from his statement there is not one scintilla of evidence to show anything wrong with the management of the pound. In addition to this he makes counter charges against Mr. Fleming, which are serious if nothing more.

Over his own signature he makes the following statement:

In reply to the attack upon me by ex-Superintendent J. B. Fleming appearing November 18, 1895, I would say that it is flaming with falsehoods. Mr. Fleming asserted that it has been impossible since July last to have the directors of the Society for the Prevention of Cruelty to Animals investigate the tenses charges against John Partridge, the president of the board of directors referred to the standing Pound Committee. They investigated the same and filed their report, exonerating me, and they did not seem to have a special committee to be appointed, which was the basis of the charges against me.

Mr. Fleming and Mr. Partridge, so they asked for a special committee to be appointed, which was the basis of the charges against me. The board of directors referred to the standing Pound Committee. They investigated the same and filed their report, exonerating me, and they did not seem to have a special committee to be appointed, which was the basis of the charges against me.

Mr. Fleming and Mr. Partridge, so they asked for a special committee to be appointed, which was the basis of the charges against me. The board of directors referred to the standing Pound Committee. They investigated the same and filed their report, exonerating me, and they did not seem to have a special committee to be appointed, which was the basis of the charges against me.

Mr. Fleming and Mr. Partridge, so they asked for a special committee to be appointed, which was the basis of the charges against me. The board of directors referred to the standing Pound Committee. They investigated the same and filed their report, exonerating me, and they did not seem to have a special committee to be appointed, which was the basis of the charges against me.

MODERN RYDER MOTOR. At the Initial Trial It Runs a Car Twenty Miles an Hour.

A FACTORY TO BE ERECTED.

Cars Propelled by the Motor to Be Placed Upon the New San Luis Obispo Line.

A compound motor, to be used for propelling streetcars, has been invented and perfected by E. L. Ryder of this city, which promises to revolutionize the systems which are now in common use and particularly the dangerous and expensive trolley system.

The motor in question is propelled by front starting at the foot of Broadway having been used for this purpose. On the first few trips made by the car from twenty to thirty passengers were carried with ease, and although the track is but little over a quarter of a mile long a speed of fully twenty miles an hour was attained during the initial speeding trials of this modern passenger carrier.

This car in question is about fourteen feet long and weighs slightly over six tons, is lighted throughout by electricity, and taking it all in all it is as comfortable a dummy as any of those upon the old established lines.

These cars, furnished with this new system of locomotion, will climb the same grades with less effort than the trolley-car, and another advantage which is particularly noticeable is the silence with which the car runs even at its highest speed. Another advantage embodied in this new motor is that no power-house or machinery other than that carried by the car itself is necessary, and the motor can be used in either open or combination cars; in fact it can be attached to the old cable-cars of defunct lines, of which there are many in this State, which in the end would be a great saving to any corporation which might wish to re-establish a deserted route.

E. L. Ryder, the inventor of the motor, owns an interest in the San Luis Obispo Street Railway Company, a recent corporation, which at the present time is building a railway in the city from which the corporation took its name, and as soon as

work on the Palo Alto line by the first of January, and left last night for San Luis Obispo to arrange for the erection of this line and the completion of the San Luis Obispo branch. The San Luis Obispo line will be incorporated and bonded within a few days, which will greatly hasten its completion. The Palo Alto line will simply be incorporated.

John Parkinson of the Parkinson Lumber Company of Palo Alto will build a wharf on Palo Alto's new water front, and also erect a planing and saw-mill for the purpose of dressing Oregon lumber, which he will have sent to him by the shipload, and this fact, taken in connection with the bathing resort for the university students, will, without doubt, insure the success of the new railway. A corporation with Mr. Ryder as its president, will shortly erect a factory in this city, in which the Ryder motor and the cars will be manufactured, and as soon as this factory is completed Eastern railroad companies will be negotiated with in regard to the adopting the new motor upon their lines.

AGAIN AFTER ASHWORTH. The Civic Federation Will Prosecute Him a Second Time.

Prospects Favorable That No Non-Partisan Ticket Will Be Named Next Year.

The Grand Jury has found another cause for accusation against Superintendent of Streets Ashworth, which will be put in legal form by the District Attorney in the course of a few days.

This prosecution will be pushed with renewed vigor by the Civic Federation, which body has authorized and instructed I. J. Truman to employ special counsel to assist the District Attorney in the prosecution of the case. Mr. Truman, acting under these instructions, has employed M. S. Woodham to represent that body before the Superior Court.

It would be acceptable to this organization if Judge Sanderson would assign the case to Judge Wallace's court, where all concerned would obtain a sound judicial interpretation of Mr. Ashworth's responsibility in accepting public work claimed by some people to be of an inferior quality, although passed by his sworn deputies.

Over what action the Civic Federation will take in the campaign of next year, opinions of the members are somewhat at variance.

It was the intention of this organization at its formation, a few months since, to establish political clubs in the various assembly districts with the view of putting an independent ticket in the field for municipal offices. But since that time some of the members have changed their opinions and are somewhat disposed to wait and watch what the Republicans and Democrats will do in the matter of organizing clubs.

It is argued by some of the members that with a man of such a clean political career as John D. Spreckels and one who has no other objection in view than that of giving the city a good, clean, economical administration, together with the hope that the new charter will be adopted by the people, there will be no necessity of putting a non-partisan ticket in the field.

Osborne Libel Suit. The warrant for the arrest of John B. Fleming, ex-superintendent of the Public Pound, upon a charge of criminal libel, was sworn to by F. A. Osborne, the City poundkeeper, in Judge Conlan's court yesterday morning. The alleged libel was contained in an article published in THE CALL on December 15.

ASHWORTH, THE ACCUSED. District Attorney Barnes Will Conduct the Next Trial.

District Attorney Barnes Will Conduct the Next Trial.

Special Effort Will Be Made to Secure an Impartial Jury in the Regular Manner.

As announced in yesterday's CALL, the Grand Jury's accusation of Thomas R. Ashworth, Superintendent of Streets, will be presented to Judge Sanderson by the District Attorney to-morrow.

The indictment specifies five distinct instances of official neglect, and asks for the removal of the Superintendent from office on the grounds of corrupt and willful misconduct. The Hayward-street sidewalk is not among the counts against Ashworth, but the Laguna-street block and several other paving contracts are enumerated.

Assurance has been received by members of the Grand Jury that W. S. Barnes, District Attorney, will personally conduct the case against Mr. Ashworth, and special care will be taken to secure an intelligent and impartial jury. It is believed that the jury will be selected in the regular manner.

In the first case against Mr. Ashworth Judge Murphy ignored the 1200 names in the regular box and directed the Sheriff to issue a venire for jurors to try that particular case.

Some members of the Grand Jury were greatly disappointed when Judge Murphy announced this departure from the usual custom and did not hesitate to predict that the jury so secured would deal gently with the Superintendent.

Of the eighteen members present Friday afternoon only three voted against the accusation. These three were Messrs. Leaventritt, Groom and Kerr. Mr. Leaventritt voted for the original accusation, but was convinced by his attorney, Charles Ackerman, who is also the attorney for Mr. Ashworth, that a conviction could not be obtained.

O. F. Wiley's position has been misrepresented in certain quarters, and he is convinced that the misrepresentation is deliberate and studied. He voted on his first and second time in favor of finding the accusation, and while he may have expressed a belief in Mr. Ashworth's honesty he has never doubted the Superintendent's incompetency.

Mr. Ashworth's own admissions to the jury regarding the manner in which he conducts the office placed him in an unfavorable light. Many questions were asked about his subordinates, the duties which he required them to perform, and the responsibilities which he placed on them, and the replies impressed the members of the Grand Jury with the belief that the office was conducted about as subordinates Keating, Kaabe and others saw fit to run it.

It is possible that the Grand Jury may not adjourn next Tuesday. Opinions are entertained by the District Attorney and others qualified to speak that investigations may be continued as long as a sense of public duty on the part of the jury demands. Facts of special importance have been disclosed recently and much more good might be accomplished if the time for adjourning sine die were postponed.

The Fire Department investigation will begin to-morrow. It might have begun last Friday if the Secretary had not neglected to summon the Fire Commissioners as he was directed. This neglect or inadvertence caused some pointed comment among members of the Grand Jury.

Ministers Will Confer To-morrow in Regard to a Mass-Meeting. The joint committee of ministers from various denominations of the city, who have been delegated by the ministerial associations they represent to arrange for a public demonstration of sympathy with the Armenian sufferers, will hold a conference at the Occidental Hotel at 3 p. m. to-morrow.

It is expected that arrangements will be made for a mass-meeting at Metropolitan Temple shortly and that Mayor Sutro will be asked to preside. The purpose is to invite the ministers and laity of every faith to participate in a protest against Turkish atrocities.

SPECIAL feature at Hammersmith & Field's Monday afternoon auction will be fine diamond pieces.

THE NEW ELECTRIC MOTOR TO BE USED ON THE PROPOSED LINES.

compressed air, five cylinders being used for the distribution of the power to the driving-wheels of the car. A set of air compressors driven by a storage battery, though miniature in size, but nevertheless capable of compressing the air in the storage tanks to a great density, is situated under the body of the forward portion of the car. A dynamo, which is propelled while the car is in motion, restores the batteries, virtually making the machine a contrivance run by perpetual motion, but after a five or six days' run, it becomes necessary to recharge the storage battery with the dynamo run by power other than that furnished by the moving car.

In this last fact lies the secret of the motor as a third power is used for this purpose, and as the motor is not completely protected by patents Mr. Ryder is adverse to divulging this secret until he is certain that other inventors cannot legally infringe upon his invention. A car upon which this motor has been applied has been completed, and a thorough test made of its running ability, a stretch of deserted track along the water

the railroad is completed cars propelled by the new motor will be placed upon the line in preference to the other systems. The San Luis Obispo Street Railway will run from the Southern Pacific depot across the city to the courthouse, a mile of the line being already completed. Another line will commence at the Hotel Ramona and have its terminus at the city cemetery, these two lines passing all the business points and pleasure resorts throughout the surrounding country.

Another railroad will be erected from the railroad station at Palo Alto, passing after a five or six days' run, it becomes necessary to recharge the storage battery with the dynamo run by power other than that furnished by the moving car.

As there are about 1200 students in Stanford University who are desirous of some means of easy access to the beach, there is no doubt but that the line will be a popular and profitable one. Outside parties were not slow to see that the beach, at which the line will terminate, will become a popular resort, and contracts have already been let for the erection of bath-houses and other accommodations necessary for the comfort of pleasure-seekers.

Mr. Ryder is under contract to start

work on the Palo Alto line by the first of January, and left last night for San Luis Obispo to arrange for the erection of this line and the completion of the San Luis Obispo branch. The San Luis Obispo line will be incorporated and bonded within a few days, which will greatly hasten its completion. The Palo Alto line will simply be incorporated.

John Parkinson of the Parkinson Lumber Company of Palo Alto will build a wharf on Palo Alto's new water front, and also erect a planing and saw-mill for the purpose of dressing Oregon lumber, which he will have sent to him by the shipload, and this fact, taken in connection with the bathing resort for the university students, will, without doubt, insure the success of the new railway. A corporation with Mr. Ryder as its president, will shortly erect a factory in this city, in which the Ryder motor and the cars will be manufactured, and as soon as this factory is completed Eastern railroad companies will be negotiated with in regard to the adopting the new motor upon their lines.

AGAIN AFTER ASHWORTH. The Civic Federation Will Prosecute Him a Second Time.

Prospects Favorable That No Non-Partisan Ticket Will Be Named Next Year.

The Grand Jury has found another cause for accusation against Superintendent of Streets Ashworth, which will be put in legal form by the District Attorney in the course of a few days.

This prosecution will be pushed with renewed vigor by the Civic Federation, which body has authorized and instructed I. J.
