REMARKABLE STORY OF CRUELTY RELATED IN A DIVORCE SUIT.

Papers were held yesterday in the Superior Court in behalf of Agnes M. Haique, making application for a divorce from her husband, Martial Haique. Martial Haique is a young man 23 years of age, a son of the former proprietor of the Cyclops Machine Works, and an heir to his father's estate, owner of a sixth interest in the tools, etc., of those works. He is said to be worth \$25,000, and upon the motion of Water Linforth, the plaintiff's attorney, Judge Hunt, yesterday issued an injunction restraining Haique from transferring any of his property, as he threatened to do in case of suit being entered.
 The wife alleges extreme cruelty as the grounds of her petition, and cites a series of extraordinary instances. The couple were married on the 30th of July, 1893, in this city. The husband is alleged to have begun to treat his wife with brutal violence almost immediately after the marriage. On the evening of the 9th of September, 1893, while they were returning to their home at 510 Fifteenth street, after a visit to a sister of Haique, he struck his wife with his fist, causing her nose to bleed profusely.
 She was only saved from another attack in their house the next day by the appearance of a friend, Mme. Rosine Guivre.
 During the month of January, 1894, the husband is alleged to have beaten his wife in the face with his fist until he wearied of it, and then dragged her about the room by her hair. At this time the wife had but risen from a bed of sickness, her child being but three weeks old.
 In February following the husband again beat the petitioner in the face, choked her, threw her upon the floor and kicked her in the abdomen. She endeavored to escape from the house with his child, but he overtook and choked her again.
 A few days later, while the baby girl was asleep in her bed, being then less than two months old, he threatened to kill her should she awake and cry. The child did awake and he hurled two wooden boxes at her. The mother threw herself in front of the child and was struck over the eye and temple. As a result, her eye was swollen and blackened and her face discolored for a period of two weeks thereafter.
 In June, in the presence of a visitor, he gave her another choking.
 On the evening of the 4th of July, about 9 o'clock, he beat her into insensibility. She did not recover consciousness until 4 o'clock the next morning, or seven hours after. Another result of this her face was blackened and discolored for a period of two weeks.
 On the 30th of May, 1895, while in a public restaurant at Seventh and Market streets, he threw a sugar bowl at her, striking her on the shoulder.
 On January 27, 1896, with the acquiescence of the husband, the wife "was repeatedly struck in the face with great force and violence by Mrs. Frank C. Bangs, a sister of the defendant."
 The petition further states that these instances were only a few of their kind, but that repeatedly the husband beat and abused the wife, in this way making her sick, lame and disfigured. He used violent, abusive and obscene language toward her frequently in the presence of visitors, and charged her with being upon improper terms with every man who came to the house.
 The issue of the marriage is the child referred to and another not yet born.
 The Mrs. Bangs referred to—a sister of the respondent—is the wife of a well-known attorney of this City.

ASK FOR APPROPRIATIONS.

The Committee on Commerce Espousing the Shipping Interest.

ORDERED BY OVERTAXATION.

Several Proposed Recommendations Suggested for the Benefit of This Harbor.

A meeting of the committee on commerce was held in the rooms of the Chamber of Commerce yesterday afternoon.

Previous to the arrival of T. J. Parsons, chairman of the committee, an informal discussion was had on the question of what rates to the shipping. J. W. Dickie, chairman of the sub-committee on "taxation on shipping," had discovered that the firm of Goodall & Perkins, who have a monopoly of the water supply along the front, are charging more than twice the price for supplying the ships what they themselves pay to the water company.

It was shown that this firm charges the State for its tugs \$97.50 for the water supplied, which they buy from the Spring Valley for \$34.82.

This subject will not, however, be brought before the committee for consideration until such time as the Harbor Commissioners look into the matter.

The committee on taxation on shipping submitted the following as its report: "In submitting their report your committee are fully conscious of the fact that the question of the taxation of shipping is a grave one, and that the rates that in one shape or another is recently being acted upon by several of the States. It is also a question of vital importance to the commerce of San Francisco, more so, perhaps, than any other question of the State, as the shipowner of San Francisco is in direct competition with foreign shipping, built cheap and subject to no taxation.

"We had hoped that there might be some way whereby the burden of taxation on our shipping might be relieved short of an appeal to the whole people of the State, but these hopes present but little foundation upon which to base a recommendation that the San Francisco committee on commerce center its energies on securing the passage of a resolution by the Legislature to amend the first section of Article XIII of the constitution of the State of California, providing that all vessels registered or enrolled in any port in the United States and any foreign port, or between ports in the United States, shall be exempt from all local and State taxation; and we further recommend that the committee at once begin the work of educating the people of this State as to the necessity for placing our shipowners in a better position to compete with the untaxed ships that are now doing the work that our own ships should do.

"To this end we recommend that papers or tracts be printed and issued by the committee to every voter, containing the justice and wisdom of such an amendment; its necessity in order to secure the commercial prosperity of the State; how all interests depend on the prosperity of our commerce; how other States and nations free themselves of the burden, and how hopeless it is to compete against free ships with taxed ships. By such means, aided by the newspaper press, which we think should be patriotic enough to keep this matter constantly before its readers, not as a party or sectional question, but as a great principal factor in the welfare of the commonwealth.

"In this your committee sees the only hope of relief for an overburdened shipping.

A series of petitions were submitted by the various sub-committees on matters to them referred asking appropriations from Congress for keeping the telegraph stations between this City and Point Reyes light-house in good working order. For this service the sum of \$2000 was asked.

The sum of \$30,000 was asked for the purpose of removing the dangerous obstructions in the bay. Also for fair-way signals entering the bay, and charts of the various sections traversed by telegraph and telephone cables.

On current matters mentioned there, the sum of \$5000 was asked to be appropriated to the geodetic survey.

For a fog signal on the northwest Farallon, \$20,000, and to connect the southeast Farallon island with the main land on this side, \$35,000 was prayed for. The sum of \$90,000 was asked to build and equip a fog-signal vessel, with auxiliary steam power, to be stationed outside of the bay at San Francisco, in place of the inefficient tug now in use.

In order to give additional strength and force to the committee's request for the above appropriations, a motion was made and carried that the chair appoint a committee of three to obtain the signatures of other representative organizations not connected with the Chamber of Commerce. On this committee W. M. Bunker, Alfred Bouvier and Captain Thayer were appointed.

MME. DORRE AS MIGNON.

The Tavery Company Is Quite at Home in Thomas' Tuneful Work.

The Prima Donna Shows Too Much Partiality for Carmen With Variations.

The Tavery Company showed itself to be quite at home last night in Ambrose Thomas' charming opera of "Mignon." The work is not too heavy for the performers; indeed, in the title role, the prima donna proved too strong for her resister, long and auring, coquetical look, which of right belonged to the gypsy girl's armor, or a Santuzza-like burst of passion would come and shatter the pretentious bill. If Mme. Dorre would cast aside her modern lyric drama tendencies and remember that she is playing in opera comique she has it in her to become a wonderfully effective Mignon.

At times it seemed as though Mme. Dorre was playing the part of a prima donna, and not of a gypsy girl. Her long and auring, coquetical look, which of right belonged to the gypsy girl's armor, or a Santuzza-like burst of passion would come and shatter the pretentious bill. If Mme.
