Father Cottle's Success Since He Took Charge of the Parish Eight Years Ago.

Out at the corner of Van Ness avenue and Broadway, at a point commanding a magnificent view of the bay of San Francisco and the green hills of Marin County in the distance, a corps of artisans are at work laying the foundation of the new St. Bridget's Church. Shea & Shea, architects, have just finished the plans for the edifice, and kindly furnished the CALL with the following perspective sketch. Frank Shea will put his best effort into the structure, and hopes to see in it, when completed, an architectural triumph. It will be Romanesque in style. Father Cottle is pastor of St. Bridget's

Yesterday the Castro-street Land Company filed with the Board of Health and also with the Board of Supervisors a petition for the extension of the Pound limits, covering the district described as follows: Commencing at the intersection of Stanyan avenue with Thirtieth street; thence north on Stanyan avenue to Corbett road; thence west to San Miguel road; thence southwest to Ocean House road; thence southeast to the intersection of Stanyan avenue with Thirtieth street; thence west to the point of commencement on Stanyan avenue. It is also asked that deputies be appointed to control the district. Complaint is made of the number of hog ranches in the neighborhood and of the fact that the hogs are allowed to roam at large. They recommended that the hog limits be extended so as to be bounded as follows: Beginning at Stanyan and Thirtieth

Church. Since assuming charge of the parish eight years ago, he has made remarkable progress in his pastorate. He soon swept away all debt on the old church and has money on hand to commence the new one, which will cost about \$75,000. The new church will have a frontage of sixty-four feet on Van Ness avenue. The lot has a depth of 150 feet on Broadway and 200 feet on Van Ness avenue. The parochial structure will adjoin the church and front on Van Ness. The tower will rise to a height of 120 feet. It will be surmounted by a beautiful gold cross. Brick and granite will be used throughout. The foundation, which is now being laid, will be of concrete and the basement will be a departure from the old style. The floor will be flush with the street while the walls will rise to a height of sixteen feet. The walls will be brick with an outer finish of granite from eight to ten inches in thickness. The basement will be the full width and length of the church. It will be used as a hall for Sunday-school purposes, social gatherings, musical and literary entertainments, reading circles, lectures, etc.

MECHANICS' PARADE.

The Junior Order Will Display Its Strength on Washington's Birthday.

The final arrangements for the celebration of the anniversary of Washington's birthday were completed by the committee having the affair in hand last evening at a meeting of the Washington's birthday committee of the Junior Mechanics held at B'nai B'rith Hall.

The parade will leave the foot of Market street immediately upon the arrival of the creek boat from Oakland, which will probably be about 1:30 p. m.

A large number of councils from the interior will participate, also a large delegation of those participating in the Oakland parade.

The parade committee requests all lodges and societies that expect to participate to report to Grand Marshal McCord, whose headquarters will be at the corner of Davis and Market streets.

Lincoln Council No. 2 will form on East street, right resting on Market.

Stark King No. 6 will form on Steuart street, left resting on Market.

E. S. Grant No. 19 will form on Drumm street, right resting on Market.

General George A. Custer No. 23, James Monroe No. 24, Paul Revere No. 28, John A. Logan No. 31, Henry Clay No. 34, and Councils from Oakland and Alameda County, together with unassigned societies, will form on Front street, right resting on Market.

Z. T. Whitten has been selected as chief of staff, and the following will act as aids: Charles F. Church, orderly; A. D. Elsworth, R. A. Nelson, Solomon Jacobs, G. F. Fletcher, G. E. Randolph, W. H. Kitchham.

The grand marshal will wear red, white and blue sash, chief of staff red, orderly blue, and aids white sashes.

From reports received by the committee it is safe to predict a large turnout of the order and various other societies.

Eminent speakers have been obtained for the day and evening exercises. The McKenize Choral Society will furnish a chorus of 200 voices in a rendition of patriotic songs.

The procession will move up Market street to Ninth and countermarch to Odd Fellows' Hall, where it will be dismissed.

ROW OVER POOLROOMS.

The Chicago Man's Denunciation of the Police Commissioner.

HE LEAVES FOR THE EAST.

Cool Heads Interfered and Prevented Serious Trouble With T. H. Williams.

Edward Corrigan, the millionaire turfman from Chicago, who has been a leading spirit in the Pacific Coast Jockey Club, left this City last evening to spend a couple of weeks in his old home. During his stay here he inaugurated the results of races into town. His stringency against the downtown poolrooms, which he believes that these institutions are the parasites that eat away the life of horse racing in any community, and if any particular craze has settled in on him it is to close them up. He succeeded in Chicago even beyond his expectation. He enlisted the Civic Federation in his fight, and that organization did so well that it not only closed up the poolrooms but caused the bookies at Washington Park to quit business as well.

In this City Mr. Corrigan conducted the fight single-handed. He had the Pacific Coast Jockey Club lease the only wire out the Ingleside track, and by preventing people from leaving the course until after

the fourth race he stopped touts and messengers from wiring or telephoning the results of races into town. His stringency methods would have killed the poolrooms but for the fact that they were able to resume business every two weeks during the alternating of the races when they were held at the Bay District track.

This was galling to Corrigan. He did not stop to consider the assertions of the California Jockey Club managers that, as they might, they were powerless against the Ingleside track. He overlooked the fact, the directors of the California Jockey Club say, that Ingleside and the old track are differently located, and that while prying eyes could be excluded from the former there are a score of points of vantage from which they may be focused on the latter.

In his anger at finding his well-laid plans frustrated every two weeks, Corrigan addressed President Thomas H. Williams in a rather scorching manner some weeks ago. Neither has the coolest head on earth, and words with stinging meaning were exchanged. This was in the lobby of the Palace Hotel, where they were surrounded by friends, and no very great harm was done.

But before leaving the City last night Mr. Corrigan expressed his feelings in regard to Police Commissioner M. A. Gunst when the two met in the Baldwin Hotel. Mr. Gunst is serious and cool. He realized that he was listening to a man who was spurred to anger by a strong desire that was being thwarted. In consequence he moved away from the irate gentleman, giving him the sole occupancy of the room in which they had met.

"It wasn't a controversy," said Mr. Gunst to a CALL reporter. "It was simply a one-sided declaration in which I took no part. Corrigan is irrational and unreasonable. He accused me personally and as a Police Commissioner of standing in with the downtown pool-sellers and of furnishing them with the news from the Bay District track. As a matter of fact, I am the first man who took any steps to have the pool men arrested. I caused Corbett and his men to be arrested eight times, and eight times more have I caused Mission-street pool men to be brought in by the police.

"The manner in which Corrigan spoke to me prejudices our ever meeting again on a friendly basis. He accused me of furnishing the news to outsiders for pay. In the future I shall have nothing to do with him or anybody else deriving revenue from the race tracks. I will only associate with such men as Thomas H. Williams or the Spreckelses, who are in for racing pure and simple. To tell the truth, I have even lost interest in racing matters and while I am a director of the California Jockey Club I very seldom attend any of our meetings.

"In regard to the manner in which the poolrooms downtown get their news, I can only say that we have a single wire from the Bay District track to the Western Union office. The news is sent East, whence it is very probably sent back to this City, either by the Postal Telegraph Company or the Western Union. We have a contract with the latter company stipulating that they will not give out the race news in this City, but we cannot possibly prevent their giving service from foreign cities."

PADEREWSKI'S FAREWELL.

An Extraordinary Demand for Seats for the Recital This Afternoon.

The closing recital of the series of five wonderful performances on the piano by Paderewski will be given this afternoon in the California Theater at 2:30 o'clock.

There has been almost as great a rush for tickets for this recital as for the first, when all musical San Francisco was full of expectancy and excitement over the advent of the celebrated artist.

The advance sale of seats showed that Paderewski might remain here for another week or two and draw full houses at daily performances, for the lovers of music in its highest and most sublime flights are at his feet. His final recital promises to be a fitting climax. The programme is one that is sure to delight the audience, and there is every reason that

LYONS POST G. A. R. AT "FIX BAYONETS."

The Charges of Mismanagement at the Veterans' Home

DENIED BY ITS OFFICERS

They Point Out the Blunders in the Condemning Resolutions.

THE USES OF THE CANTEEN.

How the Expenditures Are Made—Report of the Commandant Last Year.

The old warriors of Lyon Post No. 8, G. A. R., of Oakland, have fixed their battle-stained bayonets, and their long-silent bugles are blowing sonorous sounds. No foreign foe, however, brings the venal ferocity of his sheath, and neither the call of menaced Venezuela nor the wail of murdered Armenians musters the veteran fighting men of the Republic.

Lyon Post is decidedly in the pathway of war nevertheless, and the object of their wrath is the board of directors of the Soldiers' Home at Yountville. At a meeting last Tuesday a set of resolutions were adopted, as published yesterday in THE CALL, strongly condemning the directory in their present management of the home at Yountville.

The resolutions charge extravagance on the part of the directors, misappropriation of funds, drunkenness on the home grounds by the officers of the institution, and the expenditure of public money for lobbying purposes.

The charges are sweeping in their tenor, even going so far as to complain that the directors constructed the sewer so that the drainage from the home emptied into Napa Creek above Napa City, from which the residents of that place obtained water. It would seem, at first glance, that the members of the Common Council of Napa City were the better judges of the sewerage question, but the old troopers of Lyon Post severely criticize their comrades in the directory.

They ask that the Grand Army of the Republic at the next encampment, at Santa Cruz, transfer the home to the State of California, regardless of the important fact that the Mexican War veterans have a fifth interest in the institution and would fight that proposition as they once fought Santa Anna at Buena Vista. The Governor is asked to investigate the charges and cause suit to be brought against the treasurer of the Veterans' Home Association to recover all moneys paid by the association for services rendered the home while a member of said association; also against the directors for all moneys misappropriated by them.

A representative of THE CALL interviewed a number of G. A. R. men yesterday and heard them deny in detail the charges. It is the general belief among the officers of the association that the resolutions were inspired by Comrade D. W. C. Thompson, late commandant of the home, who was removed by the directory several weeks ago. Thompson and the board were at Sabers' point during much of his administration, and peace was only declared when he was mustered out of office.

"I do not know anything about the originator of the charges," said Vice-President G. W. Arbuckle, "nor who he is, but he is certainly most ignorant in Grand Army affairs, and especially in matters pertaining to the home. His mistakes are reprehensible, because he could have easily informed himself.

"Now let us take the charges one by one and discuss them. It is untrue that one of the directors is paid \$600 a year for services as treasurer of the home. It is also untrue that he has \$20,000 pension money under his control. There is \$13,000 deposited in the different banks in this City on interest for old soldiers now at the home, and the treasurer can no more control that money than you can. Pension money is not paid in bulk to the pensioners at Yountville. A few dollars is given them from time to time, and the rest is paid to their families, if they have any. When they leave the institution, all money due is paid to them. The treasurer's bond is only \$10,000, it is true, but under the circumstances that is considered sufficient.

"The directors maintain an office in this City at the following monthly figures: Office, \$35; secretary, \$150; treasurer, \$50; medical examiner for admissions to the home, about \$15; total, \$300 a year. The articles of incorporation of the Veterans' Home Association says in the third paragraph that the principal place of business of the corporation is in the City of San Francisco. Lyon Post certainly knew that.

"There is no saloon on the grounds of the home, unless the canteen can be called by that name. All military posts, I believe, maintain a canteen where liquor is sold to soldiers under restrictions that will wholly prevent intoxication. The inmates of the institution cannot be confined, and the canteen is maintained to prevent those addicted to liquor from getting drunk away from the grounds, where they cannot be taken care of. There is no drunkenness at the Veterans' Home, I assure you, and the sweeping charge that directors can be seen in a state of intoxication is as silly as it is false.

"The sewer, which is said to empty 10,000 gallons of filth into a tributary of Napa Creek, has never been complained of by the people of Napa City. As a matter of fact it empties into a dry creek ten miles from the city, and the contents are absorbed into the soil before they reach the main stream.

"In regard to the misappropriation of funds the State and National governments give us \$142.85 yearly per man for the support of the home. If we can save by economy and good management from that we make much-needed improvements. Every purchase or expenditure is passed upon by the supply committee, and not a bill is paid until the State Board of Examiners, comprised of the Governor, the Secretary of State and the Attorney-General, have scrutinized it. The directory is perfectly willing to have Governor Budd investigate at any time the affairs of the institution. The charges are not only untrue, unjust and unpatriotic, but they show a limited knowledge of the plain facts of the case that is unexcusable.

THEY LED HIM TO A QUICK CONVICTION ON A CHARGE OF FORGERY.

He Had Affixed the Fresno County Recorder's Signature to a Deed.

J. F. Turner, who has been on trial before Judge Wallace for forgery, was found guilty yesterday. He will be sentenced next Friday.

The evidence taken in the case showed that Turner had been guilty of the old swindle of re-mortgaging land, although he had added forgery to the swindle. It was that phase of the transactions which brought him before the jury.

The deed upon which Turner forged the Recorder's name was for the Simons ranch, owned by Lizzie O'Donnell. J. P. Frenna loaned Turner \$8000 and was given a mortgage deed to the property as security. This deed Turner said he would have recorded, and Frenna allowed him to keep it.

Two weeks afterward Turner returned the deed to Frenna. In it was a certificate signed by T. A. Bell, Recorder of Fresno County, showing that the deed had been duly recorded and giving the day and date and hour. It was not until March, 1893, that Frenna became aware of the forgery, and then, upon investigation he found that Turner had in the meantime mortgaged the property to three others, Judah Boas, Victor Duhamme and Mr. Fagan of the American Bank and Trust Company had also loaned money upon it.

When the arguments and the Judge's charge to the jury were finished by 12 o'clock and the jury took about ten minutes to reach a verdict.
