

THE WHEELMEN OF SPORT.

What the Oarsmen, Athletes and Cyclists Are Doing.

The uncertainty of the weather during the past week has caused the wheelmen to alter their plans regarding proposed road races in the country. As soon as the roads are in condition to wheel over several club runs will be held to points of interest in the interior.

The anglers are in hopes that the trout streams will be in good condition on Wednesday next, when the season will open.

Sportsmen who fancy live bird and bluecock shooting will be present tomorrow to witness the race at the Oakland track between the Olympic, Lincoln and Empire Gun clubs.

A wrestling tournament will be held at the Olympic Club Monday evening. The athletes of the University of Berkeley will send a strong team East this year to compete in the intercollegiate championships.

Courting, rowing, handball, boxing, rifle-shooting and other pastimes are enjoying first-class patronage.

THE WHEELMEN.

All the Fast Club Riders Preparing for the Annual Relay Race.

The annual relay race around the bay is the one event to which the wheelmen are now giving all their attention. The date has been set for Sunday, April 12, and all the intervening Saturdays and week days will be devoted to training and other preparations. There will be a number of tentative races held to-morrow over the San Leandro course, which will in reality be try-outs to aid in the selection of men for the various teams. The Bay City, Olympic, California, San Francisco and Acme clubs will hold these practice rides. The Reliance men will ride ten miles on the Oakland Trotting Park track, and down at San Jose the Road Club and Garden City Cyclers will use the East San Jose course.

Chairman Stratton of the road racing committee of the associated clubs intended to ride over the last fifty miles of the relay course Thursday, to measure and lay it out accurately, but the rain prevented the trip. He will go to-morrow, accompanied by the other two general members of the committee, H. F. Ryan and A. P. Swain.

In spite of the many vague reports and rumors living around there is really very little news regarding the relay race. This event is looked upon by the club wheelmen as the greatest race of the year, and their best efforts are put forth into it. It is easy enough to take some prominent club, like the Olympic, for instance, and pick seven or eight of its best men and say they will surely be on its relay team this year. That would be true, but until the team of ten men is thoroughly completed its strength could not be estimated. It has been said that a team of ten average riders could beat a team of eight crackjacks and two poor men, and it is probably so. When each club is ready to name its full complement of ten men then the respective merits of the various teams and their chances of winning can be to a certain extent estimated, but not before.

The opinion was general a week ago that the Bay City Wheelmen would not consent to a postponement of the date of the race one week, but it appears now that that is just what that club wanted. Though possessing an immense number of racing men none of them are in their best condition, and the club has not even held a try-out as yet to decide who are entitled to positions on its team. It loses one powerful rider, W. A. Terrill, who is now a professional. The relay race will be held on the bay, competing in the race, and last year Terrill as a class B man rode his ten miles in splendid style. However, the club now has R. L. Lone, who rode for the Olympic club a year ago, and if he can be got into condition in time will be one of its best men. Then there are Ulrich, Lacey, Hatton and McGee in Southern California, all members of this club, who could be called upon if needed, all four of whom are phenomenally fast riders.

The Olympic Club Wheelmen's team this year will undoubtedly be stronger than it was in 1895, while the impression is that the Garden City Cyclers of San Jose will be weaker. The Acmes will be about the same as last year, except that they will not have Castleman and Burke of Los Angeles. It is between these four clubs that the race is supposed to be fought, though unforeseen incidents may change the programme. It will at any rate be a hard-fought contest, and the San Francisco and San Jose road clubs, Alameda, Imperial, Reliance and California, all have good men and are liable to change places with some of the admitted leaders.

A map will be issued early next week by the road racing committee which has charge of the race, showing the route to be followed through San Jose and into Alameda. Printed rules governing the race will also be sent out to the various clubs intending to enter teams.

The Garden City Cyclers of San Jose have applied for a sanction for a race meet to be held on their three-lap cement track on Saturday, May 9, the last day of the San Jose rose carnival.

The Olympic Cyclers have announced that they will give a minstrel show at Native Sons' Hall on the evening of May 14, the proceeds to be used in fitting up their rooms and expended on picnic runs for the members.

C. N. Ravlin and L. C. Hunter, R. A. Smyth and F. W. Fuller will have a tandem race from Fruitvale to San Jose next Saturday, starting at 2 o'clock.

R. M. Welch, member of the National Racing Board in this district, has issued his bulletin No. 5, dated yesterday, which is full of items of interest to the racing men. It is as follows:

BULLETIN NO. 5, MARCH 27, 1896.

Sanctions granted: May 9, Garden City Cyclers, San Jose, Cal.; May 30, Multnomah Bicycle Club, Portland, Or.

Pacific Coast records approved: One mile, flying paced, amateur—C. S. Wells, Coronado, Cal., February 15, 1896, 1:41 4/5.

One mile, standing, paced, amateur—H. E. Monro, Coronado, Cal., February 15, 1896, 1:49 2/5.

One mile, flying, paced, professional—W. V. Hamilton, Coronado, Cal., March 2, 1896, 1:39 1/5.

Transferred to professional class: Godfrey Schmidt, Los Angeles, Cal.; Oscar Lane and W. K. Palmer, San Diego, Cal., under clause 1.

The undersigned has been placed by the National Racing Board in direct control of the North and South Eastern States, Arizona, New Mexico, Utah, Montana, Idaho, Oregon and Washington. Wherever practicable a local representative will be appointed in each division to whom applications for sanctions may be made, and who will otherwise give attention to the local racing men. The National Board has assigned to the charge of local representatives as follows: Southern California, H. C. Smith, 124 1/2 East Broadway, Los Angeles, Cal.; Arizona and New Mexico, E. G. Lorr, postoffice box 1453, Tacoma. Other appointments will be announced as made.

The attention of racing men is directed to the bulletin issued by Chairman Gideon under the date of the 19th inst., and especially to the warning that men competing as amateurs under false pretenses will, when detected, be punished not alone by transfer to the professional class but by suspension from the track. There is no intention of using the professional class as a penal colony for unworthy men. Under the direction and control of the league it is intended that the racing man who desires to derive an income from his efforts on the track should deserve the confidence of the public and be protected in his relations with his fellow riders and race-meet promoters. Any man who in either class will be punished by exclusion from the track for a period commensurate with the offense committed.

Race-meet promoters are reminded that the prizes in each event must be specified on the programme. Any programme which does so specified and nothing else, the exchanging and bartering of prizes or the accepting of orders for merchandise in lieu of the prizes so

specified constitute acts that will forfeit a rider's amateur status.

R. M. WELCH, Member National Racing Board.

Mr. Welch, who also holds the position of chairman of the racing board of the North California Division, League of American Wheelmen, has issued a division bulletin, reading:

Sanford Plummer, San Francisco, and John Knapp, Jr., Oakland, have been appointed official referees of the North California Division.

Division championships for 1896 have been established at the following distances:

Quarter mile, half mile, one mile, two miles and five miles are to be run on a track.

Prizes are medals of a design prescribed by the division board, costing \$35 for a set of three, one each of gold, silver and bronze.

The championships will be located for competition on application.

R. M. WELCH, Chairman North California Division Racing Board.

Since the New York World saw fit to employ Arthur A. Zimmerman, the world's champion to edit its cycling columns the New York Morning Journal has engaged the services of Eddie C. Bald, last year's champion of the World. When the racing days are over there is still a field for the bicycle champion.

The Alameda Cyclers will have a try-out at San Leandro to-morrow to aid Captain Bald in selecting his relay team. A lantern parade on a large scale through the streets of Alameda is being arranged for the near future.

Inferior tubing in a bicycle is the worst of construction faults. No matter how fine the enamel which may possess, the inherent weakness of the frame presents an element of danger, and the manufacturer who uses inferior tubing is criminally negligent. The first chase of it all is the policy of deception which floods the market with bicycles of inferior character under the guise of "high-grade wheels."

This season, owing to the difficulty of securing cycling goods, with a goodly sprinkling of unattached riders. Application blanks and pamphlets, telling the objects and methods of the League of American Wheelmen can be had by addressing the cycling editor of THE CALL.

A. Theison of the California Cycling Club upheld the honors of that club at the recent indoor tournament in conjunction with C. Birdsall. Theison is a strong, consistent rider and will be a tower of strength on the club's relay team.

The Bicycle Protective Association will

fortunately there are greater pleasures in angling than the killing of fish, otherwise it would be far cheaper and less laborious to tramp to the nearest market and catch your fish with silver hooks.

True anglers never grow tired of the pastime, and generally speaking they delight in reading any instructive and entertaining matter that refers to the gentle and quiet pastime.

Those who have read Dean Swift's hook on salmon fishing can readily understand the underlying current of sentiment that stirs the anglers' soul when there is a reference made to trout streams and salmon rivers.

Somehow there seems to be a free-masonry about angling that will cause strangers who meet on the banks of a mountain stream to feel like brothers within fifteen minutes after they have discussed the merits of some of the most popular and extensively used flies.

When the season for trout fishing approaches one of the greatest pleasures enjoyed by anglers is in chatting over the prospects for the inaugural outing, and the expectation of once again hearing that dear old lullaby of the mountain creeks,

Yeguas Creek, Grosby's Creek, Cupertino or Stevens Creek.

Creeks that empty into the ocean in the same county are Fall Creek, Newell Creek, Bear Creek, Deer Creek, Arroyo del Monte, Pilarcitos, Purissima, Lobitos, Tunitas, San Gregorio or Arroyo Honda with its two branches, viz., Clear Creek and Boggs Creek, Pompano Creek, Pescadero Creek and Peters, a good branch, Burtano Creek and Trijoles.

Marin County—Corte Madera, Ross Creek, Blythevale, Gallinas, Novato, Olems, Lagunitas, Paper-mill, San Geronimo, Big and Little Carson, Nicasio, Arroyo Soledad, Arroyo San Gabriel, Santa Cruz County—Scotts Creek or Arroyo de Jarro, Arroyo San Vicente, San Lorenzo River and its numerous branches, some of which are Fall Creek, Newell Creek, Bear Creek, Kings Creek, Lompico, Leventas, Arroyo Villa or Brown Creek, Gold Creek, Shaguel Creek, Arroyo del Rodeo and Blackburg Creek. Besides these there are Aptos, Corralitos, Boulder, Wedell, etc.

Alameda County—Santa Pablo, Pinole, Wild Cat, Bear Creek, Walnut Creek, San Lorenzo, Hayward, Arroyo Mucho Creek, Fish ranch, Alameda Creek, La Costa, San Antonio, Arroyo Honda, Guaymas Creek and Niles.

Santa Clara County—Guadalupe Creek, Coyote Creek, Campbells Creek or Arroyo Quino, Arroyo Seco, Los Gatos, Carnadero and Las Llagas.

The trout streams in the vicinity of Highland Springs, Lake County, will be fished extensively this year as good reports have been received from anglers who reside near the springs.

McMath of Hulville, Lake County, writes that excellent trout-fishing will be had this year in Soda and Salmon creeks, as steelheads had access to those waters during the past winter and several of them remained over.

William Fuber of Pieta writes that the dam in Pieta Creek still remains, but that the basket which prevented a large number of fish from ascending the stream has been removed.

Should the weather remain fine during the next week the Paper-mill and Lagunitas creeks should be in pretty fair order for fishing by Sunday, April 5. The late rains have dislodged these streams and the refuse stuff from the hills will supply the little finny inhabitants of the creeks with food of all kinds. According to the following letter received from Joseph F. Bertrand of Localoma, the prospect for a good sport when the Paper-mill Creek resumes its normal appearance is first class. His letter reads:

Sporting Editor Call: The present outlook for the opening of the trout season on the Paper-mill Creek offers a more favorable opportunity for a "good run" of steelheads and large trout than has been known to anglers for many seasons.

The recent rains have so raised the stream that the late run of steelheads has made good headway in reaching the end of the stream waters. By the 1st of April it is presumed that they will be ready to make good the return trip by slow stages. Should the weather remain passive the state of the water will be in a splendid condition for excellent fishing.

Since the closing of the paper-mill at Trolleyville, which is now over two years, the stream has become free from all those poisonous ingredients that were so injurious to the fish and together with the clearing up of the old dam, that was such an obstruction to the free access of incoming runs for the upper waters, the little fingerlets have now fairly doubled their growth under the thriving nutrient peculiar to these waters.

Tocaloma, Cal., March 24, 1896.

There can be no gaining the fact that during the months of April and May the streams which invariably give the best results are within easy reach of stations on the San Francisco and North Pacific Coast Railroad, which line taps all the tributaries of the Russian River.

THE GUN.

Inanimate Target and Live Bird Shoots to Be Held To-morrow.

The Olympic, Empire and Lincoln gun clubs will meet to-morrow at the Oakland track, and the betting favors the Empires as the Olympic Club team will be weakened by the loss of some of its crack shooters, who are entered for the big shoot at Sacramento.

John H. Carroll of the Olympic Club will give a second shoot on Sunday to his friends at Mountain View. Forty dozen live birds have been secured.

On Sunday the San Joaquin Valley Gun Club will hold an inanimate target shoot at Stockton, unknown traps and angles. The shoot is open only to residents of San Joaquin County.

Commenting on April 10 the California State Sportsmen's Association will hold its annual live bird shoot at the Oakland track. Pigeon crassers from San Francisco, Stockton, Sacramento, Riverside, Angeles and Marvsville have signified their intention of being in the race for money and glory.

The Alameda Sportsmen's Club will

THE LAD WHO CAUGHT THE FIRST TROUT OF THE SEASON.

(Sketch by a "Call" artist.)

of the Liberty Club around the bay to-morrow, taking the 7:30 a. m. boat. The entry list for the club's five-mile handicap road race on April 19 will be large. The club will hold an election of officers next Tuesday night, and another dance in the near future.

Fifty-eight ladies joined the League of American Wheelmen last week, twenty of whom were Californians, being members of the Alpha (ladies') Cycling Club of this City. The North California Division gained ninety-two members during the past week, which brings the total membership up to 1236. They were mainly from the Reliance, Alameda, Olympic, Alpha and California clubs, with a goodly sprinkling of unattached riders. Application blanks and pamphlets, telling the objects and methods of the League of American Wheelmen can be had by addressing the cycling editor of THE CALL.

A. Theison of the California Cycling Club upheld the honors of that club at the recent indoor tournament in conjunction with C. Birdsall. Theison is a strong, consistent rider and will be a tower of strength on the club's relay team.

The Bicycle Protective Association will

A. THEISEN, A FLYER OF THE CALIFORNIA CYCLING CLUB.

hold a meeting next Thursday morning at 10 o'clock at Garrity's, Golden Gate avenue and Leavenworth street.

Under the guidance of Captain H. C. Frank, the Eintracht Wheelmen will have their initial club run to-morrow through the park and Presidio, leaving the club-rooms on Twelfth street at 9 o'clock.

What a pleasure it really is after the weary winter months of waiting to stand at last on the bank of a favorite trout stream, threading the line anxiously through the rings of an eight-foot rod, and overhead the woodrobin is singing the same old song it sang the previous spring and the sunbeams flitter through the delicate green foliage flecking the ripples of the water over which you intend to wet your first cast, with a beautiful golden hue.

Judging from the long spells of dry weather that have been experienced this winter, it would be somewhat hazardous to predict what the first week or two of the season will bring.

According to the predictions of some of the old weather prognosticators, who profess to know all about our beautiful climate and its lightning changes, we will have rainy rains in April.

At any rate the present appearance of the weather does not justify the statement that the old Juniper intends to shut off the spout of 1896 until he has had an opportunity of putting a damper on the baskets of some of those overzealous anglers who will be out on the first days of the season regardless of wind or weather conditions.

According to reports recently gleaned from the country, the sport of trout-catch- ing should be good in April, but the rise in the rivers, owing to the late rains, may upset the calculations of those who are positioned to foretell.

It can be taken for granted, however, that if the fishing next week is not so good as a large majority of the anglers expect, those who avail of the opportunity of wading through cold mountain streams can rest assured that if they fail to fill their baskets with fish, they will return to their homes thoroughly invigorated and with appetites that will astonish their good wives—that is if they should be so fortunate as to be members of the family of benefactors.

Now, then, anglers, here is a list of the streams and creeks which flow through the counties within easy reach of this City, and all that is necessary to say is, make your own selections:

San Mateo County—San Mateo Creek, San Francisco, Redondo, Redwood City Creek,

meet to-day at the Empire Club grounds and the snatching of clay birds will follow. Among the members are some of the best all-round shots in the State.

Sportsmen should not fail to glance over the article published under the head of "Sacramento Sporting," as it contains several interesting items concerning trapping and angling.

The inaugural excursion and picnic of the Sportsmen's Protective Association will be held at Schuetzen Park, San Rafael, on April 12. The president of the association says that tickets are selling like hot cakes and that a good time is guaranteed to all who will attend.

A New York paper says:

The performance of Rolla O. Heikes in breaking 100 bluecock targets with Winchester repeating shotguns in 5 minutes 35 1/2 seconds was considered wonderful. This he did at a tournament of the Kentucky Gun Club in Louisville on Washington's birthday. The time taken was so brief that it seems impossible that he could beat that record by a minute and a quarter, but this he did February 26 on the grounds of the Limited Gun Club in Indianapolis, Ind. He broke 100 targets out of 122 shot at, but the number of misses was increased by some bungling on the part of the assistant. He broke 100 targets out of 122 before the expiration of 4 minutes. He scored 100 out of 122 shot at in 4 minutes 20 seconds.

The guns used were Winchester repeating shotguns in number. After giving an exhibition of fancy shooting, in which pairs, four and six bluecocks were broken when all were thrown into the air at one time, Mr. Heikes broke 124 out of 125 bluecocks shot at.

THE OARSMEN.

Enthusiastic Members of the South End Club—Races, Etc.

If all the boat clubs about the bay had the interest of rowing at heart that the South End Boat Club of this City possess it is safe to predict that boating on this coast would ever be to the fore making a strong bid for public appreciation.

It will be remembered about a year ago a regatta was held at El Campo under the auspices of the South End Club. It was the first regatta of any note held on the bay for almost a decade and was a pronounced success.

At the time the club gave the regatta it was in debt, and raised \$500 by popular subscription to carry the affair through, but had it proved a failure the South End Boat Club would have been a thing of the past and the boating and regatta sacrificed to pay the expense incurred.

But with such energetic members as Johnny Herget, Billy Ackerson, Alfred Fritz and William F. Humphreys, success is assured.

It was mainly through the South Ends' endeavors that the Olympic Club became interested in boating.

It has been noticed that when a regatta is held here the South Ends are always represented, a fact which cannot be said of the other clubs, and invariably the South Ends carry off the honors of the day, for defeat means disgrace to them, "Win or die" being the motto of the club.

The oarsmen of the club who are to represent California in the Northwest and East are practicing daily and say as far as the rowing end of the affair is concerned that they will do their best to uphold the name of California.

On the Sunday subsequent to the first Tuesday of every month the club will hold a regatta. A sum of money will be put up, which, together with the entrance fee paid by each oarsman, will be expended in the purchase of suitable prizes.

The Ariels and Dolphins are working hard to advance the interest of the sport. The Ariels will begin next Sunday with their system of try-out races, as already published, and the Dolphins have two excellent crews in training for the coming El Campo and Stockton regattas.

W. A. McGrill is organizing a four-oared crew over at Elmhurst, Alameda County. At present the boys take their practice in a large skiff, going two and a half miles down the bay to row.

When the Elmhurst Athletic Club is organized they will join the Pacific Athletic Association and row in all regattas. The members of the crew will probably be: Jess Swalley, stroke; Billy Barks, afterwaist; William Carter, forwardwaist; M. Moran, bow; and Louis Steier, coxswain. It is the crew's intention to purchase a racing barge as soon as convenient.

The crew composed of T. F. Barry, bow; H. Smith, forwardwaist; Dave Campbell, afterwaist; George Bates, stroke; and Tommy Gullfeather, coxswain, who made such a good showing against the South Ends' big crew last Sunday, have challenged their victors to a return match. The deft has been accepted and a race is

MUNYON'S STATEMENT

TELL THE TRUTH AND NOTHING BUT THE TRUTH.

Do His Remedies Cure or Not? He Says the People Have a Right to Know, and He Refers to Many Who Have Been Cured and Who Will Cheerfully Answer All Questions.

Mr. F. Heitman, 1020 1/2 Larkin street, San Francisco, says: "I must give my testimony for Munyon's Blood Cure. My scalp was a mass of sores from eczema, and, although I had the best medical attention and tried all kinds of prescriptions, I never received any benefit until I began using Munyon's Remedies. A few bottles of the Blood Cure removed every trace of the disease and made a complete cure. Prof. Munyon may well be proud of his success in San Francisco, for Munyon's Remedies are given preference over all other medicines in every drugstore."

Munyon's Rheumatism Cure never fails to relieve in from one to three hours, and cures in a few days. Price 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, always sorens and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groins and all forms of kidney disease. Price 25c.

Munyon's Nerve Cure stops nervousness and builds up the system. 25c.

Munyon's Catarrh Remedies never fail. The Catarrh Cure (price 25c) eradicates the disease from the system, and the Catarrh Tablets (price 25c) cleanse and heal the parts.

Munyon's Asthma Cure and Herbs relieve asthma in three minutes and cure in five days. Price, 50c each.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Vitalizer restores lost powers to weak men. Price, \$1.

A separate cure for each disease. At all druggists, 25 cents a bottle.

Persons who desire to purchase Munyon, 1505 Arch street, Philadelphia, Pa., answered with free medical advice for any disease.
