GOOD THINGS YET IN STORE.

Athletic Contests, Bicycle Races and Invasion by King Cole's Quaint Army.

SAN JOSE, CAL., May 7.—The reign of the Carnival Queen continued to-day in regal splendor, with the people of her domain doing homage. Butterflies in the sunshine were not a whit happier than they, and evidently the brightness and warmth of summer had much inspiration for the merry-makers. All clouds had faded from the welkin, and the hot air was a carnival of itself. The sun was even brighter than on the wonderful day of Queen Lillian's triumphal entry into the city, and with this new brightness there was more of the dazzle and glitter of carnival in the decorations, the streets, the ensemble of holiday vehicles and crowds of holiday visitors. The ladies appeared in summery costumes, everybody displayed flowers and everybody was out of doors. As on the flower day, business was a mere incidental matter, so the carnival abated little.

Queen Lillian drove out in a flower-covered barouche drawn by white horses that were harnessed in white and spread over with white netting. She wore an exquisite gown of light silk, as did her maids of honor, and all reclined on skins of Polar bears beneath white parasols. Her Majesty's maids in waiting, some of the fairest of San Jose's daughters, followed in a four-in-hand carriage drawn by black steeds decorated with yellow ribbons. Their carriage was beautiful with yellow satin and evergreens, which contrasted effectively with the pale costumes of the occupants. Wherever they went they received flattering recognition and frequently cheers for Queen Lillian.

Early in the afternoon her Majesty went to Agricultural Park on the Alameda. The street was even then a mass of gay people all moving out of town in the same direction as the royal party. Street cars in a procession rolled out cautiously and wheelmen jostled with aristocratic fanners-in-hand that had to wear subdued manners in presence of long lines of buses, family carriages and country traps. A great crowd was following the Queen, though it was hard to say whether she was in the lead or in the middle.

And by way of variety the United States cavalry dropped into line and rode to the polo game in the park.

When the game began there were fully 3000 persons in the grand stand, large numbers of visitors from Burlingame and San Francisco in the clubhouse and a whole field full of people. In all about 10,000 or 12,000 were there. The game was one that excited much interest, for Burlingame was pitted against Riverside. The Burlingame players wore pink shirts and blue sashes, and their competitors were easily distinguished by white shirts and red and black sashes. W. McCreery, C. A. Baldwin, W. S. Hobart and Richard M. Tobin represented the club, while Riverside had H. Maud, R. L. Bettner, G. L. Waring and C. E. Mand to defend its colors. Captain A. F. Wainwright was un-

pire and J. Lawson scorer and timekeeper. Burlingame led from the start and in a few minutes had the ball between the goal-posts. In the second period it was plain that the southerners were not in the fight, although they battled bravely and took the ball many a time near their goal, only to be whipped away, however, by a skillful Burlingame player, whose superior pony led the rest. Dick Tobin and Walter Hobart distinguished themselves in the sallies and more daring work and appeared like a whirlwind in the eyes of the Riverside men.

The play lasted nearly two hours and ended with a score of 5 to 0 in favor of Burlingame. It was stated that the winners had the best ponies, in addition to which advantage they were hard players. The display of fireworks at the bicycle park in the evening drew together several thousand people, who witnessed as pretty a pyrotechnic display as was ever seen in this city.

The exhibition opened with six pots of red light, which brilliantly illuminated the previously dark grounds. This was quickly followed by red, white and blue bombs, exploded simultaneously, which gave the heavens a decidedly patriotic complexion. A set piece, containing the words, "Our Garden City" in red, white and blue, followed, after which a large number of rockets and bombs were set off together.

A set piece displaying a fire engine at work and lettered "S. F. D." brought forth much applause. Red, white and blue fountains were then set off and Roncovieri's band played "America" while the pieces were burning. Another lot of skyrockets and bombs were here exhibited. The American flag was displayed as a large set piece, followed by a fountain of red, white and blue fire.

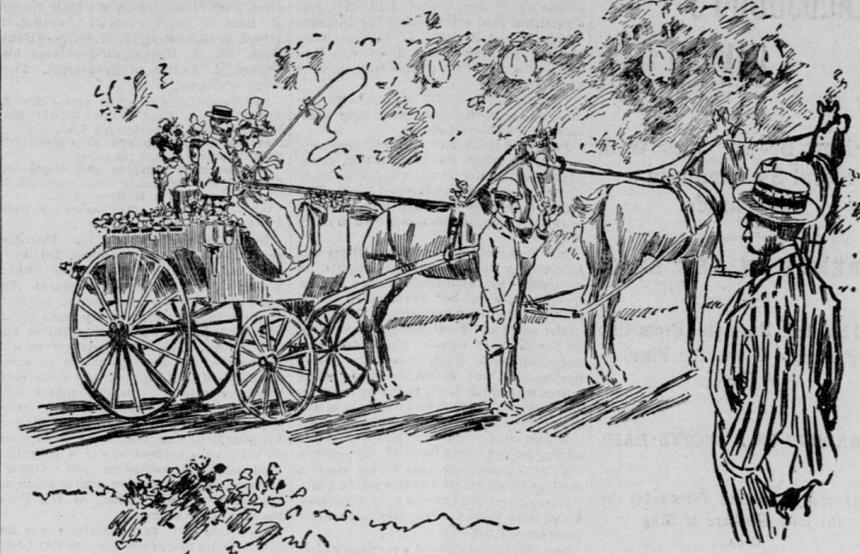

Eighteen stands of Roman candles, each containing seven pieces, were next shown, after which a stand piece of a kicking mule was preserved. The stand pieces of the "Carnival Queen" and "Our King" were loudly applauded.

The carnival ball held at the pavilion to-night was a grand success. The vast hall was filled with the elite of the city. The costumes of the ladies were the handsomest ever displayed in this city on any occasion. Carnival Queen Lillian Rea, accompanied by her maids of honors and attendants, opened the ball about 10 o'clock and viewed the grand march from her throne. The march was led by ex-Mayor Austin and Mrs. J. H. Henry, the wife of the director-general of the carnival. Among the dancers were many visitors from various parts of the State.

KING COLE'S INVASION. He Will Come at the Head of a Fantastic Army.

SAN JOSE, CAL., May 7.—In orderly and grotesque contrast to the sherry floral parade of Wednesday will be the outlandish and lawless procession and ball of Saturday evening. On Wednesday we revelled in sentiment and beauty and gave expressions to ideals. On Saturday night, under cover of such darkness as human ingenuity cannot dispel, we shall drop from the clouds and let the wholesome animal in us run riot. That is to say, we shall don masks and surrender to those worthy disreputables, Momus and King Cole; and it hardly requires a student of Mother Goose to know what that means. This is passing regretfully over the great polo game of to-day, the grand ball at the pavilion this evening and the prospect of achievements worth remembering as the result of Stanford's efforts to-morrow. And these events are just as important as any other in the festival which Santa Clara County is holding. They will be considered more at length in other parts of this account. The purpose of this writing is to bring attention to bear on the particular feature of Saturday night and suggest an acceptance of the opportunity which it offers.

It may be said at the beginning that the authorities have decided to abandon their

control that evening to King Cole and his incorrigibles. As is becoming in such a potentate this worthy, if rumor is creditable, has every physical and spiritual endowment with which tradition accredits his ideal. With a girth naturally prodigious and a jolly soul to keep it shaking he lacks nothing to secure perfection. As for the rubicund nose that is merely a matter of paint or dyes.

The parade will be in four or more divisions, this uncertainty having been caused by the jealous care with which the participants are guarding their secrets. Even the central management has no idea of the freakish things that will present themselves. There is only one rule: everything goes that is masked, grotesque and picturesque.

The first division will have a marshal leading a company of tumblers and other acrobats, a float carrying the band royal and then the wonderful Chinese dragon with luminous interior, 600 legs, fiery eyes of a diameter twice the height of a man and mouth and nostrils belching forth fire, smoke and lava. But the grandest feature will be King Cole. His pipe, his bowl and his fiddlers three will support his dignity, and his chief mentor and moral support will be the most uncanny and solemn of little Africans, a brownie in the flesh, who will turn thumb-nails, thimble on his head and roll the whites of his eyes dreadfully.

Then will burst upon the view the Arabian Degree Klan, Lodge No. 411-44, 400 strong, and acknowledging no responsibility except to death. This grotesque order is composed of the substantial business men of San Jose and the outlying towns and they are organized for such entertainments as this with a wise understanding of the universal fondness for burlesque and fun. What grotesque ideas will be developed as the result of their individual ingenuity it is not given to all men at present to know, but we may be sure that their parade will be a succession of screams and convulsions. Of course these worthies will have a queen, and of course their queen will be as ridiculous a burlesque of the beautiful girl and her empiricism who received so much honor on Wednesday as it is possible for depraved ingenuity to conceive. Whether or not the queen will be a sure enough meat queen or only a horrible man has not been divulged. Certainly, however, her attendants will be ten creatures in white robes and fearfully beautiful.

In this division will be three floats illustrating the dreadful ordeal of administering the first, second and third degrees. And most wonderful of all will be the only

razor-back hog in this part of the world, imported from Florida. What part it is to take in the ceremonials has not been divulged.

As the troopers of the Presidio who paraded in Wednesday's procession made a particularly handsome display they have invited a cruel burlesque, for a part of the second division will be the burro brigade, a particular account of whose purpose and appearance were better left to the imagination.

The third division will present an entirely different order of fun. As Friday is Stanford day, and as the university lies within the county, the students will remain over Saturday and take part in the burlesque. They have their own ideas and are keeping them dark, and that only whets expectation. Besides them the Native Sons, the San Jose Hussars and 1500 or 2000 wheelmen will appear with all their ingenuity exhausted to produce bizarre effects. At least 1000 cyclists are expected from San Francisco, and there will likely be double that number. As all will be in mask, and as each will be free to design his own effects, we may expect a marvelous result.

The procession, it may be inferred, will be long. It will form early in the evening at the Hotel Vendome, and will pursue the following course: First street to Santa Clara, to Second, to San Antonio, to First, to Santa Clara, and disband at the Mercury office. All the leading business houses will be closed, and the line of march will be illuminated. Likely something extraordinarily spectacular in the way of illumination will be seen in the case of King Cole's float, for it will have a trolley to tap the wire of the electric roads. In addition to this will be numerous torch-bearers following alongside the procession and wagons at intervals throwing calcium-lights upon the procession. As though all this were not sufficient, there will be a float devoted to fireworks, and it will be constantly in service.

TWO MORE DAYS OF FUN. Athletic Contests, Bicycle Meets and All Fools' Revel.

SAN JOSE, CAL., May 7.—To-morrow is set apart for the students of Stanford University at the Rose Carnival, and San Jose will be flooded by a multitude of students such as she has never seen before. As Stanford University is particularly noted for its enthusiasm much of it will be made manifest on this occasion, and the cardinal will be proudly carried from one end of town to the other.

The students have been provided with a special train, which will arrive at San Jose at 10:10 A. M. The train will be appropriately decorated for the occasion. It will be met at the depot by Roncovieri's American Concert Band. The approach of the students will be foretold by the playing of college music, among which will be the "Stanford University March." There will not be a lack of yelling, and

Rah! Rah! Rah! Rah! Rah! Stanford! will make itself manifest often during the day.

In the morning an intercollegiate baseball game between the University of California and Stanford will take place. This will be called at 10:30 o'clock at the carnival grounds. This is the third game of the series and the deciding game of this year's championship, as both universities have already won one game each. Both teams are in good condition, and an exciting contest is expected. The manager of the baseball team this year is James Watson, and W. McLaine '96 is captain and pitcher; Jeffs '98 catcher; Young '97 first base; Harris '99 second base; Taylor '98 shortstop; Sharp '99 third base; Thompson '97 right field; Freeman '99 center field; Stansberry '98 left field.

In the afternoon the field day will be called at 2:30 at the race track. D. E. Brown '97, manager of this year's champion team, has charge of the affair. J. M. Gregory '96 will act as starter. F. V. Keesling '98 and W. H. Osgood '97 will act as timers; George Toombs '96 track captain. The field day should attract a large crowd on account of the first-class events assured, and a glance at the entries will show that it will be interesting.

100-yard dash—Brunton '99, Toombs '96, Holbrook '97, Collier '96, Reynolds '96, Dole '98, Wilber '99. High jump—Toombs '96, Reynolds '96, Dole '98, Wilber '99. Pole-vault exhibition—Dole '98. Broad jump—Toombs '96, Brunton '99, Holbrook '97. Hammer throw—Wilber '99, Fickert '98, Hazzard '96. 220-yard dash—Toombs '96, Brunton '99, Holbrook '97, Collier '96, Reynolds '96, Hazzard '96.

There will be played an exhibition basketball game between two teams of Stanford athletes. One team will be captained by F. A. Rasch '98, president of the Gymnasium Club, and the other by E. L. Farmer '98, member of the same

club. The umpire will be G. P. Baldwin '96, and the referee, Charles I. Dillon '99. Just preceding the game exhibition tumbling will be given by the teams. The halves will be twelve minutes and a rest of twelve minutes. Between halves the band will play: "Fiji Two-Step," Miss Alice Wheeler '97; "Moonlight on the Campus," W. B. Wells '87.

In the evening a typical college musical entertainment will be given, followed by a college dance—waltz and two-step alternating throughout. The committee in charge is G. B. Wilson '96, chairman; F. V. Keesling '98, and W. A. Sutherland '98. The clubs present will be the Glee, Ladies' and Gentlemen's Mandolin Club and the Boys' Club. The programme will be as follows:

"Estodrouiva," clubs; medley, Glee Club; "Los Cuadras Mojecas," Ladies' Mandolin Club; "My Old Dutch," C. L. Dillon; "Love and Beauty Waltz," Banjo Club; "El Vaquero," Mandolin Club; vocal solo, "My Heart is Thine" (Hulme), E. M. Hulme; "Courtship," Glee Club; "Stanford University March" (Kaufman '97), Mandolin Club; "Ma Angeline," university clubs.

A college hop will close the festivities, and at 12 o'clock the music will cease. At 12:30 P. M. the Stanford special train will start for home and Stanford will relinquish San Jose to its owners.

The Stanford day committee is as follows: C. F. Aaron (chairman), G. B. Wilson '96, J. O. Watson '96, H. S. Hicks '96, D. E. Brown '97, W. S. Osgood '97, W. A. Sutherland '98, C. M. Bradley '99.

On Saturday afternoon, the last day of the carnival, there will be a bicycle meet under the auspices of the Garden City Cyclers. Nearly all the fast riders of the State are in training at the track for the event, and the races promise to be the best ever held in the city. A feature of the event will be the effort by Wilbur Edwards, paced by a sextuplet, to lower the world's mile record.

The entries and handicaps are as follows:

- One-mile novice, first heat—John Green, G. C. C.; P. H. Rosenstein, R. A. C.; J. Welch, S. J. R. C.; A. Hood, Un.; A. H. Agnew, A. C. W.; C. E. Orra, A. C. W. Second heat—M. J. O'Brien, S. J. R. Fresno County Cattle Thieves.

FRESNO, CAL., May 7.—Deputy United States Marshal Bart Alford and Deputy Constable J. W. Dumas of this city have arrested Charles Daley, a resident of the western part of the county, on a charge of grand larceny. The officers state that this is the beginning of a gang of cattle thieves which has infested the coast range for a long time.
