The Text of Rev. Dr. Case's Prelude to His Sermon.

TALKS OF IMMIGRATION.

A Word for the Class of Foreigners Who Came to This Country in the Past.

THE RATIO OF POPULATION.

America for Americans and Only "Old Glory" to Be Floated in This Country.

In the Central Methodist Episcopal Church yesterday Rev. Dr. Case gave as a prelude to his sermon "Foreign Flags and the Fourth of July," he said:

The total foreign-born population of our country is now not less than 12,000,000, nearly a fifth of our total population.

We have twice as many Irishmen in America as they have in Ireland, and we shall soon have to emigrate to Ireland if we would secure Irish rule.

Up to twenty years ago the best of the world came to us by immigration—best as now, the good and decent, the patriots, the scholars and the criminals.

DEPARTING HOME

Spanish Minister to Japan Relieved and on His Way to Madrid.

Honored by the Emperor of Japan. "Our Attitude in Cuba Is Our Historical Duty."

Don Jose de la Riva y Calvo, Envoy Extraordinary and Minister Plenipotentiary to Japan, who arrived on the Gaetic Saturday night on his way to Spain, left here yesterday afternoon for New York.

Mr. de la Riva, for such is his name—Calvo being, according to the ancient Spanish custom, simply the complimentary addition of his mother's family name—has been relieved at his own request from duty in Japan in order that he might take some other Government position, where his wife and daughter, now in Madrid, might be with him.

"I have been in Japan two terms," said he yesterday in his apartments at the Palace, "first as secretary to the legation and during the last year as Minister.

"Last August, a month after my arrival in Japan, I signed the treaty entered into by Japan and Spain in regard to the Island of Formosa. Both countries were very much interested in that island after the war. The relations between Japan and Spain are most friendly. As an indication of that feeling the Emperor of Japan conferred upon me shortly before my departure the Grand Cross of the Rising Sun, a token that has been given to some of our Ministers Plenipotentiary before me.

"My successor in Japan is Don Luis la Barara, formerly Minister to Brazil. I was stationed at Montevideo, South America, last year, myself before I accepted the mission to Japan.

"I am now at the disposal of my Government. Where I may be sent I do not know, but I asked for a place where my family could be with me.

ENDEAVORERS GO EAST TO WORK.

Professor Wiles and Dr. Rader Busy in Washington.

FOR THE '97 CONVENTION Would Bring About 25,000 Young People to San Francisco.

A FUND OF \$25,000 NEEDED. State Delegation to Washington, D. C., Will Number About 1500—Subscriptions Received.

The California Christian Endeavorers are going to make a strong effort to secure the 1897 international convention of that society for San Francisco.

The convention this year meets in Washington, D. C., and will open July 14. It is anticipated that 60,000 delegates will attend the convention.

If San Francisco is chosen as the place for the next convention it will mean that from 25,000 to 30,000 young people will come here, and after a two or three day visit other places in California.

Boston had 54,000 delegates, and leading Endeavorers of this city claim that 25,000 is a conservative estimate of the number that would come here.

Professor James A. Wiles, president of the Golden Gate Union, who has gone East to secure the Endeavorers' convention for 1897.

Rev. Dr. Rader has also gone East for the same purpose, to be early on the ground and talk California from the start.

Great enthusiasm prevails among the Endeavorers as the time for choosing the '97 convention approaches. They say that if the people of the State will do their part in the effort that the '97 convention will come here.

The Endeavorers want to raise a fund of \$25,000 to help bring the convention here. To assist in accomplishing this, a reproduction of the tabernacle of Israel and the heavenly sanctuary, to be followed by a lecture, may be seen in Calvary Presbyterian Church at Geary and Powell streets to-morrow evening.

The tabernacle is seven feet in length and is a complete reproduction in gold, silver and the line of the original tabernacle constructed by Moses. It cost \$15,000 and six years' study and labor by J. W. Kelchner, who will lecture about it. A very large picture showing Mount Sinai and the children of Israel in their encampment forms a background for the tabernacle. The admission will be 25 cents.

Some of the vessels of gold and silver and some of the rugs were made in Palestine. The proceeds will go into the \$25,000 fund needed to bring the '97 convention of Endeavorers to San Francisco.

The guarantee subscriptions received to date for the convention fund amount to \$16,775. Four new subscriptions were received Saturday.

HANDBALL GAMES.

Union Court Opened Under New Management—Exciting Events at the San Francisco Court.

Both handball courts had a full complement of spectators yesterday and no lack of players. At the San Francisco court P. Ryan, the proprietor, kept up his record by playing in three matches in succession, showing his wonderful endurance.

The events of the day were two mixed-up games in which P. T. Donnelly, the amateur champion, R. Lenihan, J. Harlow, the ex-coast champion, and J. J. Feeney participated. In the first Donnelly and Lenihan defeated Harlow and Feeney, and then Lenihan and Feeney defeated Donnelly and Harlow. Both games were closely contested.

The Union court has passed into new hands. Billy McManus, the former proprietor, has transferred his interest to Terry McManus and W. Doran, and the court was opened yesterday under the new management. Terry is the champion heavy-weight, and as both the proprietors are energetic and popular young men and are determined to further the interests of handball in every possible way their success should be assured. There was a large number of their friends present in the court yesterday, and several interesting games were played. The event of the day was a game between R. Lenihan and J. Nelson, in which J. Feeney and Terry McManus. After each side had won two games it was decided to postpone the final till Saturday next.

Following were the games played in the courts:

San Francisco court—D. Rodgers and P. Ryan defeated G. McDonald and E. Shea, 21-15, 17-21, 21-19. R. Shea and G. McDonald defeated Rodgers and Ryan, 21-14, 16-21, 21-20. Joe Davis and O'Brien defeated D. Conolly and T. Ryan, 21-15, 17-21, 21-19. J. Kearney and P. Kelly, 21-15, 17-21, 21-19. R. Shields and T. Sullivan defeated J. O'Donnell and Joe Molloy, 21-15, 17-21, 21-19. Joe McAuliffe and Tom Sharkey defeated T. Barry and Arthur Walker, 21-15, 18-21, 21-20. P. T. Donnelly, the amateur champion, and R. Lenihan defeated J. Harlow and J. Feeney, 21-14, 15-21, 21-19. P. T. Donnelly and J. Harlow were defeated by Lenihan and J. Feeney, 21-15, 17-21, 21-20.

Union court—Matt Coughlin and P. Duane defeated J. Howard and Ed Nannery, 21-19, 19-21, 21-14. I. Kearney and H. Kenney defeated H. McKeany and W. Billings, 21-15, 18-21, 21-19. Tom O'Brien and J. Gillean defeated J. Vincent and Dempsey, 21-19, 9-21, 21-18. B. Heffernan and Char' Doran defeated R. Lester and Jeff Driscoll, 21-8, 20-21, 21-15. P. Regan and W. Doran defeated P. Madden and J. Keefe, 21-16, 11-21, 21-6. Dr. Gibbons and J. Freeman defeated P. Patterson and William Keogh, 21-12, 18-21, 21-10. L. Kenney and G. Lins defeated J. Nelson and E. Williams, 21-18, 19-21, 21-19. 20-21, 21-13. R. Lenihan and J. Nelson played J. Feeney and T. McManus; each side won two games and the final will be played Saturday next.

Anarchist Arrested. David O. Jones, a street-corner lecturer on the principles of anarchy, was arrested by Sergeant Helms and locked up in the California-street station on the charge of obstructing the sidewalk yesterday. Jones aims his opinions about governing the people in the strong power of force, if force must be used, with a seasoning of anarchy. As he generally collects a crowd about him, which was the case yesterday afternoon on Pine and Kearny streets, he was told to move on, but refused. Hence his arrest.

Slashed With a Knife. R. H. Long, watchman at Joost Bros' livery stables, on Fulton and Gough streets, found a tramp named Skelly asleep in the barn at an early hour yesterday morning. He woke him up and ordered him to leave the place. Skelly went into the alley followed by Long and turned quickly upon him, slashing open his cheek and upper lip with a knife. Long was taken to the Receiving Hospital, where his wounds were stitched and dressed by Dr. Fitzgibbon. The police are hunting for Skelly.

The Italian Philharmonic Society, R. A. Lucchesi, and the three sausages—these are the subjects of the hour in musical circles at North Beach.

Lucchesi is a musical critic who turned his attention to the Italian Philharmonic Society, which under the direction of Professor Spadina has produced a number of Italian operas with marked success.

The suggestion made to the Italian Philharmonic Society was that it should give as its next opera "I Tre Salmi in Barca" (The three sausages in a boat), a piece of Italian slang to express a burlesque poor performance. It was a fatal reference as far as Lucchesi was concerned.

Years ago he emigrated here from Bologna, the champion sausage-making city of the world, and the members of the Philharmonic Society were quick to recall the fact. One of them, signing himself "A Blunt," promptly contributed a letter to L'Italia, in which he said, among other things:

"In the musical rubric of A Sharp there is an interesting piece of news which will certainly please the members of the colony. The Philharmonic Society has decided to give as its next opera 'I Tre Salmi in Barca.' Now, I have learned that the news is true, at least Professor Spadina wished to give the above-mentioned opera, and had already found two of the necessary sausages, but he was embarrassed about the third one, which he wished to be a genuine Italian sausage. On this account I take the liberty of stating that here in San Francisco there exists a sausage—a pure-blooded Bologna sausage, which could make the third in the noble triad, and that Bologna sausage is, in fact, the musical critic himself, A Sharp."

This cheerful pleasantry was not to the liking of the critic, who wrote a letter full of fire and fury to L'Italia, to complain of A Blunt. "We do not accord it the honor of publication on our pages," says L'Italia; "it is a series of trifling, insolent and malicious remarks, such as we do not think it special prerogative to write. We will, however, reproduce the paragraph which treats of the Philharmonic Society."

To the Italian Philharmonic Society I have permitted myself to observe that when it made public appearances and charged for entrance I, a critic, I, an Italian artist jealous of his art, have the right to censor it, and that in such times as these it shall have reduced itself to a mere pastime.

"As for the parody performances of the Philharmonic Society, dear Signor Lucchesi, were not your concerts also a joke? You are a composer of three or three weeks, but the chorus singers of the Philharmonic Society are honest laborers who work ten and twelve hours a day and have the patience and the enthusiasm to pass two or three hours after that in the study of opera, in the cause of their love for art, it is absurd and unjust to ridicule them.

"For the rest the Philharmonic lives and prospers among the Italians; you live, and we prosper, and we are the Americans. Stay there, the Italians have no use for you. If you have no occupation go to the seaside for a time. You are too fresh and need a little sailing."

This was declaring war with a vengeance, and now the colony is watching with interest to see the reckless expenditure of ink and paper which will result. Saturday a letter which was pronounced a chef d'oeuvre of vituperation was received at the offices of the enterprising journal. The afternoon issue gave it a good write up, without however revealing its exact contents, but it was advertised as being on exhibition at the editorial rooms.

A big gooseberry or a three-legged chicken could scarcely have aroused more interest, to judge by the number of visitors who responded to the invitation. It has already been referred to auction off by the offices of the Philharmonic Society, though the generally expressed opinion is that it would not bring in enough to purchase three sausages, to say nothing of the boat.

HARLOW A SPEEDY RIDER.

Makes Best Time and Passes Nineteen Men in the Road Club's Race.

Kroetz Wins the Olympic Wheelmen's Event and Wing Gets Time Prize.

Yesterday was an ideal day for wheeling in the country. In the City it was cold and windy, but in San Mateo County and across the bay, where most of the riders went, the weather was all that could be desired, though the roads are somewhat dusty at this season.

This is the time of year when the club cyclists delight in road races, and every Sunday sees several of these events held, either on the Haywards road or over the stretch between San Mateo and San Carlos. There were three such races last Sunday and three more yesterday, those of the Bay City, San Francisco and Olympic wheelmen.

The two first-named clubs held their races across the bay, while the Olympics went to San Mateo, partly as a compliment to President Eaton, who resides there, and partly because they thought the road would be better than the Haywards course. In the latter they were disappointed, as the road to San Carlos is dusty and uneven, though not much more can be said of the road over the bay.

The Olympics' race was started promptly at noon, and the men made very good time, everything considered. There were no accidents, and a Hindley wheelman punctured a tire and fell back to last place. Kroetz rode a good race, finishing first and making second best time. J. E. Wing made the fastest time, 13:05. Ramsay and Stanley rode a good heat for second place, topped up for it, and Ramsay won. The handicapping was done by

One Peculiar Fact is That They Never Close Their Eyes. One of the most curious facts with regard to snakes is that their eyes are never closed. Sleeping or waking, alive or dead, they are always wide-eyed. If we take a dead snake and examine it closely we shall soon find the reason—there are no eyelids. The eye is protected only by a strong, horny rod, a kind of heat for second-hand enemies or in pursuit of prey, or get off with a light sentence for his services to the prosecution.

WHICH SIDE WILL WIN?

Trial of the Nevada Bank Forgers to Be Commenced To-Day.

Dean and Wife and Joe McCloskey Arrayed Against Becker and Wife and Cregan.

The long drawn-out preliminaries for the legal battle between the police and the prince of forgers closed yesterday, as Judge Wallace will commence hearing the case to-day.

Becker and Cregan, soon after their arrival at the City Prison, engaged Attorneys McPike and Dunne to look after their interests. They have been materially assisted by Mrs. Becker, who has for weeks been in daily communication with them and her husband and Cregan.

What the defense will be has not developed, although it is generally understood it will be a denial that either Becker or Cregan were when A. H. Dean forged the \$22,000 draft on the Nevada bank last December.

The appearance within the past few days of Joe McCloskey and Dean's wife has caused consternation in the Becker and Cregan ranks. McCloskey was acquitted on Dean's confession and a few days later went East. Now he has returned and will, it is supposed, appear as a witness for the prosecution.

Captain Lees and Detective Seymour have been working assiduously on the case for weeks past and are ready for the trial to-day. Like the defendants they are keeping their mouths shut and will not leave themselves open to attack by the other side. It is understood they have a strong case.

The battle is won, so far as the principals are concerned. On the one side Becker and his wife and Cregan and on the other side Dean and his wife and McCloskey. Which side will win will be known in a few days. The general expectation is that Dean, at any rate, will be either acquitted or get off with a light sentence for his services to the prosecution.

Jack McGlynn in his usual careful and impartial way, and was very satisfactory. The following is the table:

Table with 3 columns: Position, Contestant, Handicap, Net riding time.

The San Francisco Road Club's event started at San Leandro at 2 P. M. There was a larger number of riders in this race than in any others, and George W. Hamlin, who, by the way, is the champion five-mile rider of the world, rode the best time and upheld his reputation, doing the distance in 12:03. He rode from scratch into fourth place, passing nineteen men. William McGonigle won the race from the mark, and the bunch finished as follows:

The handicapping of this race was done by Captain Pixley and Sol Peiser, and they distributed the time allowances to the large field of entrants very satisfactorily.

The other club runs yesterday the Camer. Cyclists went to Walnut Creek, the Pacifics to Bolinas, the Garden Citys to Stevens Creek and the Golden Gates, Libertys and Californians to Mayfield.

There will be no club runs or road races of any kind of the big clubs next Sunday. They will go to Petaluma Saturday to attend the big meet of the League of American Wheelmen there, and spend Sunday at the grounds of the Petaluma Wheelmen.

R. A. Smyth, official handicapper of the league, will go to Petaluma this morning to arrange the handicaps of the various races.

W. A. Terrill of the Bay City Wheelmen returned from the East Saturday. He has been following the National racing circuit, but although he won a large number of races he says the expenses of traveling are too heavy, and he decided to return to the coast where he can live at home and race when he feels inclined. He left his team mate, Charles S. Wells, at Hot Springs, Ark., where he is laid up quite ill, as already exclusively told in the Call. Wells will be back in two weeks. Terrill says, before Wells will be able to ride again. Terrill will race at Petaluma next Saturday.

Frank W. Fuller, George H. Stratton and John F. McGlynn, of the Olympic Club Wheelmen, will leave the end of this week on a three weeks' trip to Lake County.

Byron D. Bent of the Bay City Wheelmen started a wheel for Los Angeles yesterday.

Harris, Miss Etta Allen, Miss Alice Allen and Miss Rossmore.

In the evening the club was entertained by Mrs. R. Harris.

LANDING NEWS IN BOTTLES.

The Service Captain Bartlett Rendered to Cuban Patriots.

An interesting story is furnished by Captain G. Bartlett of the British bark Iodine, laden with sugar, which was obtained only through the courtesy of the Cuban patriots, who control the output of sugar from interior points in the island.

Previous to the vessel leaving Philadelphia the Cuban women of that city shipped large quantities of courtplaster, liniment and medicine of all descriptions, which were safely delivered at a Cuban camp five miles in the interior. Captain Bartlett remained in the Cuban camp for four days.

He was able to deliver into the hands of the Cubans valuable documents from the Junta in New York City in return for his possession equally valuable documents which he is to deliver to the Cubans in New York.

The bark was anchored about two miles off shore and a Cuban swam off to the vessel in the night with the documents from the patriot camp sealed in bottles, which were connected to his body by ropes and towed astern. In the same manner the documents from this country were taken ashore by the swimmer.

A schooner bound to Cienfuegos with sugar from Trinidad, Cuba, for the United States, and owned by the American Central Sugar Refinery, was sunk by the pirates at the mouth of the River Maelli, so that the Spanish Government could not collect any revenue from it. The Iodine's cargo was allowed to be shipped to this country through the courtesy of the patriots, who permitted the American Central Sugar Refinery to grind 2000 tons of sugar.

In the camp visited by Captain Bartlett there were about fifty cultivated and refined ladies of Cuban society, who had enlisted in the Cuban army with relatives and friends. The patriots are well supplied with provisions. They however, are sadly in need of rifles, ammunition and medicine. In all of the skirmishes witnessed by Captain Bartlett in the patriots' and by far the best of them.—New York Sun.
