

"YOU ARE ONE, BOUGH YOU!"

A Modern Climax in the New Play, "A Social Trust."

REPLETE WITH INCIDENT

A Drama to Be Produced for the First Time Next Monday.

AT THE COLUMBIA THEATER.

Californians in New York, as Seen by Ramsay Morris and Hillary Bell.

A degree of interest beyond the ordinary has been awakened in dramatic circles by the expected production of a new play at the Columbia Theater next Monday evening.

If the reader's judgment counts for anything, the playgoer expecting a drama replete with vigorous action will not be disappointed.

The characters are: Frederick Brewster, Daniel Hallock, Charities King, Captain Beresford, Wynne, Philip Cornell, Edmund Brewster, Lillian Cornell, Mrs. Bleeker Nelson, Mrs. Russell Cornell, Mrs. William Morton, Mrs. Daniel Hallock and Dora Sprague.

Her rise from obscure poverty to affluent notoriety is vaguely outlined. In a Denver hotel Mrs. Brewster, and there his brilliant brain conceived the scheme of forming the trust.

She enters the New York swim with boundless wealth, required in California. Here she is Lillian Cornell, her nephew Philip Cornell, the son and daughter of Mrs. Russell Cornell.

She has firmly resolved that Lillian shall marry Frederick Brewster, a representative of one of the oldest and best families of New York.

Then my marriage to Mr. Brewster would be a great success. Her aunt somewhat graciously replies: "Within twenty-four hours after you have accepted Mr. Brewster I will make a settlement on your mother which will render her independent for life."

Residents and Business Men Will Demand a Better Place to Walk.

Cautious References to the Supervisors and Kind Words for the City Press.

Friday night's meeting of the Fourth-street Improvement Club, held in the banquet hall of the Pioneer building, was largely attended and marked with every indication of determination and interest.

Eight months having elapsed since Lillian sold herself the next act is Mrs. Frederick Brewster's reception. In this act Phil makes love to Dora Sprague of Boston.

Mr. Swift made a brief but spirited address, suggested by Mr. Noan's discouraging report. He said the Fourth-street property-owners would have to demand justice from the Supervisors in season and out of season until justice should be done.

The dust, the mud, the eccentric ups and downs and scattered and uninterested which at present distinguish Fourth street from the other City thoroughfares were dwelt upon at length by several other speakers, all of whom urged immediate and energetic action to be taken.

About this time in the progress of events the Hallocks have resolved to take their proper place in New York society.

bring his wife. At the reception Brewster tells Lillian that she must go to the ball. Since her marriage she has had made known to her the relations which exist between her husband and Mrs. Hallock.

He says: "You are mine. I bought you and paid for you. You are mine, do you hear? You sold yourself in the hope, I suppose, that when my name had given you a social position you could whistle your lover back and have him trotting at your heels, and yet you considered yourself better than Mrs. Hallock."

Ten days later Mrs. Daniel Hallock's ball took place. The Cordage Trust was in great distress. The sum of \$300,000 had to be raised by 10 o'clock the next day.

The "400" were there, including King, the successful author, who had written a famous book. Lillian came in late and a scene took place when she was introduced to Mrs. Hallock.

A great uproar followed. Demonstrations of violence were made and some of the "400" were shocked. Everything went wrong at the ball. Hallock went to the Windsor Hotel to promise the directors of the paper trust that Brewster would produce the \$300,000 by 10 o'clock the next day.

Richard Sherlock, nurse in ward B of the City and County Hospital, whose carelessness Friday is believed to have been the cause of the death of one patient and

not kept there in alphabetical order because only experienced men are allowed to take medicine from the chest. In fact I never knew that he drank at all.

"We shall have to be at the elbow of every nurse," said Dr. Stahle yesterday. "I am afraid we shall not be able to trust any one to administer medicine."

Murphy dies at 10 o'clock last night in the City and County Hospital.

Back Doors Forced Open and Houses Robbed in the Afternoon.

The police think they have in custody the burglar who has been operating for some time in the Mission district.

Yester-day Officer E. J. Thompson arrested a suspicious character and booked him at the Seventeenth-street station for vagrancy pending an investigation that may result in a more serious charge being placed against his name.

Last Thursday at noon as the woman who lives over a grocery-store, corner of Eighteenth and Howard streets, was preparing dinner she was startled by a rough-looking man who suddenly appeared in an adjoining room.

Market Inspector Ben Davis finished a task that was assigned to him by the Board of Health some time ago and yesterday made known the result of his labors to Health Officer Leavelle.

It became known to the board that in spite of the most strenuous efforts on the part of Davis and his assistants diseased beef was being slaughtered in Butcher-town and it was reasonably certain that this meat was finding its way into the City to be sold for human consumption.

Then the board has been appealed to by the butchers and the companies with whom they insure their places to find some other means of preventing the use of meat after condemnation than by pouring coal oil over it.

The insurance men are drawing the line at slaughter-houses where such measures are adopted because of the increased risk, and the butchers feel the matter keenly because of this, and because, in a great many cases, the odors arising from the large amount of kerosene used contaminate other meats hung in the buildings.

To prevent the clandestine slaughtering of diseased animals Davis will recommend that the hours during which the killing can be done be limited from 7 A. M. to 5 P. M. The objectionable coal oil will be done away with by having a stamp, designed to be used with indelible ink, placed on the fore portion of the diseased carcasses will be marked, so that it will be a matter of impossibility for cuts to be used with-

out showing the telltale marks of condemnation.

It is not believed that reputable butchers will object to these regulations in the least, and it is thought the Board of Supervisors will readily grant the request of the Board of Health that the hours of slaughtering be arranged as mentioned.

Davis will also make a recommendation regarding the use of carrying into the City of meat immediately after slaughtering. It has been the practice, particularly of the Chinese, to take beef hearts and livers to their quarters even before they have become cold.

These matters will be brought up before a meeting of the board at an early date.

CADETS GO INTO CAMP.

Six Companies of the League of the Cross at Glen Ellen.

They Will Live Like Soldiers in the Field for a Week—Military Masses.

The League of the Cross Cadets, with the exception of companies A and I, which already had their summer outing, left town yesterday afternoon for Glen Ellen, where they went into camp for a week.

The cadets fell into line on Van Ness avenue, near Market street, and marched, with flags flying and drums rattling, to the ferry depot of the San Francisco and North Pacific Railway.

Captain Filgate was in command. Companies B, C, D, E, G, H and I, under command of Captains James Curley, Edward Fitzgerald, James McBride, Daniel McCarthy, Edward Power, James Powers and William Clark respectively.

They left on the evening train and arrived in camp in the dusk of evening and at once adjusted themselves to the strict military discipline which will be theirs for a week to come.

Their camp has been named after the Rev. Philip O'Ryan, spiritual director of the league. Rev. James McDonald of St. Peter's Church will be chaplain and Dr. A. P. Mulligan the camp surgeon.

The cadets will have a taste of military routine until next Sunday morning. Even friends cannot be seen by the cadets until 10 o'clock in the mornings.

The daily routine, however, will be varied pleasantly with athletic sports, guard mounts, dress parades and reviews, and visits of friends from San Francisco.

On the arrival of the 7:30 A. M. train from the City this morning a grand military drill will be celebrated in the large pavilion on the grounds.

The following Sunday similar services will be held, and they give promise of being very impressive ceremonies. On the latter occasion, however, the cadets' choir, which has been organized and instructed by Professor Sandy, will sing the musical accompaniment. Father McDonald will officiate at both masses.

The military exercises will begin every morning with drill from 6:30 to 7:30 o'clock. Inspection will follow at 8 o'clock from that hour until 5 o'clock will be free to amuse themselves according to their own inclination. At 5 o'clock there will be a guard mount and dress parade, and then the boys will be free until 8 o'clock. A grand ball has been arranged for Saturday night.

This encampment is the principal one of the league this year. Two companies had already been sent to the mountains and are united on a grand gathering at Glen Ellen. Special rates have been made by the Donabue Railway Company for excursions during the encampment, so it is expected that the families and friends of the boys will visit the camp in large numbers.

Failed to Appear.

Hugh O'Neil, the San Mateo County butcher who was convicted by Justice Kerrigan on Friday for selling diseased meat, failed to appear in court yesterday to receive his sentence. The Judge ordered a bench warrant issued for O'Neil's arrest, but later received a note from him that he would not appear on Friday and threw him and he was unable to appear in court. The case was continued.

Good morning, have you read Thomas Slater's advertisement for men on page 37?
