CALIFORNIA STATE FAIR.—At Sacramento, September 1 to September 18. AUCTION SALES. BY H. J. LEVY.—This day (Friday), 11 o'clock, at 1107 Market street, at 11 o'clock. BY L. E. BURN.—This day (Friday), Furniture, at Post st., near Webster, at 11 o'clock. BY CHAS. LEVY & CO.—This day (Friday), Furniture at salesroom, 1135 Market street, at 10 o'clock. BY ALLEN COWAN.—This day (Friday), Hardware, at 1308 Market street, at 11 o'clock.

CITY NEWS IN BRIEF.

The Press Club elected annual officers yesterday. S. H. Lung, a Chinese leper, was taken into custody by the Health Department yesterday. The executive committee of the Sound-ore Democratic League of California has been named. A. A. Cunningham was yesterday arrested on a charge of perjury preferred by Justice of the Peace Carroll. John Staples, 75 years of age, was crushed to death beneath the wheels of a truck on Berry street yesterday afternoon. Hon. Frank McCoppin was recommended by the Richmond District Improvement Association to be elected Mayor Monday. A careful study of the Wilson bill shows that it free trade hits every industry and is the cause of existing industrial wrongs. Meta Lehman was yesterday granted a divorce from her husband, H. Lehman, on the ground of extreme cruelty. The Chinese Consul-General says that the subjects of the Chinese Emperor are leaving this city at the rate of 100 a day. A number of local artists met yesterday in the Art Institute to see the salon pictures painted by A. Altmann, a San Francisco boy of 22. The only feature of the Williams trial yesterday was the attempt of the defense to show that one of their witnesses had been intimidated. The members of the Socialist Labor party are actively at work endeavoring to make a good showing during the present political campaign. California Jockey Club affairs compelled O'Connell to resign the position of handicapper at the State Fair meet to be held at Sacramento. The Society for the Prevention of Cruelty to Animals has decided not to interfere with the fox-terrier coursing matches at the Presidio Athletic Grounds. The schooner Nettie Sundborg, from Point Sur, San Francisco, ran into a whale off Monterey Bay and was nearly capsized a couple of days ago. The mail steamer Alameda had a rough time off between Auckland and Apia. Purser Sutton's cabin was wrecked and he was almost swept out of his bed. The directors of the Mechanics' Fair will give a handsome cup for the winner of a pigeon flight from San Francisco to the city, the contest to take place September 22. Fair Friday; warmer in the extreme northwest portion; fresh northwesterly winds, fresh to high, but not strong. Local Forecast Official, W. H. Hammond. Public Administrator Freese yesterday caused four suits to be filed against C. O. Swanberg and Henry Westphal in connection with the estate of Louis Corrieveau, deceased. The report of the Fire Department for the past fiscal year, submitted to the Commissioners yesterday, contained many important recommendations. Articles of incorporation of the Pacific Coast Gas and Fuel Company were filed August 26. Its purposes are to control, buy and sell gas, water and electric works. Lady cyclists express indignation at the Southern Pacific charge for the transportation of wheels, and in a quiet way will use their influence to secure the passage of an Armstrong bill. Hon. Frank Farrell, M. P. of New South Wales, is here in quest of political information of value to his country and to reform among our laborers. He will be in California some time. Collector Wise received instructions yesterday from the Interior Department to immediately institute criminal proceedings against all importers of Chinese lottery tickets. The preliminary examination of Arthur Jackson, charged with the murder of August Florentine, saloon-keeper, was concluded yesterday, and Judge Joachimson reserved his decision for a week. A coroner's jury strongly censured the Market-street Railroad yesterday for causing the death of young Louis Locke, who was struck by a Mission street electric-car on the afternoon of August 20. Chief Steward Clark of the Alameda nearly lost his eyesight last trip. A soda-water bottle he was opening burst, and the flying fragment cut his eye. He is now almost well again. The Point Lobos Silver Club held a meeting last evening at Farrell's Hall, corner of Ninth and Point Lobos roads. The club was addressed by Joseph P. Kelly, Democratic candidate for Congress in the Fifth District. Saluath Scheyer yesterday filed an answer to a cross-complaint in the suit brought by Maurice Rosenthal against M. Scheyer & Bros., in which he charges Rosenthal with appropriating the firm's money to his own use. The San Francisco Fasting Company brought suit yesterday in Superior Court to secure a writ of mandate requiring him to allow the defendant's bill of \$493.31 for parking on Bell street, between Baker and Stryan. W. Frank Whittier, the millionaire, has built himself a palatial home on the corner of Jackson and Laguna streets. It is now almost ready for furnishing and will be occupied on the occasion of his daughter's marriage next October. The Continental League will give a Ladies' Night entertainment at Saratoga Hall, 814 Geary street, this evening. The program of vocal and instrumental music has been prepared, and addresses will be made by President Frank D. Worth, Senator George W. Parkinson, Hon. Eugene F. Loud and Hon. Henry C. Dibble. Plans for the new Mission High School have been completed by Architect Charles H. Havens and accepted by the Board of Education. It is expected that the building will be erected and occupied by the opening of the next school year. The cost of the lot and building is estimated at \$200,000, and when finished it will be the best school west of Chicago. James H. Campbell, the San Jose lawyer, for several years past employed by the LIX brothers, was yesterday deprived of the further enjoyment of such fees, Judge Buck of Redwood City granting the request of the heirs themselves, who claimed that up to date their attorney had received \$93,000, while they had never got a cent from the estate.

THE ALAMEDA ALWAYS ON FIRE.

Between Sydney and San Francisco She Rarely Varies. STEWARD CLARK BETTER HE NEARLY LOST HIS EYESIGHT THROUGH A PECULIAR ACCIDENT. A SODA-WATER BOTTLE BURST. The Schooner Nettie Sundborg, From Point Sur, Nearly Wrecked on a Seeping Whale.

THE CORRIVEAU ESTATE AGAIN.

Four Suits Were Brought Yesterday on Account of It. ATTACHMENTS FILED UPON REALTY OWNED BY C. O. SWANBERG AND HENRY W. WESTPHAL, AND ALSO UPON THEIR STOCKS. Public Administrator Freese Makes a Move to Bring a Noted Case to an Issue.

MR. SMITH PROTESTS.

Correct Account of His Recent Encounter With Attorney Nagle.

ANARCHY OR ORDER?

Judge Carpenter Thinks Democrats Must Choose Between Them. Resolutions of Respect.

CLUB OFFICERS ELECTED.

A Meeting of Republicans of the Thirty-first Assembly District was held last night at Phoenix Athletic Hall, corner of Eighth and Folsom streets, and the following named officers were elected: President, Ben Davis; vice-president, Samuel Myers; treasurer, Samuel Block; secretary, N. A. Harris; sergeant-at-arms, John Riley; enrollment committee, William Golden (chairman), Samuel Fischer, Al McCusker, James Cotter, executive committee, Louis Harris (chairman), Henry Egan, Eugene King and Joe Salasme.

LAWTON ON COINAGE.

His Opinion on the Effect of an Unlimited Supply of Silver.

NEW TO-DAY.

SCRATCH AND SCREAM.

My baby broke out with a rash. He would scratch and scream. It would take two to hold him, and one to put medicine on him. We had to hold him sometimes an hour before we could get him quieted down. All said that they never saw such a case of body-itch before. I had to take to his hands tight in a cloth, night and day, for five months. My sister had used CUTI-CURA, and I began to use it. After only one application, he lay down and slept. He had not a mark on him now, and is as fat and his teeth as soft as any baby. While he wears clothes, and put gauze underwayer on him to keep him cool. I had to keep pieces of soft cloth around his neck, and to wet with moisture from the sores, and had to change the cloths sometimes ten or twelve times a day. Mrs. A. HAYNES, Lebanon, N. D.

the entire output of silver dollars would not exceed 5,000,000 per month or 60,000,000 a year. The voter who thinks the free and unlimited coinage of silver is the panacea for his financial ills and suffering, and succeeds in successfully aiding an enthusiastic silver promoter, will be a regulator, dumping their 34 cents' worth of silver into the mints and receive the governmental indorsement or guarantee of \$1.00 per ounce of silver. He will receive the profit between the true value and the indorsed or guaranteed value. It is only the laborer, mechanic or farmer, but would be the mine-owner, brokers and other speculators. If the silver legislation, in the great emergency toward the suffering people, should make the Government much more paternal than it is at present, give something for nothing and guarantee to the silver promoter, it would be very slow process in the way of relieving financial distress and want and doing away with "hard times," for each of our population would get less than \$1 a year. The Mint and Sub-Treasury of San Francisco hold over 60,000,000 of these standard dollars. Our Mint also has enough silver bullion in addition to coin 15,000,000 more, called seigniorage or profits. This bullion is being coined into silver dollars (as it cannot be coined under the law into any other denomination) at the rate of \$900,000 per month, and the output will soon be increased to \$1,000,000 per month. This mass of silver dollars would lead 2250 carts at the rate of one ton to each cart. As an object lesson, the silver dollar is being driven as close as would be safe, a ton of silver dollars on each cart, and the silver enthusiast is being shouting for the coinage of more silver dollars! This procession would reach from the Cliff House to the Oakland ferry and would only stop for the silver dollars in San Francisco alone. These silver dollars can be obtained by any person by paying to the mint, or to the people, 100 cents for them (they being intrinsically worth less than 34 cents) and have them stamped their order to the mint, or to the people, in Alaska, Arizona, New Mexico, Colorado or intermediate points free from expense of transportation, as that expense is borne by the Government. The issue of the greenback currency during our civil war and its effect upon the financial conditions of the United States, as well as the people, is a lesson that should be remembered, as many others do. It was a case of great emergency and done from patriotic motives, and all of the States except California seceded from the Union and acted upon the changed conditions produced by an immense volume of currency. The effect of the issue was that before a greenback was seen in circulation the gold and silver in circulation in the East disappeared as if by magic, and the business men, mechanics, plasterers, and even postage stamps were used for change. The result was an inflation of values and a depression of the people. The people were prosperous, but it was a delusion and the East to-day is suffering from "hard times," as all other sections are. I know of large farming sections of New York State where the farms are mortgaged for 50 per cent more than they were before the war, and the farmers are ruined. It is a lesson that should avoid the hallucination and delusion of the silver sentiment that is California, on account of the specific contracts requiring that all debts shall be paid in gold coin. It may be somewhat different in States where the contracts call only for "lawful money," but iron and steel and other things of silver will not relieve them. Very truly yours, ISRAEL LAWTON.

NEW TO-DAY.

SCRATCH AND SCREAM.

My baby broke out with a rash. He would scratch and scream. It would take two to hold him, and one to put medicine on him. We had to hold him sometimes an hour before we could get him quieted down. All said that they never saw such a case of body-itch before. I had to take to his hands tight in a cloth, night and day, for five months. My sister had used CUTI-CURA, and I began to use it. After only one application, he lay down and slept. He had not a mark on him now, and is as fat and his teeth as soft as any baby. While he wears clothes, and put gauze underwayer on him to keep him cool. I had to keep pieces of soft cloth around his neck, and to wet with moisture from the sores, and had to change the cloths sometimes ten or twelve times a day. Mrs. A. HAYNES, Lebanon, N. D.

the entire output of silver dollars would not exceed 5,000,000 per month or 60,000,000 a year. The voter who thinks the free and unlimited coinage of silver is the panacea for his financial ills and suffering, and succeeds in successfully aiding an enthusiastic silver promoter, will be a regulator, dumping their 34 cents' worth of silver into the mints and receive the governmental indorsement or guarantee of \$1.00 per ounce of silver. He will receive the profit between the true value and the indorsed or guaranteed value. It is only the laborer, mechanic or farmer, but would be the mine-owner, brokers and other speculators. If the silver legislation, in the great emergency toward the suffering people, should make the Government much more paternal than it is at present, give something for nothing and guarantee to the silver promoter, it would be very slow process in the way of relieving financial distress and want and doing away with "hard times," for each of our population would get less than \$1 a year. The Mint and Sub-Treasury of San Francisco hold over 60,000,000 of these standard dollars. Our Mint also has enough silver bullion in addition to coin 15,000,000 more, called seigniorage or profits. This bullion is being coined into silver dollars (as it cannot be coined
