

AMERICAN PROTECTION AND BRYANETALLISM.

McKINLEY IN THE NORTH-COUNTRY. Senator J. M. Gleaves Gives a Good Account of His Section.

PROTECTION THE ISSUE. The People Understanding That It Is of More Importance Than Finance.

OPPORTUNITY FOR ORATORY. The Senator Says That McKinley Is Continually Gaining and That the Outlook Is Improving.

Hon. J. M. Gleaves, Senator from the Second District of California, is at the Grand Hotel. "The political outlook in our section," said Senator Gleaves last evening, "is unusually good, and it gets better every day. While there is no part of California in which politics are more badly mixed up, the prospects for the Republicans to make a good record is constantly improving. There were more people crazy on the silver issue earlier in the campaign than there are now. Protection is now considered to be of much more importance with the incidental friendship of Major McKinley to silver, and free-silver men are finding that protection is really the main issue."

"What we really need up in my district now is a supply of good talkers. There is a fine opportunity to educate the people. The miners think deeply and so do the other wide-awake people up there, and they want some enlightenment. Shasta County is a great lumber county, the wool interest is very large, and so is fruit. All these industries need protection. Very few Republicans have gone off after the silver craze up that way. We have Democrats up there who have always voted the Democratic ticket, who say that they are going to vote for McKinley this time, once if no more."

"As a member and secretary of the County Central Committee I travel about a great deal and have a chance to ascertain what the people are thinking and how they feel. As a mining engineer I come much in contact with miners, visiting all over the county. I hear all around the same story, which is that McKinley is steadily gaining. "The Populists are fighting among themselves. There are middle-of-the-road men, who are actuated solely by principle, and these are opposed to all dickering or fusion and are straight out all the time. Then there are the fusion Populists, who have the leaves and fishes in view, but who have been pretty well knocked out by the Supreme Court decision on the county government act. We will elect our Superior Judge and Assemblyman. Barn has as easy a walk-over as any Congressional candidate in this State. He will canvass the district thoroughly and will spend at Redding Saturday night. The people like him and know him. Neither of the other candidates is well known."

"There are no local issues in the fight. It will be a straight out fight of the Republicans against the field. I do not believe that there will be many votes polled up there for the gold Democratic National ticket. The people will vote for either McKinley or Bryan, as no one but a Protectionist seems to like to throw his Presidential vote away. Siskiyou County will give a good Republican majority of from 600 to 700. Uncle Bob Dixon of the Yreka Journal and Swasey of Redding are doing fine work for the party. We have a McKinley club at Redding with a membership of 150. Mr. Campbell, of the firm of Campbell, Reddy & Metson, addressed the club last Thursday night and had a good meeting. "Times are getting better in Shasta and Siskiyou counties. Mining properties are strong and there is a good demand. The Iron Mountain mine owners are making a grand success of that property and have the largest mine in California. We are just about closing a deal for another property which is about as large as the Iron Mountain mine. Electric power will be used to run mills all along the river, and it comes in well because wood is growing scarce."

RAILROAD MEN ORGANIZE. Employees of the Market-Street System in Line for McKinley. The United Railroad Employees Republican Club met last night at Mission Parlor Hall, Seventeenth and Valencia streets, and effected a temporary organization with John F. Clark, foreman of the track department, Market-street Railroad Company, temporary chairman, and W. C. Cook temporary secretary. Permanent organization was deferred for one week. The meeting was addressed by M. Manning, who called it to order, and some of the members gave an entertainment. About 500 street railway men were present and evinced considerable enthusiasm in the movement for a Republican club composed exclusively of themselves. The roll will be open next Monday evening, and it is expected several hundred employees of the company will then sign the roll.

The Thirty-First Club. The regular weekly meeting of the Thirty-first Assembly District Republican Club was held last evening at Phoenix

NEW TO-DAY. BABIES WITH SKINS ON FIRE. From itching and burning eczemas and other skin and scalp troubles. None but parents realize how these little ones suffer. To know that a warm bath with CUTICURA SOAP, and a single application of CUTICURA OINTMENT, the great skin cure, will in the majority of cases afford instant relief, permit rest and sleep, and point to a speedy cure, and not to use them without a moment's delay is to fail in our duty.

Sold throughout the world. Price, CUTICURA, 50c; Soap, 25c; Resolvent, 25c; and Ointment, 50c. CUTICURA SOAP, 25c; Resolvent, 25c; and Ointment, 50c. "How to Cure Skin Troubles," mailed free.

Hall, corner Eighth and Folsom streets. A large attendance and plenty of oratory were the features of the meeting. Thomas F. Gramans was endorsed for Police Judge and Ernest W. Wakeman for Superior Judge.

THE BEAR CLUB. An Enthusiastic Gathering and an Election of Officers. The Bear Club had a very large attendance at its weekly meeting at B'nai B'rith Hall on Eddy street last night, the occasion being the annual election of officers. This club has but lately changed from a district club, being one of the Western Addition clubs, to that of purely a National club, its prime object being to look after the head of the ticket. To that end the club has moved its quarters downtown. It has now a membership of upwards of three hundred voters, including a drill corps of one hundred and thirty men. The corps expects to make an imposing appearance in public parades, as it is handsomely uniformed and equipped. There were twenty-three new members elected last night, and there are a large number of applications yet to be acted upon. The election of officers resulted as follows: President, Thomas W. Collins; first vice-president, L. B. Kincaid; second vice-president, Charles Manwaring; third vice-president, Henry C. Dibble; recording secretary, N. E. Mason; financial secretary, H. L. C. Jaffa; treasurer, Oscar A. Tolle; marshal, John E. Green; executive committee, William H. Scholer, R. W. Roberts, George S. McComb, E. J. Casey and W. W. Wade. After the election the club repaired to the armory of the drill corps and listened to speeches by President Collins, William H. Scholer, George Robe and E. J. Casey.

A NEW ORDER OF THINGS. Some Pertinent Predictions by the Founder of Koreshan Unity. Dr. C. W. Teed Says the Time Is Coming When Mortals Will Be Immortal. Dr. Cyrus W. Teed, the founder of Koreshan Unity, is now in San Francisco. Dr. Teed visited this city some six years ago. His home is in Chicago, where he has resided for the last ten years. Koreshan colonies are now established and in successful operation in Chicago and in Florida, and between them Dr. Teed spends most of his time. Estero, the home of the Koreshan Unity, on the Gulf coast of Florida, is in open possession of water communication with

the entire world, and the facilities for the development of industry and trade are equal to any on the face of the earth. It is the purpose of the Unity to construct a great city and to relieve the masses. It will be laid out to contain thirty-six square miles, and its principal avenues will be 400 feet broad, with parks of fruit and nut trees extending the entire length of the streets. There will be free homes for the multitude, but the principle of celibacy will be strictly observed. Dr. Teed lectured yesterday afternoon to an appreciative audience upon "The Coming Crisis." He said in brief: We present a scientific basis for organic unity. Old religions and old governments are passing away and are being succeeded by new. The laws of retrogression and progression move along together. Jesus Christ was the product of evolution, which operates moniously with evolution. We Koreshans are not like the modern scientists, atheists or ordinary Christians. To-day this earth is inhabited by the identical men and women who inhabited it in the time of Christ, but they are not conscious of it. We are upon the verge of a new order of things, and a new kingdom is coming. The Sun of God came here to be planted in the race, so that he might thus subsequently produce the sons of God, greater than the angels. We are benefitting humanity by our works and only by our works. If the products of labor were to be equally distributed to-day there would be a sufficiency for all and a surplus besides. It is again that the time is rapidly coming when there will be no more conflicts between labor and capital, when mortals shall be immortal and when there shall be no more sin and no more death. The Koreshan Unity is composed of orders, the highest of which is the Celestial and Communal. This is composed of various degrees. The second order is the Supreme Marital Order. The first principle of this second order, regarding the marital law, is that no member of the order shall violate the true principle of the law by prostituting the marital act. Any other purpose than that of propagation of the true natural marriage, and a violation of this second order is monogamy, and according to the laws of the state and Nation.

The third and most secular order of the Unity belongs to the co-operative relation, and includes the common marriage state. All persons whose morals are not objectionable may take share in the production of an equitable unit of the organization. The object of this order is to provide for all who wish employment, education and the resources of industry in equitable share, the wealth of the individual being proportional to the mass-industry and economy being the assurance of abundance. New frames of old Dutch and bog oaks and mat gills at Sanborn & Vail's, fine and cheap.

DR. CYRUS W. TEED, the Koreshan, Whose Strange Doctrines and Practices Have Been the Talk of the Continent. [Sketches from life by a "Call" artist.]

FROM A STATE WHERE WOMEN VOTE. Wyoming's Governor Expects a Big McKinley Victory. HE GIVES HIS REASONS. It Has No More Interest in Free Silver Than Ohio or Indiana. FUSION WAS A FAILURE. The Result in 1894 Was to Give Governor Richards a Republican Majority of 1000.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, Sept. 7. Hon. W. A. Richards, the Republican Governor of Wyoming, is in this city, accompanied by his wife. They are visiting the Governor's brother, A. C. Richards, Assessor Dalton's chief deputy. Governor Richards fully believes that Wyoming will elect three Republican electors. As she only has about 21,000 votes she is only entitled to three Presidential electors. "Wyoming is surrounded by silver States—Colorado, Utah, Idaho and Montana—and it seems to be assumed that she will go as they go," said Governor Richards to-day. "But the situation is hardly. In the first place Wyoming hardly produces a single ounce of silver, and therefore has no more direct interest in the metal than Ohio or Indiana. It is a wool-growing and coal-mining State, and both wool and coal are in need of protection. I know of only one wool-grower who is not for McKinley, and he is a Democratic candidate for Congress. My immediate reason for believing that the Democrats cannot carry Wyoming is that the Populists have refused to fuse with them. The two parties fused in 1892 and the Democrats succeeded in getting some

but they are held in check by the others. These women do not represent us, and we will not help to elect them. It is very noticeable that the women voters of Wyoming want to know something about the private or family life of a candidate for office, and will not cast their ballots for one who is reported to treat his wife and children in other than a commendable way. I think that would be one of the most pronounced results of woman suffrage everywhere."

SPANISH-AMERICANS. Ex-Governor R. Pacheco and A. D. Spilvalo Speak at California Hall. The Spanish-American Republican League, of which R. R. Duckworth is chairman and A. de la Torre Jr. the secretary, held a large and enthusiastic meeting last evening at California Hall. Nearly 500 people were present, ladies being represented in large numbers. A very good musical and literary programme was rendered. Hon. Romualdo Pacheco, ex-Governor of California, spoke at length on the issues of the campaign. Next followed Hon. A. D. Spilvalo, who rendered an eloquent address. The following persons took part in the evening's entertainment: Selection, Professor Luciano Mojica and orchestra; songs, Miss Lulu Fleming; recitation, James Feeley; piccolo solo, M. M. Nava; songs, T. Kelly. The Phoenix Republican Club, the Continental League and the Afro-American Club were well represented at the meeting. During the evening an autograph letter was received by the chairman from William McKinley, thanking the Spanish-American Republican League for its good work for the past year and wishing the organization the greatest success. In conclusion the meeting adjourned with three cheers for McKinley and Hobart.

McKinley Rally. OAKLAND, CAL., Sept. 7.—Ex-Mayor W. R. Davis, who has spoken at Livermore each campaign for the past ten years, is pleased with the opening of the campaign in that place Saturday night. "I never saw the equal," said he to-day, "the laboring man, the farmer, the merchant and the ladies turned out en masse and gave the speakers a royal welcome. The hall was crowded to the utmost, and many remained standing until the last word was spoken. That shows genuine interest in the campaign."

The Drill Corps. ALAMEDA, CAL., Sept. 7.—The Alameda Republican Drill Corps has forty-one charter members at the present time, some of whom are Democrats who will vote for McKinley and protection. The club will have a meeting Saturday night. It is expected that this organization will attend rallies at Hayward, San Jose and San Francisco during the campaign. It will also assist in carrying out the Republican County Convention, which meets here on Monday, September 21.

ASTRAL PHOTOGRAPHY. Dr. Jerome Anderson Gives a Theosophic Explanation of the Art. Able and Lucid Presentation of a Subject Replete With Absorbing Interest.

"Theosophy has never doubted the fact that an astral model may be thought pure be precipitated upon a semi-astral surface, such as sensitized film." Thus did Dr. Jerome Anderson sum up the theosophic view of mental photography after reading the article, "The Picture of a Thought," published in yesterday's issue of THE CALL. "Paracelsus says," went on the doctor, "that the trained will is the beginning of all magic. This saying, for theosophists, means a great deal, since it gives the key to much that would otherwise be and remain concealed from human knowledge. The possessor of one of these trained wills we call an 'adept.' In modern times Mme. Blavatsky was perhaps the best-known representative of this privileged class among Western peoples. "We believe we can carry the State for McKinley, and we will leave no stone turned to do it. It is true we are only a small State and have but three electoral votes, but things might so happen that those three votes might be necessary, and we want to put them in the McKinley column."

"Wyoming is not the only State in which the supporters of Bryan may receive a surprise. In Colorado, although it will go for Bryan, there is going to be a much larger vote for McKinley than the Denver newspapers would like to admit, and I think the Republicans may choose the State officers. Of course Senator Teller has been told by the silver men that he will be returned to the Senate, but there are others who have been scheming for many years to capture the senatorship, and it is within the bounds of possibility that Teller will find himself deceived. The upshot of it all will be that Senator Wolcott will emerge from the confusion as master of the situation."

Governor Richards said he did not want to be drawn into the woman suffrage question, but his experience in a State where women vote is interesting. Wyoming has had woman suffrage for more than a quarter of a century and the movement is not a faded any longer. The woman's vote is not more than 20 per cent of the whole, and a few refuse to vote, but the majority vote with about the same regularity as the men. Mrs. Molloy, wife of a division superintendent upon the Union Pacific, is one of the three Republican candidates for Presidential electors, but it is not the rule for women to run for office in Wyoming. In fact the women there have not been very demonstrative in politics—less so than in Colorado, where they have enjoyed the privilege of the ballot for so much longer a time. Party conventions sometimes meet with only men as delegates, and when there are women they are few in number. In Cheyenne there is a Woman's Republican Club, of which Mrs. Richards is now president, but it holds only party meetings. Mrs. Richards was elected delegate to a recent National convention of the Republican League of Clubs, but she did not attend, and was not expected to when elected.

"There are some women," said Governor Richards, "who would make themselves disagreeably prominent in politics,

but they are held in check by the others. These women do not represent us, and we will not help to elect them. It is very noticeable that the women voters of Wyoming want to know something about the private or family life of a candidate for office, and will not cast their ballots for one who is reported to treat his wife and children in other than a commendable way. I think that would be one of the most pronounced results of woman suffrage everywhere."

I think that would be one of the most pronounced results of woman suffrage everywhere."

BRYAN IN THE SOUTH. Governor Oates Says He Will Lose Kentucky and the Two Virginias.

Fusion of the Republicans and Gold Democrats on Congressmen—The Populist Vote.

Governor William C. Oates of Alabama is at the Lick. For the past two or three days he has been visiting his wife and children at the residence of his brother, Ex-District Attorney J. W. Oates, at Santa Rosa. Governor Oates is a large man and has his right sleeve empty. He has a heavy gray mustache and gray hair. He served fourteen years in Congress, was elected Governor two years ago, and refused to take the nomination again. His successor, General Joseph F. Johnston, was elected in August and will take the office in December. The Governor says he thinks the electoral ticket in Alabama will be for Bryan, though in that State, as in others of the South, the gold Democrats and Republicans are fusing on Congressmen and McKinley. On this account things are considerably chopped up. They are nominating Congressmen in every district. "I think McKinley will get Kentucky and the two Virginias," said he. "Kentucky certainly, because General Buckner, who has been nominated for Vice-President by the gold Democrats, is a very party man. He will get votes enough to split the ticket and give the State to McKinley. That of course, is just what the gold Democrats want to accomplish. "As for me I will vote for Bryan, though there are some things in his platform I don't like, and some things he has done himself I don't like. I think Bryan will carry the South with the exceptions I have named. He will get Louisiana, the matter of sugar protection not being strong enough to prevent it. The Populists of the South will generally vote for Bryan I think. "Ordinarily I would say that McKinley would win, taking the Nation over, as it now appears, providing that the same conditions exist as in former years. There ought to be no doubt against it. But if this opposition against money is general and in the nature of a revolution then Bryan will go in. It is pretty hard to tell the way things now look."

LEON DENNY ATTACHED. John Bergez Brings Suit on Notes Signed by the Ex-Politician. Sheriff Wheelan took possession of three pieces of property belonging to Leon Denny yesterday in a peculiar suit that was filed in the Superior Court by the attorneys of John Bergez, the restaurant man. The friends of the ex-politician will probably be surprised to know that the complaint calls him Leon Denny or B. Alexander and that the complaining witness tells a queer story regarding the suit, which is to recover \$350 67 claimed to be due on two promissory notes. The property attached by the real estate deputy of the Sheriff's office are on Clay street, near Pierce, Eleventh, near Broderick, and Washington, near Broderick.

NEW TO-DAY. TUMBLERS TUMBLE. Store closed on Tuesday and Wednesday this week. There's until Saturday night our fine, thin \$1.00 Water Glasses, prettily engraved, at 300 cents per dozen. Claret or Soda Tumblers to match, same price. Not the light, flimsy stuff that is sold so cheaply (?), but first quality Tumblers made of pure lead glass. A large, complete Dinner Set of 115 pieces McKinley's famous Royal Decorated Semi-Porcelain, formerly \$18.50, now \$12.00. That's a sample of the way we are reducing our overstock of Dinner Sets.

THAT BIG CHINA STORE—A Quarter of a Block Below Shreve's. WANGENHEIM, STERNHEIM & CO. 528 and 530 Market St., 27 and 29 Sutter St., BELOW MONTGOMERY.
