

BARLOW BEATEN IN THE SIXTH

Errors Discovered in the Returns From Many Precincts.

McLachlan Gains Ninety-Eight Votes in a Portion of Los Angeles.

EARLY CALCULATIONS UPSET. Election of the Pasadena Claimed by the Republican Congressional Committee.

LOS ANGELES, CAL., Nov. 9.—Fusionist Barlow's friends, who have been claiming their candidate's election to succeed McLachlan, appear to have been counting ballots before they were taken from the box.

Information of these gains having been communicated to Congressman McLachlan at his home in Pasadena, he at once came to this city and to his office, where he was called upon by numerous friends, who expressed their belief that a fair count would show him in the lead.

From a number of precincts in the county and especially in Precinct 2 of Pasadena, the Republican candidate lost a large number of votes under the most favorable circumstances. It seems that the ink used in supplying the stamping pads was of the indelible kind which adhered in large quantities to the ballot, and since no blotting pads were used to take up the surplus ink, it remained and when the ballots were folded for depositing in the box a crease occurred between McLachlan's and Barlow's names and the offset from the ink in the McLachlan squares was conspicuously visible in the Barlow squares as well.

BRYAN'S WASHINGTON BOOM. Mentioned as a Compromise Candidate for Senator.

SEATTLE, WASH., Nov. 9.—A boom has been started for William J. Bryan for United States Senator from the State. The silver fusionists will control the election. The constitution of Washington provides that to be eligible to office the candidate shall be merely an "inhabitant" of the State at the time of his election.

Canvassing Sonoma Ballots. SANTA ROSA, CAL., Nov. 9.—The Board of Supervisors has been engaged to-day in officially canvassing the returns of the late election. Attorney L. W. Juilliard appeared for the Democrats.

These counties give Bowers a plurality of 666. Unofficial returns from the remaining counties, complete except for Fresno, were as follows:

Table with 2 columns: County, Bowers, Castle. Rows include Fresno, San Diego, Kings, Tulare, Stanislaus, Total.

These counties give Castle a plurality of 61. Deducting the Bowers plurality in the first set of counties, the Republican candidate has still 42 votes to the good. The missing precincts in Fresno County are not expected to change the result materially.

PASADENA'S JOY UNCONFINED. Boisterous Celebration of the Triumph of McKinley and Protection.

PASADENA, CAL., Nov. 9.—Pasadena was this evening, between the hours of 7 and 12, the scene of the most unique and enthusiastic demonstration in her history—the ratification of McKinley's election. Pandemonium was let loose. The people turned out en masse, with tin horns, drums, bells, tomtoms and every conceivable variety of noise.

SOLANO COUNTY CONTEST. Raleigh Barcar Disposed to Fight for a Renunciatory Seat.

SUISUN, CAL., Nov. 9.—The Board of Supervisors met to-day to canvass the Solano County election returns. They had recorded but one precinct when Raleigh Barcar, the defeated candidate for State Senator on the Democratic ticket, suggested to the chairman of the board that the unused ballots be inspected before passing on returns.

clerk announced that he would not deliver the ballots. The Board of Supervisors, being unopposed by a majority, it was decided on a majority vote to proceed no further unless Clerk Halliday acceded to its demand.

While the wrangling was going on Mr. Barcar drew up a writ of mandate asking Judge Drew Buckies to order the clerk to deliver the ballots. The Board of Supervisors all unused ballots, the ballot stubs and rejected ballots. District Attorney Devlin appeared for the defendant and the case was heard at once.

THE END HASTENED BY A COLD Contracted During the Late Campaign.

SAN BERNARDINO, CAL., Nov. 9.—After a two weeks' illness, Colonel Andrew B. Paris died in this city to-day. He was the fusion candidate for Superior Judge at the late election, and while campaigning on the desert, caught a severe cold, but the real cause of his death was Bright's disease.

His Passing Brings Sorrow to the People of an Entire Community.

Colonel Andrew B. Paris was born in Virginia in 1839 and was educated in the Virginia Military Institute, from which he was graduated in 1860. Upon the breaking out of the war he enlisted in the Confederate army, served four years, rose to the rank of colonel and at the close of hostilities was chief of artillery of General Hoke's division of General Joseph E. Johnston's army.

Johnston's army.

PORTLAND INVENTION. Self-Propelling Engine Said to Have Been in Constant Operation for Four Years.

PORTLAND, OR., Nov. 9.—Paul Heilbrun, an employee of the Southern Pacific Company, claims he has solved the problem of perpetual motion. This inventor says that in 1891 he perfected an engine that ran 965 successive days by air generated through its own motion.

At the expiration of that time it ceased operation because of a scarcely perceptible leakage in one of the air-generative tubes. It was three months ere he discovered this trouble. Now, he says, the engine has been running four years without cessation by the self-generating air process alone.

At the expiration of that time it ceased operation because of a scarcely perceptible leakage in one of the air-generative tubes. It was three months ere he discovered this trouble. Now, he says, the engine has been running four years without cessation by the self-generating air process alone.

EXAMINERS MEET AT THE CAPITOL

Claims Against the State Passed Upon by the Board.

Coyote-Scalp Frauds Allowed to Rest Until Next Thursday.

BUDD SUGGESTS A MODIFICATION OF THE RULING REGARDING USE OF STATE ROCK.

SACRAMENTO, CAL., Nov. 9.—The State Board of Examiners met to-day and considered various claims against the State. Major Black of the Seventh Regiment presented a bill of \$4650 for salary and expenses while attending the funeral of Lieutenant-Governor Millard, and it was allowed. Ed F. Ingalls, the brave engineer who prevented the looting of a train near Davisville some time since, by snatching one of the robbers and running his train into Sacramento at full speed, presented a claim in the sum of \$300, and it was recommended to the attention of the coming Legislature.

recently passed in Los Angeles, believing it to be a stronger one than that under discussion, but the board did not agree with him.

Delays in the Durrant Case. SACRAMENTO, CAL., Nov. 9.—In the case of Theodore Durrant, the Supreme Court to-day continued until December 7 the motion to set aside submission.

MRS. ALLEN'S WILL. It Brings Forth Strange Facts in a Court at San Rafael.

SAN RAFAEL, CAL., Nov. 9.—An unexpected delay occurred in the probating of the will of Mrs. Marion M. Allen, before Judge Angelotti this morning, owing to the obstreperous conduct of J. M. Shawhan, one of the witnesses to the will, who evidently desired to administer on the estate.

Samuel M. Shortridge, who was Mrs. Allen's attorney for many years, appeared as executor of the will, at the same inconvenience to himself, and with the full approval of Dr. Richards, son-in-law of deceased, and of her daughters; but Shawhan's memory as to the details of the execution of the will seemed foggy.

For some reason at the time not apparent to Judge Shortridge, whereupon Attorney Shortridge addressed the court, saying that he was willing for any suitable person on whom the parties interested could agree to act as executor.

THE CASE WENT OVER FOR TWO WEEKS, at which time Mr. Shortridge will make due proof of the will.

THE EVENING OF LIFE. Old Age May Keep Much of the Brightness and Vigor of Youth.

Every one is familiar with the shrunken look of the aged, the wrinkled face, the thin legs and bowed form, the changed tone of the voice and the weak action of the bodily organs.

And yet there are thousands of old people who manage to keep as bright as ever. They have the strength to keep them up. Here is a remarkable instance which is worth recording.

Mr. Alfred P. Chapman, 29 Hanover st., Baltimore, says: "My grandmother, who is now past 90 years of age, has been using Duffy's pure malt whiskey for about three years, and it has acted in her case almost like a charm, always giving her an appetite and allaying any disorder of the stomach. It is an excellent tonic for elderly people who require a tonic as well as a stimulant."

THE ABOVE IS ONLY ONE OF HUNDREDS OF testimonials equally convincing. They prove that in all cases of weakness nothing produces such a strengthening effect as Duffy's pure malt whiskey.

It gives stimulative nourishment to the worn out system, stirs up the torpid blood, enriches it and quickens the circulation. If purchasing from grocers or druggists be careful to get Duffy's and nothing else.
