

PRESIDENT CLEVELAND TALKS ABOUT POLITICS.

WASHINGTON, D. C., Nov. 28.—An evening paper here prints an account of a conversation between President Cleveland and a prominent Democratic politician, in which the President expressed at length his views on the future of the Democratic party.

It is to those Democrats who followed Bryan solely on the ground of regularity and to their brethren who organized the movement leading to the Indianapolis convention that Mr. Cleveland looks for the reorganization and the rehabilitation of the Democratic party.

At this point, as in the story of the alleged Weyler engagement, the dynamite incident comes in. Hundreds of Spanish soldiers were killed instantly by the discharging of the dreaded substance almost under their feet.

Lieutenant Rios was then asked if the story dated November 26, from Jacksonville, Fla., and purporting to be an interview with him, was true. He replied, through an interpreter, that the Weyler story he knew nothing about, but explained when he was told its purport that he had heard the same thing before leaving on the Algonquin for this city.

His reply was that he knew nothing at all about it. This seemed to settle the story of General Weyler's engagement with Maceo's men in the Rubi hills, which he declared was an untruth, and which Cubans have said was a fact.

Lieutenant Rios says regarding the occupancy of the province of Camaguey by the Cubans: "The Cuban Government is in healthy operation in this district. The Spaniards have given it up. In the mountains under the roofs of the old farmhouses the new Government of Cuba is conducting schools for the children of patriots."

"The pupils range in age from 7 to 13 years, all the boys of a greater age than that being engaged in the fight for the island's liberty. In the provinces of Camaguey and Oriente they have shoemakers' shops for the benefit of the Cuban soldiers and blacksmith shops for the shoeing of the patriots' horses.

He was accompanied to this city by Captain Dupier and another Cuban. The documents sent by Gomez and Cisneros are in the hands of the Cuban Junta.

LIVES ARE LOST IN SNOWDRIFTS

Brave Men Perish While Traveling in the Dakotas.

Mail Agent Burroughs of the Great Northern Among Those to Succumb.

ST. PAUL, MINN., Nov. 28.—The great storm which swept over Minnesota and the Dakotas Wednesday, Thursday and Friday has resulted in some loss to human life and great loss to livestock.

A searching party has been digging in the snow for his body all the afternoon. John Hoey, a farmer living four miles from Park River, N. D., started from his house to his barn Thursday night and his body was found two miles away on the prairie this afternoon.

At Vermillion, S. D., there is hardly a tree standing and every orchard is ruined. In many instances trees a foot in diameter were snapped off at the bottom.

At Pierre, S. D., reports of all kinds are coming in. There have undoubtedly been serious stock losses on the range. It will be several days before anything definite can be learned from the cattle country to the west of Pierre.

At Huron, S. D., reports the north winds blowing in blizzards, blowing fifty miles an hour, filling railway cuts and piling in drifts as high as the house-tops. Trains were sent south and east preceded by snowplows and shovellers.

At Washington, D. C., Nov. 28.—The worst snowstorm and blizzard in this section ever known in the State in eight years set in, continuing for forty hours.

At Kansas City, Mo., Nov. 28.—This has been the coldest November day since the establishment of the weather bureau in this city nine years ago.

His Martial Spirit and Patriotism Expressed With the Ardor of a Soldier.

All of General Hart's martial ardor and spirit of liberty was aroused when he read the editorial in the Bulletin of Friday evening which called him to task for being a party to the proposed use of dynamite for the purpose of destroying Havana.

ARRESTED FOR BIGAMY.

Pretty Mrs. Ah Get, the First Chinese Woman in the Country to Get into That Predicament.

NEW YORK, N. Y., Nov. 28.—Mrs. Ah Get, the first Chinese woman to be arrested in this country for bigamy, was yesterday arraigned for examination before Magistrate Rudick in the Center-street Police Court.

That law and journalism should be combined to make the destruction of great cities a legitimate speculation is much to be regretted. It is the province of law to teach how evils may be remedied through the exercise of reason.

THREE AIRSHIPS, SAYS HART

Commenting thereon yesterday he said: "My attention has been called to the editorial in the Bulletin of last night. All I have got to say in reference to it is that the destruction of Havana by dynamite is not half as horrible as the press dispatches of the butcheries of Cubans by the Spanish authorities."

"Of course, in the event that Havana was to be attacked by the airship with dynamite, the blame would be given for non-combatants to leave the city."

Steve Morrison of Haywards was in San Ramon, and coming home to-night he saw the aerial visitor in such a manner as to fix its location approximately.
