

TO DO BATTLE NOW FOR FREEDOM

The Local Cuban League Goes Steadily On With Its Work.

Sub-Committees of the Mayor's Committee Ready to Proceed.

Jones and Mascherini Will Maintain the Local League Until the War is Over.

President Jones and Secretary Mascherini of the San Francisco Cuban League were busy all day yesterday making arrangements for the forthcoming meeting of the Mayor's honorary committee to act in conjunction with the league organized by Jones and Mascherini on September 7.

"We shall request the Mayor's committee to call a meeting to confer with us," said Secretary Mascherini yesterday, "and that conference will probably take place at the assembly-room of the Mills building on Tuesday or Wednesday night.

We shall then make arrangements for a permanent organization of the committee appointed by the Mayor, and their sub-committees in conjunction with our own league will probably provide for the mass-meeting. We want to maintain our own society independently of the Mayor's committee, though we expect to co-operate with them in every particular.

"We realize the fact that the committee appointed by Mayor Phelan are busy men, so we are willing to bear the brunt of the work in the future, as we have done it in the past."

The local league is greatly delighted that Mayor Phelan so readily assented to appoint the committee to act with them. They sent the following letter to Colonel Ethan Allen of the New York League yesterday:

HEADQUARTERS CUBAN LEAGUE, 3000 MARKET STREET, SAN FRANCISCO, FEBRUARY 18.

Colonel Ethan Allen, New York—DEAR SIR: We are pleased to be able to notify you that Hon. James B. Phelan has appointed a committee of thirty-five representative citizens to cooperate with our league here. We inclose a list of the names, published by THE DAILY CALL of this city, which paper has stood by us from the outset and aided our efforts in a hundred ways.

We shall soon have the committee organized and select permanent officers. There will be sub-committees on mail, press, advertising and literary features. It is our purpose to have our main address of about half an hour, then five or six ringing ten-minute speeches, interspersed with music and other entertaining features.

"We can assure you, from conversation and correspondence with hundreds of leading people on this coast, that the cause of Cuba strikes a responsive chord in the hearts of many thousands here. We invite your close scrutiny of the names of the committee, some of whom have national reputations. When we first began our organization here we were met by many rebuffs, for this is a community largely permeated with Spanish influences and there are many here who think the revolutionists are wrong. However, the sentiment the other way is now very strong. Please let us know how our league here can serve you best."

HENRY MASCHERINI, Secretary.

The following letter received by THE CALL yesterday shows the general feeling among the people on the Cuban question:

SAN FRANCISCO, Cal., Feb. 13, 1897.

Editor Call: Your patriotic movement for liberty in Cuba and fight against Spanish butchery is appreciated by all classes of people, and you have their applause, their cheers and their sympathy in the fight.

For many months past I have had a great interest in the Cuban war that I finally wrote to the Junia at New York for information about the cause here in the West. Among other letters I have seen one from a member of McKim's Club with whom I am acquainted, wherein strong sentiment is expressed, and with such vigor and clearness that I may be pardoned for saying that the policy of the new government, I believe, will be an aggressive one, with a bold stand in favor of the Cuban patriots. The editor of THE CALL is in possession of the policy expressed in the above letter. I have written for permission to give them to the public, and if consent is given from the author I will submit the same through the columns of your paper in a few days. Very respectfully,

A. B. KASAGA, 240 Montgomery street.

The local league will soon propose a circular letter to be sent to many correspondents who think the purposes of the order are to organize battalions of soldiers to invade Cuba and demolish the Spaniards. Many such letters are received daily, but it is hoped that the masses will soon understand that the work of the league is to be along lawful lines.

EXECUTORS CRITICIZED.

Henry Hense and George Handal Accused of Mismanagement.

Julius Reimer, attorney for Frederick Jung and his minor children, has filed some sweeping objections to the accounts rendered by Henry Hense and George Handal, executors of the estate of Philip Liesenfeld, deceased.

Legislature to permit two lines of railroads to use the same line for five blocks.

The China Brought Over Sea a Case of Varioloid.

A Chinese Woman From Yokohama the Victim of the Dreaded Disease.

The Ship Is in Quarantine, but Her Passengers May Be Released in a Short Time.

THE GLEANERS.

They Entertain the Exempt Firemen in Their Hall on Brenham Place.

The recently organized society styled The Gleaners, of which Mrs. George J. Hobe is president and Mrs. Andrew J. Jessup vice-president, gave another of its pleasant entertainments to the old Exempts in their hall on Brenham place last Wednesday night.

The members of the society had a good representation, and after the transaction of business the members presented an interesting programme of music and elocution. Miss Kate Galvin gave a piano solo, Mrs. J. R. Kentzell, who has a splendid voice, charmed the audience with a rendition of "Killarney."

E. C. Stock entertained with a monologue, Ellis gave a vocal solo, J. R. Kentzell gave evidence of his vocal powers and was loudly applauded, Miss Annie McCrossen, a bright young girl, recited "The Outcasts," the secretary of the Exempts, suggested that the Gleaners hold their next session after the meeting of the Exempts on the regular meeting night.

The proposition on that point will not doubt be acted upon favorably, as the Exempts' executive committee will permit the ladies to meet on that night instead of assembling on the night now provided for. It is probable that at the next reunion there will be a great many members by volunteers.

Since its organization this new society of ladies has been doing a great deal of good among the families of a number of the old volunteer firemen.

RODE UP TO THE CRATER

Feat of Three California Wheelmen in the Sandwich Islands.

A Bay City Rider and Two Men From the Reliance Now on a Tour of the World.

Word has just been received in this city of the adventures of three well-known young wheelmen of this city and Oakland who recently started on a tour of the world with their wheels and plenty of money to carry them through should their bikes not bring them funds to defray expenses.

They are Harry R. Bostwick of the Bay City Wheelmen and Charles Bain and Harry Arthur of the Reliance Club. Their primary object was pleasure, but it was intended when they started to give exhibitions whenever the opportunity offered.

The first two landed at Honolulu, where they astonished the natives by their riding, and then they journeyed to the main island of Hawaii and performed the unprecedented feat of climbing to the crater of Kilauea on their steel steeds.

Yokohama was the next port, and the little vessel could safely venture alongside the steamer. By that time Deputy Surveyor Ruddle had been reached by telephone and had given orders to put inspectors aboard.

"Look out. Sickness aboard, case of varioloid," came the answer, more distinct than truth. The architect of the new ferry building, made a demand for 5 per cent on the total of \$30,220, and the uncertainty as to the quarantine regulations it would be better to wait for instructions from the Deputy Surveyor of the Port. The Hartley accordingly made back for the wharf, Lieutenant Butts' clever handling saving her from being caught across the bows in the heavy tide that was running.

The water was so rough that it would have been impossible to have got a man over the side, but even more deterring in its effect was the hail that came from Purser Brickwedel as he leaned over the rail and roared "steer out." The rest of his speech was lost in the howling gale and Boarding Officer Davis, misunderstanding the reason of his hail roared back "Custom-house boat; we want to put inspectors aboard."

A hurried consultation was held on the Hartley and it was decided that in view of the danger of trying to put men on board and the uncertainty as to the quarantine regulations it would be better to wait for instructions from the Deputy Surveyor of the Port. The Hartley accordingly made back for the wharf, Lieutenant Butts' clever handling saving her from being caught across the bows in the heavy tide that was running.

The wind and sea increased after the cutter was again tied up at Meigs' wharf and it was not until 10 o'clock that the turning of the tide calmed the sea down so that the little vessel could safely venture alongside the steamer. By that time Deputy Surveyor Ruddle had been reached by telephone and had given orders to put inspectors aboard.

The Hartley again went out to the China, and from the purser it was learned that she brought 100 passengers, 22 being cabin and the rest steerage, 49 being Chinese and 19 Japanese. Two days out of Yokohama a Chinese woman, who had taken passage at Yokohama, was stricken with smallpox, and was at once put in quarantine, all precautions being taken to prevent the spread of the disease.

No other cases developed, and the rest of the passengers were in good health. Dr. Rosenau of the United States Quarantine Office, who went out on the Hartley, gave orders to inspectors O'Connor and Bagley who were placed on board that no person or article of any description, except the relief for the customs inspectors, was to leave or enter the ship until an examination can be made this morning. Three inspectors went on board at midnight and three more will follow to-day, making eight Custom-house men in all who will stand the quarantine with the passengers, ship's crew and the pilot, who is also to be kept on board until the allotted time is over.

As the case developed ten days ago and was at once isolated the passengers will be kept in the big Japanese port and sent about five days, unless in the meantime other cases develop. The ship will be taken to Ansel Island and disinfected, the mails being landed as soon as they have been fumigated. Among the cabin passengers is Colonel M. R. Jeffers, an engineer who has been building railroads in China and who is here to buy materials for his roads.

The China made the trip from Hongkong in 23 days, and was 12 days 18 hours and 58 minutes from Yokohama.

NELSON BENNETT IS IN TOWN

His Interesting Account of Affairs in the Northwest.

The Man Who Bored a Tunnel Two Miles Long in the Cascades.

Has Been Contractor, Miner, Banker, Newspaper Owner, Speculator and Millionaire.

Nelson Bennett of Tacoma, the man who pierced the Cascade Mountains with the famous tunnel of the Northern Pacific Railroad and who has been engaged in large enterprises for the last ten years, is among the arrivals here. Mr. Bennett for many years made his home at Deer Lodge, Mont. He made extensive contracts at different times, but none of them had the significance of the Northern Pacific contract.

In later years he engaged extensively in real estate transactions at Tacoma, Fairhaven and elsewhere. At one time he owned most of the ground on which the town of Fairhaven stands. In the height of the exciting real estate boom in Washington in 1890 he unloaded this real estate.

Institute Lecture.

The next lecture in the course now being held at the Mechanics' Institute will be given on Saturday evening of this week. The subject will be "The Rajah of Burma," and will be given by Roushewelle Williams. The lecture will be illustrated by stereopticon slides. The public are invited.

NEW TO-DAY.

TO THE POINT.

THIS WEEK

OUR PRICES WILL BE SO CHEAP

THAT EVERYBODY CAN AFFORD TO GET A NICE NEW DINNER SET.

60 piece Pure White English Ware. Complete for 6 persons. Quality warranted very best 3.50 per set

60 piece Light Blue Spray Decoration. Complete for 6 persons. Quality warranted very best 4.75 per set

60 piece Beautiful Wild Flower Decoration. Enameled gold handles and gold trimmings. A perfect gem. Complete for 6 persons. Quality warranted best 5.50 per set

100 piece Pure White English Ware. Complete for 12 persons. Quality warranted very best 5.00 per set

100 piece Light Blue Spray Decoration. Complete for 12 persons. Quality warranted very best 7.50 per set

100 piece Beautiful Wild Flower Decoration. Enameled gold handles and gold trimmings. A perfect gem. Complete for 12 persons. Quality warranted best 8.50 per set

A Very Large Variety of the Newest Shapes, Richest and Prettiest Decorations in DINNER SETS.

This Week's Prices Enable Everybody to Get a Nice New Set at Our MONEY SAVING STORES.

HEADQUARTERS—SAN FRANCISCO, 52 MARKET STREET.

for what was then said to be a round million dollars. It was the luckiest sale so it is believed, that ever took place in the Northwest, for immediately there was a fearful slump in land and lot values and the purchase fell all to pieces.

With his million Mr. Bennett returned to Tacoma. He was already wealthy with his other possessions. He owned the Tacoma Hotel, was a heavy stockholder in banks and had much other property of different kinds. He bought the Tacoma Daily Ledger, the oldest paper in that city, and conducted it for two or three years, until it was finally transferred to other hands.

Since business has grown dull in Tacoma Mr. Bennett has become interested in a gold property in Northern California, which for some little time he has been developing. Several years ago he became interested in a gold property in Montana. Yesterday he had a long talk at the Palace with Elijah Smith, the president of the Oregon Railway and Navigation Company, who is here from New York, in regard to the time when they were both in the Northwest. At the time W. C. Squire was making his fight for the United States Senate from Washington six years ago Mr. Bennett was prominently mentioned for the place. The tunnel which he bored through the Cascade Mountains is nearly two miles long.

Mr. Bennett says he is here on private business and will only remain till this evening.

"There is a little improvement in business at Tacoma," he said. "It is slight, but some can be noticed. Things are on a more solid basis. A good deal of development is going on in the mines. There has been a good deal of interest in the mines in what was recently the Colville Indian reservation. This mining district is directly south of the new mining district in British Columbia that is attracting so much attention, and ought to be just as good."

Cough! Cough! Cough!

How irritating a cough becomes and what a wearing, racking effect it has on the whole system. Nothing so speedily breaks down the strength unless you get free from your clutches.

Coughs and colds are dangerous at this time of the year, but they can be avoided by the prompt use of

Duffy's Pure Malt Whiskey.

The best thing that was ever discovered for curing and preventing coughs, colds, the grip or pneumonia. It stirs up the blood and makes the whole body glow with natural heat, thus preventing the dangerous effects of sudden chills. It is something that should be kept in every household.

All grocers and druggists sell it.
