HAVANA, CUBA, April 14.—A big battle has been fought at Malfiompo, Santa Clara province, between Cubans commanded by Aleman and a strong Spanish column of 1500 men. The Spanish were defeated, retreating in disorder after leaving on the field 200 men, killed and wounded.

Brigadier Aleman, obeying direct orders from General Gomez, surprised the Spanish column in a disadvantageous position. The battle was fought last Monday and lasted the whole day. When the Spanish left the field darkness was falling.

FRESNO, CAL., April 14.—What would have been a terrible wreck to the passenger train running on the branch of the Southern Pacific between Fresno and Porterville was narrowly averted this morning shortly after 6 o'clock. At a point about a mile south of Reedley there was a washout for a distance of about forty feet, and but for the warning given by a 12-year-old boy the train which was coming toward this city would have dashed into it.

known, was drawn for the special purpose of giving the Attorney-General power to demand of this and other corporations that they report and pay franchise tax to be assessed by the State Board of Valuation and Assessment, and was inspired by the suit now pending against the Southern Pacific Company in the Franklin County Circuit Court here. This company, being a foreign corporation that has failed and still fails and refuses to make reports, and having no property in the State on which assessments may be had, the State officers even with a judgment against the company are a disadvantage.

IDLE RUMORS BROUGHT ABOUT AN INQUIRY.

He Was Not Popular With Navy-Yard Officers and They Plotted Against Him.

WASHINGTON, D. C., April 14.—The CALL correspondent succeeded to-day in procuring an abstract of the evidence adduced at the naval inquiry held at Pensacola in the case of Commander Dennis W. Mullan, who was, until relieved, commandant of that navy-yard. The inquiry was held behind closed doors, and naval officers have been on the tip-toe of curiosity as to the real nature of the charges and of the findings of the court of inquiry. The evidence will supply a rare morsel of gossip for naval officers, and will serve to relieve naval stations, especially at Pensacola.

This yard is stationed seven miles from the sleepy town of Pensacola. It was in a flourishing condition before the war, but for the last thirty years has been allowed to fall into decay. Naval officers have a constant dread of being sent there. "Any place but Pensacola," they say. It is not surprising therefore that petty jealousies, which are not infrequent in other naval yards, should prevail at the old Pensacola yard.
