

DOY OF PARENTS TO THEIR YOUNG

Able Discussion in the Woman's Parliament at Ventura.

Caroline Severance of Boston Addresses Southern California Mothers.

In Able Papers Wives and Daughters Treat of Affairs of the Home.

VENTURA, CAL., May 4.—The thirtieth session of the Woman's Parliament of Southern California began in the Ventura M. E. Church at 2 o'clock this afternoon. Thirty-five women's societies were represented by as many delegates, and a large number of visitors were present.

The opening paper of the session was read by Mrs. F. C. Severance, upon "Duty of Parents," a spirited discussion was led by Mrs. C. M. Severance, and participated in by a number of ladies.

The reading for "Young People's" was the subject of a succeeding paper by Mrs. H. F. Variel of Los Angeles. The discussion which followed, led by Mrs. Laura H. Fay of Los Angeles, developed quite a difference of opinion among the delegates as to the kind of books that should be placed in the hands of the young.

The evening session opened at 8 o'clock, the large church being crowded to the doors. The time was taken up with two readings, the first upon "Causes and Prevention of Disease," by Dr. James M. Harvey of the University of Southern California. "Mothers and Daughters" was the subject of addresses by Mrs. E. M. Ludlum of San Diego. Both ladies addressed themselves to rough matters of the subject they discussed, and the large audience evidenced its appreciation in a hearty manner.

MILL VALLEY'S COUNTRY CLUB

Meeting Called for the Purpose of Disbanding Because of Lack of Interest.

MILL VALLEY, CAL., May 4.—The Mill Valley Country Club, which was organized two years ago, will after to-morrow become a thing of the past. In the club, which was organized for athletic purposes, are many prominent citizens, not only of Mill Valley but of San Francisco as well.

Secretary Thomas Fretwell has sent a letter to the members of the club calling their attention to the fact that the annual meeting will take place to-morrow night, and that it will be necessary for them as the directors intend to disband the club.

The cause of the downfall of the organization is easily seen. When two years ago it was started everything pointed to its success. The officers for the first year were: Lovell White, president; Arthur A. Martin, vice-president; and Frank W. Marvin, second vice-president; while the other officers were fully as prominent. A lease was obtained from the Talmajals land and a large tract of land near Millwood and a cricket field, baseball diamond and shooting range were built.

At the second annual election A. A. Martin was elected president and the great "Night in Mill Valley" entertainment was given. After this, which was a great success, the members lost interest in the organization and failed to pay their dues. The shooting range was deserted and stock was allowed to graze on the golf grounds. The organization is in good condition, having a surplus of about \$300 in the treasury. An effort will be made to have these funds transferred to the Mill Valley Improvement Club in order to complete the laying of sidewalks on the roads in Mill Valley.

PHENIX PRISONER IN LUCK

Confesses the Theft of a Violin, but is Discharged and Given Financial Aid.

PHENIX, ARIZ., May 4.—A most unusual scene was enacted in the Police Court here yesterday, wherein the defendant, although confessing guilt, was discharged and presented with a purse made up by Judge, jury, attorneys on both sides and the prosecuting witness. He was Professor Alexander Segall, a Russian Hebrew of fine education and remarkable skill as a violinist. Segall was arrested at Tucson on a warrant charging the embezzlement of a costly Stainer-model violin from E. S. Hershey, a wealthy violin collector of this city. The violin was borrowed with the ostensible purpose of selling it for Mr. Hershey, who had a duplicate of this model.

Professor Segall testified that the possession of the violin meant a living for him. He told a pitiful tale of his poverty and illness, and how by playing the violin on the street in his wanderings he was always sure of a bed and enough to eat. At Tucson, a distance of eighty miles from Phoenix, that he had covered through the kindness of some Mexicans who gave him a ride in their wagon, he attracted attention by his playing, and several well-to-do people had engaged him to teach them the art.

When the professor had finished his story there was not a dry eye in the courtroom, and the prosecuting witness was \$25 to start the subscription by donating the violin. Judge, jurors and lawyers followed suit, and then Mr. Hershey took the defendant home with him.

ARIZONA'S DECEITFUL LAW

Eight Murderers Now in Prison May Escape the Death Penalty.

PHENIX, ARIZ., May 4.—By the neglect of the last Legislature to enact a saving clause in the new law defining the degree of murder eight murderers now awaiting trial in this Territory will probably escape the death penalty. This fact has just become apparent in the trial of Augustine Chacon, at Solomonville, before District Judge Rouse. Chacon's crime was committed just before the passage of the new law.

The new law repealed the old law, but

failed to provide for the cases then pending, and now the best lawyers in the Territory cannot agree as to whether Chacon and the other seven murderers can be convicted of murder in the second degree or only of manslaughter. The last Legislature put itself on record by having none of its members were practicing lawyers, and the author of the new murder law was a Prescott cattleman.

DROWNED IN NORTH EEL RIVER.

Father Jeram of Eden Valley Colony Perishes in an Attempt to Ford the Stream.

CAHTO, CAL., May 4.—A messenger arriving to-night brought news of the drowning of Father Jeram, the colonizer of Eden Valley in North Eel River today. Father Jeram left the Eden Valley Colony at daylight, accompanied by Thomas Chase, intending to go to Covelo on business relative to the colony. Both men were mounted on horses, and upon arriving at the river, seven miles from their destination, they attempted to ford it.

Chase was positive that the river was fordable, while Father Jeram was fearful that it was not. Chase took the lead and reached the opposite shore safely. Father Jeram followed. When in the middle of the river, only his horse and head was above water. The current seemed to lift Father Jeram out of the saddle, or possibly he attempted to swim beside his horse. He clung to the reins, and was rapidly carried shore when he grasped a clump of willows that bordered the river and reached his hold upon the reins.

Chase was positive that the river was fordable, while Father Jeram was fearful that it was not. Chase took the lead and reached the opposite shore safely. Father Jeram followed. When in the middle of the river, only his horse and head was above water. The current seemed to lift Father Jeram out of the saddle, or possibly he attempted to swim beside his horse. He clung to the reins, and was rapidly carried shore when he grasped a clump of willows that bordered the river and reached his hold upon the reins.

Father Jeram was about 50 years of age, a native of Pennsylvania, and the principal colonizer of some 500 colonies are engaged in farming at their site of 10,000 acres in Eden Valley. The settlers came from Pennsylvania and Ohio two years ago. The land, Father Jeram had introduced into tracts to suit the finances of each colonist. The condition of the colony has not been regarded as flourishing of late, owing to the land proving not over fertile.

LIVES LOST AT GREENWOLD.

Three of the Steamship Whitesboro's Crew Drowned Near the Vessel's Wharf.

CAHTO, CAL., May 4.—Meager details of the drowning of three of the crew of the steamer Whitesboro yesterday at Greenwold reached here to-night. The Whitesboro plies between San Francisco and Greenwold. While moored at the latter place loading at its wharf the sea and the bay became suddenly choppy and the captain ordered the second officer to sever the lines quickly, intending to go out to sea to be out of danger from the reefs. Three men were ordered into the water with a view to cutting the lines from the anchorage a wave of great proportions swamped the boat, turning it completely over. The three men—two of whom were crewmen—were never seen again and were seen no more.

The immense waves, sweeping and beating over the steamer, rendered it hazardous to attempt to reach the wharf. Finally after much difficulty this was accomplished and the steamer put to sea, battling her way against the heavy breakers. The sea was going to pieces on the numerous reefs.

The disaster was witnessed by hundreds on shore, who declare that the immense breaker waves came from the east, being struck by a tidal wave. The steamer still stands far out at sea, and if weather conditions are favorable it will return to harbor in a few days. The bodies of the drowned can be ascertained. The body of one of the seaman was washed ashore to-day.

VICTORY FOR SANTA ROSA.

Another of the Many Water Works Suits Disposed Of.

SANTA ROSA, CAL., May 4.—Superior Judge Mannon of Mendocino County, sitting on the bench of this county, to-day removed one of the most famous of the water works cases from the calendar, by sustaining a motion to strike out a second amended complaint not denying leave to amend. The title of the case was "The Santa Rosa Water Works vs. the City of Santa Rosa," and it has bobbed up and down the calendar for some time. There has been litigation upon litigation over this subject until the average citizen has been bewildered by a maze of legal wrangling and the numerous suits in equity, actions at law and injunctions, under dozens of different titles, were all called "water works cases" by the lay public.

One by one these questions have been decided in favor of the city by different courts in this and other counties until the end seems near and victory for the municipal system appears certain.

RACING AT BAKERSFIELD.

Roselli, Perrine and Lady Kern Reach the Wire in Front.

BAKERSFIELD, CAL., May 4.—A five days race meet under the auspices of the Fresno Jockey Club opened here to-day with favorable prospects. The entries include about forty well-known horses, among them Grady, Gold Dust, Hyman, Apio, Gold Bug, Miss Gentry and Jim Roseman. The sports are here in full force. For the first time here the electric starting gate was used and gave eminent satisfaction.

There were three events—a mile dash, half-mile dash for ponies and quarter-mile dash and repeat. In the first there were six entries. Treadwell's Roselli reached the wire first, followed by Roselli's Grady and White's Gold Dust. The finish in the second was exciting, the three entries passing under the wire close together, but the proverbial blanket had been covered all of them. Roselli's Vicente Vergara on the head with Otto Bendix and Nathaniel Landsberger will take part.

CONCERT AT STANFORD CAMPUS.

STANFORD UNIVERSITY, CAL., May 4.—Stanford's Choral Society, assisted by the Apollo Club of San Francisco, will render a concert next Saturday on the campus. During the following week a similar concert will be given in San Francisco. Two hundred voices will sing choruses. The programme is to be varied by solos and instrumental pieces, in which Mrs. Francis Watkins, Mrs. Edith S. Bedford, Herbert E. Medley, W. S. Bentley, Otto Bendix and Nathaniel Landsberger will take part.

FATAL AFFRAY AT MONTECITO.

SANTA BARBARA, CAL., May 4.—An affray that occurred late last night at Montecito may result in the death of one of the participants. Feliciano Dominguez, the proprietor of a dancehouse, struck Vicente Vergara on the head with a natch. The quarrel was occasioned by a remark made by Vergara about Dominguez's daughter.

FOUND DEAD NEAR GOLETA.

SANTA BARBARA, CAL., May 4.—Coroner Ruiz held an inquest this morning over the body of Antonio Belles, who is supposed to have committed suicide by jumping into the ocean near Goleta. The testimony showed that Belles had been missed since Sunday, and that his body was found late Monday night on the beach. The suicide was native of France and unmarried.

ONE WORE BLUE, THE OTHER GRAY

Two Pomona Officers Who Were Foes in the Sixties.

Marshal Caldwell Recognizes in Deputy Emerick a Former Captive.

Assisted in Taking a Union Train on Which His Present Subordinate Was a Guard.

POMONA, CAL., May 4.—City Marshal A. B. Caldwell and his deputy, T. J. Emerick, two newly elected officers of this city, have discovered that one helped capture the other back in Tennessee thirty-four years ago.

Caldwell was a member of the Eighth Texas Cavalry, and was one of 800 men detailed to capture a train carrying money from Nashville for the Union soldiers encamped at Murfreesborough. The train was guarded by soldiers, of whom Emerick was one. After two days' hard riding from Shelbyville the Confederate cavalrymen reached a point on the railway line a short time ahead of the train. The engineer was signaled to stop, and when he did so a ball from a small field piece was sent through the boiler of the locomotive, allowing the steam to escape and rendering the engine useless.

Within five minutes the Union men had

A. B. CALDWELL, CITY MARSHAL.

T. J. EMERICK, DEPUTY MARSHAL.

Pomona's Marshal and His Deputy, Whom He Assisted in Capturing During the Civil War.

surrendered and the Southern troops were rapidly passing the packages of money from the train. Being in the enemy's country and hard pressed for time, the cavalrymen rifled the mail-pouches, set fire to the cars and dashed away, leaving the Union men to tramp back to Nashville, from which place they had started.

BANDIT HINMAN SHOT NEAR YUMA.

The Desperado Resists Arrest and Receives a Wound Which He May Not Survive.

YUMA, ARIZ., May 4.—Robert Hinman, alias Allen, alias Hank, was shot and perhaps fatally wounded by Officer James Maxey yesterday, while resisting arrest. Hinman, who is wanted in Roseburg, Or., for burglary and attempting to kill an officer who tried to place him under arrest, is a desperate man. When a warrant for his arrest here several days ago, Sheriff Greenleaf found him fourteen miles south of Yuma, employed by the American Canal Company. The desperado was entirely unconscious that his whereabouts was known, and the officer experienced no difficulty in arresting him.

At an opportune moment, however, he made a dash for liberty and escaped by jumping into a deep, muddy lacuna, opening by willow trees, across which he swam and plunged into the woods beyond. He was followed by bullets from the Sheriff's revolver, none of which struck their mark.

A search was begun and after three days it was successful. Hinman, when found again, resisted arrest and sprang knife in hand, at Greenleaf and two of his men. A hard struggle ensued, and the outlaw had almost succeeded in wringing a revolver from the hands of the officers when he was shot by Maxey.

The ball shattered Hinman's leg and he was brought to town in a very serious condition. The wound is amputated in an attempt to save his life.

Hinman is not over 25 years of age, but has a record as a bad man in Oregon and California. He is a fugitive from Angels Camp, Cal., where he had a running street fight with officers and seriously wounded four of them.

PHENIX REPUBLICANS WIN.

Warmly Contested Election in Arizona's Capital.

PHENIX, ARIZ., May 4.—The city election in Phoenix to-day was warmly contested. It ended in a signal Republican victory, but not a clean sweep. The Republicans elect J. C. Adams Mayor, re-elect T. A. Jobs Recorder, and I. M. Christy Treasurer, and elect C. J. Dyer Councilman in the First Ward. The Democrats won on A. A. Long for Assessor and Tax Collector and B. F. Zoelcker Councilman in the Third Ward. For Marshal, Hooker (Dem.) has two majorities, but it is claimed that the official count will make a tie as two wards were wrongfully given to Hooker in the Second Ward.

Thomas Moller, the defeated Republican candidate for Sheriff, is a member of the Republican Free Silver Club, and knifed the county ticket last fall and defeated the party. His defeat to-day is regarded as an act of revenge on the part of the Republicans.

At a Democratic meeting on the City Hall Plaza, Tom Smith, the Democratic candidate for Mayor, and J. B. Alexander, the Boss Buckley of Arizona and chief clerk of the Territorial Supreme Court. The assault occurred while United States District Attorney E. Lincoln was lauding the virtues of Candidate Smith. He was interrupted by Joe Alexander, who shouted:

"Didn't Tom Smith try to carry Arizona for Goldbug Cleveland?" Alexander repeated this as a statement. Tom Smith worked his way through the crowd, and, facing Alexander, gave him the lie direct with an oath or two added for good measure. Alexander, though the smaller man, retorted by laughing his eyes out at Smith's jaw. The two eminent Democrats clinched and

there was fierce fighting until the crowd separated them.

MISSING FROM STOCKTON.

Futile Search for Joseph Krier, Formerly Chief Ranger of the Foresters.

STOCKTON, CAL., May 4.—The members of Conry Schiller, Foresters of America, are very anxious to learn of the whereabouts of Joseph Krier, formerly chief ranger of the society. For nearly a year they have been trying to discover his whereabouts, but without success.

Krier formerly worked for John Fisher, a coal dealer of this city, but they had dispute about some trivial matter and Krier announced that he wished to be paid off and sever his connection with his employer. On that day he left Stockton and nothing has been seen of him since by his friends. He intimated to a number of acquaintances that he intended to go to Santa Cruz, but letters addressed to him at that place have been returned unanswered.

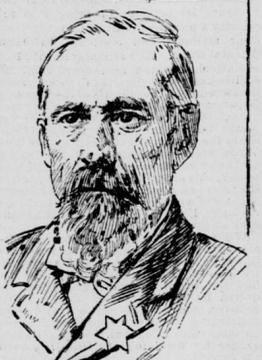

Every effort has been made by the local Foresters to locate their former chief ranger. Krier had always borne an excellent reputation here and had many friends in the order to which he belonged.

LATHROP MAN'S INVENTION.

Produces a Smokeless Powder Possessing Greater Force Than Any Now in Use.

STOCKTON, CAL., May 4.—Tests of an explosive invented by a young man living near Lathrop, this county, were made this afternoon. For several years George C. Miller has been experimenting with powders, and he has at last succeeded in producing one that is almost smokeless and that at the same time has a greater force than any of the ordinary powders used. This afternoon he demonstrated the great force of the powder that he has invented before a committee that was appointed to test it.

Taking a 32-caliber Winchester, he shot

From various distances through blocks of redwood a foot thick using flat cartridges loaded with the powder of his make and then the regular Winchester cartridges. In every instance the penetration was proved to be greater with the newer powder than with the others.

Miller claims for his new powder that it will carry for seven miles and still at that distance No distance tests were made to-day, but the others were so highly satisfactory to the committee that they did not hesitate to declare that the young inventor has something that will revolutionize modern warfare, and also cheapen the cost of gun powder. He will not permit to be patented, but he has not yet applied for a patent. He has demonstrated on the level plains near Lathrop that the powder will carry an ordinary bullet seven miles.

He has also a smokeless powder which will also be tried next Sunday afternoon here, when another test will be made of the new explosive for the benefit of a number of those who deal in powder.

SANTA ROSA'S '97 FIESTA.

Children Will Manage This Year's Floral Carnival in the Sonoma Metropolis.

SANTA ROSA, CAL., May 4.—Santa Rosa is to have a rose carnival in 1897 after all, and a magnificent one at that. It is to be a juvenile fiesta, managed and participated in by tots not yet in their teens. The same tots had at carnival last year the honor of being eclipsed by the big show of their elders, and, therefore, almost unheard of, but this time the little ones have the field to themselves and they promise to rival any and all previous carnivals.

The Queen was chosen selected in the royal person of Miss Helen Overton, who will have for her maid of honor Miss Marion Geary. The attendants to the coronation will be Misses Beatrice Fox, Helen Wright, Bessie Wood and Florence McDonald.

Although started by the children in a small way, the fiesta of 1897 is already engaging the attention of the "grown-ups," and gives promise of being a grand affair.

DEATH AT BAKERSFIELD.

Sudden Passing Away of Capitalist W. H. Lincoln.

BAKERSFIELD, CAL., May 4.—W. H. Lincoln, president of the Kern County Lumber Company, suddenly expired this morning in his rooms at the Palace Hotel from heart trouble. He was an old soldier and had just finished signing his pension certificate when he fell forward to the floor from his chair, dying immediately.

Mr. Lincoln was one of Bakersfield's most honored citizens. He came to the town in 1892 from West Lebanon, Ind. During the late war he fought with the One Hundred and Sixty-ninth Indiana in the Army of the Cumberland, making an enviable reputation as a soldier. He was a distant relative of Abraham Lincoln.

DE GRAY ARRESTED IN STOCKTON.

STOCKTON, CAL., May 4.—Samuel J. de Graff, who has been working for Grocer C. H. Morey, was arrested by Chief of Police Kingsbury this afternoon on a warrant issued for his arrest. The warrant was issued out of Police Court in San Francisco charging him with embezzlement of \$48,000 from the San Diego Electric Railway, owned by A. B. Spreckels of San Francisco.

INDIANS NOT GOOD SOLDIERS.

So the Remaining Company at Fort Sill Will Be Abandoned.

WASHINGTON, D. C., May 4.—After trying to make soldiers out of Indians for many years the War Department has decided the experiment a failure, and orders have been issued for the disbandment on May 31 of the Indian company at Fort Sill, Oklahoma. When the experiment was begun several infantry companies composed of Indians, commanded by army officers, were organized at West-

FORESTERS MEET AT MARYSVILLE

The City in Gala Gear in Honor of Their Coming.

Ninth Annual Session of the Grand Court Begins Its Labors.

Delegates From All Sections of the Golden State March in a Parade.

MARYSVILLE, CAL., May 4.—This city is in gala attire in honor of the visit of the Foresters of America, who are holding their ninth Grand Court here.

The evening train arrived three hours late last night owing to an accident near Sulist, and the reception of the tardy delegates had to be postponed. The grand parade took place this afternoon at 2 o'clock and the streets were crowded with people along the line of march. The county teams, coaches and bicycles began bringing the crowd during the early hours and the sidewalks were soon lined with a jostling throng. All Marysville was Mayday in honor of the representatives of the Foresters. The procession itself was five blocks long.

The literary exercises to-night were attended by a large audience which enjoyed the excellent programme so able rendered. Later the delegates held section caucuses to select candidates for grand officers.

There is much business to be accomplished during this session. The election of grand officers, the discussion of proposed amendments and the selection of the next meeting place of the Grand Court will occupy the attention of the delegates. The election of woodrads, besides an address representatives will be warmly contested.

Sam L. Waller will without doubt be elected a supreme delegate, as his popularity with the delegates is unquestioned. S. A. White, the grand treasurer, will succeed himself. J. J. Livernash of Healdsburg is working for the support of the delegates for his town for the next meeting place of the Grand Court, while Rinaldo Reid and Frank B. Hoosen are working on behalf of Hayward.

The Grand Court was opened this morning by Grand Secretary George E. Sanders in the chair. The following committees were appointed:

Credentials—George Healing of No. 21, San Francisco; J. H. Felt of No. 19, Los Angeles; George H. Morris of No. 87, Winnetka. Laws—J. B. Curtis of No. 129, Sonoma; M. H. Wason of No. 5, San Francisco; Max Grim of No. 56, San Francisco. Appeals and grievances—A. B. Treadwell of No. 11, San Francisco; J. J. Livernash of No. 18, San Francisco; Henry Har of No. 15, San Francisco. A. Deane of No. 104, San Francisco; Charles H. Hoag of No. 146, Saratoga; F. De Julio of No. 132, San Francisco.

Finance and dues—Frank Lewis of No. 108, Pleasanton; Solomon Pester of No. 20, San Francisco; George D. Goldman of No. 28, San Francisco. Mileage and per diem—A. G. Rivera of No. 8, San Francisco; William Sandow of No. 10, Nevada City.

Minutes and order—James W. Hughes of No. 12, Sacramento; Thomas Sewell of No. 16, San Francisco; M. Fitzpatrick of No. 44, Watsonville.

Distribution—William Klinger of No. 53, San Francisco; A. Blackman of No. 30, Los Angeles; H. Janssen of No. 9, San Francisco.

Press—J. C. Howe of No. 13, San Francisco; R. E. Bevan of No. 34, Marysville; J. Livernash of No. 142, Healdsburg.

The committee on credentials reported that the delegates were in good order. The Grand Court then adjourned until 9 A. M. to-morrow.

LECTURES AT STANFORD.

"Hereditary" the Subject of a Discourse by Mrs. Helen Gardner.

PALO ALTO, CAL., May 4.—Mrs. Helen Gardner delivered a lecture in the chapel this evening before a large audience. It was supplementary to the one recently delivered in San Francisco. Dr. Jordan introduced the speaker, who in substance spoke as follows:

It has been well said by Herbert Spencer that heredity is the most important question that confronts the human race, for it is upon the character of the parent that depends and will depend the condition of the race. No school of scientists questions the fact of heredity, but they differ widely in their misinterpreted contest over the exact method used by nature in the transmission. It does not matter whether the question, for example, is transmitted to your child directly as plain drunkenness, or whether it depends on a more or less weakened and undermined "germ-plasm" which will lead to ineffectiveness, imbecility or what not. The sociologist aspect of the question pertains to the laboratory. There are hundreds of cases which come under the eye of the specialist where there is no escape from the fact that children are born with the taint of an "accidental character" from which they cannot relieve themselves.

Mrs. Gardner then discussed in a comprehensive way heredity as affected by environment. "Although the kind of fruit is determined at birth—if I may be permitted the form of speech—very much of the quality will depend upon the conditions under which it grew—the environment," she concluded.

REDWOOD CITY ELECTION.

Voices Declare in Favor of New Laws to Govern the City.

REDWOOD CITY, CAL., May 4.—At the municipal election yesterday the following officers were chosen: Trustees—Henry Beger and George H. Rice; Clerk, Daniel R. Stafford; Marshal, John Christ; Assessor, James V. Swift; Treasurer, I. F. Bebbins; Street Superintendent, J. F. Winnie; Police Judge, James Hannon. The city has been governed and run under an old ironical charter. At this election the matter of reorganizing under the general law applicable to cities of the sixth class was voted upon and by a majority of 4 it was decided to reorganize.

Management of a San Diego Corporation. SAN DIEGO, CAL., May 4.—Walter Carnes was this evening elected secretary and general manager of the Consolidated San Diego Water Company, vice Joseph Flint, resigned. Mr. Flint will in future devote his attention to the management of the San Diego Electric Railway, owned by A. B. Spreckels of San Francisco.

So the Remaining Company at Fort Sill Will Be Abandoned. WASHINGTON, D. C., May 4.—After trying to make soldiers out of Indians for many years the War Department has decided the experiment a failure, and orders have been issued for the disbandment on May 31 of the Indian company at Fort Sill, Oklahoma. When the experiment was begun several infantry companies composed of Indians, commanded by army officers, were organized at West-

ern posts and for a time all went well. When the price of nearly uniform had worn off the Indian began to show a disinclination to military discipline. The companies disbanded from time to time until only that at Fort Sill remained. This is composed of Apache warriors who had been captured with Geronimo. They are virtually prisoners of war and the department thought a little routine military experience would tend to tame their wild natures and incidentally make them forget they were under surveillance. But Geronimo's braves didn't like the life. Most of the members of the Fort Sill company will be employed as Government scouts after they are disbanded.

A WHITE LIVER Is the kind of a liver that mean men are supposed to carry about. A doctor will tell you that no one can live with a white liver. When the liver is at all disordered you are sure to have melancholy fits and to wish to be alone. You will have all kinds of curious fancies and peculiar feelings. If the disorder is only a functional one the liver is easily restored to its normal condition. If the disorder has its origin in the abuse or dissipation of the man it is not so easily controlled. Very few family doctors pay much attention to nervous troubles. As a result the man who is so afflicted will get no comfort if he consults his family doctor. This being true, hundreds of men are compelled to try other cures. As a result the Hudson remedy treatment has been tried by many thousands, and these thousands have been cured. Just 10,000 men say Hudson cures. Do you believe them? You can see their statements in black and white. It is a fact. Hudson cures failing manhood, nervous debility, neurasthenia and disorders of man called private. You should call on the Hudson doctors for information about the Hudson remedy treatment or write for Circulars and Testimonials.

CHECKING THE CHINESE. Secretary Gage Places a Limit on the Number For Nashville. WASHINGTON, D. C., May 4.—Secretary Gage to-day gave directions for the admission of fifty of the 114 Chinese held at Port Townsend, pending an examination of their claims that they were entitled to entrance under the joint resolution of Congress relating to the employment of alien laborers at the Tennessee exposition. One party of 179 was admitted at Portal, North Dakota, and allowed to proceed to Nashville, and under the decision of Secretary Gage to permit only 250 to enter this country. Any breach of professional etiquette is charged. A strong fight will be made by the professional enemies of the accused men to expel them from the medical association. PALO ALTO, CAL., May 4.—Mrs. Helen Gardner delivered a lecture in the chapel this evening before a large audience. It was supplementary to the one recently delivered in San Francisco. Dr. Jordan introduced the speaker, who in substance spoke as follows:

MEDICAL COURT-MARTIAL. Southern Physicians Charged With Breach of Professional Etiquette. ATLANTA, GA., May 4.—Thirteen of the best-known doctors in the South were put on trial here by fellow-physicians for permitting their pictures and interviews to be printed in the newspapers. A breach of professional etiquette is charged. A strong fight will be made by the professional enemies of the accused men to expel them from the medical association. PALO ALTO, CAL., May 4.—Mrs. Helen Gardner delivered a lecture in the chapel this evening before a large audience. It was supplementary to the one recently delivered in San Francisco. Dr. Jordan introduced the speaker, who in substance spoke as follows:

THE SUGAR BARONS MAY GO TO PRISON. NEW YORK, N. Y., May 4.—The Herald's Washington special says: Having succeeded in securing the final conviction of Chapman for refusing to testify before the Senate sugar scandal committee District Attorney Davis now intends to try all the other recalcitrant witnesses whose cases were held over pending the decision of the Supreme Court. These witnesses include Henry O. Havemeyer and John E. Searies of the sugar trust. Mr. Davis says he feels confident that he can secure a conviction in each case. He has notified counsel to prepare for trial on May 17.

OHIO'S DEMOCRATIC PROGRAMME. NEW YORK, N. Y., May 4.—Paul Sorg for Governor and John R. McLean for NEW TO-DAY.
