THE CALL SPEAKS FOR ALL: THE SUMMER MONTHS.

The rain has brightened things. Prospects continue to improve right along.

The shower was greeted with applause and cries of encore.

We have a welcome for the conductors and all they conduct.

McKinley has spoken for Americans in Cuba and by and by he will speak for the Cubans also.

This is evidently a good year for the financial situation in Europe, but a poor year for liberty.

As a political leader "Roy" Bailey is showing himself to be a genuine Texas steer of the most erratic kind.

The European concert has at last found something on which it can agree.

The Lincoln Monument League is rapidly increasing in membership and promises to be strong enough before long to carry the movement through with a rush.

As the great bicycle race from Bordeaux to Paris was won by a Frenchman, with a Hollander second and a Dane third, we may safely conclude there were no Americans in it.

The reason why the powers hesitated to stir up the Turkish question is now clear to the commonest comprehension.

The London Times speaks of the Sultan's assertion that unless his terms are agreed to he will immediately march upon Athens as an insolent threat, but it does not venture to say what John Bull will do about it.

As Broker Chapman prefers to go to prison rather than to answer the questions asked him about the alleged Senatorial sugar deal, it is evident he expects to have business enough with Senators in future to pay him for keeping his mouth shut.

The task before the California delegation at Washington is to recover the Dingley rates on prunes and raisins without losing a firm hold on the Senate rates on citrus fruits.

The ill-effects of these keen rivalries in every department of our energies. They are to be noted in politics, in commerce, in manufacture and not infrequently have been seen in the streets of our municipalities.

It is certainly a wonderful future that lies before Santa Clara County. Her situation with reference to San Francisco and to the State at large is most favorable in every respect.

It is not at all likely that his claims will be admitted by the powers. The income of \$400,000 would be conceded, but the further claim for the annexation of Thessaly to the Turkish empire can hardly be seriously considered even by his own advisers.

THE PRESIDENT'S MESSAGE.

In his message on Cuban affairs the President asks simply for a grant of money from Congress for the relief of American citizens resident in the island who have been destitute by the war.

The tone of the President in asking for this relief is studiously moderate. If he had been requesting aid for the sufferers from the Mississippi floods his words could not have been freer from even a suggestion of offense to Spain.

By this action of the Democratic leader and his party follows a simple measure of relief for our destitute countrymen in Cuba, but it is a wholly different question and postponed as indefinitely as the Democrats can do it.

The message in itself is a most commendable one. President McKinley has indicated to himself a master of the high art of saying much in a few words and ending when he has said it.

AMERICAN GOODS IN THEIR MARKETS ON EXACTLY THE SAME TERMS THAT ARE GIVEN TO GERMAN GOODS IN THE UNITED STATES.

We are told that in the kingdom of Wurtemberg, the butcher who offers for sale meat imported from the United States must display upon his shop a sign bearing the words, "Inferior American Meats for Sale Here."

These examples of German restriction upon the sale of American exports sufficiently illustrate the difficulty which we have to combat in building up a trade in that country to prove the truth of Consul Monaghan's statement that we would find larger and speedier profits if we directed our energies toward expanding trade in South America.

WHETHER YOU ARE AWARE OF IT OR NOT I DON'T KNOW, BUT YOUR DAUGHTER ELISE LOVES ME.

Old Millyuns (interrupting)—Oh, never mind that. She always brings home every stray puppy that she finds and feeds him. Half an hour later they found the fazed young man walking around in a circle—Cleveland Leader.

It is not at all likely that his claims will be admitted by the powers. The income of \$400,000 would be conceded, but the further claim for the annexation of Thessaly to the Turkish empire can hardly be seriously considered even by his own advisers.

SOLDIERS MAY BATTLE TO-DAY.

The Rains Interfered With the Plans at the Presidio Post. If Nothing Prevents the Sham Fight Will Take Place This Forenoon. The Post Field Day Events Will Take Place To-Morrow—New Features to Be Presented.

Had it not rained on Sunday night the sham battle on Golf Hill at the Presidio would have taken place yesterday morning as announced, but as the heavy rain and the immense amount of moisture, which had not sufficiently dried yesterday morning, it was decided to postpone the event until this morning.

The fact that the event was postponed on account of the moisture is no reflection on the men in the three branches of the service, for they are ever ready and willing to turn out, if there is any necessity, rain or shine, but the officers had considered for them and did not think that any good would result from having the men tramp in the mud and slush when the result to be attained could be obtained by a delay of twenty-four hours.

A large number of citizens visited the Presidio, which is the most beautiful spot on the coast, if not of any under the control of the United States military authorities, in the hope of seeing the contest between the soldiers, who were to defend the fortifications, and the "enemy" that was to march upon them, but they were disappointed, still when they were informed as to the reason for the postponement they took their disappointment good-naturedly and said "better luck next time." Those who remained on the grounds did not have their trip out to the post for nothing, they had an opportunity of witnessing the drill by a number of recruits for the cavalry, which was an exceedingly interesting event. The men were without saddles, blankets, and only being cinched on the animals, and they went through the movements of dismounting and mounting while the horses were in a trot, they were instructed in the manner of holding the reins and in the art of "turning in the saddle" and other movements.

Tomorrow should the weather be fine, and the indications are that it will be, the monthly field day will be held at the Presidio post, morning and afternoon. This will be a most interesting affair, and while not on as grand a scale as was the tournament of last month, it will be fully as interesting, for there will be a number of military events that have about them a certain charm for the civilians. The men who are booked for the several contests are exceedingly enthusiastic, and it is safe to say that they will not their utmost to excel in every respect.

There are several new features on the programme. One will be a broadsword contest on foot; another will be mounted wrestling by teams, and still another will be a mounted relay race. The drivers' race, which excited so much interest and was so favorably commented upon during the tournament, will be repeated. The programme, as a whole, is a particularly good one, and the men who are to take part in the contests deserve to be encouraged by the presence of a large number of citizens of both sexes.
