

BREAKING AWAY FROM PARTY LINES

First Important Skirmish of the Tariff Campaign.

BORACIC ACID IS MADE THE ISSUE.

Democrats and Silverites Who Are Looking to Local Interests.

DECIDED VICTORY FOR THE REPUBLICANS.

Senator White Suggests a Series of Tables for Convenience of the Public.

WASHINGTON, D. C., May 26.—The first important skirmish of the tariff campaign in the Senate resulted today in a decided victory for the Republicans. It was fought upon the question of whether the duty on boracic acid should be 5 cents a pound or the Finance Committee rate of 3 cents, as proposed in the amendment offered by Vest.

Before the vote Aldrich, in opposing Vest's amendment, said that representatives of the borax industry claimed the proposed rates on borax in its various forms to be absolutely necessary.

Jones of Arkansas read the prospectus of a London company which proposed to purchase of the Pacific Coast Borax Company at San Francisco, showing that very large profits have been made from this business for several years during which the tariff on boracic acid was only 2 1/2 cents a pound.

The next paragraph fixes the duty on all alcoholic perfumery at 50 cents a pound and 45 per cent ad valorem. Vest's motion to put the duty at what it was under the McKinley act—82 per gallon and 50 per cent ad valorem—was rejected.

White (D.) of California asked to have inserted in the record, for convenience of the Senate and the public, a series of tables as follows: Articles paying from 50 to 75 per cent under the pending bill; articles paying from 75 to 100 per cent; articles paying above 100 per cent; also a statement showing the small amount of importation of certain high-taxed articles, indicating prohibitory duties; also a table of articles more heavily taxed than in the act of 1890.

Aldrich inquired where the information was to come from, to which White replied that Evans, the tariff expert, employed by the minority of the committee, had taken charge of the tabulations.

Jones (D.) of Arkansas asked Aldrich if he had made any estimate of the general average of the ad valorem rate under his bill. Aldrich replied that he had not, as it was a very hard thing to do.

The tariff bill was then laid aside, after only three pages of the 217 had been disposed of.

The conference report on the sundry civil appropriation bill was then taken up and it was agreed that discussion of the forest reservation matter should begin early to-morrow and a vote be taken at 2 o'clock.

O'BRIEN WEPT AT HIS DEFEAT

Bested by Kid McCoy in Ten Very Bloody Rounds.

McCoy's Tactics a Revelation to Six Thousand Shouting Spectators.

Boston Boy Greatly Outclassed. Saved From a Knockout by the Kind Referee.

NEW YORK, N. Y., May 26.—In the tenth round, with Dick O'Brien of Boston bleeding from the nose and both eyes, and coughing from the blood which he had accidentally swallowed, Referee Charley White stopped the glove fight at the Palace Athletic Club to-night and declared "Kid" McCoy the victor.

The battle demonstrated beyond a question of doubt that the fighter who depends on slugging does not always defeat the pugilist who couples scientific boxing with hard hitting.

McCoy's tactics in the ring were a revelation. Few persons in the big crowd expected to see him so completely outclass the sturdy Boston fighter.

It was half the victory for him. In knowledge of ring generalship he was also far in advance of his opponent, and in the swiftness and accuracy with which his blows were delivered he showed that he is a dangerous proposition for any fighter to tackle.

O'Brien's sole object in view was to rush and mix things up and take chances of landing one of his heavy wallops on the "Kid's" jaw.
