

NEW TO-DAY CLOTHING.

BANDS OF REBELS RAVAGE CHINA

Dwellings Raided and Girls Carried into Captivity.

Well Organized Revolutions in Two Sections of the Empire.

Government Equipping Armies to Be Dispatched Against the Insurgents.

VANCOUVER, B. C., June 12.—Late papers brought over by the Empress of Japan tell of two big rebellions now raging in China, one in the northern and the other in the southern part of the empire.

The Viceroy Lu is just on the point of memorializing the throne about dividing Chantui into sub-prefectures and districts, like China proper, when the news of the fresh insurrection arrived at Chengtu.

The Viceroy Lu is collecting troops and supplies in Tachienin in great numbers and abundance in order to be ready to begin the campaign against the rebels with the first melting of the snows this summer.

The Nanling mountains, northwest of Canton, are the scene of the rebellion in South China. Ten thousand rebels have been organized into practically one force, their movements being governed by a council of chiefs. These rebels are so many robbers and murderers. Their strength causes them to stop at nothing.

Contributions are levied on all sides. The rich are compelled to supply cattle, horses and food on pain of death or being held captive in the mountains.

Gambling-houses, which are numerous in that section, are required to yield up a good share of their profits by a sort of license system, collections being made regularly. Girls are frequently kidnaped, and one leader of the rebels was shot and killed while engaged in an expedition of this sort in Kama-Lane.

The local Government is so subservient to the rebels that when one gambling-house keeper lodged a complaint against the robbers he was seized and put into prison. Later the rebels took him out and beat him to death.

A band of 100 robbers attacked Leung Chung village, in Namhoi district, and looted every large house. Booty to the value of \$10,000 was taken. Several policemen were killed and others forced to retreat. Another band attempted to raid the fanan gambling-houses at Dor Po. Shots were exchanged between the gamblers and the attacking party and five passers-by were dangerously wounded.

An immense stretch of country tributary to Canton is terrorized by these robbers, including the prefectures of Loi Kin and Lin and the district of Shikun, in Kwangtung province. Canton is greatly worried over this situation, and the merchants have named a committee to facilitate the rapid equipment of troops. Supplies and ammunition have been forwarded and several companies of troops are marching against the insurgents.

NO MORE SUNDAY PAPERS.

Canada's Parliament Passes a Law Against Sabbath Editions of the Dailies.

VANCOUVER, B. C., June 12.—The Canadian Parliament has passed a bill, which the publication of a Sunday paper is penalized in \$50 for the first offense and \$100 for each subsequent one. Other penalties are enforced on the sale of Sunday papers by news-vendors and boys. The act aims at the limitation of Sunday labor.

There are no seven-day papers published in Canada, and those which appear on Sunday morning are not issued on Monday. Hence the result of the change will, as regards Canadian newspaper men engaged on dailies that now issue a Sunday paper, be that instead of working only a short time during the small hours of very early morning on Sundays they will have to toil all through the Sabbath afternoon and evening. British Columbia is chiefly affected by the change, as here more than elsewhere in Canada is it a custom to print a Sunday paper in lieu of a Monday morning paper. The Vancouver News-Advertiser and Victoria Colonist are both affected by this change, which each angrily but vainly denounces.

The bill for suppressing kite-fights has already passed the Canadian Senate, but may through shortness of time delay the remainder of the session fall to pass the House of Commons and become a law this year, as some sporting members will block the bill. The bill will, as next week, in any case, if Canada's legislators continue in their present mood.

MONSTER SMELTER FOR TACOMA.

Syndicate Closes a Deal for the Erection of a Plant to Cost \$700,000.

SEATTLE, WASH., June 12.—Final and specific terms were agreed upon today between leading citizens of this city and the representatives of a Milwaukee, Salt Lake and Portland syndicate, whereby the latter is to expend \$700,000 in the establishment of a smelter and refining plant in Seattle. For two or three months W. H. Remington of Salt Lake and William Selover of Portland, acting for the syndicate, have been looking over the Pacific Northwest for a suitable location. Two weeks ago they entered into negotiations with a citizen's committee from the Seattle Chamber of Commerce. The exact terms of the deal have not yet been made public, but they are substantially as follows:

Seattle is to give a ground site of twenty acres and let citizens subscribe for \$50,000 to \$100,000 in stock, to be paid for only after the completion and operation of a plant which the syndicate proposes to erect at a cost of \$400,000, exclusive of working capital or bank account of \$300,000 additional.

It is announced that work will be commenced on the plant within thirty days. Several Northwest cities, notably Tacoma and Vancouver, were contesting for the enterprise.

San Diego Talent in Opera.

SAN DIEGO, CAL., June 12.—The famous comic opera, "Princess Bonnie," was produced at Fisher Opera-house last night for the first time on this coast under the auspices of the San Diego lodge of Elks. It was repeated this afternoon and

to-night to good houses. Miss Wynne Bowers, daughter of ex-Congressman Bowers, sang the title role, and society was well represented in the cast. The opera was under the direction of Walter S. Young and H. W. Alden and was a musical and financial success.

FRESNO PIONEER FALLS DEAD.

Sudden Passing of J. J. Russell, Who Was Stolen by Indians When a Child.

FRESNO CAL., June 12.—J. J. Russell fell from his car, and was stricken dead with heart disease while driving on Elm avenue south of this city last evening. He was a pioneer of the West and led a romantic life. He did not know his age or even his true name.

When about 2 years of age Russell was stolen by Indians. For twenty years he lived among the savages, becoming one of them to all intents and purposes. After he had arrived at man's estate he escaped from the savages and returned to the whites. This was about sixty years ago. Russell was at 25 years of age at that time, which would make him 85 years old at the time of his death. He came to California in early days and amassed quite a fortune, which he afterward lost, and he has lived in straitened circumstances in this city for the past few years.

THE WARDEN COMMENDED

Directors Approve of the Manner in Which the San Quentin Revolt Was Handled.

The Incurriables Will Be Kept Apart Indefinitely in the Old Factory Building.

SAN QUENTIN PRISON, CAL., June 12.—At a regular monthly meeting of the Board of Prison Directors today contracts were let to the following bidders for supplies for the coming year:

Miller & Lux, beef; Levi Strauss & Co., flannel and cassimere; Del Monte Milling Company, flour; J. C. Wilson & Co., steam coal.

The late revolt was the subject of much discussion. Warden Hatle was commended for his course, and his officers with him, for the manner in which the uprising had been dealt with.

It was determined to fit up a part of the old factory building with cells and that the incurriables should be kept there, separated from the other prisoners, for as long a time as the Warden deems best. They will be kept at work, but will not be allowed to speak to any one or to each other.

A young man, J. Valdez, was paroled.

WILL BE HANGED AT SAFFORD.

Governor Franklin of Arizona Refuses to Reprieve Murderer Augustin Chacon.

PHOENIX, ARIZ., June 12.—Unless something in the nature of a miracle intervenes Graham County, Ariz., will have its first judicial hanging next Friday, the 18th. The victim will be Augustin Chacon, the murderer of Pablo Saicido. A year ago last fall the store of Paul Becker, a groceryman at Morenci, was entered by a gang of robbers, of which Chacon was a member. Becker surprised the robbers, and in the fight that followed he was mortally wounded. The next day, while Sheriff's posse was chasing Chacon, the latter turned and shot and killed Saicido, one of his pursuers.

Chacon had a narrow escape from lynch law at the time, and an angry mob already had him in hand. Cooler counsel prevailed, however, and the law took its course. The case was brought to the Supreme Court, which sustained the conviction in the District Court, and then a strenuous effort was made to secure a commutation of his sentence by Governor Franklin. His attorney, Judge McCullough, has been in Phoenix for several days past presenting the case of his client to the Governor. Yesterday the gubernatorial decision was reached, and though the petition for clemency was signed by half the members of the jury in the case and by the trial judge, the decision was against Chacon.

Judge Culom will now follow the course set by the counsel for Theodore Durrant. He will apply to the District Court for a writ of habeas corpus, and failing to secure this he will attempt an appeal to the Federal Supreme Court. He is not sanguine of success, however, for he recognizes that the Territorial courts bear a different relation to the Supreme Court than do the Superior courts of California, and it is thought that Chacon will surely be hanged in the jailyard at Safford next Friday.

STOCKTON CONFERENCE.

Special Insurance Agents Make Concessions to Local Men.

STOCKTON, CAL., June 12.—The local insurance men who last night resolved themselves into the Board of Underwriters of San Joaquin County met this afternoon. They meant business yesterday and elected a set of officers with M. D. Eaton as president, E. L. Wilhoit as vice-president, R. P. Lane as secretary, and an executive board consisting of Lyndall Miller, Robert Oulahan, J. H. Henderson, T. A. Nelson and W. W. Worthing.

The aggregation of special agents in town saw that the local men were "loaded for bear" and to-day held a conference with the executive committee, signing an agreement not to cut rates until the differences between the local men and the Board of Fire Underwriters of the Pacific were adjusted, and agreeing to recommend to the "best" body that it place the Stockton agents on an equality with those of San Francisco and Oakland.

The local men claim that they do an immense amount of business and are under as much expense in proportion to the amount of business done as are those in other cities and therefore they claim they should be treated "equally" well.

POPULAR MAN'S PEVILISH DEATH

Succumbs to the Effects of a Poisonous Insect's Bite.

VISALIA, CAL., June 12.—Thomas J. Purvis of Poplar, this county, died about midnight last night from the bite of a small poisonous insect that crawled on his left arm above the elbow Tuesday morning. He was sick less than four days. He was a stalwart man, 35 years old, but though one of the best physicians were called to attend him nothing could be done to save his life. Purvis was superintendent of the Poplar irrigation ditch and was at work when bitten. His relatives live in Tennessee.

Alta Sayer Goes Unpunished.

AUBURN, CAL., June 12.—George Sharon, reported to have been arrested yesterday at Alta for manslaughter, has not yet been deprived of his liberty. On Thursday night Sharon and another young man named Billings became involved in a drunken quarrel and Sharon struck Billings a blow on the jaw with his fist. Billings fell to the ground, and when picked up it was found that his neck had been broken and he was dead. Sharon surrendered himself to the officers, but after the coroner's jury rendered a verdict of accidental death he was discharged.

ADVANCES made on furniture and pianos, with or without removal. J. Noonan, 1017-1023 Mission.

THUS GERMANY GUARDS HER OWN

Paternalism of the Fatherland Strikingly Exemplified.

Money Advanced for the Defense of a Prisoner in Arizona.

He is Subject of the Kaiser and His Rights Will Be Fully Protected.

PHOENIX, ARIZ., June 12.—The paternal character of the German Government and the kindly concern it manifests in the welfare of its citizens when abroad—especially its old soldiers—is well illustrated in the circumstances surrounding the second trial of Henry Scholz at Prescott, charged with murder. The crime for which Scholz is to be retried is the killing of a man along the Atlantic and Pacific Railroad more than two years ago. The evidence against him was wholly circumstantial but of sufficient force to result in his conviction. He was sentenced to be hanged, but the Supreme Court gave him a new trial. At his first trial Scholz was ably and honorably defended, but at his second trial, which is soon to take place, he will be defended by Judge W. H. Barnes of Tucson, one of the ablest and most famous attorneys in the Southwest.

And the War Department of the German Government is paying the fees of this high-priced lawyer. Recently Judge Barnes received, through the German Consul at San Francisco, a letter from the German War Office requesting his services in defense of Scholz. The letter inclosed a handsome fee and stated that Scholz had been for ten years a soldier in the German army and that he had been honorably discharged. The War Office did not pretend to be informed as to his guilt or innocence, the letter said. It only desired that he be accorded all his rights, for he had earned the good will of Germany. The fee inclosed in the letter was not for treating the man. The War Office did not want him acquitted if guilty, but it believed that he should have all the advantages of a skillfully and conscientiously conducted trial, so that if he were innocent there would be no danger of his being wrongfully punished.

Judge Barnes returned from Prescott last evening, where he had been to consult his lawyer. He is present at his arraignment. He says the letter and the fee from the German War Office were a complete surprise to him, as he had not been interested in the case before.

It is suggested that another nation would probably have attempted to manage such an affair through the Department of State. Judge Barnes is of the opinion that the United States itself would have adopted the latter policy, and before the negotiations were concluded the subject of the exchange of international courtesies would be hanged or acquitted without the aid of his Government.

PORTLAND GIRL KIDNAPED.

Taken Captive While Wheeling With a Male Companion and Held for Three Days.

PORTLAND, OR., June 12.—Miss Adele Ferron, an enthusiastic 18-year-old bicyclist, riding on Thursday evening with her companion Everett and Flanders, went out wheeling on Monday evening last. From that time until Thursday evening no trace of Miss Ferron or her unknown companion could be found.

Michael Brannon, a rancher on the Milwaukee road, on Thursday evening sought the young woman's room, where he concluded between 1 and 2 o'clock Tuesday morning he was awakened by a party of men, who demanded that he take charge of a young woman hurt in a bicycle accident. There were three men in the wagon that brought the party to the house. One, lying in the bed of the wagon and with a revolver, held the party to the house. These fellows are kidnapers. They have kidnaped the girl, and God only knows what they intend doing with her.

The young woman tells a story of peculiar adventure; and, to darken the mystery, she flatly refuses to divulge the course of her captivity. She says that on their return trip they were met by two men in a small express wagon, one of whom exclaimed, "That's no business of yours. We were very rude and seemingly indifferent to what they did, for they ran their horse into her bicycle, while one of them leaped from the wagon and with a revolver knocked her companion over the head. Her collision with the horseman seated in the wagon fell heavily upon her head, rendering her unconscious for the greater part of two days. However, she did not lose her senses until the excitement of the occasion had worn away.

"They bound my companion," she says, "hand and foot and threw him and his wheel into the wagon. Why they took me and what they did with me I am at a loss to explain, and what my companion more than all is that they should have driven me to the old farmer's house with a warning not to leave it for three days at least."

"Was your companion on that night a married man?" was asked of Miss Ferron. "I decline to answer that question," she replied; "but I will say that we were friends—nothing more."

MEXICAN LABORERS IMPORTED.

Alleged Violation of the Alien Contract Labor Law Discovered at Los Angeles.

LOS ANGELES, CAL., June 12.—The presence of a half dozen starving Mexican laborers in this city has disclosed what is said to be a violation of the alien contract labor law. These Mexicans, who are scores of others equally destitute, who are said to be scattered along the Southern Pacific road between this city and Deming, N. Mex., allege that they were hired in Mexico to come over to this country to work on the Southern Pacific for Contractors Norton, Drake & Co. They say they were promised an average of \$100 a month, but the later part of the contract was not lived up to. They set out to tramp hither and suffered much hardship.

Their complaint was laid before General Andrade, Mexican Consul in this city, who in their behalf interviewed Norton, Drake & Co., but received little satisfaction. The Consul applied to the Southern Pacific for transportation for the men back home, and he will carry the matter to his Government and a so to the authorities of the United States, as the employment of men on Mexican soil was plainly a violation of law.

The Railway to Johannesburg.

LOS ANGELES, CAL., June 12.—Trains will be running on the new railroad to Johannesburg within ninety days. That is what Contractor Martin Marsh says. He has just returned to this city from

Johannesburg, whither he went with Receiver C. W. Smith of the Atlantic and Pacific road to locate station buildings and attend to the construction business.

SAVE A LIFE NEAR RAYMOND.

Two San Francisco Drummers Rescue a Teamster From Beneath an Overturned Wagon.

RAYMOND, CAL., June 12.—Two well-known San Francisco commercial men—Sturtevant of Miller, Sloss & Scott and Sloan of Tillmann & Bondel—while returning from Grub Gulch on the Yosemite road last night, saved the life of Tom Stennet, a teamster, who was coming to Raymond with a four-horse wagon loaded with lumber and shakes. While rounding a curve near Papellis station, nine miles from this place, Stennet's wagon was found turned completely over, the wheels being in the air. A hasty examination of the wreck was made by the two drummers, who discovered a hat by the side of the wagon.

After considerable difficulty a number of the shakes were removed and Stennet was found, unconscious, securely pinned down by the heavy timbers. He was soon rescued from his perilous position and taken to Papellis station. Blood was flowing from his mouth and ears and he was found to be badly bruised.

In giving an account of the accident Stennet said his horses became alarmed and he ran the team as near to the bank as possible on account of the sharp turn in the road ahead. The wagon struck a rock and was thrown from its seat under the vehicle. It is feared he is internally injured and cannot recover.

Portuguese Gather at Santa Clara.

SANTA CLARA, CAL., June 12.—Hundreds of Portuguese are in town tonight to participate in the celebration of Holy Ghost day by the local Portuguese Society. The festivities began this evening, and will continue until late to-morrow night. At 8 o'clock there was a procession through the principal streets, ending at the society hall on the corner of Lafayette and Lewis streets, where a mass was held. To-morrow morning services will be held at St. Claire's Church. Rev. Father Gloria preaching a special sermon. A picnic and athletic sports have been provided for the afternoon. A display of fireworks and a ball will close the celebration.

Suicide Near Chico.

CHICO, CAL., June 12.—The body of a man was found this afternoon hanging to a tree just across the bridge which spans the Sacramento River, six miles from here. It was apparent that he had just died, as the body was still warm. He had climbed a small tree by the roadside, tied the rope to a limb, then climbed down, fastened the other end around his neck and deliberately held his feet off the ground until he was choked to death. His hat and coat were lying near by. The suicide is unknown, and it is believed that he was a tramp. The Coroner of Glenn County will take charge of the remains.

Sonoma Wine-Growers Act.

SANTA ROSA, CAL., June 12.—About 200 prominent wine-growers assembled in this city to-day to take steps in maintaining the price of wine grapes. E. D. Sweetzer called the meeting to order. The speakers all seemed of one mind in regard to standing by the Wine-makers' Corporation. A committee of prominent men from each district in the county was appointed to obtain signatures to a petition pledging support to the corporation.

MINNESOTA LABOR FEDERATION.

Semi-Annual Meeting to Be Held at St. Cloud To-Day.

ST. CLOUD, MINN., June 12.—The semi-annual meeting of the Minnesota Federation of Labor will convene in this city to-morrow (Sunday), all affiliated organizations and those desirous of affiliation having been invited to send delegates.

The chief work of the federation in the past has been to give the interests of wage-workers in the State Legislature, and although much in this direction was accomplished during the last session, it is the desire of the leaders to greatly increase the membership during the coming two years in order that the organization may more forcibly lay its demands before the next session of the Legislature.

With this end in view no pains will be spared to secure the support of the minor organizations throughout the State and in the 27 new branches of industry under the auspices of the federation.

BURNING OF A DREDDGE.

The Captain and Two of His Crew Lose Their Lives.

WILKESBARRE, PA., June 12.—A bad accident took place on the Susquehanna River at an early hour this morning, when a big dredge caught fire and burned. Three men on her were caught in the flames. Two were burned to death and one was so badly injured that the doctors pronounce his injuries fatal.

The dead are Captain John Reynolds, who had charge of the dredge, and John Keyler. Maurice Reynolds received injuries from the effects of which he will die.

First Mortgage Bonds Extension.

NEW YORK, N. Y., June 12.—The Central Pacific will extend its \$25,000,000 firsts, maturing January 1, for three years to such holders as will subscribe to a bondholders' agreement. Provisions have been made for a syndicate to take up at par bonds of holders not wishing the extension.

NEW TO-DAY.
