

INSURGENTS ARE VERY NEAR HAVANA

They Attack Mariano, a Suburb of the Capital.

Although the Losses Are Very Heavy, News of the Battle Is Suppressed.

Other Engagements in Which the Cubans Easily Defeat the Spanish Regulars.

HAVANA, Cuba, June 14.—Mariano, a suburb of Havana, has been attacked by Cubans under Cardenas and Aranguren. The fight lasted several hours and re-enforcements from the capital came to the aid of the Spaniards. The losses on both sides were heavy. Although the fact of the battle is well known throughout the city, the consular has forbidden the publication of the news.

Map of Santa Clara and Puerto Principe, Cuba, the Scene of Recent Important Movements on the Part of the Insurgents.

The landing of the filibustering expedition at the mouth of the Agabama River with a large supply of ammunition, stores and guns for Gomez's army was a bold and important move for the Cubans. The point selected for the landing was very convenient for the insurgents, who are holding out in the Trinidad and Poteiro hills, though much exposed to interruption from the Spaniards.

The Agabama River flows down between Santo Espirito and Trinidad to the sea, and at each of these places, as well as at Tunas and Casilda, there are large forces of Spanish troops. This replenishment of their stock of ammunition is most acceptable to Gomez's soldiers, who have been on rather short allowance since the recent protracted engagement at La Reforma. When General Weyler went to Santa Clara province, some weeks ago, it was with the avowed purpose of driving Gomez east to the military trocha, and there crushing him between his own heavy column and one that was to co-operate from Puerto Principe.

At Cana de la Para, near Sagua la Grande city, in Santa Clara Province, Lujan's Spanish forces lost twenty-five soldiers and four officers killed and many soldiers wounded in a hot engagement with the insurgents under Aleman. The battalion retired to Sagua, pursued by the insurgents.

MADRID, Spain, June 14.—Senor Celoruelo, Deputy for Asturias, has written to the Interior, demanding the Government newspapers and statements for pressing the truth in regard to Cuba. He says: "We know now too clearly what has been passing in Cuba, yet nobody dares to mention it except secretly. The result is a deplorable condition of things which will reveal some day, amounting to cowardly weakness in upper circles and quiet resignation approaching indifferent stupidity in the masses. I truly believe the fault lies with the newspapers and Deputies. We have failed in our foremost duty, namely to be organs of opinion. If we had realized that our silence only fostered audacity in other quarters it would have been known long ago that our soldiers nearly all die in Cuban hospitals without honor or profit to the mother country, that the pacification of Cuba is a lie, reforms are a lie, our good relations with the United States and other American states are a lie, and that it is a lie to pretend that the policy now followed can lead to anything but discredit and ruin."

ROCHESTER, N. Y., June 14.—A submarine torpedo boat, designed for the Cuban junta in New York, is on the way through the canal. It is expected to arrive in New York harbor to-morrow morning. It is capital ship and very fast. It was built by the Globe Shipbuilding Works of Cleveland. The outer shell of the boat is of steel. The motive power is steam, but it has no smokestack, as its generating apparatus consumes the smoke. The makers guarantee twenty-eight knots. The boat is being sent to New York a short time, as it is thought the Federal authorities will try to prevent her departure.

SWEEPING VICTORY CAPTURED. HAVANA, Cuba, June 14.—It was learned to-day that Dr. Viete, chief surgeon of Garcia's army, has been captured at Robumo, Jamaica, and thrust into prison. He left Cuba in an open boat with eleven men, having important dispatches for the New York Junta.

SHOOTING AT SANTA CRUZ. Charles Johnson F. Red Upon and Wounded by a Man Whose Name He Declines to Reveal. SANTA CRUZ, CAL., June 14.—Charles Johnson, assistant superintendent of the electric railway company of this city, was assaulted to-night by some one whose name he declines to disclose, and shot across the left breast and the left arm. The shooting occurred in the neighborhood of the home of his wife's mother, some distance from the center of town, and Johnson rode into town on his wheel and he arrived at the Pilot Club, where he is being cared for.

SAUSALITO'S MARSHAL FINED. Convicted of Battery, He Must Pay \$100. SAUSALITO, CAL., June 14.—Marshall Creed, who was convicted by a jury in Recorder Joseph H. Pryor's court of battery upon the person of Peter Clandiano, a restaurant-keeper, appeared before the Recorder this afternoon to receive sentence. The Justice reviewed the evidence and said that if ever the extreme penalty should be given it should be in this case, as the people looked upon Creed as a peace officer and did not expect from him a violation of the law. He was fined \$100, or in case of non-payment by 4 o'clock on June 24, to be confined in the County Jail 150 days.

FOR AND AGAINST VACCINATION. The Controversy Breaks Out in New Spots and With Greater Violence in England. LONDON, Eng., June 14.—The controversy between the advocates and opponents of vaccination, which has continued at intervals ever since the adoption of legislation making inoculation compulsory and providing penalties for non-compliance with the law, has recently broken out with renewed vigor, the cause of the renewed interest in the subject being the issuance by the royal commission of a report setting forth its claims in support of vaccination.

Several pamphlets have been issued, apparently showing that the figures adduced by the commission on their side of the proposition in reality prove quite the opposite, the most prominent of these are quoted, all of whom admit the great risk of communicating disease—especially venereal disease—through the virus used in vaccination.

Numerous cases are cited in which healthful children have been made the innocent victims of the most repulsive diseases, and other instances are mentioned of parents submitting to long terms of imprisonment rather than allow their children to submit to the possible dangers of vaccination—dangers which are admitted even by the royal commission to be in the aggregate not inconsiderable.

The present discussion of the subject promises to be more acrimonious than any that has preceded, although it is somewhat doubtful whether the opposition will result in a change from existing conditions.

Close Relations Destroyed. LONDON, Eng., June 14.—All the afternoon newspapers discuss the speeches which the Duke of Devonshire, president of the British Empire League, and the Premier of Canada, the Hon. Wilfred Laurier, made at Liverpool on Saturday. They generally warmly approve of the references to the necessity of closer relations. The free-trade critic of the Duke of Devonshire are coldly treated by the Liberal newspapers.

Revolt of Native Troops. BRUSSELS, Belgium, June 14.—The Patriote reports under reserve that native troops of the Congo Free State have revolted and murdered a brother of Baron d'Hanis, the Governor-General, and twenty-four Europeans. The rebels seized a

quantity of stores, including 8000 rifles and 20,000 cartridges.

THOUSANDS MADE HOMELESS. Widespread Disaster Follows the Fearful Earthquake Shocks in India. CALCUTTA, India, June 14.—The disastrous effects of the earthquake last Saturday evening are widespread, the seismic disturbance having extended far into the central provinces. The damage to property is almost incalculable.

A SECOND BOMB FOUND. This Shows the Attempt to Kill Faure Was Not a Job. PARIS, France, June 14.—The press and prefect of police agree that the explosion of the bomb which was supposed to have been attempted upon the life of President Faure yesterday was either the act of a lunatic or of a practical joker.

A later discovery, however, tends to disprove the police contention. Another bomb similar to the one exploded yesterday was found this morning near the scene of the explosion. General, the municipal analyst, examined the bomb and found it contained gunpowder and strapped expertly mixed. The reason yesterday's explosion did no damage was probably because the missiles in the bomb did not scatter, but were blown vertically.

The Brooklyn Arrives at Southampton. SOUTHAMPTON, Eng., June 14.—The United States armored cruiser Brooklyn, with Rear-Admiral J. N. Miller on board, which is to represent the United States at the naval review at Spithead June 29, arrived here to-day from New York.

SAUSALITO'S MARSHAL FINED. Convicted of Battery, He Must Pay \$100. SAUSALITO, CAL., June 14.—Marshall Creed, who was convicted by a jury in Recorder Joseph H. Pryor's court of battery upon the person of Peter Clandiano, a restaurant-keeper, appeared before the Recorder this afternoon to receive sentence. CONTROL OF THE UNION PACIFIC

Plans for a New Company to Soon Take the Road. Representatives of the Government Said to Sanction the Scheme. Some of the Small Lines Are Not Included and Left to Shift for Themselves.

BOSTON, Mass., June 14.—The reorganization committee of the Union Pacific has perfected its plans here and a new company will take the road in the immediate future. S. H. H. Clark of Omaha in all probability will be ousted, and his place will be filled by Oliver W. Mink of Boston. The new scheme has received the sanction of the representatives of the Government.

By September the new company will be in control. The new plan provides for the securing of the road by the reorganization committee for the actual net sum of \$25,000,000. The people who are active in the new company have already secured the sum needed, and with the \$4,000,000 deposited with the United States Trust Company are said to be ready to take the road as soon as the foreclosure sale is ordered.

The allotment of first mortgage 4-per-cent bonds, which under the original plan was to be \$100,000,000, is to be reduced under the new plan to \$75,000,000. The Oregon Short Line, in which the Union Pacific has an equity, has reorganized on its own account since the original plan for reorganization was broached, and the Kansas City and Omaha and the St. Joseph and the Grand Island being separately organized, pass out of the Union Pacific system. The Denver, Lincoln and Gulf, and some of the smaller roads in Kansas and Nebraska, which are unprofitable properties, are not to be included in the new reorganization plan, and are to shift for themselves.

Among the men who are mentioned as the members of the new corporation and its probable officers are: Oliver W. Mink of Boston, J. W. Doane of Chicago and F. R. Couder of New York, present receivers; John F. Dillon of New York, general counsel; Alex. Miller of Boston, secretary and assistant collector; Edwin F. Atkins of Boston, vice-president; Russell Sage of New York, George J. Gould of New York, George Q. Cannon of Salt Lake City and Henry B. Hyde of New York. The present directors and Collis P. Huntington and William R. Hearst of New York are also mentioned among the probable future officials of the company.

FORTIFYING BOSTON HARBOR. The Hub to Be Protected Against Possible Foreign Invasion. BOSTON, Mass., June 14.—By next winter Boston harbor will be well defended against invasion by a foreign foe. Within the next six months it is expected that seven 10-inch cannon mounted on disappearing gun carriages of the Buffington-Crozier type will defend the entrance. At Fort Warren three 10-inch guns are being mounted on disappearing carriages and will be working order within a few weeks. The other four are to be placed at Long Island Head.

A Mean Stub at Huntington. NEW YORK, N. Y., June 14.—The Journal prints a veiled attack upon Collis P. Huntington. It says: Countess Olga Hatfield has been found in penniless seclusion in a Harlem garret. Huntington was apprised of the fact of his daughter-in-law's need several months ago, and gave her \$10 only.

Shot to Death for Murder. PERRY, O. T., June 14.—Before his own tribe Chokak Ebin, a full-blooded Crow, was shot to death to-day for the murder of Riley Ebin.

Seattle Divorce Ends His Life. SEATTLE, Wash., June 14.—"Your papa dies of a broken heart" were the pathetic words of a message written by Julius Wessler, a German street railway

man, 35 years old, to his four little children this afternoon, just before he committed suicide by shooting himself through the head with a revolver at the entrance to Keyona Park. Some time ago Wessler was divorced from his wife, to whom he was married in Minneapolis ten years ago, charging her with unfaithfulness. On the back of a photograph of one of the children Wessler had written, "Good-by, darling Minnie."

SAN DIEGO RECEIVER'S SALE. Land and Town Company Property Bid In by the Officers of the Corporation. SAN DIEGO, CAL., June 14.—The property of the San Diego Land and Town Company, including the Sweetwater dam and water system, 3000 acres of lemon orchards, and the N. C. and O. Railroad, was to-day sold at receiver's sale in the company's office at National City, by order of the United States court at Los Angeles, and was bid in by President D. F. Cheney Jr. of the D. F. Cheney & Co. of San Diego. At 10:30 o'clock Receiver C. D. Lanning, by order of the court, turned over the entire property, valued at \$5,000,000 to the officers of the company, free of debt.

The headquarters of the Land and Town Company are in Boston and the company was originally a part of the Santa Fe system, but six years ago was segregated and three years later went into the hands of a receiver. An assessment of \$300,000 was levied and finally paid by the stockholders. The lemon orchards of the company are the largest in the world. They are just being put into bearing and this year the company will ship 500,000 cartons of lemons to Eastern points. The railroad is twenty-two miles long and runs into Mexico.

HURLED FROM GEORGETOWN GRADE. Man, Horse and Carriage Precipitated a Distance of Two Hundred Feet Down a Steep Incline. AUBURN, CAL., June 14.—D. W. Fox of Garden Valley was fatally injured by being thrown off the Georgetown grade to-day. Fox and his horse and carriage were precipitated a distance of 200 feet. The grade is a most dangerous one, being almost perpendicular above the American River, 100 feet below. But for a cramping bush here and there one might easily roll to the bottom. Fox had to be hoisted up by a rope fastened to a tree above the grade, a man being sent down the rope to assist him. The carriage was crushed to splinters and the horse killed.

Fox was taken to the Portland Hotel and his wife sent for. His physician believes he cannot live. Dozens of tiny pebbles are imbedded in his skull, several ribs are broken and he is a mass of bruises. Fox is a leading citizen of this community.

Terrific Storm at Redding. REDDING, CAL., June 14.—A terrific electrical rain and windstorm visited this city to-day. Water poured down in torrents, lightning played and thunder roared incessantly for over an hour. Telephone and telegraph systems were seriously damaged by lightning striking the wires. The thunder was so terrific that glass windows in several parts of the city were shattered and the roofs of houses were broken and he is a mass of bruises. Fox is a leading citizen of this community.

Six furlongs, Paul Griggs won, Logan second, Elk third. Time, 1:21. Six furlongs, Norcia won, Giveaway second, Frims third. Time, 1:16.2.

EASTERN HORSE GOSSIP. Plunger Riley Grannan Makes a "Killing" on Paul Kaurav. Riley Grannan is said to have cleaned up \$1000 when Paul Kaurav won at Gravesend last week. It is now said that Handspring may come around all right and again face the starter.

ON THE DIAMOND.

Scores of Yesterday's Games in the National League and the Standing of the Clubs.

NEW YORK, N. Y., June 14.—New Yorks 7, St. Louis 4. BROOKLYN, N. Y., June 14.—Brooklyns 15, Chicago 4. BOSTON, Mass., June 14.—Bostons 5, Cincinnati 3. BALTIMORE, Md., June 14.—Baltimore 9, Louisville 4. WASHINGTON, D. C., June 14.—Washingtons 16, Philadelphia 3. PHILADELPHIA, Pa., June 14.—Phillies 4, Cleveland 10.

Night Racing at San Jose. SAN JOSE, CAL., June 14.—The Garden City Cylers will hold an electric light race meet at their track on the evening of June 30. About 100 arc lights will be used, and a tempo will be made to successfully institute night racing during the summer months. A good programme of events will be presented and all the speedy riders in the state have signified their intention of riding.

SHASTA MINE CLOSED. Texas Consolidated Rendered Idle by Trouble Caused Over a Supply of Water. REDDING, CAL., June 14.—The famous Texas Consolidated mine, owned by R. G. Hart, in Old Diggins district four miles from Redding, was closed this morning. The reason was the shutting off the water supplying power for the mill. The power for the Texas Consolidated was supplied by the Garlick Electric Company, which has a plant on the Sacramento River, at the mouth of Spring Creek. This company has a leased ditch from the Mountain Copper Company and through this ditch runs the water supplying the power for the plant, which in turn transmitted power for the Hart mine. The Mountain Copper leased the ditch and was in turn to receive water sufficient to operate a portion of its works at the big smelters at Keswick.

It is claimed the Garlick company failed to supply the Mountain mines with water according to agreement, and they cut the ditch so no water could run. Of course this compels the Hart mine to cease operations. The Garlick company now threatens suit against the Mountain Mine Company, the Hart people threaten suit against the Garlick Company and the Mountain Copper Company. It is said, will also sue the Garlick Company.

There will be complicated litigation and the outcome is looked forward to anxiously by all concerned. In the meantime the Hart mine, one of the largest gold producers in the county, will remain idle.

MASSACRE OF DEAD MAN'S HILL. Indian Butchery of Years Ago Recalled by the Finding of a Group of Skulls. PENDLETON, Ore., June 14.—W. E. Watson came to town from the Umatilla reservation on Saturday and told the story of finding six human skulls and the moldering remains of a wagon whose wheels had three-inch tires. The discovery is said to have been made on a point between two canyons east of Dead Man's Hill not far from the old emigrant road. Watson was searching for hogs when he made the discovery. The wagon was found southeast of Parker Well's place, about one and a half miles east of Dead Man's Hill. It was here that three freighters were killed in 1878. He found the skulls about three miles from the wagon. They were heaped up together, but were scattered over about an acre of ground. The four freighters, says an old-timer, were killed by Indians, and although all the wagon was destroyed, the bones of the actual murderers were never punished. The fact is that before this there was no physical evidence that the freighters had been massacred. They had vanished and that was all.

War on Los Angeles Lotteries. LOS ANGELES, CAL., June 14.—A vigorous campaign is being conducted by the police department against the Chinese lotteries that have to the number of about 300 been flourishing in this city, many of them bold and open on the principal business streets. In response to popular clamor about a score of arrests are being made daily. The lottery joints when raided are found to be full of furniture and paraphernalia and thousands of dollars worth of property have been confiscated. There is great excitement in Chinatown.

New Mexico's Governor Inaugurated. SANTA FE, N. M., June 14.—Governor Otero was formally inaugurated Governor of New Mexico to-day. Judge Laughlin administered the oath, and an enormous crowd witnessed the ceremony. Governor Otero is the first American Governor in whose veins courses the blood of the old Spaniards, and the fact was conspicuously noteworthy that there was a very large concourse of descendants of the Spanish and Mexican families present.

Accidental Shooting at Redding. REDDING, CAL., June 14.—Fred Eckels, a son of City Marshal Eckels, accidentally shot himself last night. He was handling a pistol in front of the courthouse, when the weapon was discharged. The bullet struck the second finger of his right hand, tearing it off.
