

HELD UP AND KNOCKED DOWN

Deputy Quinlan Attacked at Midnight in Fruitvale.

Shot at His Assailants, Though Badly Injured by a Pick Handle.

Confined to His House on Account of the Serious Cuts on His Head.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, June 26.

Deputy Constable Quinlan was held up by two men last night, and in the course of the operation he was not disposed to be quiet, so he was promptly knocked down. The attempted robbery and assault to murder occurred just at midnight, in front of the Wetherbee home, at Fruitvale avenue and East Fourteenth street. Every effort is being made to keep the affair a secret, as this is the second time that an officer has been held up within a few days.

Deputy Quinlan was walking alone Fruitvale avenue when he was met by two men, who at once made the usual highwayman's request. Quinlan was very much surprised that his star did not at once cause the robbers to take to their heels, and he made some demur before complying and pointing his arms skyward.

The robbers were not inclined to temporize, and while Quinlan was hesitating he was struck violently on the head with a pick-handle, it felled him to the ground, but before anything could be taken from him the robbers heard somebody approaching, so they left the comely bleeding where he fell.

He was not stunned, although severely injured, and after getting upon his feet, Quinlan managed to get out his gun. He took several shots at the retreating robbers, but apparently did not hit anything but the fence, and he was obliged to flee. The sound of the shots attracted the attention of Deputy Constable Cramer, and when he found the wounded officer he assisted him to a drugstore, where his wounds were treated.

A visit to the place where the assault occurred was rewarded by the finding of a pick-handle, on which was some blood. It is a vicious-looking weapon and could easily kill a man in the hands of a murderer. It is now held by the police as evidence, in case the desperadoes are ever arrested.

As the affair occurred in a dark part of the avenue Quinlan does not know if he could recognize them. He is confined to his couch to-day, but will be fully recovered in a few days. The wounded deputy has no idea of the identity of his assailants, but does not think any of his shots hit them. He was so dazed that he could not get up from the ground before the robbers had a good start. His head is badly cut and he lost a large quantity of blood. No clue to the men could be found to-day.

OUR STATE RESOURCES.

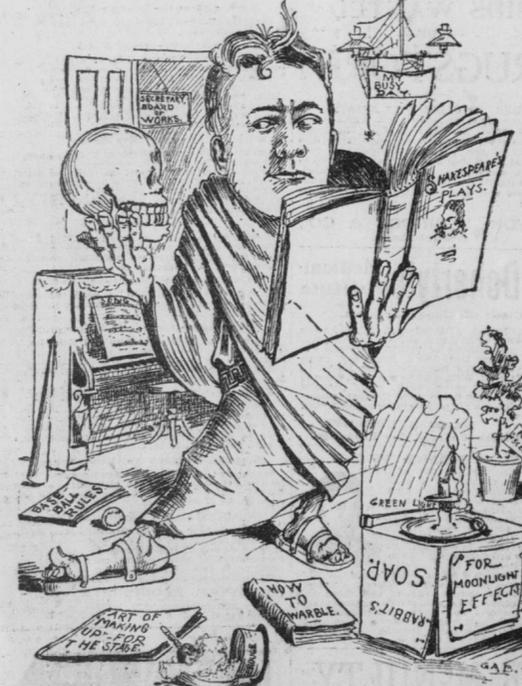

Valuable Work Being Compiled by Leading Men for General Distribution.

President Kellogg, Hon. Claus Spreckels, Dr. Stebbins, John Muir and Others Among the Editors.

BERKELEY, CAL., June 26.—The State Board of Trade is about to issue for general distribution through the United States a volume setting forth in a succinct manner the varied resources and industries of California.

The work is intended to be of incalculable benefit to the State, since it will point out the undeveloped resources of California and the opportunities here which await the capitalist and the homeseeker. The volume is being compiled under the immediate supervision of W. H. Mills, chairman of the publication committee.

NEW OFFICIALS AND THEIR IDEAS—NO. 8.

OAKLAND, CAL., June 26.—Harry Thomas, the new secretary of the Board of Public Works, is of the opinion that because a man is a public official it is not necessary to immerse one's self in an office and ignore all amusement. Secretary Thomas is trying to organize a baseball team; he is an amateur actor and can also acquire himself creditably as a singer. When the members of the board are not too busy they send for their secretary and order an impromptu entertainment. It comes to order.

ALAMEDA COUNTY NEWS.

THE ELOPERS AT HONOLULU

Papa Arendt Gave His Son a Check for a Thousand Dollars.

Did Not Leave Him Until the Steamer's Gangplank Was Pulled Ashore.

But the Little Telephone Operator Had Been Previously Secured on Board.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, June 26.—Miss Dora Uphoff, the pretty telephone girl of Hayward, who is now Mrs. Jerome Arendt, and her husband are at Honolulu. The young elopers, as was surmised, were both on the Australian

commodations for boats on a part of it. This, with grounds for baseball and other games, will afford the rising generation plenty of room for various kinds of sports, and at the same time not interfere with any public use of the water front. It is expected that the Board of Trustees will be asked to take some action in the premises shortly.

A Mean Swindler. ALAMEDA, CAL., June 26.—Lewis Berthman was found guilty of obtaining money on false pretenses by Justice Morris and a jury this afternoon. He obtained \$65 from a poor couple, who were giving him full board and lodging, by representing to them that he had a position in San Francisco and would soon repay them. Justice Morris sentenced him to six months in the County Jail and remarked that the regretted he could not give him more.

Christian Endeavor Rally. ALAMEDA, CAL., June 26.—The Christian Endeavorers will take charge of the services at the Santa Clara avenue Methodist church to-morrow. In the morning, Rev. C. E. Rich will preach. In the evening there will be a praise service led by Miss Kramer. Professor J. A. Wiles and W. W. Bristol will speak. The church will be decorated with the Endeavor colors of purple and gold.

Knights to Take a Sail. ALAMEDA, CAL., June 26.—At the meeting of Alameda Lodge, K. of P., last evening, the invitation of E. K. Taylor to take a sail on his yacht, the Emerald, was unanimously accepted, and Thursday, August 5, was decided as the date of the event. It is expected that there will be a large attendance and lots of sport.

Ready for Bryan. ALAMEDA, CAL., June 26.—The Alameda Bimetallic Club are arranging for a

MRS. DORA ARENDT (nee Uphoff), Who is Now Helping Her Young Husband to Spend His Father's \$1000 Check in Honolulu.

steamer, but it is not probable that they will go any further than the islands. The elopement was very cleverly planned and Mr. Arendt Sr. is not at all pleased at the manner in which he was treated by his son. Knowing that the young people were a great deal in each other's company Mr. Arendt made his son a very generous offer of a trip to Australia. No one knew what the terms were, but now that the whole story is out Mr. Arendt talks freely of the incident.

He had no idea that a marriage had taken place, and he promised his son that when he was aboard the steamer he would give him a big check. He stayed with Jerome till the gangplank was drawn ashore, and then he took from his pocket a check for \$1000 and told his boy to have a good, sensible time. He watched the steamer pass out toward the Golden Gate and returned to Pleasanton, assuming that he had been the means of breaking off the match he did not favor.

But while he was congratulating himself on his success there were two people also congratulating themselves in a stateroom as they looked at that \$1000 check. While Arendt Sr. was saying good-by to his son his young and pretty wife was hidden away in a stateroom, waiting for the moment when her husband should tell her that they were safe. The scheme worked perfectly, and now until Papa Arendt reads THE CALL did he know that a marriage had taken place at San Rafael several months ago and that he had unwittingly started the couple on a luxurious honeymoon.

Papa Uphoff is not at all displeased over the wedding. He says that his daughter has wedded a popular and worthy young man, who has good prospects, and he will not say anything unplesant about it. Mrs. Uphoff is of the same mind, and it is supposed that Dora's parents were not altogether ignorant of her departure.

THE MODERN TROJANS.

A Fraternal Society Takes on a New Lease of a Life and Prosperity. ALAMEDA, CAL., June 26.—Some time since the statement was published that the lodge of Modern Trojans which has been organized here had been disbanded and the members had gone over bodily to another organization. This was somewhat in error. There was a disagreement in the lodge, it is true, but the organization has entirely recovered from that and is now in a prosperous condition. A meeting was held last night and seven members were initiated. The membership includes some of the best-known people in this city.

The Park Proposition. ALAMEDA, CAL., June 26.—The proposition to make a park and playground of the tract of land owned by the city on the shore of the estuary meets with general approval. It appears that there are ten acres all told, and the idea is to have a public wharf on part of the front and ac-

DID NOT TAKE AWAY THE SOIL

A Rancher, Crops, Wagons, Horses and Implements Missing.

D. F. Armstrong Is Badly Wanted by Mrs. Bassett of San Leandro.

Might Be Able to Account for the Proceeds of the Large Crop and Other Things.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, June 26.

Mrs. John Bassett, who owns a ranch near San Leandro, is anxious to find D. F. Armstrong. Marshal Ramage is helping her and has sent out postals all over the State furnishing a description of him. Armstrong is missing, but so are other things. The cherry crop has gone, so have the proceeds of it. The horse has gone; much of the ranch implements has gone; a wagon has gone; some of the furniture is missing and Mrs. Bassett feels grateful that her twenty acres of earth is left her.

The lady does not know whether Armstrong and the missing things left together or at different times, but she believes that if Armstrong be brought back an accounting will certainly help to prove who despoiled her ranch. She thinks at least that Armstrong should be able to explain why he left the ranch in such a different condition from that in which he found it. For this purpose she has taken steps to secure his return if he can be found.

Some months ago Mrs. Bassett placed her ranch in charge of Armstrong. She allowed him full swing in the management and it is somewhat in doubt as to whether he left the ranch in good order and the implements have disappeared since or whether he knows where the things have gone. Marshal Ramage is now at work and expects to land his man in a few days if he is still in the State. Mrs. Bassett says that if Armstrong has done nothing but pick and steal, she made his report of the crop before leaving.

PETER'S LIFE IS SAFE.

He Is Permitted to Marry a Rancher's 14-Year-Old Daughter.

The Groom Is a Very Industrious Young Man, Who Committed the Error of Elopement.

OAKLAND, CAL., June 26.—Peter Peto, who was not shot by an irate father for abducting his daughter, but instead he has been blessed, forgiven and is now the girl's father's son-in-law.

A week ago Miss Minnie Bordes ran away from her home at Livermore with Peter Peto, a ranchman who had worked for Bordes eight years. Bordes pursued the couple and caught them at Monterey, as they were trying to get a tug to take them to sea to be married. Minnie was taken home and a shotgun was to give Peter his quietus when he should again meet Bordes. A great commotion followed, however, he cooled off, and has decided that Peter is a very well-meaning young man. The lad has worked steadily on the ranch for eight years and during that time had saved \$2000, which was in the keeping of Bordes. He is industrious and reliable and so Bordes consented to a wedding.

Minnie's mother was not agreeable, however, and it took a couple of days longer to gain her consent. It was finally

NEW TO-DAY.

OAKLAND, CAL., June 26.—The executive committee in charge of the entertainment of the Eastern visitors on Alameda County day at the close of the Christian Endeavor Convention in San Francisco next month, has announced the following committees:

Finance—A. H. Reed, chairman. Transportation—Edward Collins (chairman), George Collins, George Roth, W. Frank Pierce, F. A. Leach, E. C. Cavalier. Reception—George P. Lowell (chairman), J. E. Farham, J. A. Britton, E. C. Lyon, A. J. Powell, R. W. Snow, D. S. Hirschberg, C. W. Kinsey, A. B. Nye, R. H. Chamberlain. Refreshments—George W. Arpac (chairman), F. OAKLAND, CAL., June 26.—The first prize contest play will be put on at the Oakland Theater next week. It is entitled "Nancy Hill," and written by Raymond J. Russ, a university boy and now a teacher in the High School. Miss Virginia Laughlin, the pretty and popular Oakland girl, who has made such a distinct hit at the Oakland Theater, will play a part. The theater will be handsomely decorated in university colors.

Janitors' Salaries. BERKELEY, CAL., June 26.—The question of the reduction of the university janitors' salaries is still a topic for discussion. The sudden cut by the regents of their salaries from \$60 to \$35 a month has been the cause of much complaint, both from the standpoint of equity and from the fact that they are required to work from nine to ten hours a day, in alleged violation of the State labor law. The cut in salaries was made so that another janitor might be employed without drawing on the State treasury for his pay.

Mrs. Ross Is Located. OAKLAND, CAL., June 26.—Special Agent C. E. Linkin, has secured service upon Mrs. M. L. Ross of summons to attend court and show cause why she should not forfeit \$7500. She went on the boat of foot, the gold-brick man. He failed to show up for trial and suit has been taken to secure the amount.
