SAGASTA MUST ACT.

If He Does Not the United States Government Will Make Some Decisive Move.

NEW YORK, N. Y., Oct. 8.—The Washington correspondent of the Herald says: President McKinley and his Cabinet thoroughly discussed the Cuban question in all its phases to-day, and it is the consensus of opinion that the Sagasta Ministry should inaugurate reforms in Cuba without waiting for the new Cortes, which will not assemble before March. Otherwise the administration will be forced to act. I am able to state this on high authority.

The advisability of providing protection for the American consulate in Havana and the necessity of obtaining from Senor Sagasta action in Cuba were the principal themes of discussion, but, other than the conclusion that something should be done without delay by Sagasta, there was no important development.

The authorities are of the opinion that Spain is simply following out her usual policy of delay.

After the Cabinet meeting an officer with whom I talked carefully went over the situation with me. The administration, I understand, has not received from Minister Woodford any advice since the receipt of his cable announcing the formation of a new Ministry. It has at hand, however, complete reports from him as to his opinion on the situation in Spain. Minister Woodford does not believe the Sagasta Ministry can do much in the matter of granting concessions to the Cubans.

I understand he has reported that the people of Spain would greatly depreciate any such step, and the fear of internal troubles will doubtless do much to prevent Senor Sagasta taking radical action. As a result of this discussion, the authorities are convinced that Sagasta can do much to ameliorate the condition of affairs in the island if he will be willing to brave public opinion in Spain.

President McKinley is awaiting with no little anxiety for Spain's reply to the resolutions made by Minister Woodford.

WEYLER'S SUCCESSOR.

The Man to Whom Premier Sagasta Will Confide the Fortunes of the Liberal Administration.

MADRID, SPAIN, Oct. 8.—Captain-General Ramon Blanco y Arenas, who will succeed Captain-General Weyler as Governor-General of Cuba, has had his chief administrative experience in the Philippine Islands.

He succeeded Captain-General Despujol as Governor-General of the Philippines in 1893, and for his services in that capacity was raised to the rank of marshal in May, 1895.

In August, 1896, he reported to the Spanish Minister of the Colonies the existence of an extensive plot aiming at the independence of the island. He rapidly took the proportions of a formidable insurrection, which the efforts of General Blanco were powerless to check. In September of that year he narrowly escaped assassination.

A plot was formed to surprise the garrison at Manila and seize the headquarters and to murder the captain-general. It was discovered just in the nick of time, and more than 100 persons were arrested and completely in it. Prior to this General Blanco had not resorted to extreme measures, but, spurred on by the personal danger to which he had been exposed, he issued a decree ordering that all property belonging to residents of the Philippine Islands who had been implicated in the rebellion should be forfeited for the benefit of the Government. A week's grace was offered to those who were willing to surrender.

Blanco's military tactics, nor other exceptional measures which he took to suppress the rebellion, prevented it from spreading and in December, after a broad hint from the Government that his methods were not sufficiently severe, he tendered his resignation and was succeeded by General Polavieja, commander of the Sixth Army Corps, who himself sent to the Philippines with instructions virtually identical with those given to Captain-General Weyler when the latter succeeded Marshal Martinez Campos in Cuba.

Shortly after this Marshal Blanco was appointed chief of the island. He was described as the "softest hearted soldier in Spain," and his whole career indicates his disposition to employ mild rather than violent measures. Ever since the fall of the Azcarraga Cabinet the name of Marshal Blanco has been the most prominent among the possible successors of General Weyler, and the impression in some well-informed quarters has been that if appointed Governor-General of Cuba he would be empowered to approach the insurgents with a view of arriving at a mutual agreement for the cessation of hostilities. He enjoys the personal friendship and entire confidence of the Queen Regent.

SACRIFICED BAVARIAN TROOPS.

An Interpellation in Reference to Emperor William's Assuming Command During Maneuvers.

MUNICH, BAVARIA, Oct. 8.—In the Chamber of Representatives today Herr Schuder interpellated the Government regarding the recent army maneuvers, claiming that Emperor William of Germany wrongfully assumed command of the Bavarian army and needlessly sacrificed lives in the cavalry attack.

The Premier, Baron von Grailshelm, and the Minister of War, Baron von A. Z. ch., denied most of the assertions made, but admitted that there were a number of suicides during the maneuvers on account of the exhaustion of the troops.

CANUDOS FINALLY CAPTURED.

But the Brazilian Forces Suffered a Great Loss in Storming the Fanatic Stronghold.

LONDON, ENGL., Oct. 8.—The Brazilian legation here has received a telegram from the Government at Rio de Janeiro stating that Canudos, the headquarters of the religious fanatics, led by Antonio El Conselheiro, was captured after a campaign in which over 3000 Brazilian officers and soldiers were killed, wounded or invalided. The dispatch adds that El Conselheiro is dead.

REVENGE OF NATIVE ASSASSINS

Dr. Jerrard K. Smith Is Put to Death at His Koloa Home.

CALLED TO THE DOOR AND SHOT.

Had a Presentiment of Danger and Was Writing to His Fiancee.

CONSPIRATORS ARRESTED FOR THE MURDER.

They Plotted to Remove a Friend of Hawaiians to Prevent Lepers From Being Removed.

HONOLULU, HAWAII, Oct. 2.—Dr. Jerrard K. Smith has been assassinated, the news having been brought here last Sunday by an island steamer.

THE LATE DR. J. K. SMITH, Who Was Assassinated at His Home in Koloa on the Night of September 24.

THE LATE DR. J. K. SMITH, Who Was Assassinated at His Home in Koloa on the Night of September 24.

Dr. Smith was a brother of Hon. William Owen Smith, Attorney-General of the Republic of Hawaii, and a relative by marriage of William Bailey of Oakland and W. Waterhouse of Cedar Rapids, Iowa.

On the night of Friday, the 24th ult., Dr. Smith was called to the door of his home at Koloa, Kaula, and without warning shot dead.

It appears that on the evening in question Miss Juliette Smith left her brother to retire to rest between 9 and 10 o'clock and the doctor retired to his own room to write some letters, especially one to his fiancee, Miss Brewer, which he was engaged upon when called forth to receive his death wound.

Shortly after Miss Smith had extinguished her lamp she heard a knock at the front door of the house and her brother's voice inquiring, "Who's there?" There was no reply and the doctor repeated the question in Hawaiian, but the only response heard by Miss Smith was a cough.

The door was opened and the sound of a shot instantly followed. Miss Smith, hearing the noise of a shot and a body falling, immediately ran to the door and found her brother on the floor shot through the breast and dying. He expired in a few seconds without speaking a word. No one could be seen, but the noise of galloping horses could be heard in the distance and the darkness.

The nearest friends were soon aroused, but no clew could be obtained. Drs. Campbell and Watt were summoned and extracted a 38-caliber revolver bullet from the wound. It was the impression of all that the cowardly murderer must have fired the fatal shot at very close quarters.

Dr. Smith was born on the islands, was the son of a distinguished missionary and had for a number of years lived at Koloa with his sister. There they devoted themselves to the amelioration of the Hawaiians. They founded and conducted the Kaula Industrial Home for Hawaiians in addition to aiding in many other praiseworthy objects.

Dr. Smith was a very amiable man in the prime of life, and had recently completed a residence for his future bride, with whom he had arranged to be married within the next few months in California, where Miss Brewer is believed to be at present.

It seems somewhat strange that the last words he penned to his future bride immediately before he was shot expressed a fear that he might never again look upon her living features. This anticipation of an impending disaster has naturally given rise to surmises. The feeling of indignation at the heinous deed is irresistible throughout the islands, and none sympathize more deeply with the family of the deceased than the bereaved than those who have no political affiliation for the Attorney-General, who himself grimly said that if it had been himself he would not have been surprised, for he knew that politics had made him many enemies.

The funeral of the murdered man took place at Koloa Church on the 27th inst. Rev. Hans Isenberger conducting the services assisted by Rev. J. M. Ludgate and the Rev. Mr. Konoha. The pall-bearers were Senator George N. Wilcox, Alexander McBride, Judge Blake and the Rev. Mr. Konoha. The attendance was very large,

TRANSYLVANIA STAKE DECIDED.

Rima Wins the Fifth Heat Handily and Captures First Money.

LEXINGTON, KY., Oct. 8.—A perfect day and large attendance marked the fourth day of the Kentucky Trotting and Driving Association's Transylvania stake, \$500, for 2:16 class trotters, in which the Monk had won the first two heats, Tommy Britton the third and Rima the fourth, was finished to-day in short order by Rima, which took two heats in 2:11 1/2 and 2:12. The Monk was second and Tommy Britton gets third money.

The victim fell where he stood, and the murderer fled to the clump where his money was. He mounted quickly and the company with his brother, rode swiftly out of the left-hand gate and in a very roundabout way to their home. They left their panting horses go in the corral and then turned in. In the meantime they had found time to hide their revolvers in the grass. The next day they hunted up and stowed them away in different places.

Iosepa was taken to the spot and produced his revolver, hidden in sand. The whole Kato family was then put under arrest, including Rathburn, a half-white, who is supposed to have known about the plot.

OLD KILAUEA IN VIOLENT ERUPTION

Visiting Congressmen Witness the Flow of Livid Fire and Molten Lava.

Now the Pit of the Volcano Is Converted Into a Burning Lake of Great Depth.

HONOLULU, HAWAII, Oct. 2.—When the Congressional party visited the volcano some two weeks since they saw the commencement of the present outbreak in the shape of loud explosions, followed by the bursting forth from the bottom of the crater of fountains of living fire and molten lava.

News received by the Kinaiu is to the effect that the outbreak then witnessed has continued with gradually increasing force until when the Kinaiu left Hilo the whole bottom of the pit of the volcano was covered with a lake of lava estimated to be 100 feet in depth.

Commodore Beckley confirmed the foregoing this afternoon. He says a main pit of the volcano is about 500 feet in depth. The lava is now 400 feet from the surface and slowly but surely rising. The flow of lava is accompanied by the usual displays of fiery fountains and pyrotechnical peculiar to old Kilauea.

Editor E. D. Sparrow of the Hilo Tribune arrived in Hilo direct from the volcano just before the Kinaiu left. In a letter bought up by Mr. Beckley he confirms the facts stated.

Wallitt, the owner of Silkwood, denies the rumor that the big black had paced a mile in 2:04 1/2. The story was told by several persons who claimed to have seen the trial, but the horse's owner ought to know. It is said that the rumor started from some enthusiast who, having seen the stallion do a fast quarter, figured out the possibility of a mile on the same basis. He expected that the black can be made to do a mile in 2:07 1/2.

BURGE DEFEATS CAUSER.

The Fights Last Only Half a Round, Fifty-One Seconds.

LONDON, ENGL., Oct. 8.—In the twenty-round glove contest between Dick Burge and Tom Causser here to-day Burge won in half a round. Burge wasted little time in sparring. Thrice in succession he planted his left heavily upon the right side of Causser's head, and he landed his right tremendous force on the left side of Causser's chin. Causser dropped like a log and was counted out. The fight lasted only fifty-one seconds.

MORGAN'S ARGUMENT FOR ANNEXATION

Small Attendance Turned Out to Hear the Visiting Statesman.

Hawaiian Natives Who Did Not Care to Be Misrepresented Conspicuously by Their Absence.

Correspondence of THE CALL.

HONOLULU, HAWAII, Oct. 2.—On September 30 Senator Morgan of Alabama, the warhorse of annexation, appeared before the Honolulu public for the first time and delivered his pro-annexation address.

It was intended to be a clinching argument to induce all the native Hawaiians to rally round his standard. It fell flat, and was admittedly a dismal failure both in attendance and in effect.

The place chosen for the lecture, for it was rather than a speech, was the ancient and historic missionary church of Kawaiaho, the "old stone church of the pioneer Dingham" and the "early fathers," and in close proximity to the Government buildings and easily accessible from all parts of the city.

Large placards in the Hawaiian language had been posted around the city and its environs inviting the people to rally internationally en masse to listen to the distinguished Senator, and to this notice was even appended the name of Kaula, the president of the Hawaiian Patriotic League and one of the foremost leaders of the Hawaiian opposition to annexation. All the newspapers had given the benefit of free advertising or several days ahead, but the illustrious Senator failed to draw an enthusiastic audience as a "first night."

The natives, fearful of the "business-

YELLOW FEVER NOT SUBDUED

New Cases Break the Record for a Day at New Orleans.

The Disease Will Be Scattered by Those at the Funeral of a Victim

Special Dispatch to THE CALL.

NEW ORLEANS, LA., Oct. 1.—To-day was a record-breaker. As early as 6 o'clock as many cases had been reported as on Wednesday, when the fever peaked, for the time, a high-water mark—forty-six deaths reported, with a couple of patients in a very critical condition. The deaths are among those who have little or no attention, and at least three of the fatalities were among the Italian population.

The worst case of the day, however, was that of Elijah Parks, living on Custom street. Parks was a Grand Army of the Republic man, and a native of Greenville, N. Y., 56 years of age, with a wife and two children. He had been in failing health for a year. Last night he died, and his death notice appeared in the morning papers. Friends attended to the preparation of the body for burial, and a wake was held last night.

An expert was at once sent to the scene. His experienced eye enabled him immediately to diagnose the case as one of low fever. This afternoon the courtiers of the Board of Health have been industriously searching for those who attended the wake or had anything to do with the dressing of the body, in order that they might be removed to the detention camp. It is fair to assume that this case will still further spread the infection.

Up to 6 o'clock this evening there had been forty-nine new cases reported and the following deaths: Mrs. Spannio, Thomas Bell, Eliza Parks, Antonio Cipro, J. Ferrio.

PACING TEAM RECORD BROKEN.

John R. Gentry and Robert J. Together Cover a Mile in 2:08 Flat.

GLENS FALLS, N. Y., Oct. 8.—At the mile track of the Northern Horse-breeder's Association here to-day, John R. Gentry and Robert J. broke the pacing team record, going the mile in faultless style in 2:08. This was done after the pair had been sent a mile in 2:11. Before the close of the day's sport, Gentry, with a running mate, paced a mile in 2:03 1/2. Robert J. went a mile in 2:04 1/2. Three thousand persons filled the stands.

On the second trial the team got away on the third score. The first quarter was done in 32 seconds, the half in 1:0 3/4 and the three-quarters were reached in 1:57 3/4. As they straightened out for home Dr. J. R. Bower shook them up a bit, and they came down the stretch in a tremendous burst of speed, passing under the wire in the marvelous time of 1:38 1/2 for the last quarter and making the mile in 2:08.
