

LIVELY HOUSE OF SENATE

CHAMPIONS OF CUBA TO THE FORE

Lively Debate in the Lower House of Congress.

Brucker Begins the Fight With a Belligerency Resolution.

Friends of the Insurgents Lack in Numbers on a Test Vote.

POSITION OF MCKINLEY.

Desires to Give the Autonomy Plan on the Island a Fair Trial.

Special Dispatch to The Call.

Call Office, Riggs House, Washington, Jan. 19.

All day long the question of granting belligerent rights to the Cuban insurgents was argued in the House, but, as yesterday, the minority hurried itself against a stone wall.

On the only vote taken to-day, a motion designed to override the decision of the Speaker and direct the Committee on Foreign Affairs to report without further delay the Cuban resolution passed by the Senate at the last session, the Republicans stood solidly and voted to sustain the chair.

The galleries, as on yesterday, were banked to the doors, and there was considerable excitement throughout the early part of the session, when the members of the minority were successively pressing their views bearing upon the Cuban question for the purpose of embarrassing the majority.

Brucker (D.) of Michigan asked for unanimous consent for the consideration of a resolution which he sent to the clerk's desk. The Speaker took occasion to examine the resolution, and while doing so Mr. Bailey, the leader of the minority, demanded that the resolution be reported. The Speaker thereupon directed the clerk to read the resolution, which proved to be one instructing the Committee on Foreign Affairs to report without further delay the Senate Cuban belligerency resolution.

Like a flash Hitt, chairman of the Foreign Affairs Committee, was on his feet with a point of order, which the Speaker promptly sustained. The chair was then about to recognize Hitt to the result of the diplomatic consular and appropriation bill when Bailey demanded recognition.

"One moment, please," he called; "let us first dispose of this question of order."

"The Chair sustained the point of order," retorted the Speaker, testily.

"Then appointing to the chair across the hall to Brucker, and the Michigan member entered an appeal from the decision of the Speaker.

All was instantly excitement and confusion. A dozen members were on their feet demanding recognition to the result of the appeal, but the Speaker recognized Dalglish, who moved to lay it on the table. This cut off debate, and the Speaker put the question. On a rising vote the Republicans stood firm and voted by 107 to 84 to lay the appeal on the table.

The House, on Hitt's motion, went into recess for the whole, and resumed consideration of the diplomatic and consular appropriation bill. As soon as the first paragraph was read the struggle was resumed. Mr. Williams (D.) of Massachusetts offered an amendment to direct the President to appoint three commissioners to Cuba and if possible to negotiate a treaty of peace, amity and commerce with the republic of Cuba, and appropriating \$1,000,000 for the expenses of the commissioners. It was ruled out of order.

Immediately after Lewis (D.) of Washington offered another amendment providing that to emphasize the fact that a state of war existed in Cuba, the Consul-General at Havana be withdrawn and the Government of Spain be notified of a suspension of diplomatic relations, and that Hitt quickly raised a point of order.

NEW TO-DAY.

Pears' Soap

To keep the skin clean is to wash the excretions from it off; the skin takes care of itself inside, if not blocked outside.

To wash it often and clean, without doing any sort of violence to it, requires a most gentle soap, a soap with no free alkali in it.

Pears', the soap that clears but not excoriates. All sorts of stores sell it, especially druggists; all sorts of people use it.

order, which Hepburn, in the chair, sustained. "I appeal from the decision of the chair," said Lewis. "And I make the point that the appeal is dilatory," exclaimed Dalglish (R.) of Pennsylvania.

"The chair sustains the point," exclaimed Hepburn, who directed the clerk to proceed with the reading. The amendment was now being pointed, and Terry (D.) of Arkansas shouted his protest.

"Can it be possible that we have reached the point where this side of the House cannot appeal from the decision of the chair?" he asked. "I know," said Terry, "that we have reached the point where this side of the House cannot appeal from the decision of the chair."

Hepburn directed Terry to take his seat, and the clerk droned on with the reading. Chairman Hitt called the attention of the Foreign Relations made an extended statement on the Cuban question which the general debate on the diplomatic bill opened. He reviewed the course of the administration, the successful demands for the release of the Cuban prisoners, the protest against the inhuman war methods of Weyler and the effect of the concentration camps, and the effect of the concentration camps, and the effect of the concentration camps.

"I could explain it," said Hitt, "but I prefer to let the facts speak for themselves. The existing situation, good men sympathizing with Cuba's cause were constantly reminding us of the fact that the supplies, guns and ammunition were going from the United States. It was said that every pound of powder fired for the cause of Cuba's freedom had come from this country. Members, he said, might ask why, with all these disadvantages in store for the rebel agents of the Cuban republic in this city desired belligerent rights.

HOAR TALKS FOR LETTER CARRIERS

Opposes a Reduction of Forces in Certain Cities.

Introduces a Resolution Providing for an Investigation.

Says \$150,000 Would Prevent Conspiration to These Employes.

SILVER FIGHT BREWING.

Vest to Call Up Teller's Resolution for the Payment of Bonds in Silver.

Special Dispatch to The Call.

Call Office, Riggs House, Washington, D. C., Jan. 19.

A spirited debate was precipitated in the Senate to-day by the introduction of a resolution by Hoar of Massachusetts providing for an inquiry by the Committee on Postoffice and Post Roads concerning the recent order of the Postmaster-General reducing the forces of letter carriers in several cities of the country.

Hoar declared that the order had had the effect of a dynamite bomb in creating consternation among these men throughout the country, while apparently all that was needed by the Postoffice Department was an appropriation of \$150,000 to maintain the efficiency of the carrier service.

The debate took a wide range, Wolcott, chairman of the Committee on Postoffice and Post Roads, insisting that many New England people, represented by the Senator from Massachusetts, were responsible for the deficiency in the funds of the Postoffice Department because they insisted that the Government should carry second-class mail at enormous loss; and Allen of Nebraska charging that the Government was annually defrauded out of millions of dollars through the unscrupulous manipulation of the Postoffice, in a modified form, is still pending.

Vest gave notice that he would move to-morrow to take up for consideration the resolution, reported by the Finance Committee, providing that the bonds of the United States may be paid in standard silver dollars. Vest's notice seems to indicate an intention on the part of some of the Senators to displace temporarily the Hawaiian annexation treaty, as it is evident, as White of California said, that the consideration of the resolution would "recipitate some slight discussion."

Hansbrough called up a bill which had been sent to the Senate by the House, providing that receivers of public moneys should be responsible under their bonds for all money received by them from the Insular Bank.

The bill passed the Senate on Monday, but Hansbrough's desire was that the bill should be enacted into a law by the passage of the House bill. The bill was passed.

Tilman presented a resolution, for which he asked immediate consideration, extending the authority of the Interstate Commerce Commission so that it might inquire to what extent railroad companies issued stock, whether the railroads gave transportation for any other consideration than cash, and what arrangements they had with newspapers regarding transportation.

Culliton, chairman of the committee, objected to the consideration of the resolution, as it would involve a long and tedious investigation by the committee, which was anxious to get some bills before Congress during the present session.

Lattimer asserted that letters have been received from Holmes within the last few weeks by a man with whom Holmes had intimate business relations during his residence in the famous or infamous "Holmes Castle." Lattimer's description of the means by which Philadelphia authorities juggled with justice in aiding Holmes' escape reads like a chapter from a wild romance but he tells his story with such an air of verisimilitude, that he has succeeded in interesting many Chicagoans, including the police, and says an investigation will be set on foot.

CHICAGO, Jan. 20.—In an interview in the Inter Ocean this morning, Robert Lattimer, a well-known citizen of Englewood, says: "Holmes, the arch murderer of the nineteenth century, who is popularly supposed to have been hanged at Philadelphia on May 7, 1859, for the murder of Benjamin F. Pitze, is alive and well, and engaged in growing coffee near San Parra-maribo, in Paraguay, South America."

Lattimer asserts that letters have been received from Holmes within the last few weeks by a man with whom Holmes had intimate business relations during his residence in the famous or infamous "Holmes Castle." man with the dilating powers of an anacoda. He is Charles Edwin Miller, and to-night he demonstrated his gastronomic ability by devouring five dozen eggs, to settle a wager. White Miller was dining his supper in a chop house here he made a boast that he would like to have three dozen eggs to satisfy his appetite. A friend of his made an offer to pay for the eggs, and Miller agreed. The eggs were soft boiled, and when the human anacoda had made away with the three dozen he laughed, and ordered more. Before he finished he ate sixty-two eggs—all the restaurant had—and he was still finishing his meal by eating a big steak.

ENGLAND HAS WARSHIPS AT KIAOCHAU HARBOR.

Two First-Class Twin-Screw Cruisers in the Bay Wreathed From China by the Germans.

LONDON, Jan. 19.—The British Admiralty has issued a statement of the whereabouts of the warships of Great Britain in the Far East. It shows that the first-class twin-screw armored cruiser Undaunted and the twin-screw ship Albatross are at Kiaochau Bay.

YOKOHAMA, Jan. 19.—The British battle-ship Centurion, the flagship of the British squadron in Chinese waters, has arrived at Nagasaki. The news in the Government reproaches Russia, Germany and France with following a policy in the Far East, and adds: "Japan will avail herself of the opportunity to act vigorously, if necessary, for the maintenance of peace."

STRIKE SITUATION IN NEW ENGLAND IS QUIET.

It is Expected That There Will Be No Particular Change Within the Next Two Weeks.

BOSTON, Jan. 19.—The news from the New England cotton manufacturing centers—New Bedford, Biddeford and Lewiston—in which strikes are in progress, is to the effect that everything is quiet.

Secretary Hart of the New Bedford Union says he looks for no particular change for at least two weeks, and it is thought unlikely that the strikers in the smaller places will be altered until action is taken in New Bedford.

New Bedford to-day a crowd of operatives and sympathizers gathered in the vicinity of the mills at the hour the machinery was usually started, but none of the gates were opened and there was no sign of a demonstration.

LIBEL AGAINST A SWINE'S EAR

How Farmer Ellis Resented an Insinuation That He Stole Hogs.

Hoisted a Portion of a Porker Beside a Road With a Notice to His Accusers.

Special Dispatch to The Call.

BAKERSFIELD, Jan. 19.—Alfred P. Ellis, an old resident of Linns Valley, high in the mountains of the north-eastern portion of Kern, was brought to town Monday in custody of an officer on a libel charge sworn to by Supervisor Henry Bohma, a resident of the same community. Linns Valley is a great hog raising country. Supervisor Bohma and Mr. Wilkes each have large herds, and Mr. Ellis has some porkers. It has been an open secret for many years that the rich little valley and its most coveted foothills abound with hog thieves that are hard to catch. In consequence of this there is a division almost bordering upon a feud in the community. Bohma and Wilkes are the friends of one side and Ellis is not the enemy of the other.

Bohma and Wilkes are on the qui vive, as is the case with many other neighbors, for any movement in the pork business.

The Western Union has also other connections in contemplation which Superintendent Jaynes talked of when he was here recently. It is a part of the plan to extend the line from Seattle to Los Angeles via Victoria and Vancouver. The experiment of laying a cable from Port Angeles to Victoria is deemed impracticable, owing to the tremendous strain that would be exerted on the line by the heavy tides.

The fact that the children of the testator were not named as legatees under the will is explained by the last clause, which reads: "I hereby give, devise and bequeath all my estate to my wife, to the exclusion of my children, I am moved by the belief that they are more interested in my better served thereby."

RICHARD GRAY'S LAST WILL.

An Estate Valued at \$35,000 Bequeathed to the Widow of the Testator.

The last will of Richard Gray, an official of the Southern Pacific Company, which was discovered by the doctor for probate yesterday. At the time of his death Gray was possessed of an estate valued at \$35,000, which is summarized as follows: Realty in San Francisco, \$15,000; real estate in Lake County, \$10,000; Clear Lake Land and Manhattan Lighterage companies, \$10,000; insurance policy issued by the Pacific Mutual Life Insurance Company, \$2000.

The will bears date of July 4, 1883, and is witnessed by the testator's wife, bequeathed to the widow of the deceased, Lucretia Minerva Gray. The sole legatee is also named as executrix without bonds. The fact that the children of the testator were not named as legatees under the will is explained by the last clause, which reads: "I hereby give, devise and bequeath all my estate to my wife, to the exclusion of my children, I am moved by the belief that they are more interested in my better served thereby."

DR. HERBERT CAUGHT.

He Will Die on the Scaffold if Convicted of the Crime Charged.

Dr. Herbert Orpen, familiarly known as Dr. Arthur Herbert, was arrested by Deputy United States Marshal Gallagher on board the steamship Australia on her arrival yesterday.

Orpen is wanted by the authorities of Auckland, New Zealand, on a charge of murder for having caused the death of Susan Harriet Campbell McCullum at that place by means of a criminal operation. The woman died on Christmas day and on the same night the doctor left Auckland in the steamer of the Alameda. A message was sent around the world by wire and cable to apprehend the doctor for murder, and when the Alameda arrived a few days ago the Marshal boarded her but found that Orpen had left the vessel at Honolulu.

The prisoner is 55 years old, and declined to make any statement to the reporters. He will be held here until the necessary papers shall have arrived from New Zealand. The punishment for this offense is death by hanging.

LEVEL WESTERN DOGS IN FRESNO AT A PREMIUM

Important Extensions on the North Pacific Coast.

Communication With Port Angeles Will Shortly Be Established.

Many Points Not Reached by the Puget Sound Company Will Soon Be Tapped.

Special Dispatch to The Call.

SEATTLE, Jan. 19.—Work was commenced to-day on an important extension of the lines of the Western Union Telegraph Company, and as a result by April 15 the town of Port Angeles, on the Straits of Juan de Fuca, will be connected by another telegraphic system with the rest of the world. On Saturday last the contract for pole construction was let in San Francisco to F. H. Folsom of this city, and according to its terms his part of the work will be completed as far as Port Townsend in four or five days.

The route is along country roads principally, and when such is the case the contract requires that Mr. Folsom shall clear the right of way.

Of this sort of construction there is a distance of about twenty miles. There are to be six submarine cables used in the completion of the line, which is expected to be in operation not later than May 1st.

The land construction started to-day at the elevator in West Seattle and will continue to Alki Point, where the company takes up the work of laying the cable across the water to the reservation Point, below Port Blakely, to which point the land line is carried.

Port Madison is the next move from Blakeley, and another cable will be required to cross Port Madison Bay. The shore line will be continued to Hood Pass and then another cable will be laid across to Port Madison Reservation. Then the line will be continued to Port Gamble and Salsbury Point, where another cable is to cross Hood Canal.

Port Ludlow is the next stop of the land line, and the fifth cable is over Ludlow Bay, where the line continues to Port Townsend. When the cables of Lower Peninsula is reached the Western Union line will turn and go to Discovery Bay, where the last cable of the line crosses. From Discovery Bay to Port Angeles the route is overland.

Mr. Folsom's contract requires 3400 posts, running thirty-five to the mile, and varying in height from 25 to 40 feet, the average being about 35 feet. Mr. Folsom has secured a contract in San Francisco Monday night. While in that city he endeavored to charter some vessels to carry telegraph poles and lumber from Puget Sound to Oakland, but was unable to do so. The delivery was also intended for the Western Union Company and consisted of 4000 feet. Mr. Folsom offered \$450 per thousand capacity, but \$5 was demanded, which he refused to pay.

Another American ship captain is in trouble. The F. Babcock has arrived at Honolulu from New York and one of the sailors had some kind of a tale of woe to tell United States Consul General Haywood. It appears that First Officer Lund beat and abused the men during the entire voyage, and nearly all the A. B.'s bore some mark of his handiwork. After a thorough examination the Consul found that there was not enough evidence to warrant an arrest, but he informed Captain Graham that any of the men who so desired must be paid off. Nearly all the sailors left the ship, and a new crew will have to be shipped at Honolulu before the vessel can get away with her cargo of sugar.

Every Suitable Canine in Demand for Klondike Service.

Those of a Strong and Hardy Breed Bring From \$10 to \$50 Each.

Clarence J. Berry Preparing to Lead a Big Expedition From Selma to the Gold Fields.

Special Dispatch to The Call.

FRESNO, Jan. 19.—Clarence J. Berry of the town of Selma, who returned from the Klondike with his wife last July, is preparing to lead a large expedition into that country next month. He and members of his prospective party are now actively engaged in collecting suitable dogs to haul the provision sleighs on the frozen trails, and other parties who are also preparing to go to the rich country are also buying, borrowing and begging dogs all over town. There is at present a dearth of canines in Fresno and round about.

Berry's party will be composed of men from Selma, which is his home, but Hi Rapelje of this city will also be a member of the Berry party, as well as his son and Mr. Berry's brother-in-law. All have been out collecting suitable dogs, and they have about 200 canines which are being broken to harness and trained to draw sleighs. Those who are engaged in training the animals say it is not an easy matter to get them properly broken.

The 200 dogs which have been collected in this vicinity are all stout and hairy animals. Some of them were purchased at as high a price as \$50, but they are well known farmers, and were induced to part with them for hard cash in round sums. Several of the dogs brought as high as \$30 and \$40, but the average price paid for suitable Klondike canines was between \$10 and \$20.

The supply of dogs having good warm coats has been about exhausted in Fresno, and the prospective Klondikers are looking elsewhere for animals for the frozen north. Hi Rapelje's son, of the Berry party, is now in the high Sierras gathering dogs there, as, owing to the colder climate there, nature provides the animals with warmer coats.

Besides the Berry party, there are several other expeditions from this country going to the Klondike, and they are also engaged in collecting dogs. A large party under the leadership of F. Garrison, a well known farmer, will start on the first proximo. The party includes Frank Neate, night clerk at the Grand Central, and Al Wolcott, Deputy County Clerk. They have thirty dogs now being trained, some of which were obtained in San Francisco and others in Tulare.

A. U. Warnocks and wife are also preparing to start for Alaska to prospect for gold, and have secured an outfit from the East, comprising a patent life-saving boat. They, too, are buying up dogs at good prices.

ALONG THE WATER FRONT.

The Crew of the Ship W. F. Babcock III Treated by the Mate.

Another American ship captain is in trouble. The F. Babcock has arrived at Honolulu from New York and one of the sailors had some kind of a tale of woe to tell United States Consul General Haywood. It appears that First Officer Lund beat and abused the men during the entire voyage, and nearly all the A. B.'s bore some mark of his handiwork. After a thorough examination the Consul found that there was not enough evidence to warrant an arrest, but he informed Captain Graham that any of the men who so desired must be paid off. Nearly all the sailors left the ship, and a new crew will have to be shipped at Honolulu before the vessel can get away with her cargo of sugar.

Make No Mistake

There is only one "best" tobacco, and that is

Piper Heidsieck Plug Tobacco

CHAMPAGNE FLAVOR

The new 5-cent piece of Piper Heidsieck—nearly half as large again as the old—has the deserved reputation of being the best tobacco as to quality and flavor ever offered at any price, and the largest plug of choice tobacco ever offered for 5 cents. Ask your dealer for one of the new 5-cent pieces.

crew will have to be shipped at Honolulu before the vessel can get away with her cargo of sugar.

One of a drove of pigs got away when opposite the fall dock yesterday and gave the Customs House officers and mail Company's employes a merry chase. It dodged all kinds of missiles for nearly half an hour, and then chose death rather than capture. One inspector had it by the tail and another by the leg, but piggy, with a desperate effort, freed himself and deliberately jumped overboard.

The tug Millie lost her propeller in Oakland Creek yesterday and had to be towed to this side by the Annie. They were grappling for the propeller yesterday afternoon but the chances are that it is lost in the mud.

Captain Beniche, late mate of the four masted schooner Alice Cooke, has been appointed master of the schooner W. H. Talbot, vice Captain Blum, retired.

The Oceanic Steamship Company's Australia arrived from Honolulu yesterday, a few hours ahead of time. Unlike the Alameda and Fern, she had fair weather throughout the run. The following cabin passengers came up on her: S. Clementson and wife; Rev. J. M. Lydgate and wife; Mrs. L. E. Whittier; Mrs. C. Bennett; Mrs. J. W. Warburton; English Consul General at this port, has been granted a six months' leave of absence, and Wellesley Moore will serve in his place, while Montagu Hankin will act as Vice Consul.

THESE NERVES THAT YOU SEE

I marked on the drawing are sympathetic nerves. They originate in the brain and the spinal cord. These are their centers. They are distributed to the stomach, they are distributed to the heart, they are distributed to the lungs, they are distributed to the liver, they are distributed to the bowels, to the kidneys, etc. When these nerves are harassed, when they are misused, when they are abused, nervous twittings in different parts of the body follow, indeed nervous twittings are to be expected. Abuse any of nature's children and you pay the penalty. 'Tis the abuse that kills. If you overload the stomach, overtax the brain, or over-harass any of the organs of the body you must expect weakness to ensue. Now it is a fact that the great remedio-treatment "Hudvan" reaches these nerves, and puts them in good order. "Hudvan" cures the disorders and disabilities of men. It is a remedio-treatment which cures Spermatorrhoea, drains, pimples and premature "Hudvan" cures morbid fancies, etc. If you are suffering, why don't you use the right effort to be cured? Why don't you use the great remedio-treatment "Hudvan"? "Hudvan" cures hundreds and hundreds of men who have been cured by "Hudvan" remedio-treatment, and you too, can be cured. If you can call to the greatest medical institution in the West—Hudson Medical Institute—the doctors will advise you at the right time. "Hudvan" will advise you at the right time. If you cannot call, write for "Hudvan" circulars and testimonials. "Hudvan" cures hundreds and hundreds of men who have been cured by "Hudvan" remedio-treatment, and you too, can be cured.
