Pleasant Grove; Coffey Brothers, Sacra-
mento; C. J. Cox, Del Rio, Miss; Forbes,
Napa.

Pigeon exhibitors—M. Matthias, Ala-
ameda; George A. Palmer, Sacramento; J.
J. Tompkinson, Alameda; J. J. Vic-
tory, Oakland; T. R. Quayle, Oakland;
E. R. Whitman, Alameda; J. Schenk,
Sacramento; G. T. Marsh, San Francisco;
A. N. Bailey, Oakland.

The exhibition will be inaugurated
Monday, January 24, by a homing-pigeon
contest between Sacramento and
San Francisco, when message from
Governor Budd will be carried to the
managers of the Jubilee.

C. D. Naira of Ballston, Or., judge of
all classes in the Bench Show, will ar-
rive to-morrow, F. W. H. H. H. H. H.
Denver, Colo., and W. W. Browning of
Ogden, Utah, judges of poultry, will be
on hand Monday. The meeting prom-
ises to be the most successful one ever
held in California.

CATTON DEFEATS SPINKS.

By a Narrow Margin the Rock Island Boy
Wins in Thirty-Eight Innings.

CHICAGO, Jan. 19.—Catton defeated
Spinks to-day in the third game of the
18-inch balk line tournament by a score
of 260 to 249. This leaves the question as
regards the player who is to be left out-
side the money still undecided. The
Spinks won this afternoon but would have
been sure of fourth money, with a fair
chance for third. His victory last night
over Schaefer gave him confidence, but
Catton, after getting warmed up, began
piling up the caroms in a most dishearten-
ing way and in the eighteenth inning
took the lead with a clever run of 30.
Spinks came back with a pretty cluster
of 44, but the Rock Island boy was not
to be denied, and returned the compli-
ment with a run of 24, which he
added 56 in the twenty-first inning, prac-
tically clinching the game.

Spinks made three double-figure runs
in the next ten innings, but offset them
with three singles and four goose eggs.
Then Catton in turn took his grip, allow-
ing Spinks to creep up on him. He, how-
ever, managed to stay long enough to
run the game out in the thirty-eighth in-
ning. The scores:

Catton—16, 0, 2, 0, 1, 7, 0, 1, 0, 5, 2, 4,
18, 1, 18, 0, 20, 24, 1, 16, 6, 9, 9, 0, 4,
3, 0, 6, 2, 5, 1, 2, 1—260. Average 6.1-15; high-
est run, 56.

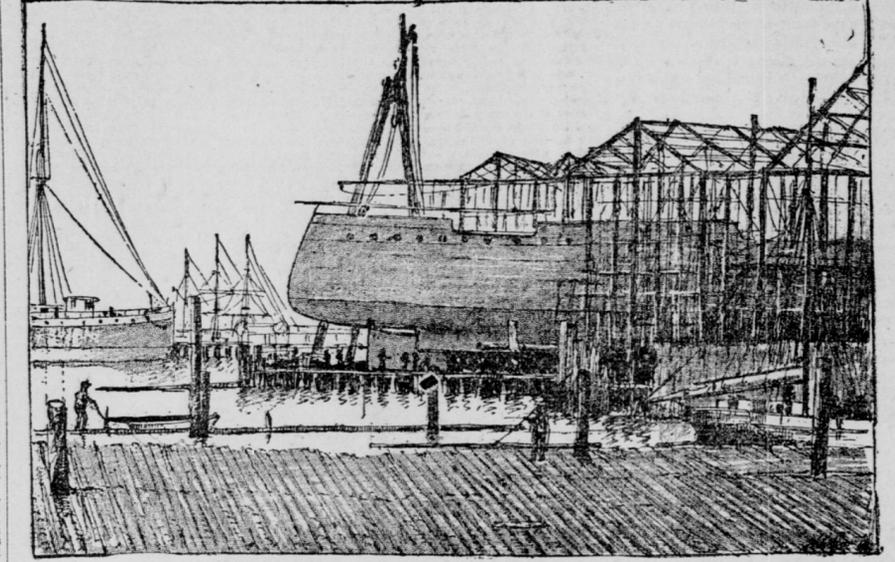

Spinks—8, 0, 1, 27, 6, 2, 0, 1, 12, 3, 2, 6, 0,
0, 2, 18, 44, 5, 3, 1, 15, 1, 15, 10, 0,
19, 0, 10, 2, 2, 0, 0—249. Average, 6.2-30;
highest run, 44.

Women Attempts Suicidal.

Dolly Walker, a middle-aged woman,
while dependent last night swallowed a
dose of laudanum at her room at 24 Turk
street. She was taken to the Receiving
Hospital and will recover. The woman
had been drinking heavily and, becom-
ing despondent, took the poison.

SHE IS AMERICAN THROUGHOUT

From Stern, From Keelson to Truck, Everything Was Made in
the United States by American Workmen.

THE CRUISER CHITOSE READY TO LAUNCH.

There will be launched from the Union Iron Works shipbuilding yards, for the Japanese Government, next Saturday at 10:25 a. m., one of the handsomest cruisers that has left the stocks in many a day. Her keel was laid on May 3, 1897, and on June 25 of the same year the first rivet was driven. The work of construction, under the supervision of two officers detailed by the Japanese Government, has proceeded rapidly, until now the vessel is ready for launching. She is 402 feet two inches over all, and her displacement is 4769 tons on a normal draft of seventeen feet seven and a half inches. Her indicated horsepower is 15,500 and her speed will be twenty-two and a half knots. Her armament will be most effective and the new cruiser will prove to be a most valuable addition to the Japanese navy.

MANY CALLED,
FEW CHOSEN

A Vast Host Preparing
to Seek Riches on the
Klondike.

Only a Select Few, However,
Will Have Their Dreams
Fulfilled.

To the Great Majority Will Come the
Bitterness of Blighted
Hopes.

The Klondike craze is growing with
leaps and bounds. Old hulkers that at
other times men could not be per-
suaded to go to sea in are being pulled out
of their retirement and put into com-
mission. Steam schooners and colliers
are being turned into passenger
vessels and even an old bark that for-
merly carried crude petroleum from
Ventura to San Francisco is being
fitted out to carry miners from Seattle
to Dyea. River steamers for the Yu-
kon, there will be in plenty but it is
very doubtful whether all the people
who have made up their minds to
reach the gold fields by that route will
ever reach St. Michael. At the present
time there is not half enough vessels
to carry all who want to go from San
Francisco and the Sound to Dawson
City via the river route.

Dawson City, however, is not the
only Eldorado in view. At least one
party will start the latter part of
April for Kotzebue Sound and other ex-
peditions to the same field are in the
course of formation. Captain B. Co-
gan is at the head of the party that
will leave here on April 25. They have
bought the whaling bark Alaska, and
after receiving a thorough overhauling
on the dry dock she is now having ac-
commodation for 110 passengers put in.
Of this number of berths nearly all
have been taken and the chances are
another vessel will have to be put on
the route. Among those going on the
Alaska are W. Alston Hayne Jr. and
a party of nine from Santa Barbara.
Mr. Hayne is the County Supervisor
from that part of the country and is

DEATH BENEATH THE WAVES.

Antonio Lanteri Carried Down by the Sinking of His Fishing Launch.

After a desperate struggle with the
waves and tide for almost an hour
Gaetan Lanteri, an Italian fisherman,
straggled into the life saving station
of the Cliff House yesterday after-
noon and announced the capsizing of
his fishing launch, the Two Sisters,
and the drowning of his brother, An-
tonio Lanteri.

While fishing for crabs off the coast
a heavy swell struck the frail craft
full broadside and turned it bottom
up, throwing both men into the water.
The heavy machinery of the vessel car-
ried the launch to the bottom and with

well known in Southern California. Col-
onel Stuart Wright of Fresno will for-
sake his duties as a national guards-
man and will also seek his fortune on
Kotzebue Sound. E. J. Pringle and
W. H. Chickering, sons of the San
Francisco attorneys, will also be pas-
sengers by the Alaska.

Others who will pass the Yukon by
in the race for gold are U. S. Champion,
John Sherriett, E. O. Bates, J. E.
Tucker, E. J. Davis, F. W. Dicke, C. A.
Haehl, C. W. Stalvu, W. A. Nourse,
Frank Brazil, J. E. Rhodes, Thomas
Pennell, Stewart McClure, and two
others, F. Bray, R. A. McKenzie, R.
A. Barclay and A. A. Eubanks.

Each of the passengers by the Alas-
ka will take 3000 pounds of stores with
him. Besides that the vessel will carry
the machinery and lumber for a steam
wheel steamer, which will be called the
John Riley, and also the material for
a large frame building, which is to be
erected on the Kowak River as a store-
house. The agreement with the pas-
sengers is that before starting in pros-
pecting they shall assist in putting to-
gether the steamer and in building the
storehouse.

The first stopping-place will be at
Cape Blossom. There the bark will be
left in charge of keepers and the John
Riley will be put together. All the
stores and the lumber for the house
will be loaded on her, and then the
entire party will go 200 miles up the
Kowak River. When the house is
erected all the provisions and stores
will be placed in it and the miners will
have then two or three months in
which they can do their prospecting.
The chances are that considerable gold
will be found, as it was always in the
summer months that the Indians made
their finds and afterward returned with
the nuggets to Point Hope to buy stuff
from the whalers.

From Cape Blossom the Alaska will
be sailed to Point Hope, which is only
135 miles distant, and from there will
bring back to the Kowak River a sup-
ply of coal for the river steamer. There
is a coal mine at Point Hope and Cap-
tain Cogan says that it is a very superi-
or article. Indians and dogs are there
in plenty, so in that respect and also
in regard to fuel the men on this ex-
pedition will be more fortunate than
those in Dawson City. The chances are
that all the sailors engaged to man the
Alaska will desert in order to search
for gold and in that event Captain Co-
gan will bring the vessel back to San
Francisco with an Indian crew. When
north on whaling expeditions Captain
Cogan has often employed the Indians,
and he says they make first-rate sail-
ors. On his way down he will stop at
St. Michael to bring back a party of
returning Klondikers.

The steam schooner National City is
to be transferred into a first-class pas-
senger steamer, and on February 7 will
make her first trip to Dyea under the
flag of the Yukon Transportation Com-
pany. She is a sister ship to the Excel-
sor and last season made some of the
quickest trips between San Francisco
and St. Michael. The lumber to be used

in her transformation is now being got-
ted and a double force of men will be
put to work on her on the 31st inst.,
when she is turned over to her charter-
ers. The work of putting up accom-
modations for 180 passengers is not ex-
pected to occupy more than six days,
and on February 7 she will be on her
way to Dyea with a full passenger list,
as a hundred berths have already been
engaged.

The same company will dispatch to
St. Michael on May 1 the bark Rufus
E. Wood. On May 15 the ship Eclipse
and May 25 the National City will take
up the running. Both the sailing ves-
sels will carry coal in their lower hold-
ers for the use of the company's Yukon
River steamers. The ship Eclipse will
not come back from St. Michael, but
will be anchored there and turned into
a hotel. All the passengers from the
company's steamers will be landed on
her and transferred to the river steam-
ers on the arrival of the latter from
Dawson City. Also if the steamer from
San Francisco has not arrived when
the river steamers get to St. Michael,
the returning miners will be put aboard
the Eclipse to await the coming of the
San Francisco boat. The launch Hettle
B., now on the Yukon, will be used
as a tender between the ship and the
shore, so that the guests of the floating
hotel can come and go as they will. By
using the ship as a hotel passengers
will be saved the heavy charges in-
curred in transferring their baggage
from the steamer to the shore at St. Mi-
chael.

Seattle is purchasing all the old de-
crepit vessels on the coast that nobody
else has any use for. Some of the craft
that will be put into commission on the
Sound have been ready for the bone-
yard for years, and not a captain in
Seattle could be hired to take
them to sea. Some of them are fairly
good; others again are regular death
traps, and yet these boats are to be put
in commission to carry miners from
Seattle to Dyea. Several boats have been
sent to sea, and some of them are fairly
good; others again are regular death
traps, and yet these boats are to be put
in commission to carry miners from
Seattle to Dyea. Several boats have been
sent to sea, and some of them are fairly
good; others again are regular death
traps, and yet these boats are to be put
in commission to carry miners from
Seattle to Dyea.

San Francisco's Best
Shoe Bargain.

Shoe-clearing now. Here are five
lots that will interest money-savers
that cannot be duplicated in value and
price.

Overreaches Himself in a
San Diego Bank
Transaction.

Obtains a Check Book From
the Cashier After Telling
a Smooth Story.

Subsequent Use of It Leads to His
Arrest at Los Angeles—A Man
of Many Aliases.

CAPTURE OF A
NOTED CROOK

streets Tuesday afternoon, and, repre-
senting himself as Frank McKean, ex-
pressed a desire to make a draft on the
McKean Savings Bank of Terre Haute,
Ind., for \$800. He explained to Cashier
N. T. Horton that he was a newcomer
here and expected to remain some
weeks to enjoy the mild climate. His
father, he said, was president of the
McKean Savings Bank of Terre Haute.
A bank draft was handed to the man,
who went out. He came back soon af-
terward and remarked that as he in-
tended to buy a fruit ranch near San
Diego he had decided to draw on the
Terre Haute bank for his entire balance
of \$2800, and would make the draft for
that amount.

This was done and the stranger left.
Before going, however, he told Cashier
Horton that he intended to leave yester-
day morning for San Francisco and
would probably have occasion to draw
on the amount as soon as the money ar-
rived from Indiana.
"Could you oblige me with a check-
book?" asked the man, pleasantly.
"Certainly," replied Cashier Horton.
"But you do not expect to draw any
checks before the money is placed to
your credit here, do you?"
"Oh, no," responded the stranger,
with a smile.
After the bank closed Tuesday after-
noon the manager calling himself McKean
went across the street to the Santa Fe
ticket office and asked for a first-class
ticket to Chicago and return, with
Pullman accommodations. He told the
ticket agent, George L. Baker, that he
had been negotiating for the purchase
of a ranch, but had changed his mind
and wanted to return to Chicago tempo-
rarily. He expressed regret that the
Exchange Bank was closed for the day
and that he was unable to tender cash
for the ticket. Upon showing the
check book, in which it appeared that
he had \$2800 on deposit in the bank, the
ticket was handed over.
Later in the day the stranger gave
equally worthless checks in payment
for a bicycle and an overcoat, and this
morning boarded the north-bound
train.
Presentation of the checks at the
bank
