

IMPATIENT OVER DELAYS OF TROOPS

Ships of the Fleet Are Patrolling in the Vicinity of Guantanamo.

Now That He Has Prepared the Way for Investing Eastern Cuba Sampson Awaits Invaders.

WASHINGTON, June 10.—The Navy Department to-day posted the following bulletin: "On June 7 Admiral Sampson ordered the Marblehead, Commander McCalla, and the Yankee, Commander Brownson, to take possession of the outer bay of Guantanamo. These vessels entered the harbor at daylight on June 7, driving a Spanish gunboat into the harbor, and took possession of the lower bay, which is now held by the Marblehead."

and its towns and harbors seized and held after a short campaign. The harbor of Guantanamo is a fine basin for land and sea operations. It is spacious and has forty feet of water. The land approaches are not so precipitous as at Santiago de Cuba. The bay is a fine harbor, easily reached with trains of siege guns and there are level roads to Santiago thirty-three miles distant, where a few mountain batteries, beyond the reach of the fleet, will be of great value to the United States army and navy as a supply station, coaling depot and cable terminus. The Spaniards have but slight defenses. Their batteries were silenced on Tuesday by the Marblehead in a few minutes' firing at 4000 yards. A small Spanish gunboat ran away. The navy's work has been done well. Day and night ships patrol the thirty miles of coast within easy gun range of the shore. The officers and men are ever ready and impatiently say, "What more can be done? We have opened the way. Where is the army of invasion?"

The Marblehead returned to Guantanamo on Wednesday taking Captain Goodrell of the marines, to survey the landing places. This morning the New Orleans and Porter were close inshore of Santiago de Cuba, where there are extensive iron works. A large iron pier offers an excellent landing place. Possibly one detachment of the army will land there, a second force may land at El Morro, and a third body of troops at Guantanamo. It is believed the city can be captured within a few days and that Admiral Cervera will be compelled to fight. The destruction of the shore batteries now makes possible their occupation by troops, giving the American fleet an opportunity to enter the harbor and remove the mines at the entrance and strike at the batteries of the army and navy, involving the surrender of the Spanish troops in the eastern provinces, now practically all concentrated at Santiago de Cuba, and the surrender of the entire island. The presence of the soldiers is required to prevent the defeat of the work thus far accomplished by the navy.

NOT A MAN IS AT HIS POST

Strike at the Keswick Smelters.

ORE ROASTERS ARE IDLE

BOTH DAY AND NIGHT CREWS QUIT WORK.

Demand of the Mountain Copper Company Increased Pay and a Ten-Hour Day.

REDDING, June 10.—The day shift on the roasters at the Mountain Copper Company's smelters at Keswick went out on strike at 1:30 o'clock this afternoon. One hundred and twenty-five men comprise the day force, and a like number the night shift. When the whistles blew for the night crew to go on not a man except the bosses responded. This action of the night force, in striking out of sympathy, closes the entire ore roasting department. The grievance of the men is in regard to wages and hours of labor. They were receiving \$1.85 per day of twelve hours, and they now demand \$2.10 for a ten-hour day.

NEWLANDS' RESOLUTION IS BROUGHT UP

Newlands' Resolution Is Brought Up Before the House.

FILIBUSTER OF OPPONENTS FINALLY THEY ARE PROMISED A FAIR DEBATE.

So It Is Agreed to Argue the Proposition Until Next Wednesday, When a Vote Will Be Taken.

Special Dispatch to The Call.

Washington, June 10. The feature of the day's session of the House was the securing of an agreement to consider and vote upon the Newlands resolution to annex Hawaii. Beginning to-morrow the debate will proceed until 5 o'clock next Wednesday afternoon, when a vote will be taken. The annexationists' camp to-day determined to force consideration, and for three hours the opposition filibustered. Consideration of the resolutions to-day could have been prevented, as under the rules a recess until the evening session necessarily would have been taken until 5 o'clock, but it was plain that the annexationists would win their victory to-morrow. Realizing this, and knowing the resolutions would pass and go to the country, involving a peaceful and easily reached treaty for liberal debate, and their demands were granted readily. Eight Democrats voted with the annexationists in the movement to-day for consideration of the resolutions, they being Henry De Vries of California, Livingston of Georgia, Brucker of Michigan, Cummings, Sulzer and Velshe of New York, and Cochran of Missouri. It is claimed that at least twenty Democrats will favor the passage of the resolutions. The bill to enable volunteer soldiers to vote at Congressional elections was passed and a number of minor measures, chiefly of a private nature, were considered. The Lacey bill, providing for the participation of volunteer soldiers in Congressional elections, was called up by the House to-day. It is the privilege of the business under continuing order. Cummings (D.) of New York moved to recommit the bill with instructions to the committee to report it with an added provision extending the suffrage provision to the militia and National Guard. The motion was taken, resulting in the defeat of the motion to recommit—ayes 102, nays 120.

THREAD COMPANIES COMBINE

Proposed Absolute Monopoly in Europe and America.

NEW YORK, June 10.—Semi-official details concerning the consolidation of the various American thread manufacturing companies were made public to-day. The scheme, which was promoted by J. & W. Seligman & Co., is reported to be the combination of all the leading thread manufacturing companies in this city and England. Sixty per cent of the capital stock of the American Thread Company is said to be controlled by the English companies, which have a capitalization of \$10,000,000. The American Thread Company, which was organized with English capital, holds only about \$1,000,000 worth of stock in the English company. There are reports that the combined companies may buy in several large factories in Germany and Belgium. Should this be done, the combination will have an absolute monopoly of the thread output in Europe and America.

FGG TO SAVE THEIR OPIUM

San Quentin Convicts Attempt Murder.

TRY TO KILL A GUARD INCIPIENT RIOT WITHIN THE PRISON.

Combat Between Prison Officers and Inmates for the Possession of a Contraband Drug.

Special Dispatch to The Call.

San Quentin, June 10.—A determined attempt to seize a large quantity of opium smuggled into the prison nearly resulted in the death of a guard. The opium was in the hands of a convict named Randolph, who was charged with its possession. Randolph was set upon by two burly prisoners in their cell. He was forced to his knees and an endeavor made to choke him. His cries for help called Guards King and Leake to the scene in time to prevent murder being committed. It is well known that the dangerous drug constantly passes the prison gates through the medium of visitors and trustees. Any one who has seen the farcical searching of these trustees can easily understand why the traffic flourishes as it does. For some time Randolph has been watching "Jack" Kane, a third-term burglar from San Francisco, and Joe Keyes, committed from Los Angeles for burglary. These men are cell-mates and are what is known as peddlers of the drug. Learning that they had opium in their cell, Randolph slipped out of his cell and opened the door at the regular time 6 o'clock in the morning. As the door swung open there lay the opium in small packages scattered all around the cell. Randolph jumped inside and was immediately pounced upon by Kane, while Keyes kicked the guards' feet from under him. Kane tried to unlock the door at the regular time 6 o'clock in the morning. TRANSPORTS SAILING TO SANTAGO

Report of Their Detention at Key West Only a Ruse.

American Regulars Will Land Near the Beleaguered City on Sunday.

Call Office, Riggs House, Washington, June 10.

It is strongly suspected here to-night that reports of the army transports being detained at Key West for fear of Spain's "phantom fleet" were indulged in by war and navy strategists for a purpose. The signal corps instituted a most rigid censorship of press dispatches at Tampa and Key West. That it was effective is evidenced by the fact that Eastern papers this morning print dispatches from these points dated June 6 (four days old), marked "Delayed in transmission." Another evidence of the efficacy of this censorship is the fact that no one in Washington to-night has positive knowledge of the whereabouts of the army transports. It is beginning to dawn upon the press correspondents, however, that they have been hoodwinked by the officials. It is generally believed here that although some of the troop ships may have been detained at Port Tampa and Key West, the main body proceeded toward Santiago, and that the alleged fear of the Spanish "phantom fleet" was a ruse de guerre concocted in order to conceal the time our troops may be expected to arrive at Guantanamo Bay and thus surprise the Spaniards. If the main flotilla of troopships proceeded to Cuba without delay they may be expected to arrive at their destination on Sunday. A high official of the Navy Department to-night confessed that no fear of Spanish ships was felt. "We have no idea that there is a single Spanish ship off the northern or western coast of Cuba. The precaution of holding the expedition at Key West briefly was part of the original plan." The Washington correspondent of the Philadelphia Press (Postmaster-General Smith's paper) telegraphs as follows: "A report that the President had ordered the transports to be detained at Key West because of the appearance of a Spanish squadron eighty miles from Havana was incorrect. The President has issued no such order."

The report of a squadron of Spanish ships, consisting of a battle-ship, two cruisers and a torpedo-boat, having been seen on Tuesday night eighty miles west of Havana, sailing in the direction of that port, is not credited here. The auxiliary submarine, which is reported to have seen these ships, did not report that they were Spanish vessels. The Spanish Government has only one battle-ship, the Pelayo, which is at Cadiz, and is not likely to attempt to cross the ocean. As that battle-ship was at Cadiz three days ago it is impossible that there could be any Spanish battle-ship in Cuban waters. The whole story is very fishy. But if the yarn is true the United States has an ample fleet about Havana to take care of any such squadron as that. The battle-ship Indiana, the four monitors—the Merrick, the Amphitrite, the Puritan and the Miantonomoh—and the cruisers Detroit and Montgomery, to say nothing of the auxiliary boats forming the blockading fleet, would be more than a match for any fleet the Spanish could send to Havana. There is the best authority for stating that an expedition will go to Porto Rico very soon. It has been the intention to wait until Santiago was captured, and that course may yet be followed, as it is expected the American flag will fly over Santiago within the next five or six days. In case that result is accomplished Sampson's fleet will sail for San Juan and renew the bombardment of that place. The troops, however, may land some distance from the city. The War Department has taken means to obtain full information in regard to the strength of the Spaniards in Porto Rico and no more delay in capturing the island is anticipated. It is certain an expedition will sail for Porto Rico in the near future.

WEDDED AT NIGHT ON ROLLING BILLOWS

Youthful Monterey County Couple Join Hands Beyond the Three-Mile Limit.

MONTEREY, Cal., June 10.—The particulars of one of the oddest weddings that ever occurred hereabouts have just become known and are serving as the topic of the moment. Last Sunday J. W. Thompson and Mamie Olsen, aged respectively 17 and 17 1/2 years, drove over from Salinas, accompanied by the bride's sister and brother-in-law, Mr. and Mrs. J. S. Bankson, and endeavored to engage a minister to perform a marriage ceremony for them at sea. Rev. H. S. Snodgrass, who is the clergyman always sought by couples who resort to weddings on the high seas off this point, positively refused to go with them on Sunday, and they were obliged to wait until the Sabbath was over. Immediately after midnight, however, the party procured a permit to perform a marriage ceremony on the high seas, and the ceremony was performed. Magnificent moonlight characterized the night and added weirdness to the romantic wedding. The groom is employed at the sugar factory at Spreckels and the bride was a resident of Blanco.

STRANGE ACTS OF A HUSBAND

Failed to Report the Suicide of His Wife and Was Very Indifferent.

NEW YORK, June 10.—The dead body of Mrs. Andrew Hunt, of Jersey City was found hanging to the transom of a door by her husband when he arose this morning. He cut the body down and placed it in bed. Then he prepared breakfast for himself and three children and after eating the morning meal, took the children to a neighbor, telling the latter that his wife had killed herself. He did not report the case to the police, but went to his place of employment. Subsequently he was called to police headquarters to make an explanation. It is reported that Mrs. Hunt hanged herself because of domestic unhappiness.
