

LETTER WITHHELD BY SCHLEY, OR NOT BY SECRETARY LONG

Closing Statement in the Naval Controversy to Complete the Record.

WASHINGTON, March 6.—The Senate Committee on Naval Affairs to-day made public Secretary Long's second letter in the Sampson-Schley controversy.

First—That this letter was not in the possession of the department on February 6, nor was its existence known to the department at that time.

Second—That it was in the possession of Admiral Schley until the 9th of February, when it was sent to the department, upon the request of the Secretary.

Third—In its instructions with regard to maintaining the blockade of Cienfuegos it was not more explicit than the letter of Admiral Sampson of May 15, which accompanied the communication of February 6, and which is published in the appendix to the report of the Bureau of Navigation on page 464.

Fourth—That on May 21, the day after it was written, Admiral Sampson sent orders to Commodore Schley in duplicate by the Hawk and Marblehead, which orders were received by Commodore Schley on the morning of the 23d and 24th respectively.

Fifth—That in addition to these instructions the flying squadron left Cienfuegos on the afternoon of the 24th, but did not reach the immediate vicinity of the port of Santiago until the morning of the 29th of May.

The Secretary quotes the admiral's reference to the department's order received by him on May 27, directing him to positively ascertain if Cervera's fleet was in Santiago harbor and not to allow him to leave Santiago if found certainly to be there.

Another point in Admiral Schley's letter is touched upon in the following manner: Admiral Schley's mention of the signal of Admiral Sampson at 8 1/2 a. m. July 3—during the night of the 2d and 3d—was not in the original letter.

It will be seen that Rear Admiral Schley's statement to the Senate does not show that he started to return to Key West and signaled to the squadron to that effect and so informed the department, and it might be thought that order and the presence of the enemy at Santiago.

On the contrary, his telegram dated May 29, which was written at Key West, though just having received the telegram of the department and having on hand a sufficient supply of coal to return to Key West, he reported that he could not obey the order and continued to proceed to Santiago.

Another point in Admiral Schley's letter is touched upon in the following manner: Admiral Schley's mention of the signal of Admiral Sampson at 8 1/2 a. m. July 3—during the night of the 2d and 3d—was not in the original letter.

It will be seen that Rear Admiral Schley's statement to the Senate does not show that he started to return to Key West and signaled to the squadron to that effect and so informed the department, and it might be thought that order and the presence of the enemy at Santiago.

On the contrary, his telegram dated May 29, which was written at Key West, though just having received the telegram of the department and having on hand a sufficient supply of coal to return to Key West, he reported that he could not obey the order and continued to proceed to Santiago.

Another point in Admiral Schley's letter is touched upon in the following manner: Admiral Schley's mention of the signal of Admiral Sampson at 8 1/2 a. m. July 3—during the night of the 2d and 3d—was not in the original letter.

ment of the commander in chief toward Schley is followed by an earnest request to wit: "This left me senior officer present and necessarily clothed me with the responsibilities of the command."

The statement concludes with the following: "The department furnishes the foregoing statement only to complete the record in compliance with the request of the Senate of January 27, 1898."

Annexed to the letter from the Secretary is one from Captain Sigbee in reply to Admiral Schley's reference to him as commander of the scout steamer St. Paul, quoting him as authority for the opinion that Cervera's fleet was not in Santiago harbor.

"What I actually said to the admiral was that Pilot Nunez had first expressed the belief that such large vessels as Cervera's cruisers could not get into Santiago because of their length, but he afterward admitted that they might get in with the aid of tugs."

"Every officer on board the St. Paul knew that I believed Cervera to be at Santiago; nevertheless I considered Nunez' opinion."

He says that he first saw the fleet in the harbor May 29, and signaled Admiral Schley, and that he was not known, from previous observation, that Cervera's fleet was in Santiago, I believed that it was there, because I had been so informed by the Navy Department, and during the eight days the St. Paul remained off Santiago the different vessels touching there and communicating with me had brought no counter report from the Navy Department."

With reference to the statement that he had confirmed the difficulty of coaling off Santiago, Captain Sigbee says: "There had been weather unfavorable to coaling, but I reported to the admiral that I believed Cervera to be at Santiago, and I reported to the admiral that I believed Cervera to be at Santiago, and I reported to the admiral that I believed Cervera to be at Santiago."

At the same time I expressed the belief that Cervera's fleet could not get into Santiago harbor, and I reported to the admiral that I believed Cervera to be at Santiago, and I reported to the admiral that I believed Cervera to be at Santiago."

ing this port aboard his sloop yacht Nellie. He started from Norfolk for Cuba with a crew of great persons and returned aboard January 4. The blizzard caught them at Harbor Island and the sloop was wrecked in the bay.

On the morning of the 2d of the blizzard the crew attempted to get ashore on a sledge made of "bedsteads. When about half way to shore he broke through the ice and the sloop was wrecked.

But His Action in Opposing Gallant Joe Wheeler Is Vigorously Denounced. AUSTIN, Tex., March 6.—There was a lively discussion in the House this afternoon over a resolution offered by Representative Wooten endorsing the action of Congressman Bailey in protesting against the seating of Congressman Joseph Wheeler.

Representative Bates, from Detroit, spoke in favor of the resolution, saying that Bailey was a patriot in fighting for the sound principles of democracy, and the people of the South and the press have sounded their approval of his course, and the Legislature should do likewise.

FIFTY-FOUR KILLED BY THE TOULON EXPLOSION. Reports That the Catastrophe Was Result of a Crime Are Renewed. PARIS, March 6.—The deaths resulting from the explosion of Sunday morning number fifty-four and 130 persons were injured.

The reports that the catastrophe was the result of a crime are renewed. The Paris Journal asserts that a case fifty feet long has been found in the ruins of the magazine.

NORFOLK, Va., March 6.—After being icebound during the terrible February blizzard, half frozen and blown to sea, with only himself aboard, Captain William Davis has at last succeeded in reaching the harbor.

Burglar Reveals His Name. SEATTLE, March 6.—Another chapter in the sensational Van Alstine divorce case was opened to-day—the arrest of the Van Alstine and her sister, Emma Norton, for contempt of court.

SANTA CRUZ, March 6.—The burglar who was captured on Saturday by four Santa Cruz girls, after a lively chase, has given his name as Charles H. Dickman.

MEN OF SPAIN ARE RIPE FOR REVOLUTION

Cheers for the Republic Sound in the Senate and Chamber of Deputies.

MADRID, March 6.—The initial appearance in the Senate to-day of Senor Silvea as premier was marked by a somewhat stormy session. He attempted to read the decree of dissolution and Count d'Almodas tried to talk, but his voice was drowned by derisive cries.

The president of the house vainly endeavored to quell the disturbance, but finally Senor Silvea completed reading the decree amid cheers for liberty mingled with cheers for the queen, the army and the navy.

There were similar scenes in the Chamber of Deputies, with shouts of "Down with the Jesuits" and cheers for the republic and for liberty. The session was closed in a general uproar.

The ushers had to drive the public from the floor and platform of the chamber. The new cabinet has been well received by the Conservatives and the business world, but the Democrats denounce it as representing the most ultra-montane section of the Conservatives.

The Foreign Minister concluded by officially corroborating the statement that France and Great Britain are in agreement with the view of the cabinet, which will guarantee a lasting understanding between the two countries.

That Marriage to Jay Gould. Interesting Letters in the Cody Case. LIKE A BLACKMAILING SCHEME. The Aged Jurist Removed to the Sisters' Hospital in Los Angeles.

LOS ANGELES, March 6.—Judge Alexander Campbell, the aged jurist who was seriously injured late Saturday night by falling from a street car, was this morning removed to the Sisters' Hospital, where he is reported to be resting as easily as could be expected.

The trip to the hospital necessarily gave him much pain, but his doctor spoke hopefully of an ultimate recovery. Judge Campbell was until Saturday night an active consulting practice. He was admitted to the bar in 1842, and probably has the longest record as a practitioner in the State.

Among the notable cases in which Judge Campbell took part were those of the people against Terry for the killing of Senator Broderick in a duel; the case against Charles Cora for the murder of United States Marshal Richardson; the Bretherton forgery case; the case of the people against the Legislature; the defense of the Libel suits brought by Senator Sargent and Congressman Page; the case of the people against the State of California; the case against Kallio for the murder of Charles de Young, proprietor of the Chronicle.

Scenes of Life and Character in the West. New Yorkers Entertained by "The Last Chapter" and Miss Kelleher's Lecture. NEW YORK, March 6.—A new play, called "The Last Chapter," written by George H. Broadhurst, author of "What Happened to Jones" and "Why Smith Left Home," was presented in this city last night at the Garden Theater, and was received with great favor.

"The Last Chapter" commingles serious with comic ingredients of personality and incident, and it aims to present a picture of American life in the West. The principal parts were acted by Edgar Davenport, Edwin Holt, Miss Grace Filkins and Miss Elsie Wilton, who formerly played juvenile heroines and were great favorites in San Francisco.

Miss Kelleher, the well-known elocutionist and dramatic reader, gave a lecture on California, the Land of Opportunity, at the Grand Opera House last night in aid of the charitable work of the Parish House Association. Her lecture was very interesting and was very interesting.

Mercury Ascends to the Ninetieth Degree. LOS ANGELES, March 6.—The maximum temperature to-day was 90 degrees, the lowest was 60 degrees, and the average was 75 degrees. The mercury rose to 90 degrees, the lowest was 60 degrees, and the average was 75 degrees.

Cotton Mills Advance Wages. BOSTON, March 6.—These advances in cotton mill wages were announced to-day: Cotton Mills, Brunswick, Me., 1000 hands, restoration to schedule in effect before January 1, 1898; York Corporation, Saco, Me., 1500 hands, increase not stated; Paul Whitin Manufacturing Company, Rockdale and North Bridge, Mass., 30 hands, 10 per cent; H. Slater Mills, Webster, Mass., 10 per cent.

Receiver for American Company. NEW YORK, March 6.—Walter L. McDermott, son of State Senator McDermott, was to-day appointed receiver for the American Grocery Company of this city, formerly H. B. Thurber & Co. The appointment was made by the former directors of the company. The par value of the stock is \$1,000,000.

How the Muscat Incident Was Satisfactorily Settled. PARIS, March 6.—In the Chamber of Deputies to-day M. Bureau, Progressive Republican, representing the First District of the Islands of Reunion, questioned the Government on the subject of the Muscat incident. The Minister of Foreign Affairs, M. Delcasse, declared that the facts were that the British Resident summoned the Sultan to withdraw a concession to France of a coal depot on a creek near the Sultan's territory, and that the Sultan had refused to do so.

Engineer and Fireman Killed. WINNIPEG, Man., March 6.—The boiler of a locomotive of a passenger train on the Manitoba and Northwestern Railroad exploded to-day as the train was nearing Millwood station. The train was thrown from the track by Engineer F. Hill and Fireman P. Donlon were killed.

THE AUTHOR NOT INFORMED OF HIS LOSS.

Though He Is Gradually Gaining Strength, He Is Considered Too Weak to Withstand the Shock.

NEW YORK, March 6.—Josephine Kipling, the six-year-old daughter of Rudyard Kipling, and the oldest of his three children, died shortly after 6 o'clock this morning from pneumonia. The child's death took place at the home of Mrs. Julie de Forest in this city.

Mrs. de Forest is a friend of the Kiplings, and Josephine had been taken to her home so that she could be nursed apart from her father. The girl became ill the day after Mr. Kipling took to his bed.

Mr. Kipling continues to improve, having slept normally the greater part of last night. He has taken no solid food and it may be a week before he is able to do so. He is subsisting on beef extract, milk and other fluid nutrients.

Elsie, Mr. Kipling's three-year-old daughter, passed a good night. In all probability the little Josephine Kipling will be taken to the Kipling home in Vermont for burial, but no definite arrangements have yet been made.

It was decided not to inform the author of his child's death for several days. It was said that the hotel this morning that Mrs. Kipling has not been allowed in her husband's room for nearly a week, notwithstanding the general understanding that she has shared his bed since his recovery.

The following bulletin was issued at 2:30 to-day: Mr. Kipling has done well during the last twenty-four hours. Now that rest by the Navy Department, and during the eight days the St. Paul remained off Santiago the different vessels touching there and communicating with me had brought no counter report from the Navy Department."

Mr. Doubleday at 10 o'clock said: "Mr. Kipling has had a splendid day—that is, a comfortable day. He is beginning gradually to take nourishment of a more substantial kind. Of course, he has been the appearance of a man who has been ailing for some time, and his mind works very slowly. He has not been told of his daughter Josephine's death. Elsie has been somewhat better to-day and I think she is well on the road to recovery."

Then, referring to a slip in his hand, he said: "After talking the matter over with me, Mrs. Kipling decided to make this request to the newspapers: 'It is Mrs. Kipling's earnest wish that all matters connected with the funeral of her daughter Josephine may be entirely private. She appreciated the fact that information concerning Mr. Kipling is her own, and she feels sure that newspaper reporters and editors will not fail to put in their omissions.'"

Mr. Doubleday went on to say that Mrs. Kipling did not wish even the time or place of her daughter's funeral to be made public. Mr. Doubleday said there were a number of reasons that induced her to make that decision, and one of them was that for Mr. Kipling's sake the death and funeral of Josephine must be passed as quickly and quietly as possible. She appreciated the fact that information concerning Mr. Kipling is her own, and she feels sure that newspaper reporters and editors will not fail to put in their omissions."

England's Sympathy. London Papers Voice the Grief of Britons. LONDON, March 7.—The morning papers almost universally voice the deep sympathy in the bereavement that has come to the Kipling family through the death of Josephine. The Daily News sensibly suggests that there should be some intermission in the private telegrams and letters in inquiry which call for Mrs. Kipling's personal acknowledgment, adding that "it is unnecessary to impose upon the sorely stricken wife and mother a ceremonial duty only less exacting than a reception of callers."

The Empress Wilhelmina's dispatch to Mrs. Kipling was intended, the Daily News thinks, to pay a double debt, "as the Kaiser has notorious reasons for desiring to conciliate both America and England."

In the Track of the Tennessee Tornado. Great Strip of Territory Covered by the Storm and Considerable Damage to Buildings. KNOXVILLE, Tenn., March 6.—The Madisonville storm horror is even greater than was at first reported. The section devastated by the terrible hurricane at this time, which was decidedly out of place and not at all in keeping with the sentiment of the resolution. After some further discussion the House adopted the resolution by a viva voce vote.

Fifty-Four Killed by the Toulon Explosion. Reports That the Catastrophe Was Result of a Crime Are Renewed. PARIS, March 6.—The deaths resulting from the explosion of Sunday morning number fifty-four and 130 persons were injured.

The reports that the catastrophe was the result of a crime are renewed. The Paris Journal asserts that a case fifty feet long has been found in the ruins of the magazine.

Norfolk, Va., March 6.—After being icebound during the terrible February blizzard, half frozen and blown to sea, with only himself aboard, Captain William Davis has at last succeeded in reaching the harbor.

Burglar Reveals His Name. SEATTLE, March 6.—Another chapter in the sensational Van Alstine divorce case was opened to-day—the arrest of the Van Alstine and her sister, Emma Norton, for contempt of court.

Santa Cruz, March 6.—The burglar who was captured on Saturday by four Santa Cruz girls, after a lively chase, has given his name as Charles H. Dickman.

THAT MARRIAGE TO JAY GOULD

Like a Blackmailing Scheme

Mrs. Angell as the Alleged Wife of the Millionaire. Mrs. Cody's Anxiety to Meet George Gould Because She Had the Key to the Whole Situation.

ALBANY, N. Y., March 6.—Mrs. Sarah Angell and John Angell, the missing witnesses in the Cody case, were on hand at the opening of court to-day. Mrs. Angell is the woman who it was contended had been married to Jay Gould and who was the mother of his child.

The first witness to-day was Mrs. Sequin of Rouses Point, who testified to having written a letter to Mrs. Beebe, at the dictation of Mrs. Cody, in which she indirectly asked for funds with which to prosecute her investigation as to the marriage of Jay Gould and Mary Brown. She said in the letter that while it would be very difficult to procure a marriage record the other (the birth record) was "now all right."

A second letter, identified by Mrs. Sequin as from Mrs. Cody to Mrs. Beebe, asked for \$100 and told that Mrs. Pierce's lawyer had arrived in Albany with him from Mrs. Angell. The effect that she was never married to Jay Gould, the marriage, the deposition set forth, was to a Frenchman named Vidas, "who starved her." Mrs. Cody's letter continues: "I think the woman is crazy. I am going to try to get a divorce from her. I know that she had a child by Jay Gould. Isn't it a shame that the villain at this late day should fail us?"

A third letter to Mrs. Beebe tells of Mrs. Cody's anxiety to meet George Gould personally, because, as she says, she "has the key of the whole situation" in her hands. "If the case goes to trial," she proceeds, "you and I will be dead and buried, for that old fool is constantly changing her mind, and every now and then contends that she was never married to Gould."

Nicholas J. Dack had written some letters in 1885 for Mrs. Cody, who had asked him to put in for her more than one kind of handwriting. One of the letters which he had written and which was dated Oswego, N. Y., and signed H. Moore, was to Miss Helen Gould and suggested that the advice be given to her to put in for the word "legitimate" changed to "legitimate," and in the place where the name of the mother of the illegitimate child had originally been written was interpellated the name "Jay Gould."

This proof, in connection with the strong testimony of Mrs. Hoyle of Rouses Point to the effect that the original Sarah Ann Brown was dead and that the present Mrs. Angell (the supposed pretender to the name and family of Gould) was only a niece of the woman who was mentioned in the already disputed birth notice, put the case of the defense in a nearly hopeless condition.

It is intended, however, by the defense to prove that, although basis for the claim against the Goulds never really existed, Mrs. Cody believed in her case, having been buoyed up and encouraged by two lawyers, William McMurtree Speer and Amasa J. Parker Jr., who assured her that they were ready in possession of facts similar to those which she thought she had.

England and France. How the Muscat Incident Was Satisfactorily Settled. PARIS, March 6.—In the Chamber of Deputies to-day M. Bureau, Progressive Republican, representing the First District of the Islands of Reunion, questioned the Government on the subject of the Muscat incident. The Minister of Foreign Affairs, M. Delcasse, declared that the facts were that the British Resident summoned the Sultan to withdraw a concession to France of a coal depot on a creek near the Sultan's territory, and that the Sultan had refused to do so.

OVER WORK MAKES WEAK KIDNEYS

Unhealthy Kidneys Make Impure Blood. YOUR KIDNEYS ARE YOUR BLOOD PURIFIERS

A Prompt Way to Cure Yourself When Symptoms Show That Your Kidneys Are Out of Order.

To Test the Wonderful Merits of the Great Modern Discovery, Swamp-Root, Every "Call" Reader May Have a Sample Bottle Sent Free by Mail.

The way to be well is to pay attention to your kidneys. They are the most important organs of the body—the blood filters. All the blood in your body passes through your kidneys once every three minutes.

The kidneys strain or filter out the impurities in the blood—that is their work. Purifying your blood is not a question of taking a laxative or physic. Does your blood run through your bowels?

What the bowel-cleaner does is to throw out the poisons confined in your bowels ready for absorption into your blood, but the poisons which are already in your blood, causing your present sickness, it leaves there. There is no other way of purifying your blood except by means of your kidneys.

That is why bowel-cleaners fail to do their work—they forget the kidneys. When you are sick, then, no matter what you think the name of your disease is, the first thing you should do is to afford aid to your kidneys by using Dr. Kilmer's Swamp-Root, the great Kidney Remedy.

In taking Swamp-Root you afford natural help to nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science. Dr. Kilmer, the eminent physician and specialist, has attained a famous reputation through the discovery and marvelous success of Swamp-Root in purifying the blood, and thereby curing chronic and dangerous diseases, caused by sick kidneys, of which some of the symptoms are given below.

Pain or dull ache in the back or head, rheumatism, neuralgia, nervousness, dizziness, irregular heart, sleeplessness, sallow complexion, dropsy, irritability, loss of ambition, obliged to pass water often during the day, and to get up many times at night, and all forms of kidney, bladder and uric acid troubles. Swamp-Root is sold by all dealers in fifty-cent or one-dollar bottles. Make a note of the name, SWAMP-ROOT, Dr. Kilmer's Swamp-Root, and remember it is prepared only by Dr. Kilmer & Co., Cincinnati, Ohio.

To prove the wonderful merits of his great discovery he now offers to every reader of this paper a prepaid free sample bottle of Swamp-Root, which he will send to any address, free by mail. A book about Health, Diet and Disease as Related to your Kidneys and giving some of the thousands upon thousands of testimonies of those cured, is sent free with the sample bottle. The great discovery, Swamp-Root, is so remarkably successful that our readers are advised to write to the San Francisco Daily Call when sending their addresses to Dr. Kilmer & Co., Binghamton, N. Y.

Smallpox Is Traveling Northward. HAROLD IS QUARANTINED. SECTION EMPLOYE CONTRACTS THE DISEASE. At Los Angeles Sixty-Five Cases and Twelve Deaths Have Been Reported Up to Date.

LOS ANGELES, March 6.—With four cases of smallpox reported to-day, a total of sixty-five cases have developed in this city since the disease appeared. Of these twelve patients have died. One part of the city where the epidemic is most severe, near Wall and Seventh streets, is practically quarantined. Two women teachers have been removed from duty, being regarded as suspects. This has created considerable alarm among parents. They were employed in the Castell and Normal schools.

Reports are received to-night that the disease has appeared among section hands near Antelope Valley. A section employe at Harold, a station on the Southern Pacific twenty-five miles north of the city, is afflicted. The victim arrived there from Arizona three weeks ago. The town has been quarantined. This is the first case that has developed in the county outside of the city.

Health Officer Powers says the disease is not a virulent type and insists that it will be successfully suppressed. Huntington Buys Realty. NEW YORK, March 6.—A Tribune special from Newport News says: Collis P. Huntington has decided to construct a telegraph line to connect the Yukon territory with British Columbia.

Want a Great Museum. Charles A. Keeler lectured to a large audience last evening at the Academy of Sciences. His subject was "How to Use a Museum." The speaker mentioned the efforts of the California Society to secure valuable acquisitions to the Academy Museum, and entreated those present to assist the society in making the exhibit a fountainhead for the dissemination of knowledge.

The "old idea of a museum," said he, "was that of a place where freaks of nature and curiosities were collected to satisfy the curious. We propose to make the museum in connection with the Academy of Sciences a place of instruction as well as of entertainment. What will satisfy the public will not satisfy the student. A few people are content with a display of a layman, but the technical student requires a different display. He must have more and more scientific specimens must be collected and put in order.
