ippines. It appears that many of the prisoners, after their long imprisonment, made common cause with the Tagalogs. ADMIRAL CARPENTER HAD LONG SUFFERED FROM NERVOUS DISORDERS

Retired Naval Officer Shoots Himself in the Head at a Sanitarium.

BOSTON, April 2.—Rear Admiral C. C. Carpenter (retired) committed suicide yesterday in a sanitarium in this city. Admiral Carpenter was called from the retired list to active duty in charge of the navy yard at Portsmouth, N. H., during the war, while Commodore Remy was on duty at Key West.
Admiral Carpenter for the last six weeks was an inmate of the Adams Asylum, in the Jamaica Plain district, and at the earnest request of his family details have been withheld from the public. He shot himself in the head.
For a number of years previous to his retirement Admiral Carpenter suffered severely from nervous disorders, and soon after being released from service went under medical treatment. He was apparently recovered, but six weeks ago there came a relapse, and he was again placed in the asylum. Again he seemed to improve, and the family had hope that he would be himself again.

WAS TRADED FOR A FARM COMPELLED BY HER FATHER TO MARRY.

TACOMA, April 2.—Mrs. Millie Tomkins, who has been arrested for having attempted to abduct her own children at Seattle, tells an unusually sad story of domestic unhappiness. She says that when she was but 14 years old she was sold by her father to Joseph Cantzler for sixty acres of land. It was a literal sale of flesh and blood.
Cantzler was many years her senior and she abhorred him, but one day her father and Cantzler got her into a room and compelled her to sign a paper agreeing to marry him. For this inhuman act her father received from Cantzler a deed to sixty acres of Yellowstone bottom land. Laws were loosely enforced on the Yellowstone in those days, and there was no one to protect the helpless girl.
For six troubled years she lived with him, and they had three children. At length, in 1889, his cruel treatment forced her to flee to friends for safety, and she obtained a divorce at Helena, being awarded the custody of her children. In July, 1890, Cantzler came to her penniless and she fed him. He hung around for several days and finally took the eldest two children out for a walk. One day he brought them west to Seattle. Thither she followed him and made a fight in the courts for their possession, but as she was without funds the judge ordered them sent to the Orphans' Home.
Both Cantzler and she married again. She went to Butte to work, but later returned to Seattle, where she was compelled to claim Cantzler abused them, compelling them to sleep on beds made of gunnybags. Last week she brought her 13-year-old daughter to Tacoma and intended to return later for her son. For this faithful devotion she is now under arrest.

GILLETTE A FAILURE AS A HOTEL-OWNER

Gillette has since announced he has been engaged by Burke to go to Peru to look after his cattle interests there.

How American Troops Suppressed Incendiaries in Suburbs of Manila.

MANILA, March 1.—After many false alarms and frustrated attempts, the oft-repeated threats of the rebels to burn Manila and massacre every European and American within its walls culminated in a disastrous conflagration and an attempted uprising, which was promptly checked, on the night of Washington's birthday. That preconcerted arrangements had been made to fire the city in half a dozen different places simultaneously there is no doubt, but fortunately the plans miscarried, for various reasons, and the natives themselves, or at least their sympathizers lost as much, if not more, than those upon whom they sought to wreak their vengeance.
A quieter day than that of February 22 it would be difficult to imagine. All the banks and leading mercantile houses were closed, and except for the few that remained open it seemed more like Sunday than a holiday, the excessive heat and the condition of affairs outside having kept most people indoors. About sundown, however, the town bestirred itself, and the streets were soon filled with people going to the fire.
Charles C. Carpenter was born in Greenfield, Mass., in 1834. He was appointed midshipman from this State in 1850 and was attached to the sloop "Porpoise," which was captured by the rebels in 1855. He was in the Naval Academy from 1855 to 1856 and was promoted to passed midshipman in the latter year. Later he served on the steam frigate Merrimack, Roanoke, Colorado and Dolphin. He was made a lieutenant in 1858 and attached to the steamship Mohawk, which captured the slave "Wildfire" off the coast of Africa in 1859. He was transferred in 1862 to the steamship Flag of the South Atlantic squadron and was soon promoted to lieutenant commander. He next was transferred to the monitor Catskill of the South Atlantic blockading fleet, and was on board during the operations and attacks upon the defenses of Charleston. He was transferred to the steamer Hartford.
His first command was the steamship Wyoming, on the same squadron, serving in her for one year and then returning to this country. For two years he was stationed at the Portsmouth navy yard, during which time he was commanding the monitor Catskill at Portsmouth for the ten years following. In 1883 he was commander of the Hartford, which carried the English and American eclipse expedition in 1883 to the Caroline atoll.
From 1883 to 1889 he commanded the ship Washah at the Charleston navy yard, finally being transferred to Portsmouth as captain of the yard and later as commanding officer of the ship. He was commissioned as commodore in 1883 and as rear admiral a year later. As commander of the Asiatic squadron in 1894 he saw many of the naval movements of the Chinese empire.
Under his orders was fired the first and only shot by an American man-of-war at a Chinese ship, thereby enforcing the demands of this Government against a violation of international law and breach of relations between the United States and China. His action was commended by our Government.
Admiral Carpenter was retired in 1893 to the Caroline atoll. He is recalled to act as commandant of the Portsmouth Navy Yard in place of Commodore Remy.

ENGLAND BACKING ITALY IN CHINA

San Mun Bay to Be Occupied by Italians Before the Close of April.
LONDON, April 2.—The Paris correspondent of the Daily Chronicle says the British Government has agreed that Italy and Great Britain have arrived at an agreement which will result in Italian occupation of San Mun Bay, province of Chi Kiang, China, before April 25.
The British Government is pressing for an expansion of territory ceded to Great Britain by the Chinese Government and the British Government has agreed to increase the opium duties 24,000 annually if the extension is granted. In case of refusal the British Government will remove the Chinese customhouse from British territory.
LONDON, April 2.—The Peking correspondent of the Times says: The Chinese authorities have notified the British Council at Tientsin that the British Government has agreed to grant a concession for the opening of the port negotiatory. Friendly relations continue between the German legation and the Tsungli Yamen, as China offers to grant a railway concession if the German troops are withdrawn.

AMERICANS ATTACKED BY CUBAN BANDITS

Two Men Set Upon Near Holguin and Robbed of their Arms and Horses.
SANTIAGO DE CUBA, April 2.—The telegraph line to Havana, constructed by the United States Signal Corps, is completed and will be opened for commercial messages to-morrow.
Five more bandits have been captured. One named Nelson, a noted desperado. A body of armed men a few days ago attacked two Americans in the neighborhood of Holguin. They were riding on horses, and then went still further north to rob the lighthouse at Gibara. Colonel Grubb's troops followed them and captured them. The trouble seems to have grown out of the cessation of public works in the province of Sancti Spiritus. In the morning the rebels not being driven out of the city limits until long after daylight. While they left 113 dead on the ground and several hundred were taken prisoners, many escaped into the swamp lands north of the city, this side of Caloocan. It is still believed to be in hiding. In order to guard against the attacks of this nature the whole of the city has been cleared, all the narrow streets have been widened, and the narrow shacks having been destroyed by fire.

ODDITIES OF THE CLEVELAND CAMPAIGN

Democratic Candidate Supported by Republicans and a Republican Aided by Democrats.
CLEVELAND, April 2.—More diversified elements have entered into the municipal campaign, which ends to-morrow, than is usual in political contests. There are two candidates, Democratic and Republican. The Republican candidate is the present Mayor, Robert E. McKisson, who has already been elected twice to office. The Democrat is John H. Farley, for many years Democratic boss of Northern Ohio, who was once elected Mayor of Cleveland.
One of the peculiarities of the campaign is the fact that a Republican paper, the Cleveland Leader, is supporting the Democratic candidate. Farley, although he owns and operates two saloons, is warmly supported by the Anti-Saloon League, and also numbers among his active supporters the Christian Endeavor Union. The executive committee of the Epworth League has also sent circular letters to members in this city advising them to vote for Farley.
Party lines are entirely lost sight of. The fight is based on McKisson's personality. He has the antagonism of Senator Hanna's friends and adherents. Several ministers of the gospel have preached anti-McKisson sermons, while on the other hand the Methodist Ministers' Association of the city has repudiated Farley and the Methodist Times which published Farley's advertisement.
Another oddity of the campaign is the organization of about 300 physicians of high standing in the city to work for Farley. One socially prominent Jewish rabbi is making stump speeches for Farley, while another, recognized as the head of the orthodox Jews, has declared for McKisson. Among the active lieutenants of the Democratic candidate are Harry and James Garfield, sons of the late President, and Webb C. Hayes, son of the late Rutherford B. Hayes.

ELECTION ISSUES IN OHIO CITIES

National Politics Will Be Affected.
FIGHT AGAINST MCKINLEY HIS FOES WORKING FOR CONTROL OF THE STATE.
Robert McKisson, Whom Hanna Defeated for the Senate, a Candidate for Mayor of Cleveland.
Special Dispatch to The Call.
CINCINNATI, April 2.—While the municipal elections in Ohio to-morrow are for local offices, yet they have strong bearings on State and National politics, and also on factional interests in both parties. The municipal machinery will have great influence in the selection of delegates to the State convention, to be held next month or later, and the candidates for the gubernatorial and other State nominations are conducting aggressive canvasses in connection with the municipal elections. The bearing on national politics is seen in Senator Foraker's presence and interest in the course of events. Should a Republican Governor be elected next November who is unfriendly to the senior Ohio Senator, that Governor would no doubt be at the head of the State ticket for his second term two years hence, when members of the Legislature are elected to choose the successor to Foraker. The friends of the national administration want a solid Ohio delegation to the National Republican Convention a year hence.
The Republican candidate for Mayor of Cleveland, the home of Senator Hanna, is Robert McKisson, who was the fusion candidate before the Legislature in January of last year for Senator against Senator Hanna. It is said that McKisson is not running for the office alone, but also for the purpose of having President McKinley, Senator Hanna and others in the Ohio State conventions this year. McKisson is a member of the Cleveland district, and if possible other Ohio delegates to the national convention next year.
In other Ohio cities the factional lines are less distinctly drawn. In Toletine more so Republicans running for Mayor, while the Democrats have but one candidate. In this city there is no election for Mayor, but much interest is taken in the election of city officers, who control the local municipal patronage. The usual fight is being waged by the Democrats and independent Republicans against George B. Cox as the Republican boss.

MURDERS IN CHICAGO AMONG WARD HEELERS

CHICAGO, April 2.—The order of the Harrison campaign managers to their heelers to resort to intimidation even to the point of murder bore immediate fruit to-day, and as a first result three men lie in their graves. In the struggle ground that more land is needed for Government buildings. They propose to build a customhouse and increase the opium duties 24,000 annually if the extension is granted. In case of refusal the British Government will remove the Chinese customhouse from British territory.

"He Who Pursues Two Hares Catches Neither."

Said a well known young man about town, "I tried for years to burn the candle at both ends, in the pursuit of pleasure while trying to attend to business. My blood, stomach and kidneys got into a wretched state and it seemed that I could not carry the burden any longer."
"But now my rheumatism has gone, my courage has returned, and all on account of that marvelous Hood's Sarsaparilla, which has made me a picture of health. Now I'm in for business pure and simple."
Catarrh of the Stomach—"I have been taking Hood's Sarsaparilla for about three months. It has entirely cured my catarrh of the stomach, which troubled me since I was ten years old." EDW. F. SEDDON JR., 806 South 4th St., Camden, N. J.
