

# THE CHARLESTON DRIVES REBELS FROM MANILA

MANILA, April 6, 10:40 A. M.—The United States cruiser Charleston, which has been cruising along the west coast of Luzon, to the north, sent a boat in shore near Dagupan last Saturday to make soundings. The rebels opened fire, wounding a United States officer.

The cruiser thereupon bombarded the town, the insurgents evacuating it.

## THE PROCLAMATION WEAKENS REBELS

There Are Persistent Rumors at Manila That General Luna Has Displaced Aguinaldo.

MANILA, April 5.—The proclamation of the United States Philippine Commission was posted in the streets, printed in English, Spanish and Tagalog to-day. It was also distributed in the outside towns as far as Malolos and has been received with marked attention by the natives generally and approved by a number of representative Manilans.

English bankers here who have been interviewed on the subject are optimistic upon the attitude of the Americans, assuming it indicates that the decisive policy will undoubtedly be successful. A Spanish banker who was interviewed expressed fear that the proclamation will not reach the masses controlling the rebellion, because, he explained, the Filipinos at Manila are mostly domestics and clerks who have no definite opinions and the wire pullers outside of the city have undoubtedly intercepted it.

## MISS SLOANE IS HAMMOND'S BRIDE

Fashionable Wedding in St. Bartholomew's.

Special Dispatch to The Call.

NEW YORK, April 5.—With all the elaborate ceremony that characterizes church weddings, Miss Emily Vanderbilt Sloane, daughter of Mr. and Mrs. William Douglas Sloane, was married to John H. Hammond to-day at noon in St. Bartholomew's Church. Notwithstanding the expressed desire of the bride and her family for a quiet wedding, the avenue for a block in either direction from the church held an immense throng which threatened at times to prevent the arrival of guests' carriages. In order to relieve the crush, the police drove the crowd back to the block above the church and to the block below, thus leaving the street clear in front of the entrance.

At 11 a. m. guests began to arrive, and just before the approach of the bridal party the church was crowded and guests stood in the aisles. The four front pews on either side of the center were reserved for the members of the bride's and bridegroom's families. For a reason that no one attempted to give, the arch of smilax and the huge wedding bell in which the couple were to stand was hastily put up and the bell adjusted to one side to balance it.

Already the wedding music from "Lohengrin" was heard when one of the attendants ordered the workmen to take down both arch and bell. This was done just a few seconds before the bride, her father and her attendants entered. They knew nothing of what had happened. The bridegroom and his brother, Ogden Hammond, were waiting at the altar. The maid of honor was Miss Lila Vanderbilt Sloane, a sister of the bride.

The interior of the church was adorned with roses, lilies and garlands of orange leaves and smilax, while palms and azaleas added beauty. The dark marble pillars were hidden by ropes of greens bound with lilies and upon the capitals of each column were great bunches of white Easter flowers. At the chancel rail there was a solid bank of azaleas and lilies in shades of pink and white. The lectern, pulpit and choir stalls were wound with roses of laurel and lilies, while beyond was a

## CASUALTIES AT MANILA

WASHINGTON, April 5.—The casualties in the Philippines from February 4 to April 4, 1899, inclusive, as reported to the adjutant general are:

Killed	184
Wounded	276
Total	460

only arguments appeals to the masses here is the gun.

The editor of Oceania thinks the proclamation is the most politic document ever published in the Philippine Islands, and that it is bound to convince the wavering of the folly of further hostilities.

An English merchant says the first clause with reference to the establishment and maintenance of American sovereignty and warning the rebels should settle the question in the minds of every thinking Filipino.

A Scotch showman thinks it does not leave any further doubt as to the policy of the United States, and that, consequently, Aguinaldo must submit to the inevitable, as the continuance of hostilities is opposed to the best interests of the Philippines.

There are persistent rumors to-day that Aguinaldo, the insurgent leader, has been supplanted in the control of Filipino affairs by General Antonio Luna, commander in chief of the Filipino forces. Luna is known as a typical belligerent.

## AMERICANS SCORED BY AN ILOILO MERCHANT

VANCOUVER, B. C., April 5.—Samuel Murray, a Scotch merchant, who resided for eleven years in the Philippines, and was present at the fall of Iloilo, arrived here on the Empress of Japan to-day, one month from the seat of war. He scored the Americans un-

## TEN-CENT BANQUET ON JEFFERSON DAY

TACOMA, April 5.—Washington Democrats are imitating their New York brethren. The State organization and local Democrats of the Richard Croker stripe have arranged for a Jeffersonian banquet to be held at Tacoma Hotel on April 13 at \$1 a plate. Governor Rogers, Congressman Lewis and Jones and probably Senator Turner will be present.

Other reformers belonging to the Populist branch of the "reform" party claim to be shocked at so lavish a display as will require an outlay of \$1 a plate. Arrangements were accordingly completed to-day for another Jeffersonian banquet, to be held the same evening. It will be called an "every-day" banquet and the tariff will be 10 cents a plate.

This banquet is being promoted by the Spirit of the Times, a reform paper, which declares editorially:

"A large number of workmen, recognizing the ridiculousness of attempting to observe 'Jeffersonian simplicity' at \$1 a plate, and further knowing that \$1 for one meal is something that the most wildly extravagant wage worker never dreamed of in his nightmare of possible prosperity, it can only be honest to exemplify Jeffersonian principles on the exact basis of every-day conditions, they have decided to meet in a social gathering on the evening of April 13 and discuss some of the truths enunciated by Jefferson."

The menu of the 10-cent banquet will include:

- Soup.
- Beef broth a la caille trust (not so sloppy as the wave of prosperity).
- Fish.
- Baked Ling Cod. (The fish trust be darned).
- Meats.
- Pork and Beans. (By permission of Armour).
- Corned Beef (not embalmed) and Cabbage.
- Liver or Bacon and Onions a la M. C. Hanna.

bank of lilies and palms. Two great palms, thirty feet high, flanked the altar and jars of roses varied the loose Easter flowers upon the altar.

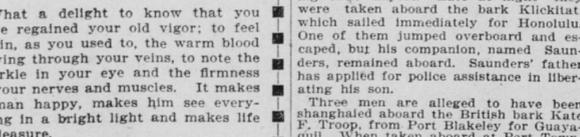

More than 300 guests followed the newly-wedded couple to the home of the bride's parents for the reception and the breakfast. Soon after 2 o'clock Mr. and Mrs. Hammond were driven to the Grand Central station, whence a special car took them to Lenox, where they will spend the honeymoon.

## YOUNG VANDERBILT AND HIS BRIDE

NEW YORK, April 5.—William K. Vanderbilt Jr. and his bride are domiciled in the apartments at Idle Hour, Long Island, occupied by the Duke and Duchess of Marlborough when they were during their honeymoon. After breakfast to-day Mr. and Mrs. Vanderbilt strolled about the grounds, but did not appear to

## SUFFER MUCH FROM COLD OF THE ANTPACTIC

Hardships Endured by the Belgian South Pole Expedition.

## TWO MEMBERS PERISH

The Explorers Will Remain at Punt Arenas Three Months and Then Start for the Antarctic.

Special Cable to The Call and the New York Herald. Copyrighted, 1899, by James Gordon Bennett.

BRUSSELS, April 5.—Fresh details have been received regarding the Belgian south pole expedition. The expedition when started by the ice near Alexanderland had traveled to 71 degrees 26 minutes, and discovered new lands, seas and many volcanoes.

One officer, Lieutenant Danco, who had charge of the magnetic observations, died in June.

Some months earlier the expedition lost a young Norwegian, Wincke, an excellent draughtsman, who illustrated the expedition. The members suffered much from cold in September, when the minimum was 43 degrees below zero.

De Gerlache did not state whether he intends returning toward the south pole or coming back to Europe. Doubt is thrown on the matter by the fact that the correspondence will be sent from Punta Arenas.

MONTEVIDEO, April 5.—The captain of the German steamer Karnock brought a voluminous report from Lieutenant de Gerlache, chief of the Belgian Antarctic expedition, to the Belgian Consul here, and various dispatches. The Belgica expedition gathered many valuable collections. The expedition will stay at Punta Arenas for three months and then return to the Antarctic regions.

## FORMAL INVITATIONS TO THE PEACE CONFERENCE

They Will Be Issued To-day Through Various Ministers, but Bulgaria Is Slighted.

NEW YORK, April 5.—A special cable to the Sun from The Hague says: Formal invitations to attend the peace conference will be issued to-morrow through the Ministers to the Netherlands of Great Britain, Russia, Germany, Austria, France, Italy, Turkey, Spain, Portugal, Sweden, Denmark, Belgium, Luxembourg, Serbia, Roumania, Montenegro, Greece, Switzerland, United States, Siam, Persia, China and Japan. The note of invitation remarks that only questions specified in the second Russian circular will be discussed. All national political questions will be rigorously excluded.

Bulgaria's dignity has been wounded by her omission from the list of nations invited to attend the peace conference at The Hague, which includes other Balkan States. She ascribes her omission to the ill-will of the Porte, which she believes has influenced Russia against her. There is reason to believe, however, that Bulgaria will be invited to the conference, though it may depend on her behavior during the next few weeks in connection with the threatened Macedonian troubles.

## POOLING THE BUSINESS OF LIGHTING COMPANIES

Three Los Angeles Corporations May Soon Arrive at an Understanding.

LOS ANGELES, April 5.—It is stated in commercial circles that the recent attempts to pool the business of the Los Angeles Lighting Company, the San Gabriel Company and the Edison Company, by which any manipulation, control and regulate prices, is still under consideration. While those interested in the corporation deny to-night that the combination has not fully materialized owing to a disagreement among the principals, it has been discovered that the President Board of the Edison Company for the East to-morrow gives color to the statement that the trifles which have been discovered may be removed by the time he returns.

In connection with this possible pooling of interests the fact is discovered that it has been made that the time in which the terms of the conduit ordinance should be in effect, still, to take part in the first degree an extension of the ordinance from last December until July 3. The last extension asked for was only for three months, which would expire yesterday. It has been discovered that the ordinance grants an extension of three months from April 3. No one at the City Hall has been seen to know this date, and the Edison Company is the only corporation that has not conducted all underground.

## SAILORS SHANGHAIED ON PUGET SOUND

Two Boys Among the Latest Victims of the Boarding-House Runners.

TACOMA, April 5.—The sailor question is getting more entangled on the Sound every day. Five alleged cases of shanghaiing have been reported within forty-eight hours at Port Townsend. First two 7-year-old boys were induced to go to Port Townsend to work. The signed shipping articles there, not knowing their import. Late at night they were taken aboard the bark Klickitat, which sailed immediately for Honolulu. One of them, the engine driver of the train, also had charge of the engine of the special train which took the Duke and Duchess of Marlborough to Oakdale.

## PORTUGUESE FOR HAWAIIAN PLANTATIONS

Secret Movement Afoot to Import Thousands of Contract Laborers.

TACOMA, April 5.—Private advices received to-day from Honolulu state a secret movement is under way in Hawaii to flood the islands with Portuguese laborers from the Azores Islands. There will be from 5000 to 10,000 imported in the near future. The movement is being completed, unless the plan is foisted. They will probably be brought by Italian warships by way of Cape Horn, but it is possible they will come overland by way of Tacoma, if ships can be found to carry them.

This enterprise is the result of the approach of exclusion of Japanese by the United States contract labor laws. Secrecy has been preserved to prevent opposition of the ground that it is a scheme to evade contract labor laws. The Portuguese probably will be imported as free immigrants.

## TO PRISON FOR LIFE

MODESTO, April 5.—The jury in the case of Conrad Reiger for the murder of Frank Nagle brought in a verdict of murder in the first degree and fixed the penalty at life imprisonment. The men were employed as section men on the Sierra Railroad. On January 7 last Reiger shot and killed Nagle without provocation. The prisoner escaped, but was arrested a week later at Fresno.

## WOUNDED SOLDIERS BEING SENT HOME

WASHINGTON, April 5.—General Otis has cabled the War Department that the transport Sherman has left Manila with 100 wounded soldiers, which included 40 that were able to be sent home at that time.

CUTLERY DAY. Some articles cut 50 per cent. Odds and Ends. Half Price. GREAT AMERICAN IMPORTING TEA CO. Stores Everywhere.

## SUCCESSFUL IN COMMUNICATING WITHOUT WIRES

Officers of the Signal Corps Will Flash Messages From Washington to Fort Meyer.

NEW YORK, April 5.—A Washington special to the Herald says: It is the confident expectation of the officers of the signal corps of the army that within a short time messages can be flashed to and from the War Department to Fort Myer, five miles away, without the aid of wires.

Important experiments already made at Fort Myer by Colonel James Allen, now acting chief of the signal corps, and Lieutenant George O. Squire, have demonstrated that it is practicable to transmit messages by means of electric waves produced in the manner employed by Marconi. These officers have found that at a distance of 1000 yards they can telegraph any message, and it is intended to increase the distance gradually until the War Department and Fort Myer are connected.

Lieutenant Squire told me to-day that he was much gratified at the results of the experiments; and he believes that when the experimental stage has been passed the system will be of much value for working between the shore and lighthouses, communicating between vessels at sea and for marine work generally.

Perhaps the most important demonstration so far made has been the impossibility of exploding a magazine on board a modern ship by means of the electric waves. Lieutenant Squire said that in the first place it would be necessary to have an operator on board the ship to be destroyed, and even then it would be impossible to transmit a wave through iron. The placing of the instrument in an iron cage will prevent waves from reaching their destination and a zinc screen also stops them. On account of the length of the waves their energies are absorbed differently by different substances. Thus water and metal absorb all their energy;

PARIS, April 5.—In view of the success of the experiments with the Marconi system of wireless telegraphy across the Strait of Dover the authorities propose to transmit messages to England from Paris. The terminal probability will be the Eiffel tower, the distance to South Foreland being 230 miles.

Experiments in transmitting messages thus far have been very limited, as the instruments were received a few days ago. The instruments used are the finest that could be obtained. The messages so far sent have been received without difficulty. The appliances include an ordinary battery and Morse electro-magnet. When the key is pressed a current flashes between two brass globes, causing a spark and setting the electric waves in motion. Whenever the sender desires to get in communication with the receiver the pressing of a key causes a bell to ring calling attention to the instrument.

## TRAN THE GIRLS HOUSEKEEPING

Mrs. Weymouth's Advice to Mothers.

Special Dispatch to The Call.

PASADENA, April 5.—The second day's session of the Woman's Parliament of Southern California opened this morning with an increased attendance, and at each meeting to-day the auditorium of the Universalist church was crowded with people—mostly women, of course, though the men were present in small numbers. The pulpit was freshly decorated with poppies, roses and palms. The ladies sensibly removed their hats and late comers were kept in the vestibule while papers were being read.

The first paper of to-day's session was by Mrs. A. B. Weymouth of Orange, who took for her subject "Housekeeping as a Profession for Girls." Mrs. Weymouth contended that more attention should be paid to the training of young girls in the duties incidental to keeping house, but necessarily for other people, but for themselves. She said it was evident girls nowadays were allowed to neglect this important branch of education. In the discussion that followed Mrs. Ella L. Sessions of Huene me spoke in line with the author of the paper and coincided with most of her deductions.

Mrs. Sessions of Huene me and Mrs. Hughes of Iowa led the discussion, bringing out the point that girls were unwilling to engage in housework outside of their own homes because they felt they would not be respected in such positions and because they had less liberty than in other lines of work.

A resolution introduced by Mrs. Caroline M. Severance of Los Angeles, was adopted, committing the parliament to the approval of the efforts leading to a perpetual peace, in line with the action of the women of the East, who are hoping for the coming of an era of universal brotherhood.

The resolution commended the coming convention at The Hague and hoped that the East's disarmament proposition will be accepted by the world, and that there would be no more war.

The afternoon programme included a paper on "Child Study" for Women Clubs" by Miss Virginia Peace of National City. There was a spirited address on "The Municipality and the Individual," by Mrs. Lou V. Chapin, in which she took the position that socialism meant not liberty, but despotism; that municipal ownership of utilities in this country was dangerous, for the reason that City Councilmen now grow rich in unsalaried positions. Mrs. Mary Darling read a paper on "Oppor-tunities for the Middle Aged Woman," after which the members of the parliament were taken for a drive by the Board of Trade.

A reception was held for the members of Women's Fraternal Societies, only members of secret societies being admitted. This closed one of the most successful sessions of the Woman's Parliament yet held in Southern California.

## FEARS INVASION BY JUAN JIMINEZ

Dominican Government Is Massing Troops on the Frontier and Arresting Suspects.

Special Cable to The Call and the New York Herald. Copyrighted, 1899, by James Gordon Bennett.

PORT AU PRINCE, April 5.—It is reported that the Dominican Government is massing troops on the frontier in fear of an invasion by Juan Jiminez from St. Marc. It is also causing the arrest of suspected Dominicans residing in Port au Prince. Senior Jiminez is now in St. Thomas.

The French cruiser Sixax arrived at night to-day.

Juan Jiminez was formerly a pros-

last nine years, was found dead in his house to-day. All indications point to suicide by poison. He was born in Indiana, and before coming here was in the employ of the Southern Pacific in Southern California. He has been troubled with his eyes for some time, and this is thought to have led to his suicide.

## CENTRAL PACIFIC WILL CONVEY THE SOLDIERS

LOS ANGELES, April 5.—The quartermaster's department of the United States army will in a few days open bids for the transportation of 500 officers and men to the Philippine Islands to take the place of volunteers near Manila. Santa Fe will not bid for this transportation. It is like an exceptionally fat contract, but in reality carries little or no money, and only a large grant is able to do the hauling. When bids for the taking of the First New York were asked a short time ago the Santa Fe made a bid to carry the regiment East. The contract was given to the Central Pacific and its connections. The Santa Fe people here say they lost the bid because the Government demands that the soldiers be carried in battalions in special trains.

Thousands of soldiers will be hauled to and from San Francisco before the trouble in the Philippine Islands is ended, and as soon as the Government lien of the Central Pacific has been lifted and that line become a part of the Southern Railway, the Central Pacific will have a competition will bring other lines into the fray.

Letter for the President.

NEW YORK, April 5.—A Rome cable to the Sun says: It is stated, but the report cannot be confirmed, that the Pope has intrusted Archbishop Ireland with a letter for President McKinley.

### AWEFUL RESULT OF MENTAL STRAIN

A Man From Utah Tells of His Sufferings and Rescue.

### WORRY AND OVERWORK REDUCE HIM TO A COMPLETE PHYSICAL WRECK.

The following remarkable story comes from Mr. T. Ward of Park City, Utah. He says: For several years I was broken down in health, my nervous system was a complete wreck, as were also my digestive organs. I could not sleep, could not eat, and was greatly afflicted with a nervous shake like a leaf at times. Could not think well nor apply myself to business. After trying many remedies without success I read of Hudyau's. I began taking it, and soon found that I was gaining in strength and had a better appetite. I continued to take it until I was completely cured. Hudyau is a good medicine and in my opinion no remedy can take the place of it in the treatment of nervous and stomach disorders.

Persons who are afflicted with headache, dizzy spells, poor memory, nervousness, sleeplessness, irritable temper, etc., are usually suffering from worn-out nervous system. Hudyau's is very often a complication. Hudyau is an infallible remedy in such cases. If the physician is unable to find a remedy to repair them it is then that the organs must suffer. It is then that you have rheumatism, neuralgia, nervous trouble, nervous dyspepsia and other ills. Hudyau being a great blood and tissue builder, it will cure all chronic ailments. Hudyau's is a good work that Hudyau is accomplished in the treatment of all stomach, liver, kidney, nervous and blood diseases. Hudyau's is a valuable remedy for all ailments. Hudyau's will be sent direct upon receipt of price—five packages, or six packages for \$25.00. Call or write to

### TERRIFIC WHIRLWIND ON QUEENSLAND'S COAST

One Hundred and Fifty Japanese Pearl Fishers Drowned During the Storm.

VANCOUVER, B. C., April 5.—Advices from the Antipodes state: During the recent terrific whirlwind on the coast of North Queensland about 150 Japanese engaged in the pearl fisheries were drowned.

About 200 Japanese prisoners in Niigata prison have been simultaneously taken ill. They are supposed to have been poisoned.

A report has reached the Japanese Government that Canada intended to impose a duty of 12 cents on imported Japanese tea. Tea dealers take the report very seriously, and they are asking that negotiations be entered upon with the Canadian Government against an imposition of the tax.

### STRIKES ON THE ROCKS NEAR PORT SIMPSON

Disaster Overtakes the Steamship Barbara Boscowitz in Northern Waters.

VANCOUVER, B. C., April 5.—The Union Steamship Company's steamer Cutch, which arrived from the north early this morning, brooketh the news that the unfortunate steamer Barbara Boscowitz of Victoria had for the second time run upon the rocks near Port Simpson. The Cutch passed the Boscowitz on the 24 inst., and at that time she was high on the rocks that compose Hankins reef.

Captain Newcomb of the Cutch halted the steamer and ordered the anchor to be cast and the engine to be stopped. The master of the Boscowitz said that if the weather continued fine he expected to float off at high tide. He would not receive any assistance from the Cutch. Rough weather would make the Boscowitz a complete wreck.

### AMERICAN TROOPS ARE DISHEARTENED BY SICKNESS

FORT WORTH, Texas, April 5.—Dr. Charles V. Harris of the Medical Department, U. S. A., passed through here to-day en route to Washington on important business with the department. He comes from the Philippine Islands and says the reports of the excellent health of the American troops are false. Dr. Harris stated that many United States soldiers, discharged over their physical condition, deliberately place themselves as a target for the enemy's guns. It is the opinion of Dr. Harris that if the American troops remain in the Philippines any great length of time sickness and death is sure to follow.

### ENDS LIFE WITH POISON.
