

SOLDIERS WAKE
WHIGS LEVEL
EAST STREET

Beer and Wine In-
flame Their Blood.

A CORPORAL'S GUARD BUSY

WHALER HORATIO WRECKED IN
THE CAROLINES.

The Morgan City Will Take "a
Happy Family" in the Engine-
Room—Ships Adrift in
the Bay.

The United States transport Warren
(Scandia) will leave for Manila at an
early hour this morning. She was to have
sailed yesterday afternoon, but the sol-
diers who were to go on her had not all
arrived. Her full list will consist of 800
officers and men from the artillery and
60 recruits for the various regiments in
the Philippines. About a thousand of
these men were put aboard the transport
early in the day, but as they were given
shore leave they might as well have been
allowed to find their own way aboard in
the first place. The saloons on East street
near Polson were crowded during the after-
noon and free fights were almost con-
tinuous. A large force of men from the
Harbor police and a corporal's guard
were on hand and as soon as a soldier be-
came too obstreperous he was bundled
aboard and locked up.

The Hancock, which was scheduled to
leave on Monday night, did not get away
until thirty minutes past midnight. She
will reach Honolulu about thirty-six hours
ahead of the Warren and should be consid-
ered ready to sail by the time the latter
arrives.

The Morgan City and the Newport were to
leave the whaling bark Yrider at the
Newport will probably get away, but the
chances are that the Morgan City will not
leave before Tuesday morning. The machinery
requires considerable overhauling and the
work cannot be finished by Friday
next. The Morgan City will go on to
"happy family" in the engine-room.
When the transport made port all the
odds of the firemen's strike was put
under the foot of the engine. L. N.
Green, it now transpires that Green was
in reality the peace-maker and patched up
the differences of the men. Everything has
been adjusted and Chief Engineer W.
H. Kelley, First Assistant L. N. Green,
Second Assistant S. M. Bovee, Third As-
sistant B. Gorman and nearly all the
officers, firemen and coal passers who came
in on the vessel will go out on her again.
It is said that a new captain will sail in
command, as Captain Dillon will resign.

Intelligence was received yesterday of
the wreck of the whaling bark Horatio at
Port Lotin, in one of the islands of the
Caroline group. The captain and crew
were picked up by the barkentine Ruth
and will be brought to this city. The Ho-
ratio went on a reef and is reported to be
a total loss.

The new tug Fearless, which has been
built for the J. D. Sprackles Tugboat Com-
pany, will have her trial trip to-day. Cap-
tain Harry Marshall, formerly in com-
mand of the Active and lately of the Mon-
arch, will have the captaincy of the Fear-
less.

Captain J. Bennett, who has been for
many years connected with the Pacific
Coast Steamship Company, has resigned his
position as superintendent.

The battleship Iowa will be open to
visitors to-day, commencing at 1 p. m.
The launch William D. will carry pas-
sengers out to her. The Iowa is up off
the Union Iron Works, so excursionists will
get a delightful ride on the bay as well
as a visit to the battleship.

BATTLE-SCARRED PANTS
AND SMUGGLED CIGARS

There was a peculiar seizure made by
the customs officers on the transport Sen-
taurion.

New Rupture Cure

Marvelous Effect of a System That
Heals Perfectly.

Citizen of Paoli, Ind., Tries the
Plan With Wonderful Success.

Considerable local interest has been aroused
at Paoli, Ind., by the recent cure of a rup-
ture of W. T. Moon, a prominent citizen of that
locality. Heretofore rupture has been consid-
ered an incurable malady. There are hundreds
of different styles of trusses, but as they only
sustain the rupture, the popular belief that
rupture cannot be cured is probably firmly
fixed.

Mr. Adams, N. Y., a well-known specialist
of that pretty town has devised a method that
cures rupture securely and restores the virtue
of the abdominal cavity, and it also has the
virtue of causing the opening, or "ring," as it is
called, to grow smaller, and the system
to Mr. Moon, this gentleman having previously
tried to the doctor for advice. A number of
cases, which were deeply interested in the
outcome of the test, and sure enough, as
the doctor predicted, in a few weeks the rup-
ture was healed and the patient cured so
piously as to give no sign that there ever had
been a rupture. Mr. Moon declares that a
severe test the entire neighborhood was con-
fined and quite a number of ruptured people
have since recovered. Mr. Moon's cure is a
system a marvel. It is the discovery of Dr.
Adams, N. Y. To all people who are ruptured or who
suffered the doctor will mail free an illus-
trated book, and if he has a permanent cure
for rupture, write for it. Do so at once, since
to know that there is a permanent cure for
rupture will renew the hope of many men and
women who are now despairing under the mis-
taken belief that they cannot be cured.

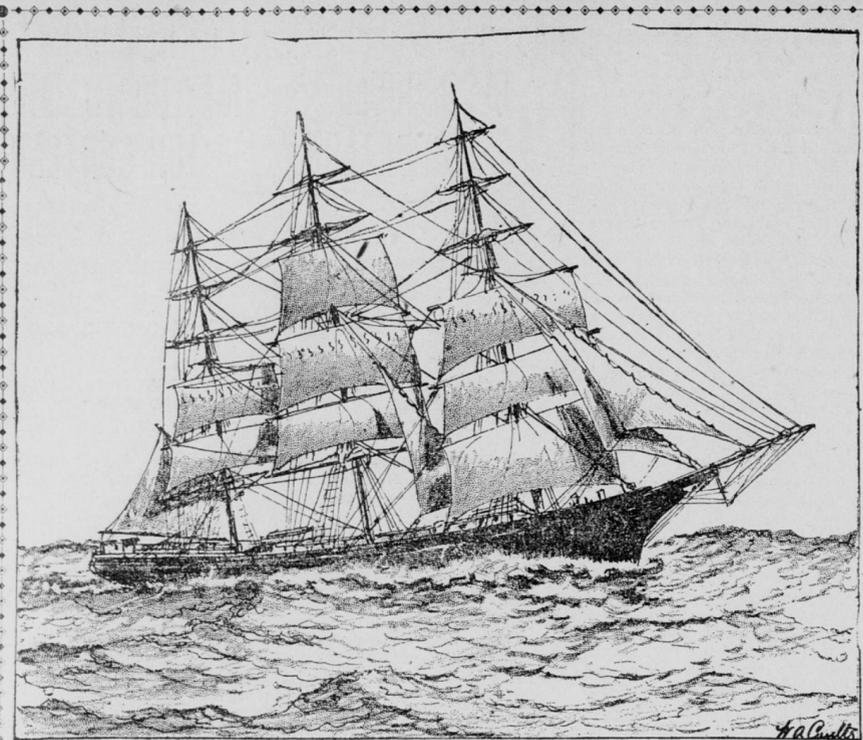

NERVITA Restores VITALITY
LOST VIGOR,
AND MANHOOD

Cures Impotency, Night Emissions and wasting
cases, effects of self-abuse, or excess and
indiscretion. A Nervetic and blood-builder.
Brings the pink glow to pale cheeks and re-
stores the fire of youth. By mail 50c per
box 3 boxes for \$2.50 with written
guarantee to cure or refund the money.

Nervita Medical Co., Clinton & Jackson Sts., Chicago,
Cwi Drug Co., Sole Agts., 1123 Market, S. F.

She Won't Wed Yet.

Letters from New York authoritatively
deny the reports which brought from the
Empire City the engagement of Miss
Edith Dickson and Mr. Holcombe. Miss
Dickson, who is the daughter of Robert
Dickson, the big insurance man, is now
going to the city with her family. New
York. Mr. Holcombe and Miss Dickson
are friends of long standing, but their
friendship has never bordered upon a
deeper affection which usually terminates
in a betrothal.

LATEST ADDITION TO THE COAST FLEET.

THE clipper ship Chamer, purchased by W. E. Mighell, is one of the handsomest vessels in the
American mercantile marine. She has been commanded by Captain Holmes since she was launched,
but the veteran commander will now retire from the sea and take a well earned rest ashore. He is now
80 years of age, but it was only three years ago that he made his first venture on the sea of matrimony.
His wife awaits him in his home in New York.

POLICE INVESTIGATE
FLEISHMAN'S CHARGES

COMPLAINT OF A NOE VALLEY
FAMILY AGAINST HOODLUMS.

Reports of Officers Who Were De-
tailed to Examine Into the Al-
leged Persecution.

The police under Captain Gillen have
been investigating the charges of per-
secution at the hands of a gang of young
hoodlums, made by David Fleishman of
111 Jersey street, and published in last
Thursday's Call. Fleishman had also re-
ported the matter to Secretary Holbrook,
who has since been conducting an investi-
gation on his own account.

Sergeant "Scotty" Campbell, one of the
officers sent out to investigate, reported
in part as follows:
In talking with Fleishman I learned that
some of the acts complained of occurred as
back as last July. I afterward visited some
of the houses of the boys mentioned in the
report. Mrs. Green and her two sons
live in a foundry. The boy told me that
Fleishman accused them of setting off the can-
non last July, and they denied it, claiming
they had nothing to do with it, and they have
not spoken to him since that time, which
Fleishman admits. I interviewed the Smith
boy and his father, and they indignantly deny
that the Smith boy had anything to do with
the firing of the cannon and never annoyed
Fleishman in any way.

Sergeant C. F. Blank, another of those
who interviewed Fleishman, reported:
Mrs. Cronin, 117 Jersey street, stated she
never saw hoodlums in the neighborhood an-
noying any one. Mrs. Holloway, 1252 Church,
the wife of the late John W. Holloway, 125
Jersey; Mrs. Jackaliska, 1259 Church; Mr.
Duffy, 1211 Church, all make the same state-
ments. I visited the cat, dogs and cow
being shot, I failed to find any marks of the
same. I found one window broken, which he
traced to Arthur McKimley, who is elected
President. On the 24 of July, 1898, the boys of
the neighborhood made a small cannon out of
the pipe to celebrate the 4th of July; it ex-
ploded, and Dave Fleishman took it away from
them, being afraid of getting shot by the can-
non.

Officer E. J. Thompson submitted this re-
port:
About two months ago I received instructions
from you to call at David Fleishman's resi-
dence, 117 Jersey street, and see if he was
being annoyed by his family. I made in-
quiry of some of the neighbors, and was told
that they never noticed any boys in the
family. I also made passing calls, but failed
to find any boys or young men annoying any
one. On April 7 I made investigation about
another complaint received from Mrs. Fleish-
man, and she said they had been annoy-
ed by boys with air guns, and she said she
did not know who they were. I interviewed
some of the neighbors, and was told by
them that they had seen no boys around
with air guns or boys annoying them. I
made passing calls on the second and third
weeks.

Officer Nyhan reported as follows:
Regarding paragraph in The Call referring
to D. Fleishman, would say that on or about
July 4, 1898, Fleishman complained to me
that a gang of boys were annoying him at
his residence; also that boys broke a pane of
glass. At that time there were a number of
boys hanging about the house, and Fleish-
man pointed to one of the largest of them,
saying he was one of the boys who were an-
noying him. I noticed they were all dressed
in the same style, and they were all dressed
in the same style. I released him and cau-
tioned the boy to keep away from that place.
I have made passing calls on the second and
third weeks.

Officer A. J. Folsom made this report to
Captain Gillen:
Acting under your instructions, I made an
investigation in reference to my boy being de-
tailed by Mrs. Holbrook to watch and see if
any boys were shooting at my house, and
knew the boys and cats. I wish to state that
the boy belongs to an order called the Band
of Mercy, and that they are engaged in the
prevention of cruelty to animals, and that my
boy, Arthur Folsom, age 17, was acting under
my instructions and detailed by Mrs. Hol-
brook without my knowledge or consent to
watch the said Fleishman's place for two
afternoons, in company with another boy.

ROSENTHAL TO LEAVE.
The Noted Pianist's High Opinion of
San Francisco's Taste.

Moritz Rosenthal, pianist, will shortly
say farewell to San Francisco. It is not
because he does not like San Francisco
or that he wishes to return, but because
he is going to make his concert tours in
Europe for several years to come, and if
he returns to the United States he does
not contemplate making an extended tour.
Rosenthal is popular with women,
but he does not play to them or flatter
them. Rosenthal is a great walker and
can sprint a hundred yards in good
shape. He doesn't like anything better
than to box or work out in a gymnasium,
and if he is to risk hurting his hands, he
would have the gloves on every day.
He is so strong that he can hit the keys
of a piano pretty hard if he wishes, and
he is times when he commits aggra-
vated assaults and battery on the instru-
ment.

COCHRANE MAY DIE.
The Butcher Who Had His Skull
Penetrated by a Steel Sharp-
ener Is Very Low.

The police were notified yesterday by
Dr. Zobel that John J. Cochrane, the
butcher in the Bay City market who was
struck on the head with a steel sharpener
on the morning of April 7
thrown at his head with a steel sharpener
by Frank Austin, another butcher, was
likely to die. Cochrane had been at his
home, 786 Natoma street, since he was
struck, and his brain and the worst was
feared. He was taken to the city and County
Hospital for an operation.

Captain Spillane sent Detectives Ryan
and O'Dea after Austin, as he was out
on bonds on the charge of assault to mur-
der, and they found him at the market.
He was locked up in the City Prison
pending the result of the operation on
Cochrane.

BOYERS SEEK
REAL ESTATE
INVESTMENTS

Confidence in San
Francisco's Future.

STOCKS ARE SECOND CHOICE

MANY GOOD SIZED DEALS ARE
BEING NEGOTIATED.

Eastern Capitalists Looking to the
Metropolis of the Pacific as
the Coming Center of
Business.

San Francisco real estate continues
firm and active, with increasing pros-
pects of still greater improvement. This
statement is true, notwithstanding the
fact that the sales for the past week fell
somewhat below those of the preceding
weeks. There are more prospective buy-
ers in the market than for some time
past, and almost every real estate firm
in the city has deals under way involving
big sums, any one of which may be con-
summated at an early date. Money is
plentiful and investors are seeking to put
out their unemployed capital in some
of the largest returns. There is a decided
tendency to neglect stocks, which have
heretofore been a favored field for spec-
ulation for the more substantial and
safer investment in income-producing
real estate.

The recent rains, which washed away
all fear of a devastating drought
throughout the State, had much to do
with the feeling of confidence that now
prevails among all classes in the form, but
it does not account for the flattering
attention with which San Francisco is
at present being honored by the cap-
italists of the East. The recent announce-
ment that two big transcontinental rail-
roads were actively preparing to extend
their lines to this city, and to enter into
active competition with the Southern Pacific,
caused a general awakening to the
importance of the metropolis of the Pacific,
but the overshadowing cause of the sudden
turning of the searchlight of capital on
the city, and that which probably had
much to do with hurrying the plans of the
railroad magnates, is the absolute certainty
that San Francisco is the natural gateway
to the Orient, as about to enter upon an era
of unparalleled commercial prosperity. This
assertion is borne out by the big demand for
property in the wholesale district, prefer-
ence being given to sites convenient to
the water front. Then for some time a
few days ago a number of big transfers
in that section was about the first intelli-
gence of the largest business houses in the
city, but this by no means means the fact.
Negotiations are still pending for desirable
warehouse property, and the great firms
of the city have already begun to make
arrangements to make shipments to As-
iatic ports direct from San Francisco,
instead of the long route to New York
here, instead of simply maintaining
agents here, as has been the practice
heretofore.

But real estate activity is not confined
to the wholesale district. The entire city
is being developed, and confidence and sales
are being made daily in every section of the municipality. One
of the largest pieces of property in the
week was one made by Mrs. Amy Warner
to Mrs. Jennie Otto of the property at
the corner of Broadway and Howard street,
consisting of twenty-second and
Howard streets, consisting of 250,000
square feet, with ten flats. The price paid
was \$117,000, and the negotiations were
conducted by the law firm of
J. P. Dockery, Belle W. Conrad and
Dr. Kemp Van Lee were appointed a com-
mittee to prepare resolutions in respect
to the memories of the late past grand
protectors, T. A. Lander and S. B. Carle-
ton.

In the evening there was a banquet in
the upper hall of the Pythian Castle,
where there assembled about 125 mem-
bers of the order. The grand protector
presided, and after a sumptuous supper
there were a number of impromptu
toasts, which were responded to by
grand officers and prominent members of
the order.

This will be a session to-day, when
the grand officers will be elected.

Ocean Water Tub Baths.
361 Eighth st., corner Mission. Salt water,
direct from ocean.

Filipinos at the Fair.
At the meeting of the Mechanics' Insti-
tute trustees held last night \$3000 was ap-
propriated to defray the expenses of an
exhibit from the Philippine Islands. A
telegram was read from the War Depart-
ment, stating that the Government would
furnish free transportation of the
exhibits and of the natives who would
come to this city. The Filipinos
will work at their native industries, build
the hut and erect a typical vil-
lage in the Pavilion portraying life in the
Philippines. It is expected that a band
will also be brought over.

Five to six hundred volumes of duplicate
books were ordered donated to the Maso-
nic Widows' and Orphans' Home.

99 Cleveland bicycles, \$40 and \$50; 99
Crescents, \$35. Leavitt & Bill, 309 Larkin.

Pink Dominos.
All was couleur de rose in Native Sons'
Hall last night, for it was the pink
domino party of Buena Vista Parlor of
the Native Daughters. The decorations
were pink, the attire of the ladies and
gentlemen was pink and even the lemon-
ade was of a pinkish hue. It was the first
effort of the parlor in that line, and while
the hall was not as crowded as on occa-
sions of other functions it was an exceed-
ingly pleasant and enjoyable gathering.
Native Daughters and Native Sons, the
affair was under the direction of the fol-
lowing executive committee: Miss Annie
Worth, Mrs. E. P. Wehe, Mrs. L. V. Bur-
th, Miss Emma Benning, Mrs. Burry,
Mrs. Dill, Mrs. Greene, Miss Mamie
Wells and Miss Belkowsky.

CAPTAIN DILLON'S CASE.
If Convicted of Beating a Sailor He
Will Have Another Chance on
Jurisdiction.

Because Captain John G. Dillon of the
Government transport Morgan City bat-
tered a refractory sailor on the head with
a Mauser rifle in the harbor of Nagasaki
and was tried by the Federal court, it
was taken up in the United States District
Court with an argument on the question
as to whether the captain should be tried
by the whole of yesterday's forenoon
whether a court-martial by the military
authorities was the proper mode of pro-
cedure. Before the question was decided
Judge de Haven ordered the trial by jury
to proceed, the counsel for the defendant
to be given an opportunity of asking for
a continuance of the trial. If ac-
quitted there would be no necessity for
determining the issue of jurisdiction.

The testimony was given in the close
of the day's session and the case will be
submitted to the jury this morning.

Muscular Mrs. Collins.
William Brown, a collector for Lang's
agency, went to Mrs. Collins', Colum-
bia and Howard street, yesterday
morning to collect a bill. When he made
his call known Mrs. Collins caught him
by the coat collar and threw him to the
bottom of the front stairs. Brown hur-
ried to the City Hall and swore out a
warrant against Judge Grant's com-
mission. Mrs. Collins' arrest on a charge of bat-
tery.

tee. The plan of extension contemplates the establishment of new granges in counties in which there are none. The organization comprises fifty granges at the present time, all in a prosperous condition. It is the intention to enlist the co-operation of the farmers in order that the number may be increased to one hundred. A canvass of the State will be made, and the end of the year will probably see the accomplishment of the desired result.
