

THE HAND OF HERRIN IN LOCAL POLITICS

Plan to Stuff Democratic Convention.

CAUTION TO REPUBLICANS

ANY RAILROAD TICKET WILL BE DEFEATED.

Heelers and Tongs Imported From Oakland and San Jose to Assist the Rainey-Examiner League.

The Registrar of Voters is anxious that each party putting forward a delegate ticket to be voted for at the primary election next Tuesday shall send to his office the names of proposed delegates in each Assembly District in order that such names may be printed in the tally books and semi-official return blanks.

The faction of the Democratic party which is controlled by Gavin McNab and Jasper McDonald has completed its delegate ticket in every district, excepting the Fortieth. The list is put forward as the genuine Phelan ticket.

The followers of Buckley and the rounders comprising the Rainey-Examiner League have not completed their tickets in all the districts. Buckley and Rainey have harmonized in several districts.

The Rainey-Examiner League and the McDonald-McNab faction have come to terms. The indications are that each of the factions will secure a block of delegates.

On election day the Fire Department forces will be brought to the front under the leadership of the Rainey-Examiner League. It would not be surprising if the Rainey-Examiner League were to be the party to receive the support of the Fire Department.

The Rainey-Examiner League is an expert in stuffing ballot boxes. The Rainey-Examiner League is an expert in stuffing ballot boxes. The Rainey-Examiner League is an expert in stuffing ballot boxes.

Agents of the Southern Pacific Company have been taking an active part in Democratic politics since the election of the municipal campaign. At the outset Herrin calculated that the Democrats would have a walk-over and accordingly laid his plans to secure control of the municipal convention of that party.

Herrin is a Democrat and therefore has no right to advise or instruct Republicans. Because he managed the contest of Dan Burns' contest for the United States Senatorship some people obtained the impression that he belonged to the Republican party, and others ironically remarked that the Republican party belonged to him.

The real fact is Herrin is a "divided-the-wool" Democrat and as such he should confine his political instructions to the Democratic party. The Call will expose promptly any attempt to foster party servants on the Republican municipal convention.

Republicans will not take orders from the Southern Pacific. Events at the Sacramento last winter clearly and forcibly demonstrated the fact that political bosses and railroad managers cannot control the Republican party. Voters should bear in mind that two daily papers in San Francisco that supported Herrin in the fight to force the Republican League of San Francisco are now standing in with the Democratic bosses to turn over the city to the railroad corporation.

Measures Adopted to Bring Support to Delegate Tickets. The committee on permanent organization and order of business, which was appointed by the Republican Advisory Central Club last Wednesday night, met at Joseph S. Spear, chairman, called the meeting to order. Maurice L. Asher, secretary, noted the proceedings.

The committee resolved to recommend for permanent officers the temporary officers elected last Wednesday night. At the suggestion of Colonel T. V. Eddy the following resolution was adopted:

Resolved, That the Republican County Committee of the city and county of San Francisco be and they are hereby requested to notify by circular or otherwise the executive head of the municipality of the names of the candidates in the various districts for delegates to the forthcoming local convention who have been regularly chosen as such candidates under the regular Republican organization of said city and county.

The announcement was made that there would be a meeting of the Republican County Committee at Shields Hall this evening, hence a sub-committee was appointed to present the foregoing resolution.

An address or appeal to voters in each Assembly District will be issued to-day by the Central Republican Committee and Citizens' Republican League of San Francisco. The appeal is signed by

Henry T. Scott, James A. Wilson and Z. L. Dodge. The document gives the name and address of each candidate for delegate. The headlines of the address contained the following words in displayed letters:

DEATH KNELL OF BOSSISM. Freedom From Political Outlawry at Hand. WORK OF THE CENTRAL REPUBLICAN COMMITTEE.

Its Purpose to Secure a Convention of Reputable Citizens and to Elect Honest Men to Office. Regarding the candidate for Mayor the

municipal convention. Some thirty or forty names were offered by the members present for the twenty-three delegates to be elected at the primary election to be held on the 9th inst. A committee consisting of F. A. Elliott, Charles Pierce, William Wright, N. R. Doolittle, George Hughes, John Sykes and Peter Sheridan was appointed to select the candidates of the club for delegates to the convention.

The Street Committee of the Board of Supervisors yesterday decided to recommend for adoption the original underground wire ordinance framed by the Merchants' Association, despite the allegations that have been made that the proposed law had a clause in it which would permit the San Francisco Messenger

GOOD HUNTERS HOME FROM THE FROZEN NORTH

Arrival of the Charles Nelson.

SEALERS AT DUTCH HARBOR

A FLEET OF THEM READY TO ENTER BERING SEA.

Mutiny on the British Ship Talus. Six of the Crew in Irons When the Vessel Went to Sea.

The Alaska Exploration Company's chartered steamer Charles Nelson arrived yesterday afternoon from St. Michael via Dutch Harbor. She brought forty-seven soldiers of the Third Artillery, who spent a year in frontier duty on the Yukon, 64 cabin and 19 steerage passengers.

Among the Charles Nelson's 103 passengers there was not \$150,000 in gold dust. Almost everybody aboard had a little. But in some instances the little they had cost more than twice its value to secure.

The Charles Nelson stopped thirty-six hours at Dutch Harbor. A fleet of eight-seen sealing schooners was there and all were waiting to go into Bering Sea on August 1, when the place was open for sealing. The revenue cutter Grant was also there coaling. She had been on a cruise around the Pribiloff Islands and was going back into the sea with the sealers.

The revenue cutters Rush and Wunivak were at St. Michael when the Charles Nelson sailed. If the Wunivak could get up the river she will winter at Dawson, but there seems to be some question about her draft, so nothing had been done with the steamer at the time of the sailing of the Nelson.

The Charles Nelson brought down 2443 pounds of whalebone from one of the whalers that met her at Unalakleet. Rev. Ralph Kedrook, the Russian mission missionary at that place, and his wife came down on the steamer.

The crew of the transport Senator was paid yesterday. There is some doubt as to the sending back of the steamer. The Government is very anxious to get many men to the Philippines as quickly as possible before the spring campaign opens, so the chances are that the Senator will go back. Chief Steward George Hume was on the sick list all the latter part of the voyage and will start for the springs to-day to recuperate.

There will be a number of changes in the engineer's department and Purser Campbell may not go out on the vessel if she returns to Manila. Captain Batchelder was treated to a surprise at the Government wharf yesterday morning. A few days ago he shaved off his mustache and his many friends said it improved his good looks considerably. Imagine his astonishment, however, when nearly every employe on the wharf put in an appearance yesterday with clean upper lip. Harry Scott, superintendent of the dock, was the first to arrive, and Batchelder had to look at him twice before he recognized him. A few minutes later along came Port Steward Russell and right behind him came Captain Dunn, the chief steward. When Captain Batchelder saw that they also were clean shaven he began to wonder, but when Clerk Harry Parker, F. R. Patterson and Joe Matthews came along minus any hair on the upper lip, he was disgusted and headed the boat ship relief. All the gatekeepers decided to shave off their mustaches last night, so there should be a clean-shaven force on the Government wharf to-day.

F. W. Marquart, a Berkeley bicyclist, is laid up in the Harbor Hospital with his leg. He started up Clay street from the

ferries, and seeing a wagon taking up the center of the road he went to the right. The driver of the wagon wanted to make a stop on the north side of the street, so when Marquart went to the right the driver turned his horse to the left and the collision followed. The bicyclist was stunned by the fall and was badly bruised that he had to be removed to the hospital in the ambulance.

The Pacific Mail Company's steamer Barracouta arrived from Acapulco yesterday in ballast. She has been on the run between Panama and Central American ports and has come home for an overhauling.

There was trouble on the British ship Talus yesterday and when the vessel put to sea six of the crew were in irons. Sergeant Bunner and Officer McGowan of the harbor police went as far as Fort Point on the ship and then Captain Stenhouse said he could handle the gang himself. There is a great scarcity of men on the front and Captain Stenhouse had some trouble in getting a crew. Six A. B.'s cost him \$20 in "blood money" when these men refused at the last moment to go out in the ship it made the captain angry. The police were summoned and the mutineers were placed in irons. The captain was then a quantity of men on the ship to sea, but finally secured some men from the shore to go as far as the light-ship with him. The mutineers were then boarded the tug and came back to the ship. Captain Stenhouse told Sergeant Bunner that as soon as the ship was under way he would release the mutineers and put them to work, so the six men are now probably standing an extra watch for the trouble they made.

The preliminary examination of Cornelius Manning, charged with the murder of Mrs. Mary Kennedy by throwing a lighted lamp at her on the night of July 4 in his mother's house, 241 Jones street, was continued before Judge Conlan yesterday. Dr. H. E. Morrison of Dutch Harbor testified to the nature of Mrs. Kennedy's wounds.

Thomas Kennedy, a boy 8 years of age, and nephew of the dead woman, contradicted his uncle in two important particulars. He testified that the lighted lamp was in the dining room, and that one lamp was in the dining room and the other in the kitchen. He testified that he examined the lighted lamp in the dining room and that both lamps were in the dining room. He testified that after the fight on the lounge in the dining room grab hold of the lamp and turn it upside down and that he saw the lamp and his brother then ran out, as they were scared of being burned. When Manning grabbed hold of the lamp he said "N. B. have got it. He did not see any lamp thrown."

John Tarleton, 14 Lick street, testified that he called at the Manning home that night and they were all drinking steam beer. He left before any trouble began. Sergeant Anderson and Policeman Attridge testified as to the evidence, and Mary Manning, sister of the defendant, identified it as the door of a closet in the dining room. Wilson said that the door would play an important part in the defense. At Wilson's request a continuance was granted until Monday.

ESTATES OF THE DEAD. Wills of P. H. F. Nau and an Elise Braunschweiger Filed. The will of P. H. Frederic Nau, who died July 2, leaving property valued at \$800, was filed for probate yesterday. Decedent bequeaths his personal effects to his daughter, Mary Nau. The residue of the estate devolved upon and shared alike, to his children, Mary, John B. Anne, Ada and Sidney James Nau.

The will of Elise Braunschweiger, who died July 2, was also filed for probate. Decedent's estate is valued at \$10,000. It is bequeathed in total to Hermann Braunschweiger, husband of the decedent.

Schools and Colleges. SELBORNE SCHOOL FOR BOYS, SAN RAFAEL. This school will reopen on August 29, with handsome new buildings, heated by steam and lighted by electricity. Every pupil has separate room, choice of bedrooms on first and second floors. Steam from outside, no furnace, no pipes, no gas in boys' quarters. The principal approach to a fire-proof school. For catalogue, testimonials and descriptive matter, apply to principal, CHARLES HITCHCOCK, San Rafael.

HOITT'S SCHOOL, MENLO PARK, SAN MATEO COUNTY, CAL. is rebuilding with all modern improvements. Will be thoroughly equipped for the next year, August 15th. Beautiful surroundings, home influences. Offers superior advantages for case and thorough training of boys. Accredited at the universities. IRA G. HOITT, Ph. D., Principal.

ST. MATTHEW'S MILITARY SCHOOL, SAN MATEO COUNTY, CAL. is rebuilding with all modern improvements. Will be thoroughly equipped for the next year, August 15th. Beautiful surroundings, home influences. Offers superior advantages for case and thorough training of boys. Accredited at the universities. IRA G. HOITT, Ph. D., Principal.

MISCELLANEOUS. ULCER OF THE CORNEA. Magical Cure of a Difficult Eye Trouble by Dr. Aborn.

One of the most important branches of medical practice is the treatment of the eye and the cure of ailments to which the human optic is subject. In this practice Dr. Aborn of 554 Sutter street has become proficient to a marked degree. The following testimonial as to Dr. Aborn's qualifications in this respect is given:

SAN FRANCISCO, Aug. 3, 1899. To Whom It May Concern: This is to certify that Dr. Aborn, 554 Sutter street, cured my left eye in two days as far as made. My trouble was ulcer of the cornea, which caused me great agony. In two days' treatment by Dr. Aborn I was thoroughly cured. EUGENE B. PHIPPS, 11 Elwood street.
