Eighth Regiment Ordered to Proceed in Pursuit of the Indians.

NINTH WILL FOLLOW

News Received of the Killing of American Prospectors, Women and Children.

Special Dispatch to The Call.

DURANGO, Mexico, Aug. 4.—The military authorities here were today advised that the Rurales are to have a prominent part in the conquering or extermination of the rebellious Yaqui Indians.

ST. LOUIS, Aug. 4.—A special to the Republic from El Paso, Tex., says: A dispatch received this evening from Hermosillo, Mexico, the headquarters of the Mexican army operating against the Yaquis, says:

The Mexican Government anticipated the Indian outbreak and had made heavy shipments of war material into the State of Sonora for two months.

The Government will place 40,000 men in the field if necessary. The rebellious Yaquis now number 4,000 well-armed warriors.

The telegraph wires between Vican and Potam have been cut by the rebels and the troops are without communication with headquarters.

It is authoritatively reported that the Indians have slaughtered both women and children and that many American prospectors in the mountain region have been killed.

WILL SOON PROCLAIM HIMSELF PRESIDENT

Jimenez Says He Is All Ready for the Invasion of San Domingo.

Expects That After Landing on the Island With a Party of Well-Armed Americans the People Will Flock to His Standard.

Special Cable to The Call and New York Herald. Copyrighted, 1899, by James Gordon Bennett.

HAVANA, Aug. 4.—In an interview today Jimenez stated that two of the men who were connected with the assassination of President Heureaux of San Domingo were confidential agents of his.

Jimenez displayed a cipher telegram which he received from an agent in San Domingo this morning which reads as follows: "Revolution commences to-day in Dajabon. Send definite answer when you will arrive. Must be as early as possible."

Jimenez replied: "Be there by last of month with party. Delay so as to avoid bloodshed. Think present Government will retire before then."

Jimenez declared that he has 30,000 stands of arms in Cuba ready to be used, and part of the filibusters in the United States are prepared to sail at once.

When asked if he did not think the United States would stop his expedition, he smiled and said: "Has the United States enough vessels to guard the entire coast of Cuba and the Isle of Pines that can be spared? Never fear; we will have no trouble in sailing, and we will sail soon."

Jimenez is said to be backed by Gomez and other prominent Cuban army officers. His plan is to land a party of Americans on the coast with a quantity of arms and ammunition, and then proclaim himself President. He expects that the people will flock to his standard.

WARSHIPS TO WATCH FOR THE FILIBUSTERS

WASHINGTON, Aug. 4.—Affairs continue quiet in San Domingo, according to all official advices received here. A dispatch to the Navy Department announced the arrival of the New Orleans at San Domingo.

Her commanding officer found no change in the situation. The New Orleans will remain at San Domingo City, while the Machias will make a tour of the island, putting in at principal ports.

The policy will be to keep warships in the waters of San Domingo and Hayti for some time to come, though it is probable that a smaller vessel than the New Orleans or Machias will be assigned to this duty.

The authorities place little credence in the boasts of Jimenez that he is coming to the United States to fit out an expedition against the Government of San Domingo.

As a precautionary measure, however, the authorities in Cuba have been directed to keep watch on his movements, and naval vessels in Dominican waters will be on the lookout for any filibustering expeditions.

ST. PETERSBURG, Aug. 4.—M. del Casse, French Minister of Foreign Affairs, arrived here to-day from Paris to return the recent visit of Count Muravieff, Russian Minister of Foreign Affairs.

LONDON, Aug. 5.—M. de Blowitz, the Paris correspondent of the Times, gives an extraordinary explanation of M. del Casse's present mission.

This is the explanation: "Emperor Nicholas is disappointed and tired of the throne. The absence of an heir excites his superstitious feeling and he connects himself with a Russian legend, according to which an heirless Czar is to be succeeded by a Czar Michael, predestined to occupy Constantinople.

ROOT FAVORS SENDING OUT A LARGER FORCE

New War Secretary Believes More Troops Are Needed in the Philippines.

When the Campaign Is Resumed in the Fall General Lawton Will Have Charge of the Active Military Operations.

Special Dispatch to The Call.

CALL HEADQUARTERS, WASHINGTON, Aug. 4.—Secretary Root's short experience in the War Department has already convinced him that the views of military commanders, subordinate to General Otis, who favor a larger military force than recommended by that officer, are worthy of serious consideration.

Secretary Root and General Corbin will visit Lake Champlain on August 12 to remain several days, and the whole Philippine situation will be thoroughly discussed with the President.

It is probable that General Wheeler will be given command of a brigade of cavalry in General Lawton's department. The boundary line of Lawton's department will embrace the territory in which there will probably be the heaviest fighting.

General Otis, while not being officially "turned down," will be relieved of much responsibility in connection with the conduct of the war, and will be left free to perform the duty of military Governor.

Secretary Root is in accord with the programme for increasing the force in the Philippines, and with the general plan outlined by General Otis for the fall campaign, which has been approved by the President.

Secretary Root favors an effective fighting force of about fifty thousand in the Philippines. With the provisional army of fifteen thousand already organizing, thirty thousand regulars already in the island, three volunteer regiments organizing there, and non-combatants of the Signal and Hospital Corps, a total of about 50,000 has already been provided for.

Secretary Foster replied that the committee would entertain all the soldiers that came. Requests from patriotic societies asking for places in the land parade have been received and accepted.

Admiral Dewey, with President McKinley, Governor Roosevelt, Mayor Van Wyck and the officials and guests who will take part in the celebration of the admiral's return, will review the land parade in his honor at Fifth avenue and Twenty-fourth street, where a triumphal arch will be erected for the occasion.

Triumphal columns on either side of Fifth avenue from Twenty-third street to Twenty-fifth will flank the arch and form an imposing approach. The structure follows in general style the famous arch of Titus.

Each pier will allegorically symbolize one phase of the war. One will typify patriotism or the call to arms, another war with vessels and troops in action, the home-coming of the victors will be represented in the third, and the fourth will show the volunteers returning to their peaceful pursuits.

Above these groups and serving as finials for the four columns will be portrait figures of admirals and naval officers famous in American history.

MESSINA, Aug. 4.—An American warship, presumably the Olympia, passed north to-day. PARIS, Aug. 5.—A dispatch to the Libre Parole from St. Pierre-et-Miquelon says Governor Dacin Sibour has been recalled.

The same paper says that the Austrian Government asked Admiral Dewey to explain the statement said to have been made by him that the next war of the United States would be with Germany and that the United States would be supported by England.

Admiral Dewey replied that he would deny nothing. He thereupon advanced the date of his departure from Trieste.

THAT SOUTH AMERICAN ALLIANCE IS DOUBTED

The Presidents of Argentina and Uruguay, Who Are Said to Be Planning to Unite Their States With Chili and Brazil in an Alliance Against the United States as an Offset to the Imperialistic Policy of the Latter.

WASHINGTON, Aug. 4.—There is no anxiety among officials at the State Department over the report that South American republics may form an alliance against the United States.

It is true that for some years there has been an unfriendly feeling in Chile and Argentina, which is easily explained and quite natural. President Harrison had to give Chile a lesson in manners, and Argentina is controlled by British and Italians, who think they are our rivals.

MANCHESTER, Mass., Aug. 4.—Senor Aspiroz, Mexican Ambassador to the United States, who is spending the summer here, was much interested in the dispatches which reported the departure of President Roca of the Argentine Republic with the Minister of Foreign Affairs and thirty Senators from Buenos Ayres for Brazil.

Senor Aspiroz said he had not learned of such a movement. He gave it as his opinion there could be no foundation in fact for the report that an alliance was contemplated between the South American republics against the United States, and to bear him out in his opinion referred to the movement started by Brazil, with a contribution of \$250,000 for the purpose of establishing a steamer line between that country and the United States, Nicaragua and Honduras, he asserted, intended to contract an alliance between themselves, but the Ambassador holds that to be insignificant.
