CAPE HAITIEN, Sept. 3.—Juan Isidor Jimenes, the revolutionary aspirant to the Presidency of the Republic of San Domingo, left Calmanera yesterday on board the

George S. Croose for Baracoa, from which point he will proceed to Port au Prince and then to Puerto Plata, where he is patiently awaited.

PUERTO PLATA, Sept. 3.—Governor Imbert has received a communication from the capital announcing the creation of a temporary governing committee consisting of Senores Cesteros and Logrono, and Generals Patino and Mejia and requesting his resignation of the governorship of Puerto Plata in favor of General Croce. Governor Imbert will comply with the request.

PRESIDENT'S PALACE AT SAN DOMINGO CITY.

Because members of the recent Cabinet of the republic were detected removing arms aboard ships in the harbor of the capital city, revolutionist sympathizers raided the palace and tore down and destroyed a picture of the late President Heureaux. Then the mob sacked the homes of several of the former Ministers.

FEDERAL GOVERNMENT

Policy of the President in Relation to Our New Dependencies.

CHANGE AT MANILA

Civil Rule by Three Commissioners to Supplant the Present System.

Special Dispatch to The Call.

CALL HEADQUARTERS, WELLINGTON HOTEL, WASHINGTON, Sept. 3.—There is good authority for the statement that the President has returned to Washington with these general ideas uppermost in his mind as to his future course in relation to new dependencies:

The Philippines—Civil government by three commissioners to supplant the military rule immediately after the rebellion is crushed.

Cuba—Continued military control until it is determined by means of general election whether the inhabitants want independence or annexation.

Hawaii—Territorial form of government as recommended by the Hawaiian commission and as provided for in a measure now pending in Congress.

Some weeks will elapse before the President settles down to the actual preparation of his message, but he has returned from his vacation with some well-defined views as to the difficult problems which will be presented to him by the members of his Cabinet.

Future discussion with his Cabinet may change somewhat the President's views as to the form of civil government best suited to the islands.

It is appreciated that it will be some years before the islands are ripe for even a territorial form of government, and the President has decided that the control by commissioners, the same as the District of Columbia is governed, is deemed a happy substitute for military government.

AIRSHIP MOUNTS TO THE PINNACLE OF A CHURCH STEEPLE

EVANSVILLE, Ind., Sept. 3.—A farmer who invented an airship several months ago gave an exhibition of his invention at the Spencer County Fair, at Chrisey.

The management of the Chrisey fair secured the farmer's machine as the chief attraction with the understanding that he was to give an exhibition each day, and on the last day was to sail from Chrisey to this city, a distance of forty miles.

The inventor in vain tried to stop the fall, and soon the machine struck a church steeple and hung there, like Baron Munchausen's horse.

The ranchers, who have large holdings in the country tributary to the Tuolumne, are said to look forward with much hope to the Government's coming to their relief.
