

AGUINALDO FLEES FURTHER NORTHWARD Shows Greater Strategy than Pursuing American Troops, who Now Suffer Fearful Hardships.

Special Cable to The Call and the New York Herald. Copyrighted, 1899, by James Gordon Bennett.

MANILA, Nov. 22—12:50 p. m.—Aguinaldo has escaped between Generals Young and Wheaton. General Young is pushing toward Bayambang.

MANILA, Nov. 21.—The opinion of many military men and resident foreigners is that Aguinaldo has probably escaped by changing his seat of war into northern part of the island. They think he has taken a considerable army with him. This, if true, will necessitate a new series of operations on our part.

THE GREAT DOCTORS.

Remarkable Cures Being Effected at the State Electro-Medical Institute.

The Return of the Great Physicians and Specialists Hailed With Delight

By the Weak, the Sick and Afflicted of the Pacific Coast.

Science, skill and knowledge is absolutely necessary for the successful practice of medicine and surgery. Those qualities, when coupled with fair and honest business principles, are bound to insure satisfaction to patients, as well as great increase in practice. The best evidence of the science and skill of the celebrated physicians and specialists of the State Electro-Medical Institute is the success attained in treating the sick, weak and debilitated, the lame and the unfortunate of both sexes, whose minds are all but gone as a result of their own follies. Cures which others might term miracles are now being effected by these great physicians. Unlike other specialists, the doctors demonstrate to the satisfaction of the patient their ability to cure by a treatment before entering into an agreement to treat. It is these fair business methods, in conjunction with their science and skill in handling disease, which causes their rooms at 737 Market street to be thronged from morning till late in the evening. It does not cost anything to consult the doctors. No incurable cases are taken. The electrical department of the institute is equipped with all kinds of electrical appliances, including galvanic, faradic and static electricity—all known to possess remarkable curative powers; and, when coupled with special treatment, the weak and debilitated are cured in a few days. The skillful eyes of the physicians and specialists of the State Electro-Medical Institute, the effect on disease is like throwing oil on troubled waters. This is being demonstrated daily—in innumerable instances, but in dozens of cases, Rheumatism, acute and chronic; lumbago, sciatica, etc., quickly succumb to the combined electro-medical treatment of the celebrated specialists. The effects of the treatment on such diseases must be seen to be appreciated. The cures are not only speedy and wonderful, but really miraculous. There is no longer need to suffer tortures from attacks of the above dreaded complaints.

The great specialists cure all difficult diseases of men and women, including nervous debility and all its attending ailments of young, middle-aged and old men. The awful effects of indiscretion in youth or excesses in after life, and the effects of neglected or improperly treated cases, weak back and sexual weakness.

Catarrh, head, kidney and stomach troubles quickly cured. Rupture, varicocele and hydrocele scientifically treated and completely cured. Call and examine testimonials showing the success of the specialists with their new system in treating rupture and varicocele. No cutting with knife; no detention from work or business.

Blood and skin diseases, syphilis and tumors cured quickly and more thoroughly than by any other system. Weak organs strengthened and lost manhood restored. Cures guaranteed in every case accepted.

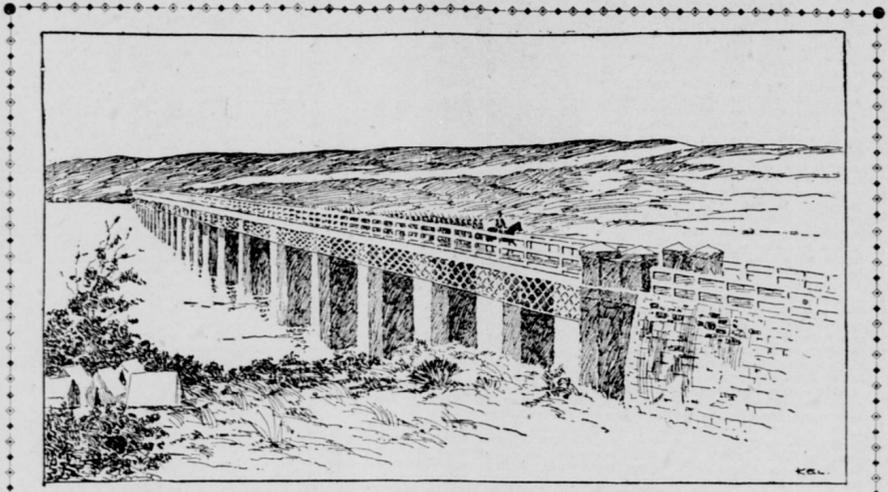

The following are some of the other diseases successfully treated: Catarrh, kidney diseases, bladder diseases, spine diseases, liver diseases, heart diseases, blood diseases, skin diseases, premature decay, unnatural losses, wasting drains, nervous debility, stricture, piles and special diseases.

DISEASES OF WOMEN—We take special pride in the success which has attended our efforts in the treatment of diseases of women. Permanent and satisfactory cures in ailments produced by abnormal or unnatural conditions of the female organs, painful menstruations, irregularities, barrenness, inflammation, hysteria, pain in the back and legs, neuralgia, dullness of vision, bearing down, leucorrhoea or whites, and other complaints which often result in great prostration and nervousness.

TREATMENT BY MAIL—Write if you cannot call at the office. A personal visit is always to be preferred, but for those who are unable to call, the doctors of the State Electro-Medical Institute have developed a system of Electro-Medical Home Treatment that is entirely successful, by means of which thousands who were unable to come at the office have been cured at home.

STATE ELECTRO-MEDICAL INSTITUTE Second floor, 737 MARKET STREET. Rooms 1, 2 and 3. Office hours—9 a. m. to 8 p. m.

BOER COMMAND CUTS THE TELEGRAPH WIRES Fighting at Mooi River Precedes the Battle to Prevent a Junction of the British Forces.

HOPETOWN BRIDGE OVER THE ORANGE RIVER. This bridge is on the line of the Cape Town-Bulawayo railroad, some seventy miles below Kimberley. Here Lieutenant General Lord Methuen is organizing a flying column, which in a few days will make a dash for the relief of Kimberley. The column will consist of the Grenadiers, Scots Guards, Northumberland, Northampton, Yorkshires and half of the North Lancshires, the other half being shut up in Kimberley. There will be neither cavalry nor artillery with the column.

LONDON, Nov. 22.—Late last evening the War Office made public two dispatches from General Buller at Cape Town. The first had been received from General Clery, dated Monday, November 20, and announced that three privates were wounded the previous day at Mooi River.

The second was from Colonel Baden-Powell, dated at Mafeking, November 6, saying: "All well here. We have had a few successful sorties. Our loss is two officers and seventeen men killed and four officers and twenty-nine men wounded. The enemy's loss is heavy. His numbers are decreasing, but his guns remain and shell us, keeping out of the range of our small guns. Have had no news from the outside since October 20."

LONDON, Nov. 22. 5 a. m.—The announcement from Durban that communication with Estcourt is interrupted seems to confirm the belief that a Boer commando has established itself at Willow Grange, or near the Mooi River, and has cut the telegraph wires. Nevertheless, whatever definite news the British commanders may have obtained from the scouts of the disposition of the Boer commando, the condition of beleaguered garrisons particularly, nothing has been allowed to develop for the public information.

It is certain that owing to the heavy work of debarkation and entraining at Durban the preparations for the advance of the relief force are in no way as advanced as has been supposed. This may also be due to the necessity of pushing stores and provisions to the front in needful quantities before the troops can be on the other hand the celerity with which troops are being pushed forward from Cape Town equally tends to show that all such preparations regarding forage and provisions were already well advanced before the troops arrived at Cape Town.

GENERAL GATACRE TALKS TO THE TROOPS. CAPE TOWN, Nov. 20.—General Gatacre, commander of the British column assembling at Queenstown, Cape Colony, made a speech to the troops there today. He said the regulars should watch and learn from the irregulars, who were acquainted with the soil and the habits of the Boers. When the forward movement is begun, he continued, there could be no question of stopping it, and he asked them to do their best, adding, "I will never ask you to do anything I am not willing to do myself."

Reports from the northern portion of the colony are more reassuring, but there is distinct danger of the Dutch actively espousing the cause of the Boers, who now effectively bar three lines of entry into the Free State. Most of the students of the Burgersdorp Theological Seminary joined them after the latter occupied the town.

Proclamations issued at Bloemfontein Tuesday, November 14, declare that the whole of Griqualand West, except Kimberley and Mafeking, are annexed to the Free State. The proclamations are signed by C. H. Wessels, President of the Volksraad.

The Midland News says that Messrs. Vanderwall and Cober, members of the Cape Assembly, have joined the Boer forces at Colesburg.

CONSUL MACRUM'S POWERS CURTAILED. LONDON, Nov. 21.—Callers at the United States Embassy to-day were informed that the United States is no longer friendly to Great Britain. All communications to the British prisoners now go through the ordinary military channels, which renders their ultimate delivery doubtful and certainly slow.

It is understood that President Kruger objected to Mr. Macrum on the ground that the United States claims to neutrality were prejudiced by his evident friendship for Great Britain. All communications to the British prisoners now go through the ordinary military channels, which renders their ultimate delivery doubtful and certainly slow.

According to the latest intelligence the forces in the field are situated and numbered as follows: British—General Clery, with 11,000 troops of an army corps, the greater number of whom have arrived; Border regiment, local forces and naval brigade has about 3000 men.

Boers—General Joubert, if he has really left Ladysmith, cannot have less than 15,000 to 20,000. General Gatacre with 5000 men is to advance from East London, clearing the Boers out of Stormberg Junction, Burgersdorp and Allwal North. Boer commands amounting to about 200 to 250 men are reported in this section. General Lord Methuen with a force which is probably about 14,000 strong is to advance from De Aar and Orange River bridge upon Kimberley. The Boers around Kimberley may have 6000 men. Kimberley garrison, about 2900 strong, has to be reckoned with.

It is reported that the Boers are also in strong position near the Modder River. It is expected that General Methuen's column will meet with stiff opposition in their advance.

Some close observers are skeptical about the published plan of this advance. They point out that if it was the intention to relieve Kimberley via Belmont it is hardly probable that the military censor would allow the publication of the information. A move in the direction of Bethulie would catch the Boers between the columns of Methuen and Gatacre, coming from Queenstown, and the garrison at Nauport.

TWO MEN SWEEPED TO THEIR DEATH BY A TIDAL WAVE Wharf at Bear Harbor, Near Covelo, Piled High With Freight, Is Completely Destroyed.

COVELO, Cal., Nov. 21.—A tidal wave that swept over Bear Harbor wharf to-day swept the death of two men and the destruction of much shipping. Bear harbor is a small shipping point on the coast. The names of the drowned are Frank Ward and Christopher Jones. An unknown man was rescued after having been in the sea twelve hours. A south-easterly gale had been blowing all night and morning, but no sea was felt for the safety of life and property around the wharf. Calvin Stewart, manager of the wharf, was superintending the arrangement of bark and lumber being piled at various vantage points about the wharf for the convenience of loading on a steamer that was expected to arrive. Suddenly the alarm was sounded to clear the wharf as an immense wave was sighted, but it was generally thought the mountain of water would break before reaching shore.

The tidal wave swept entirely over 600 feet of the wharf, lumber, machinery and wharf houses, carrying everything away. Fortunately all the workmen but three fled to high ground at the wave's approach. Hardly an instant seemed to elapse from the time the wave struck till the men and wharf were engulfed and no visible trace was left of the structure. Ward and Jones were never seen to appear in the sea. The unknown man who was rescued kept well up in the water and was seen to head for a small reef, which he reached in safety, and was rescued several hours later by a boat from shore.

Both Ward and Jones are married men and have families living in Westport. Pollard & Dodge of San Francisco are the owners of the dock. The loss includes valuable hoisting machinery, tan bark, lumber and a large miscellaneous cargo of freight ready for shipment to San Francisco. The damage cannot be accurately estimated, but it is thought to be well up in the thousands of dollars.

President Steyn of the Orange Free State, with Sir Alfred Milner's sanction, was arrested by Boers in the mountains and conveyed to Bloemfontein. It is understood that Mr. Schreiner's letter was a protest against the imprisonment of British subjects in Cape Colony.

THIS FROM PRETORIA. PRETORIA, Nov. 21, via Lourenco Marquez.—Monday's report from General Joubert's headquarters, which was presented to the Transvaal Council of War to-day, says:

"Heavy gun firing was heard in the direction of Estcourt on Saturday and continuous rifle fire is proceeding south of Ladysmith. A small sortie from Ladysmith this morning was repulsed. The Transvaal heavy guns fired a number of shells into the town this afternoon."

ONE MINOR BATTLE. DURBAN, Natal, Nov. 20.—Seven hundred Boers from Weenen took up a strong position on the Highlands, thirteen miles south of Estcourt, occupying Turner's farm, east of Mooi River. Major Thornycroft, with a detachment of mounted infantry, and the Estcourt Carabineers engaged the Boers, of which three were killed, including their commandant. The Boers withdrew, taking 200 head of cattle captured at Turner's farm. The main Boer force south of Estcourt is reported to have retreated.

BAD ACCIDENT AVERTED. SAN RAFAEL, Nov. 21.—Philip Flaherty and John Reilly found a number of trucks and express boxes piled upon the track of the Donahue line at the depot last evening and the Estcourt Carabineers removed them from the rails. It is believed that a number of boys who were roughly handled a few days ago for interfering with railway employes in the discharge of their duty attempted, out of a spirit of revenge, to derail the freight train, and the authorities are investigating the affair.

BARK IS WRECKED. Italian Vessel Fabio Strikes on the Palisades. KINGSTON, Jamaica, Nov. 21.—The Italian bark Fabio, Captain Boigiano, from Naples September 12 for Pensacola, Fla., was caught in a storm and damaged while trying to make this port. She struck on the Palisades Saturday and is now a total wreck.

Yeargood
TRADE MARK
CLOTHING

A "Yeargood" overcoat is all that a good overcoat can be—and lower prices mean lower qualities.

You get full value for your money in a "Yeargood" overcoat, and without a risk, either—your money returned if you want it or a year's repairing free.

Our blue serge suits are all wool—yes, every thread of the material, and that is why they are going to satisfy you so well. They will wear like most \$15.00 suits. They are our own make and we know their value.

The blue serge is the cloth of the year—quite likely because it makes such a good appearance and is so serviceable. Our blue serge suits are **\$10.**

Boys' Pants. They are made of remnants from our tailoring department—if they were made in the usual manner from materials selected for the purpose the prices would be \$1.00, \$1.25 and \$1.50; pants are lined, strong waistbands, well made, ages 3 to 14 years.

65c a pair.

ARRESTED BY THE BOERS. CAPE TOWN, Nov. 21.—Mr. Collet, the correspondent of the London Daily Mail at Stormberg, while bearing a message from Mr. Schreiner, the Cape Premier, to
