TWENTY THOUSAND FOREIGN TROOPS SOON TO BE MARCHING ON CHINESE SOIL

to abandon the archipelago, and the authorities have not forgotten the reports of this character spread by Aguinaldo when the withdrawal of volunteers last year was commenced.

Rear Admiral Remy has been informed of Admiral Kempff's needs, and it is expected he will do all he can to send light draft ships and men to his subordinate's assistance.

Peking is still isolated. Secretary Hay calls the failure of the United States and other powers to receive information relative to the condition of affairs in the Chinese capital a great mystery of the age.

What has become of Vice Admiral Seymour and his column is another mysterious feature of the situation. Commander Taussig's dispatch that "the admiral has returned to Tientsin," has not yet been satisfactorily explained.

Another diplomat who discussed the situation this afternoon stated that the crushing defeat of the "Boxers" and their allies would result in the dissolution of other movements of a similar character throughout China.

Consul General Goodnow at Shanghai informed the State Department to-day of the arrival of two steel cruisers at Shanghai. It is presumed these are British men-of-war, and that they will remain at that port to protect foreigners and their interests in case they should be attacked.

Neither this nor any European Government, according to the American officials, holds that a state of war exists between China and the world, as has been frequently reported.

Reports that Minister Wu will be given his passports and that an extra session of Congress will be called are declared to be nonsensical. The President feels that he has sufficient authority to send troops to China without convening Congress, especially as their sole purpose in going to the empire is to protect American life and property, and is not for the purpose of conquest or invasion.

It is the general impression that the imperial troops of China are engaged in the "Boxer" movement, but even if they are, this will not, according to State Department officials, make any change in their views with respect to the fighting in progress at Tientsin and Peking.

readiness. The British twin-screw cruiser Daphne arrived here to-day with ammunition. There are no signs of a disturbance.

WHEAT A FAILURE IN THE NORTHWEST

Expert Snow Declares the Yield Will Be Less Than Half That of Last Year

CHICAGO, June 22.—The Times-Herald to-morrow will publish a crop report prepared by Snow, the crop expert, who has just completed a two weeks' tour through the States of Minnesota, North Dakota and South Dakota.

He estimates the Dakotas are promising only 20,000,000 bushels each and Minnesota about 35,000,000—a total of 55,000,000, against 200,000,000 last year and 250,000,000 in 1898.

DULUTH, Minn., June 22.—Oliver Dalrymple, the big wheat grower of North Dakota, writes his son here as follows: "Ten days ago I wrote you one-third of an acre of spring wheat crop, but the crop is killed beyond redemption. The Grandin farm is running six plows in the wheat fields. I shall start plowing to-morrow and heavily all spring wheat farmers will be plowing under wheat next week unless heavy rains come."

man killed; the Italians had five wounded, and the Russians had seven men killed and five wounded.

During the night of June 17 the Chinese tried to seize the bridge of boats, but were repulsed with loss, including, it is reported, a Chinese general.

Rear Admiral Bruce at Taku telegraphed last night the further information that at Tientsin, June 20, fighting was continuing and that reinforcements were required. Mr. Broderick also said: "We have further heard from Admiral Bruce, dated Taku last night and Chefoo this morning, as follows 'I am hoping Tientsin may be relieved to-night. No news from the commander in chief. The terrible loss of the morning 382 officers and men of the Fusiliers.'"

In conclusion Mr. Broderick announced that he believed various other troops would arrive in a day or two, if they had not already landed, and that arrangement had been made by the Government to supplement very considerably the force already ordered to China.

MILES SAYS TROUBLE IS MOST SERIOUS

CLEVELAND, June 22.—General Nelson A. Miles, who came here to witness a test of the recently invented McClain ordnance, in an interview is quoted as saying: "The trouble in China is most serious and the result is difficult to predict. The United States will send enough troops to China to protect the Americans there and American interests. More troops than those already detailed will be sent to China as speedily as the situation demands. The dignity and rights of the Government will be upheld."

GROWTH OF AMERICAN COMMERCE WITH CHINA

Shows a Gratifying Gain, but Foreign Ships Do All of the Carrying.

WASHINGTON, June 22.—Consul Fowler at Chefoo, in a supplement to a former report to the State Department from Consul General Goodnow at Shanghai upon the United States trade with China, shows that in four years from 1896 to 1900, inclusive, we have doubled our sales with China. In 1897 the value of these sales exceeded those of all Continental Europe by \$20,257, in 1898 by \$41,739, and last year to \$6,191,968.
