NEGOTIATIONS NOT BROKEN.

It Is Said the Strike Will End Quietly Next Week.

NEW YORK, Sept. 25.—One of the men who participated in the plans for the settlement of the anthracite coal miners' strike and who is familiar with all the facts and immediate circumstances said in an interview last (Friday) night: "The rumor that negotiations looking to the settlement of the strike are off is untrue. It is turning out to be a very quiet day after day, at 10 per cent advance. There is no inclination to recognize Mitchell in the strike, and the fact of the miners really deserve the 10 per cent advance, and they probably would have obtained it anyhow when the question first came up if so many of the members of the different boards of directors had not been away on their vacations."

ROOSEVELT'S TOUR THROUGH KANSAS ROUSES ENTHUSIASM

Everywhere Is Well Received and Speaks to Crowds. Recent Assault on Carl Schurz Declares Roosevelt Is a Policy of Imperialism a Shame.

ABERDEEN, S. D., Sept. 25.—J. Bryan completed his tour of South Dakota at this place to-night. He arrived here at 8:30 o'clock and immediately repaired to the speaking place, near the Corn Palace, where he was met by one of the largest crowds that have greeted him during his campaign. The day here has been a very busy one, but the Democratic candidate had seldom appeared to better advantage. He was in excellent voice and spoke with distinctness and grace. During the day Mr. Bryan traveled 200 miles and made almost a dozen speeches. He began the day with a three-minute speech at Elk Point, and his first speech of length was made at Yankton. After this speech he made long addresses in the towns of Scotland, Mitchell, Woonsocket, Huron, Redwood, and Aberdeen. The crowds were large at all the places at which the party stopped, and especially so at this point and at Mitchell.

Mr. Bryan's remarks upon the starchy combination, as it affects the Argo works in Nebraska City, made at Yankton, were in part as follows: "The Republican party to-day stands for the trust, and if any Republican in this community tells you that the party is going to destroy the trusts I wish you would just cut out an editorial which appears in this morning's paper and surround it with a few words of your own and show him that the Republican papers to-day instead of trying to destroy the trusts are actually defending the trusts. You will find in the paper an editorial which appears in this morning's paper and surround it with a few words of your own and show him that the Republican papers to-day instead of trying to destroy the trusts are actually defending the trusts. You will find in the paper an editorial which appears in this morning's paper and surround it with a few words of your own and show him that the Republican papers to-day instead of trying to destroy the trusts are actually defending the trusts."

At Mitchell Mr. Bryan made the longest speech of the day, speaking for more than an hour. The audience numbered many thousands. The meeting was held on a vacant lot in the center of the city, an immense structure of Indian corn, the corn belt exposition was held. Mr. Bryan mounted a table and addressed himself to the people on one side and then to those on the other, going around the circle without partiality. Mr. Bryan began his speech by saying that he had not supposed that there were so many people in the country as there were present. The first part of the address was devoted to a presentation of Mr. Bryan's views upon the attitude of the Republican party toward the gold standard and national banks. He said that the Republican party was in favor of a gold standard and national banks, and that he was in favor of a gold standard and national banks.
