Dried Fruit in New York. Late mail advices from New York say: "The scarcity of 50-60 prunes continues the feature of the spot market, and the few holders of this size are still firm in their views. Sales of fair lots were heavy at 50c. Sixties also are firmer, many asking 54c. Bids of 40c were reported turned down. There is a good demand for 30-35s, holders asking 28 1/2c. The very small sizes are dull and easy with a good sale. In fact, demand is good for practically all sizes of prunes, excepting 70-80s. Outside holders on the whole are not inclined to sell on the 20c basis, but local buyers are unwilling to place orders except for immediate requirements."

The bears rallied their forces and raised stocks and bonds and the market was unsettled and tame and unsettled the close. The advance in Erie second preferred in the final hour was 1/2c and the other stocks rose 1/2c and 1/4c in sympathy. The St. Paul dividend increase seemed to fall flat on the market. The Erie preferred stock was held in the market in check all through the day. The stock was in a moderate decline during the morning, but when the increase in the dividend was announced selling to realize profit was not so much in evidence.
