**STEELWORKERS' STRIKE WILL SOON BE SETTLED**

Billion-Dollar Trust Arranged a Conference Which Means End of Strike Is Near.

PITTSBURG, July 6.—The strike of the American Sheet Steel Company and American Steel Hoop Company mill employees will probably be terminated next week. Arrangements were made in this city to-day for the holding of a joint conference in Pittsburgh between representatives of both companies, which are members of the United States Steel Corporation, and representatives of the Amalgamated Steel, Iron and Tin Workers for adjusting the existing labor troubles. The agreement to meet in conference means virtually a settlement of the strike, inasmuch as the operating officials of the hoop and sheet companies would not have consented to meet the workers' committee unless there was good prospect of immediate settlement, and it may be accepted as a settled fact that all the mills now idle will be in operation by the last of next week, and that the strike, which threatened the steel industry generally, will be averted in its incipency. It is stated on good authority that the conference will be held early next week, probably on Wednesday, and assurance is given that a settlement of the trouble will be speedily effected. The operating officials of the steel companies will meet the workers' committee, and as the question involved is not one of wages, but the extension of organization control to so-called non-union plants, an agreement is likely to be readily made.

Some minor differences also exist in the tin plate trade, and representatives of the American Sheet Steel Company and the American Steel Hoop Company, and the National Tube Company, the American Tin Plate Company and one plant of the National Steel Company, with a prospect of a settlement at its other plants in Youngstown district. The scale for the South Chicago and Joliet plants of the Federal Steel Company has been arranged, and can only be terminated by one side giving ninety days' notice of a desire for a change. The other plant of this company, the Bay View Works, is operating under a special scale, and no trouble in reaching an agreement is anticipated. The only trouble the big corporation has with the Amalgamated Association is with the American Sheet Steel Company and the American Steel Hoop Company.

A statement issued from a prominent Amalgamated official as to what brought about the proposition for a conference gives as the reason the fact that the American Tin Plate Company was given notice last week that if the steel hoop and sheet companies would not meet with the manufacturers by a certain date, namely a day in the close future, the Amalgamated Association's president will be instructed to enforce the authority given him by the constitution to call out union employees of the United States Steel Corporation.

**WALL OF ICE BLOCKS GLACIER BAY'S ENTRANCE**

**Avalanches Due to Earthquakes Are Constantly Sliding Down the Mountain.**

PORT TOWNSEND, Wash., July 6.—The excursion steamer Conger arrived from the north to-day. Her officers report Glacier Bay one mass of ice and that vessels can approach to within no nearer than fourteen miles of Muir glacier, an ice jam from thirty to forty feet high extending across the bay. According to Fleet Lieutenant Johnson, such a mass has not been known since excursions started on the northern run fourteen years ago, and he attributes it to several severe shocks of earthquake last winter. These shattered the immense glacier and ice cakes are sloughing off faster than the tides can carry them out of the bay. The ice floes in the channels are greater than ever known before.

**Captain Wilson Insane.**

SAN RAFAEL, July 6.—William D. Wilson was to-day committed to the Ukiah Insane Asylum by Judge Angellotti. Wilson came from Sausalito, where he has resided for years. He will be remembered by thousands of divers as captain of different steamers on the bay. For some time he was captain of the Sausalito. He was very popular and a thorough seaman.

American Tin Plate Company and the workers will meet to adjust these. The United States Steel Corporation has arranged terms with the Amalgamated Association for the union mills of the National Tube Company, the American Tin Plate Company and one plant of the National Steel Company, with a prospect of a settlement at its other plants in Youngstown district. The scale for the South Chicago and Joliet plants of the Federal Steel Company has been arranged, and can only be terminated by one side giving ninety days' notice of a desire for a change. The other plant of this company, the Bay View Works, is operating under a special scale, and no trouble in reaching an agreement is anticipated. The only trouble the big corporation has with the Amalgamated Association is with the American Sheet Steel Company and the American Steel Hoop Company.

A statement issued from a prominent Amalgamated official as to what brought about the proposition for a conference gives as the reason the fact that the American Tin Plate Company was given notice last week that if the steel hoop and sheet companies would not meet with the manufacturers by a certain date, namely a day in the close future, the Amalgamated Association's president will be instructed to enforce the authority given him by the constitution to call out union employees of the United States Steel Corporation.

**SHOT BY MAN WHOM HE ADJUDGED INSANE**

Idaho Probate Judge Receives Fatal Wound While Seated in His Office.

SPOKANE, July 6.—Probate Judge J. C. Brady of Kootenai County, Idaho, was fatally shot by a crazy man named Henry Wilmbury at Rathdrum, Idaho, last night. The ball entering Garvin's abdomen, he was taken to the hospital, but he died before the morning.

Wilmbury was adjudged insane four years ago by Judge Brady. This preyed on his mind. He escaped several times and was recommitted, but the last time was allowed to remain at large.

**Receives Fatal Wound.**

STOCKTON, July 6.—John Garvin, aged 39 years, was accidentally shot in the stomach last evening at the ranch of Wash Trahern, the horseman, and was probably die. Mr. Trahern was handling a small rifle belonging to a boy who was visiting the place, when it was discharged, the ball entering Garvin's abdomen. A surgeon was summoned from Stockton as soon as possible, and pronounced the wound fatal.

**CONSTITUTION BEATS COLUMBIAS RIGGS**

Cup Defender Shows Remarkable Speed in a Trial.

Columbia Proves Speedy and Independence Is Badly Beaten.

NEWPORT, R. I., July 6.—An unqualified victory for the Constitution—an overwhelming defeat for the Independence; a most commendable showing for the old champion, the Columbia—is the record of the first day's contest of the big sloops in the Newport Racing Association's series.

From the firing of the starting gun, which sent the yachts off to windward in a light easterly breeze, the Constitution held her rivals. At the turning buoy she was a little more than two minutes in the lead, the Columbia, while the Independence was hull down to leeward. But it was on the run home that the new Herreshoff yacht showed her greatest strength, beating the Columbia over eight minutes in the fifteen miles down the wind, and when the new champion of the America's cup swept across the line the Boston yacht was over seven miles astern.

Owing to the lightness of the wind there was no brilliant or dramatic scene to chronicle. The Constitution, which had that attends a scupper breeze, but it was full of interest in not exciting events, nevertheless.

**Failure of Independence.**

The chief incident of the contest was, of course, the failure of the Independence to meet the expectations of her adherents. That she was a failure in the weather conditions that prevailed to-day cannot be gainsaid. At no time during the contest to windward did she show any weatherly qualities whatever. She did not hold her own as her opponent, but she even for a brief interval demonstrate that she possessed a fraction of the speed which she seemed to have when she was sailing by herself. That she may be vastly improved is possible, but that she profoundly disappointed her friends to-day is a fact which cannot be denied. Her excellence was chiefly supposed to rest. When she got fairly out into the open sea she pounded heavily in the southwest swell, and the more she pounded the more she seemed to lose headway.

So far as the Constitution is concerned, it was no more than what was expected of her by those who have watched her keenly since her launch. Handled splendidly with rare judgment, but not in the least better than the Columbia, her superior size and bigger sail plan told. That she secured the victory was due to her excellent handling, and the fact that Herreshoff had reached his limit when he designed the Columbia are not justified by to-day's race. Whether the Columbia will beat the Constitution in a heavy weather remains to be proved.

The Columbia was sailed in a most serious manner from start to finish. All the arts of the professional sea jockey were practiced by Barr, the sailing master, and E. D. Mann, manager, and they overcame their vastly able opponent. That they should have kept the inferior boat so close to her superior antagonist is a credit to the crew, and a wonderful piece of work. That the Constitution is by far the better all-round boat, either in light or heavy weather, is not to be doubted after her showing to-day.

**Record of the Contest.**

The following table shows the record of the race in figures:

YACHT.	Start.	Finish.	Elapsed Cor.
Constitution	12:10:02	5:48:38	5:38:36
Columbia	12:10:17	6:29:29	6:19:12
Independence	12:10:00	6:29:29	6:19:29

"Did not finish within time limit."

Thus on corrected time the Constitution beat the Columbia by 9 minutes 49 seconds and the Independence by 11 minutes 11 seconds. The Constitution won by 11 minutes 7 seconds on elapsed time. The Constitution allowed the Independence to score and the Columbia 77 seconds. Time at the outer mark: Constitution, 3:43:35; Columbia, 3:45:58.

The manager of the Constitution, came ashore at the yacht club in his launch just after 8 o'clock this evening. When asked if he had anything to say about the victory of his boat, he simply stated that all on board were thoroughly satisfied with her performance. The contest is all ready for the second race on Monday. She will probably remain at her moorings to-morrow and her crew will be given a rest.

The Independent came back in the harbor about 8 o'clock, nearly an hour after the other two yachts had caught their moorings. Crowninshield left the yacht at that time, being ashore at a launch. Soon after the Independence was moored a sawn went aboard from the Independent and had chat with Captain Haff. No one on the Boston boat would talk for publication. Chapman, private secretary of the Independent, said that aboard had any comment to make. He added that the Independence would be ready for another race on Monday. No one on the Independent would say anything over the poor showing of the yacht, all treating the matter as the result of hard luck.

**Losses by Wilbur's Fire.**

SPOKANE, July 6.—The fire which broke out in Wilbur, Wash., last night raged for six hours, destroying the principal business district of the town. The losses are: M. E. Hay and E. T. H. General store, loss \$125,000; insurance \$75,000; C. M. Carpenter, Wilbur Hotel, loss \$700, insurance \$300; Finnegan & Peters, the Hermitage, loss \$33,500, insurance \$100,000; E. J. H. Hardware, loss \$2,000. Two men were injured, but not seriously.

**Kruger Will Not Visit Us.**

THE HAGUE, July 6.—President Kruger has definitely abandoned his American visit on account of traveling fatigues, as well as the clearly expressed attitude of the United States Government.

**ADVERTISEMENTS SENT FREE TO MEN!**

**A Most Remarkable Remedy That Quickly Restores Lost Vigor to Men.**

**A Free Trial Package Sent by Mail to All Who Write.**

Free trial packages of a most remarkable remedy are being mailed to all who will write the State Medical Institute. They cured so many men who had battled for years against the mental and physical loss which follows from the loss of the Institute has decided to distribute free trial packages to all who write. It is a home remedy, and men who suffer from any form of sexual weakness resulting from youthful folly, premature loss of strength and memory, weak back, varicose veins, enlargement of penis can now cure themselves at home.

The remedy has a peculiarly grateful effect on the system, and seems to act directly on the desired location, giving strength and development just where it is needed. It cures all the ills and troubles that come from years of misuse of the nature, and has been an absolute success in all cases. A request to the State Medical Institute, 231 E. Jackson building, Fort Wayne, Ind., stating that you desire one of their free trial packages, will be completed promptly. The Institute is desirous of reaching that great class of men who are unable to leave home to be treated, and who are unable to see a doctor to see how easy it is to be cured of sexual weakness when the proper remedies are employed. The Institute makes no restrictions. Any man who writes will be sent a free sample, carefully sealed in a plain package, so that its recipient need have no fear of embarrassment or publicity. Readers are requested to write without delay.

**INHERITS THE WEALTH OF LATE ALFRED FULLER**

Judge Davis Recognizes William Fuller as the Son of the Chic Capitalist.

MARYSVILLE, July 6.—Judge Davis, sitting in the Superior Court of this county, handed down an opinion this afternoon for the contestant in the estate of Alfred Fuller, deceased, transferred from Butte county for trial. Suit was brought by William Fuller, the son of Alfred Fuller, and an Indian woman named Jenita, with whom Fuller lived from 1870 to 1875 at the toll gate near Sonora, in Tuolumne county. Fuller later lived in Chico, where he died two years ago, leaving an estate of \$20,000.

Much criminal and civil litigation followed Fuller's death. Dr. Rodley of Chico is now serving a term of ten years in San Quentin for having forged a will which he produced as the last will of the dead man, naming Mrs. Minnie Houseworth of Chico as the principal legatee, and himself and John Garner of Chico signing the alleged will as witnesses. Garner confessed and Rodley's arrest and conviction followed. Mrs. Houseworth and Garner are now in jail in Oroville awaiting trial at the fall term of court.

The important findings of the court are that the claimant is the son of Alfred Fuller and that he had been held up to the world and received into the family of the deceased as such. The defendant will appeal to the Supreme Court.

**Suicide's Identity Unknown.**

SACRAMENTO, July 6.—An autopsy over the body of the unknown man found in an alley in the lower part of this city revealed the fact that death resulted from arsenical poisoning. The case was probably one of suicide. On the flyleaf of a prayer book in the pocket of the dead man was written the name "Richard Harris."

**MISS AGNES MULHALL A PRATRE BELLE**

Miss Agnes Mulhall Will Have Fugilist for Spouse.

Young Woman Is a Famous Rider of Oklahoma Territory.

Special Dispatch to The Call.

WICHITA, Kans., July 6.—Kid McCoy, the noted prizefighter, is engaged to marry Miss Agnes Mulhall, the famous bareback rider of Mulhall, O. T. McCoy is spending his summer vacation at Mulhall and in the meantime is becoming familiar with the cattle-raising business. His future father-in-law is Seck Mulhall, livestock agent for several Western railroads and a stock raiser of prominence.

The woman whom McCoy is to marry is also a fine ranch manager and she has in her own right several thousand head of cattle. As soon as they are married in the fall McCoy will quit prizefighting and stage work and go to once to ranching in Oklahoma. The young woman who is to be his bride is a relation of cow-punchers in Oklahoma. She is a personal friend of Vice President Roosevelt, having been acquainted with him by winning the first prize in the Oklahoma rough riders' reunion for fast roping of steers. Recently she killed a wolf in Colorado and sent the hide to Teddy Roosevelt. Roosevelt sent his congratulations to the couple on their approaching marriage. The girl is worth \$25,000 in her own right.

**COUNTY OF KERN VIELDS TO STATE**

Approved Textbooks Are Reinstated Grade by Grade.

BAKERSFIELD, July 6.—The investigation of the Kern County course of study has resulted in Superintendent of Public Instruction T. J. Kirk ordering grade by grade the reinstatement of the textbooks provided by the State and insisting that the long list of other books in the manual as adopted by the Kern County Board of Education be properly designated as supplemental to the lawful series. The board was instructed to have the manual placarded with slips in accordance with the changes required by Superintendent Kirk and a certified copy sent him to Sacramento.

Superintendent Doubt insisted that there was no intention on the part of the board to violate the law, and agreed to conform to the request of Mr. Kirk. The investigation was proceeding without feeling on either side when Attorney S. C. Smith, who represented Mr. Doubt, arose and said that he considered the investigation on the part of Mr. Kirk an insult to the Kern County Board of Education. He declared that Mr. Kirk "rubbed it in" by ordering each series labeled as supplementary books.

Crovo Johnson, who represented the Alliance Printing and Publishing Company, replied with a sarcastic and bitter denunciation of Attorney Smith's course.

"The waste of money on the part of Mr. Kirk to be harsh in his dealings with the board, he merely requested that, if the board would not comply with any violation of the law, the manual be so revised that the general public, as well as the teachers and pupils, would be able to understand the situation," said Attorney Johnson.

Attorney Johnson said after the meeting that the parties he represented would not be satisfied with the mere statement that the board had agreed to conform to the law, but that the law would not be violated. He was of the opinion that there was an effort to overrule the board, and that the law was evaded by the fact that the schools of this county had not for the past year taken the State series into consideration.

**STRIKE INTERFERES WITH GRAIN SHIPMENTS**

Few Men Available to Handle the Consignments Arriving at Stockton.

STOCKTON, July 6.—The Warehouse Workers' branch of the Stevedores' Union met to-night at Union Hall. The strike situation was discussed and the men decided to stand by the union. President Harrison of the Farmers' Union and Milling Company held a conference to-day with several old employees of the company who had walked out with the other strikers, but no agreement was reached. Grain continues to come in, with but few men to handle it. Unloaded barges are still lying in the channel, more grain is arriving in cars, and more is expected, by both rail and water.

There is nothing new in the plumbers' walkout. They are determined not to submit to the demand of the boss plumbers that they purchase certain tools, and the boss plumbers are determined to do the work, assisting the boss plumbers.

It is rumored that the laundry employees, who have a union, intend to strike for higher wages and better terms.

There is a vast coal supply in Australia, which is almost unworked as yet.

**ATTEMPTS ASSASSINATION WITH A BUTCHER-KNIFE**

Frank W. Hardie Tries to Take the Life of Ex-Superior Kestor in Cayucos.

CAYUCOS, July 6.—Assault with intent to commit murder was the charge formally lodged to-day against Frank W. Hardie, who yesterday attacked ex-Superior John B. Kestor with a butcher-knife on the street. Hardie quietly stole through a gate and attempted to stab Kestor through the chest while Kestor was in his wagon. Bystanders interfered and disarmed Hardie, who then disappeared. Under Sheriff McFadden searched for him here nearly all day without avail.

Hardie is an ex-convict and a son of Postmaster A. M. Hardie. He is 36 years old and unmarried. Kestor is past 70 years of age and has a wife and a family of grown children. The attempted murder was the result of a feud of long standing.

**Dragged Under His Wagon.**

SANTA ROSA, July 6.—W. R. Hatcher, who resides near Windsor, met a painful and perhaps fatal accident this morning while hauling hay. His team ran away and the wagon, heavily laden, was precipitated upon him. He was badly bruised and disfigured.
