

ORGAN RECITAL BY DR. STEWART Public Grasps Opportunity to Hear Stanford Instrument.

Played by a Master the Effect Is Pleasing to Audience.

The opportunity to hear the beautiful Stanford memorial organ played by Dr. H. J. Stewart at the first of his two farewell recitals that was given yesterday afternoon at the Mechanics' Pavilion was eagerly and extensively taken advantage of by the public.

Since the removal of the Epworth League millinery, banners and the like, the organ is heard to much better advantage, and Dr. Stewart's programme was well calculated to display its beauties and its attainments.

The programme was given over to the fine sonata in D minor of Gullmunt, which was excellently given, the "Pastorale" in particular being notably charming in effect.

Dr. Stewart expressed himself as highly pleased with the organ and will give on its last recital in San Francisco for some time to come to-morrow evening at 8:15, when there will doubtless be a larger audience to take leave of one who has served music so faithfully for so long in our city.

WANT TO KNOW WHY ENGAGEMENT WAS SO SUDDENLY BROKEN OFF Miss Dorothy Heyneman Does Not Seem to Be Grieving Because Her Parents Decided She Shall Not Marry Harry Stephens of Cincinnati

Investigation at Monterey Station Wire Trust Forms Estimate Anticipating Action by Congress.

MISS DOROTHY HEYNEMAN.

San Francisco Belle and Ohio Man Whose Engagement is Broken Off.

lady is a reigning belle. All sorts of reasons are advanced as the cause of the annulment of the betrothal, but all explanations given have their weak side.

Some gossips maintain that religion was the cause that parted the loving twain, but those who declare that is not the reason of the broken engagement offer as evidence the gracious fashion in which Mr. and Mrs. Heyneman welcomed the young man and their very evident pleasure at the prospective wedding.

Miss Heyneman's extreme youth is another reason advanced as the cause of the broken engagement, but as there was no reason for hurrying the wedding day that argument is very easily put aside.

Whoever the cause is, the Heyneman will not speak of it, and from Cincinnati no explanation is offered. If the betrothal was annulled solely at the instigation of the bride's parents, then all that remains to be said is that Miss Dorothy is a very obedient daughter and that gracefulness yielding wishes has not apparently robbed her of her happiness.

Cooper's Second Trial. The case of "Sir" Harry Westwood Cooper, alias Ernest Moore Chadwick, charged with forgery for sending a forged telegram to Miss Norine Schneider, was called in Judge Cook's court yesterday to be set for a second trial.

Four surveys have been made from California to Hawaii. The Engineering Magazine sums them up by saying that the depth found on all of the 100 fathoms up to 3100 fathoms. A few miles southwest of Guam the sounding is 1075 fathoms, but this is not a record.

Campfire Scintillations. CAMP REVERIE, Forestville, July 25. "Camp Reverie," said Lieutenant Commander C. G. Calkins, "combines all the attractions of a Bedouin encampment and a wardrobe mess, with the addition of shade, fresh water and good society."

It is a good place to grow young in. I feel younger every day," said Mrs. Houghton of Berkeley.

"In my experience," said Mrs. H. G. Crafts, the talented organist of Oakland, "Camp Reverie is unique in that its advertising booklet, so far from exaggerating its attractions, does not state half of them. It has far exceeded my expectations. I am more than pleased."

Rev. C. A. Ramm will deliver the discourse at the 11 o'clock mass in St. Mary's Cathedral to-day. Rev. E. P. Dempsey will preach in the evening.

Rev. Father Hickey, S. J., will deliver the sermon at the 10:30 o'clock mass in St. Ignatius Church to-day. Rev. Father Mahoney, S. J., will preach in the evening.

Rev. A. E. Ulrich of the Richmond M. E. Church will preach this morning on "How God Rewards Faith" and in the evening on "The Pilgrimage of Life."

Rev. Frank K. Baker of the First M. E. Church will preach this morning on "The Power and Grace," and in the evening on "Tombs for the Dead and Not the Living."

Rev. Milton D. Buck of Trinity M. E. Church will preach this morning on "Faith or Force."

Rev. George C. Adams of the First Presbyterian Church will preach this morning on "The Power and the Helplessness of Man" and in the evening on "Jerusalem."

Rev. F. S. Ford of the First Christian Church will preach this morning on "Love" and in the evening Mrs. Louise Kelly, programme editor of the Missionary Herald of Emporia, Kans., will deliver a lecture.

Rev. John Hemphill of Calvary and St. John's Presbyterian Church will address the mass-meeting for men this afternoon on "The Power and the Helplessness of Man" and in the evening on "Caliph."

Rev. E. H. Avery of Westminster Presbyterian Church will preach this morning on "What Does the World Read in Christians?" and in the evening on "Am I My Brother's Keeper?"

Rev. W. K. Guthrie will preach the morning sermon at the First Presbyterian Church this morning. In the evening Rev. Robert Mackenzie, D.D., will occupy the pulpit.

Rev. C. H. Stevens, pastor of the Green-street, Congregational Church, will address the mass-meeting for men this afternoon at 3 o'clock at the Young Men's Christian Association Hall, Mason and Ellis streets. His subject will be "A Great Man." Fred D. Jewett will sing.

Rev. Henry S. Killen will occupy the

WANT TO KNOW WHY ENGAGEMENT WAS SO SUDDENLY BROKEN OFF

Investigation at Monterey Station Wire Trust Forms Estimate Anticipating Action by Congress.

Two matters of information have reached this city concerning the long discussed trans-Pacific cable between San Francisco and the Far East. The first comes from Monterey, Eastern men having been examining in the subject the feasibility of having a cable station placed there. The other is received through trade connections, and is to the effect that the people back of the wire trust have so much hope that the next Congress will take action on the matter that they have already prepared estimates of the cost of a cable, to be made in San Francisco. They have even drawn working plans. They say that it would take a steamer with a carrying capacity of 10,000 tons to carry the cable, and that a large plant would have to be constructed or employed at San Francisco to run it.

The Eastern men who have been at Monterey acknowledged to an inquirer that they were looking into the subject of a station for a cable landing, but beyond that they gave no information. They have since gone to Monterey and have been definitely located to the time of this writing.

Four Routes for Line. Supposedly the Eastern men are making inquiries in the interest of the "all American" route. Four routes have been proposed for a cable route. The one that has been most favored by Americans is from San Francisco to the Philippines via Hawaii.

Another route is via New Zealand, with a branch line from Norfolk Island to Queensland. Americans have maintained the view that the line via San Francisco is the best, because it follows established trade lines and connects countries having large populations and great existing trade.

Another route is via New Zealand, with a branch line from Norfolk Island to Queensland. Americans have maintained the view that the line via San Francisco is the best, because it follows established trade lines and connects countries having large populations and great existing trade.

RAIN REVERIES IMPERILED CORNS OF FARMERS IN THE MIDDLE WEST HAVE HOPE OF CROPS.

KANSAS CITY, July 27.—General rains, which have fallen over the greater part of Western Missouri and Kansas in the past twenty-four hours, have given this portion of the Southwestern temporary relief from the severe drought. Yesterday was the maximum temperature of the two States had ranged from 100 degrees up.

Reports received at the railroad headquarters indicate that the rains fell in the western half of Missouri and in nearly all parts of Kansas with the exception of a few northwestern counties. The fall was heaviest between Kansas City and Maple Hill, Kans., four counties west of here. In some places in the eastern half of Kansas the fall measured two and a half inches. Good rains also reported from the twenty-fifth successive day in which the maximum temperature of the two States had ranged from 100 degrees up.

It is believed the rain will be of little benefit to corn. However, with the most favorable conditions from now on until the end of the season late corn, it is thought, will make a third of a crop. The rains will be of great benefit to pasture and forage crops and fruit, and the belief is expressed that Kansas may yet have enough hay to feed stock during the coming winter.

Frederick Wellhouse, one of the largest apple growers in Kansas, is authoritatively stated that his apples, which are reported to make almost a full crop. Peaches, grapes and late varieties of fruit will make an average crop, it is believed. If conditions continue favorable. Oats and potatoes in Kansas at least were beyond help two weeks before the rains came.

A dispatch from Scandia says that rain has fallen throughout the northern part of the State this afternoon and is continuing generally this evening. With the best of prospects for a heavy downpour later in the night.

OLD HACKMAN ENDS LIFE WITH POISON James Kernan, Employed by United Carriage Company Twenty-Seven Years, Becomes Despondent.

James Kernan, a hackman, 53 years old, who has been in the employ of the United Carriage Company for the past twenty-seven years, committed suicide by drinking carbolic acid at his home, 22B Moss street, last evening.

Deceased had been suffering from stomach trouble for the past two weeks and had been unable to do any work. He became despondent. His body was found in the parlor last evening by his daughter and the empty poison bottle lay beside it.

HEITMANN MAY REMAIN. Customs Collector Stratton has recommended W. D. Heitmann as laborer in the Chinese Bureau, to take the place vacated by the promotion of John R. Dunn to be Chinese inspector. Mr. Heitmann's position as laborer was declared vacant two days ago.

St. James' Congregation to Celebrate Birth of Patron Saint. Explains to the Police.

Declares That His Story to a Woman Was a Fabrication.

NEW YORK, July 27.—William Lewis Gray, for whom the police have been looking in connection with the Fosburg case at Pittsfield, Mass., voluntarily surrendered himself to Captain of Detectives Tittus at police headquarters to-day.

Gray was implicated by a woman named Olive Handside or Olive Gray, with whom he had lived. She alleged that Gray committed the burglary and murder. Gray denied any connection with the case and said he told the woman the story in order to frighten her and to make her leave him.

Gray started the other way toward Boston to avoid the searchers who were scouring the country about Pittsfield. He told her he had "done a job," and had his some property under a rock. The story he now avers was untrue.

PARIS THEFT OF ARMY FUNDS Soldiers are Suspected of Robbing Safe of a Paymaster.

MANILA, July 27.—The robbery of the paymaster's safe at Santa Cruz yesterday is supposed to have been the work of soldiers. It appears that Major Canby, who was paying the troops in the Laguna district, left the safe in the guardhouse, and that while it was there the thieves succeeded in abstracting \$700. The chief of Manila detectives to Santa Cruz to investigate the affair. Chief Paymaster Tower proved that the money was in the Tower formed of it by a representative of the Associated Press.

Major Canby has telegraphed to Manila from Santa Cruz that only one paymaster's box, containing \$700, is missing. The trial of Lieutenant Brown Brown of Second Infantry, charged with murdering a native near Binangonan, is finished. In the course of the proceedings it was proved that the native was killed by trying to escape and the acquittal of Lieutenant Brown is expected.

LEAVENWORTH, Kans., July 27.—Twenty military prisoners, all of whom have been received in the Philippines, will be received to-morrow morning, sent to the military prison at Manila. Among the number are six who were sentenced to death by court-martial, but whose sentences were commuted by the President.

TEACHERS PERMITTED TO DRAW THEIR MONEY Judge Murasky Dissolves the Injunction Issued at Instance of School Department Creditors.

Judge Murasky has dissolved the injunction prohibiting the payment to teachers of moneys due them for services rendered during the months of November and December, 1897. The teachers will now be paid their money, but as the court previously held that the merchant creditors of the School Department were entitled to \$7000 of the teachers' funds under an agreement reached in January of 1898, the case at bar, in which a list of the teachers are joined as defendants, will be carried over to final decision and probable judgment in favor of the teachers for such portions of the \$7000 in question as each was paid under the terms of the agreement.

FRANK H. POWERS, representing the merchants, raised the point Friday that although the injunction restraining the Auditor from auditing the demands of the teachers against the fund had been dissolved, still the injunction was in full force and effect as against the teachers. Attorney Olney, representing the teachers, said that the contention that the injunction was still in force and effect against the teachers was not sound. However, the agreement between the merchant creditors and teachers did not operate as a question by the teachers in favor of the merchant creditors. Olney also contended that the only remedy in the hands of the merchant creditors was to permit the teachers to cash their warrants and then force them individually to pay such portion of the sum of \$7000 as they were given when the \$7000 was prorated among the teachers.

Judge Murasky held that Olney's contentions were favored by authority, and gave his decision accordingly. Later in the afternoon Mr. Powers stated that he believed the majority of the teachers would pay such portions of the \$7000 as had come into their hands.
