

FRED W. KETTELMAN AND MISS LOU SMITH TO WED

Marriage of the Stockton Business Man and the Daughter of Mrs. Julia V. Smith Will Take Place in California Hotel Parlor in San Francisco on Coming Wednesday

Miss Lou Fern Smith

Stockton, Dec. 14.—An interesting romance will terminate in the marriage on next Wednesday evening of Miss Lou Fern Smith of Washington, D. C., and Fred W. Kettelman of Stockton. The ceremony is to be performed in the parlors of the California Hotel in San Francisco and will be followed by a wedding dinner. Miss Robinson, a student at Mills Seminary and a cousin of Miss Smith, will be the bridegroom's witness. The young banker of Oakland and an intimate friend of the groom-to-be, will act as best man. The wedding guests will be limited to a few relatives and friends.

Miss Smith is the only daughter of Mrs. Julia V. Smith. Since the death of Dr. Smith, eight years ago, mother and daughter have traveled extensively. Aside from the finish which a liberal education can impart, the young lady is possessed of a natural grace and charm that make her the popular idol of companions and friends.

Mr. Kettelman is the youngest son of David Kettelman, a pioneer land owner of San Joaquin County. He holds a position in the office of the Sperry Flour Company.

After the wedding trip the young couple will take up their residence in the cozy home which has been prepared for them in this city.

TRAIN-WRECKER CONFESSES GUILT

Negro Admits That He Derailed Oregon Overland.

The Dalles, Or., Dec. 14.—Addison Kidd, a negro, to-day made a confession before District Attorney Menefee that he placed the obstruction on the Oregon Railroad and Navigation track on December 6, near this city, which resulted in the wrecking of the Portland-Chicago special and the killing of Engineer Kavanaugh.

The confession was obtained by Detective Kelly of the Oregon Railway and Navigation Company after a searching examination, during which Kidd's cold nerve broke down.

On the afternoon of the wreck Kidd, in company with another tramp, was picked up near the scene of the accident and brought to the Dalles as a witness. On examination he testified that he had heard five tramps, ejected from a freight train near Celilo, swear vengeance against the railroad company. He was immediately taken on a special train to Grants Pass, where he identified the five tramps, two of whom were arrested and brought to The Dalles, and who have since been held to appear before the grand jury.

GRAPES-NUTS. GAS AND TROUBLE. Comes From White Bread.

While it is true that we build up the body from food, it is also true that different kinds of food have different effects on the body and produce different results.

For instance, it is absolutely impossible to live on white bread alone, for it contains almost nothing but starch, and an excess of white bread produces gas and trouble in the intestines, while, at the same time, the other elements required by the body for building up brain and nerve centers, as well as muscular tissue, have been left out of the white bread, and we see from experience the one trying to live on white bread alone gradually falls in mental and nervous power as well as loss in muscle.

Such a diet could not be kept up long without fatal results. A lady in Jacksonville, Fla., was crippled by an accident two years ago. Being without the power of exercise, an old stomach trouble that was hers for years became worse, and it was a serious question regarding food that she could digest.

A physician put her on Grape-Nuts Breakfast Food with some remarkable results. She says now that, not only is she able to do a big day's work, because of the strength of her brain and nerves, but that she has finally thrown away her crutches because the muscles of her limbs have gradually grown stronger since she began the use of Grape-Nuts, and now she is practically well and can go about without trouble, notwithstanding the fact that it was said she would never be able to walk again. So much for eating the right kind of food instead of remaining an invalid and a cripple because of the lack of knowledge of the kind of food to use to bring one back to health. HIGHBINDER ADDS TO DEATH'S LIST

Slays Inoffensive Barber in His Waverly-Place Shop.

Quang Sue, a Chinese barber, was shot and fatally wounded last evening by a Pin Kong Tong highbinder, the victim dying a short time after receiving his wounds. Four shots were fired at him while he was standing in his place of business at 43 Waverly place. All of the shots took effect. Immediately after firing the fatal shots the murderer ran into the headquarters of the Pin Kong Tong, which is a few doors from the scene of the shooting, and made his escape. Sue was at once removed to the Receiving Hospital, where he died a short time after being placed on the operating table.

The dead Chinaman was a member of the Four Families. With another Chinaman, also one of the Four Families, he conducted the barber shop where he was shot. Shortly after 5 o'clock last evening his partner left the shop to see a friend. Sue had just shaved a patron when the murderer entered the shop and opened fire. Two of the bullets, which were fired from a .45 Colt revolver, struck Quang in the breast and the others in the left side.

OFFERS ANOTHER SITE FOR NEW PESTHOUSE

Board of Public Works Will Estimate the Cost of Building a Road.

The special committee for examining and reporting on suitable sites for a pesthouse appeared before the Supervisors' Health Committee yesterday. The committee recommended a site lying in a depression of the range of hills south of the Bay View farm and situated at an elevation of about 100 feet, facing the bay between Thirty-seventh and Thirty-eighth avenues, south.

The site contains ten acres and will be offered for the sum of \$10,000, together with free right of way for a necessary road and free use of the land.

SIGHTS A LARGE STEAM COLLIER

Vessel Passed by the Sequoia May Be the Matteawan. Is Seen Traveling Southward Fifteen Miles Off Cape Blanco.

ABERDEEN, Wash., Dec. 14.—The steamer Sequoia, Captain George Winkel, arrived at this port to-day from San Francisco and reports having sighted on Thursday, December 12, a large steam collier about fifteen miles off Cape Blanco, heavily laden and bound southward. She was too far off to be recognized, but was similar in size and appearance to the Matteawan and Captain Winkel believes it might have been that vessel.

Vaquero Maimed by His Horse. BAKERSFIELD, Dec. 14.—Fernando Fernandez, a vaquero employed at the San Emidio ranch, sustained a fracture of both legs by being dashed from a fifteen-foot embankment by a wild horse he was riding. The accident occurred at 10 o'clock Thursday morning, but it was not until late at night that he was found by a searching party. The injured man was brought to this city for medical treatment last night.

CARNEGIE COIN MAY GO BEGGING

President Roosevelt Will Decline a Bond Donation. Legislators Object to Certain Conditions of the Gift.

WASHINGTON, Dec. 14.—It is said to be definitely decided that President Roosevelt will not accept the offer of Andrew Carnegie of \$10,000,000 bonds of the United States Steel Corporation for the purpose of founding an institution for higher education in this city. The views of prominent Senators and Representatives, as they have been given to the President, are practically unanimous against the acceptance of the offer in its present shape. The provision attached to the offer that the Government shall hold the bonds for a term of years is considered especially objectionable. The President, however, is very hopeful that an adjustment can be made by which Carnegie will convert the bonds which he tendered into cash or United States bonds, and that the gift can then be accepted in that shape.

NEW YORK, Dec. 14.—Andrew Carnegie, on being asked about the \$10,000,000 gift which he has offered to the Government for a national university, said: "That Washington matter will come out all right. If I had to sell these bonds myself I would have no trouble in getting the money for them. There will be no trouble about the Washington matter, mark my words."

A SPLENDID LETTER Reprinted Here for the Benefit of All Sufferers.

An Interview With the Writer Proves the Wonderful Merit of Halpruner's Medicines for All Ills and Aches That Come From an Inflamed Condition of the Membranes, etc.

On the morning of November 16, 1901, among the heavy mail which comes to the Halpruner Medical Mfg. Co., 28 Cal. st., was the following letter:

Gentlemen: I desire to add my testimony to the value of your wonderful remedy. I suffered with a most severe sore throat. So bad that I feared diphtheria, and was cured in one night by "Halpruner's." I shall hereafter keep the same in the house and take pleasure in recommending it to all my friends. Yours respectfully, GEO. F. SMITH, Pres. Sanitary Carpet Cleaning and Dyeing Co., 342 and 344 McAllister St., S. F., Cal.

While it is not at all unusual to receive many letters daily highly praising this wonderful medicine, this letter, coming from a prominent citizen of this city, gave evidence of an interesting story back of it, so a visit was paid the Sanitary Cleaning Company at 342 McAllister st., and the following interview with the President, Mr. Smith, took place:

"Mr. Smith, did you write this letter?" said the interviewer, showing the original copy of the above letter.

"Yes, sir, I wrote it." "What led you to write a letter praising Halpruner's Wonderful Medicine—were you asked to do it?"

"Certainly not. I do not know Dr. Halpruner. I wrote that letter because I felt that the medicine deserved all the praise that I could possibly give. It almost saved my life—it cured the worst case of sore throat that I ever had, and it cured so quickly and in such a perfect manner that I can't say enough for this Halpruner Medicine.

"I want other sufferers to know how good it is, and I hope you will publish my testimony, so every sufferer from sore throat can read it and help himself, as I did."

"How did you come to use this medicine?" "I was out one afternoon on business and got caught in the rain. When I got home I had a slight touch of sore throat, but paid no attention to it. After dinner it became worse, and by 9 o'clock I could hardly swallow.

"My wife was reading the paper during the morning and noticed Halpruner's advertisement for sore throat, and I continued to get worse and she sent out to the druggist's for a bottle. As soon as she got the medicine she made up a gargle and I took it—I also rubbed some of the medicine on the outside of my throat and when I went to bed wrapped a piece of flannel about my neck and saturated it with Halpruner's; about this I wrapped a towel. I went right off to sleep and when I awoke my throat was perfectly well."

"And you attribute this cure to the use of Halpruner's?" "Oh, I am sure of it. I have had sore throats before and used all sorts of remedies, but never got over it in less than two or three days. I am sure Halpruner's fixed me."

"Do you take it for anything else besides sore throat?" "Well, I generally enjoy pretty fair health and don't need much medicine, but I gave some of it to one of my men for his cold and it cured him right up within a few hours. Halpruner's is all right, and I am glad to tell what I positively know to be true about it."

TRIAL TREATMENT FREE. To prove the remarkable merit of his wonderful medicine Dr. Halpruner gives trial treatments free every afternoon between 1 and 4 o'clock, except Saturdays and Sundays, at his office, third floor, 28 California st. Telephone consultation also free. Bush 463.

INDIGESTION AND DYSPEPSIA

HOSTETTER'S STOMACH BITTERS.

Are caused by the stomach being too weak to digest the food taken into it, and if not promptly attended to may become chronic and result fatally. This need not be, however, as there is a remedy, discovered over 50 years ago, that will strengthen your stomach and cure these diseases. We refer to

This wonderful medicine is prescribed and recommended by many physicians and druggists throughout the country and a fair trial will certainly convince you that it is the best in the world.

DR. S. W. KELLENS, BIRDSEYE, IND., says: "I could not consistently practice medicine without Hostetter's Stomach Bitters."
MR. M. GOLDSMITH, CAMDEN, N. J., says: "I never hesitate in recommending Hostetter's Stomach Bitters as an appetizer, a tonic and a preventive of many Complaints."

SELECT ARBITERS FOR LOBOS CREEK QUESTION

Supervisors' Health Committee Agrees to Selection of Two Experts by Engineer Schussler

Chief Engineer Schussler of the Spring Valley Water Company sent a communication yesterday to the Supervisors' Health Committee suggesting the names of Dr. Moffet of this city and Professor Stillmann of Stanford University as experts to examine the condition of the waters of Lobos Creek. Schussler said the pumps would be stopped until February 1 and thought the examination should cover a period of thirty days.

Chairman D'Ancona said that the examination should cover a longer period through both wet and dry seasons. The experts recommended by Schussler are satisfactory to the committee, but the matter will be in abeyance until February 1, 1902.
